DEC 24 1926

Issued with Army Orders dated 1st September, 1902.

EQUIPMENT REGULATIONS.

PARTS I. AND II.

AMENDMENTS.

WAR DEPARTMENT
Adjutant General's Office

NOV - 6 1902

MILITARY INFORMATION
DIVISION

The following amendments will be made in the Regulations, Part I. :—

Consequent on the decision that rifle calibre machine guns forming part of the armament of fortresses, and other fixed defences, are to be manned entirely by infantry, paragraph 176 will be amended to read as follows :—

v
Gen. No.
4343

176. The annual proportions of ammunition for practice and exercises will be as follows :—

	Cartridges, Machine Gun.	
	Ball for practice.	Blank.
For each unit of Cavalry, Mounted Infantry, and Infantry having machine guns actually in possession, not forming part of the armament of a station ..	Cavalry and Mounted Infantry 1,100 Infantry 1,700	1,000
For stations.—For each gun actually in possession, forming part of the armament	366*§	50*
Ditto ditto (in the hands of Infantry, at stations abroad)	‡	‡

* The rounds drawn for the station are to be expended under the orders of the General Officer Commanding in training the troops at the station.

‡ On infantry field carriage only, ‡ allowed for infantry units.

§ One complete box per three guns to be taken from the ammunition of oldest date in charge as equipment of the guns.

Issued with Army Orders dated 1st November, 1902.

104/Gen. No./2822.

EQUIPMENT REGULATIONS.

PARTS I AND II.

AMENDMENTS.

The following amendments will be made in the Equipment Regulations, Part I:—

1. Paragraph 159.—Delete words “in practice and exercise” in 1st line, and “officer and” in 2nd line.

Amend table to read as follows:—

Corps.	Rounds.					
	For each trained soldier.			For each recruit (officer or man).		
	For each trained soldier.	Rank and file only.		For each recruit (officer or man).		
	Ball.	Blank.	Cartridges, aiming tube.	Ball.	Blank.	Cartridges, aiming tube.
Cavalry	200	30	25*	200	20	25*
Artillery, { Garrison, including local companies of Royal Artillery	20	20	25	20	20	...
	10	10	...	20	20	...
Horse, field and mountain	100	40	25*	150	20	25*
	100	30	25*	150	20	25*
Engineers armed with, { rifle	300	40	25*	200	20	25*
Infantry	50†	...	...	...	...	...
	30	...	25	100	20	...
Army Ordnance Corps	30	...	25†	100	20	...
Army Service Corps	...	...	40	20	...	...
Royal Army Medical Corps	20§	40§	...	...	...	...
Mounted Infantry	...	...	...	...	...	...

54
A.O.C.
220

The footnote marked * will be cancelled, and the following substituted:—

* 10 rounds per recruit may be drawn at depôts. Aiming tube cartridges may, at the discretion of commanding officers, be exchanged for ball ammunition of equivalent value.

For footnote † substitute “Should a reservist fail to reach the standard prescribed in Army Orders, a further 50 rounds may be drawn for purposes of repetition.”

Footnote ¶ will be cancelled.

(Wt. w. 39 5000 11 | 02—H & S 504)

2. Insert new paragraph 160A :—

160A. "Ball ammunition may be drawn at the following rates for squadron and company officers of units specified below :

"Cavalry	... 110	} rounds per officer."
"Engineers	... 90	
"Infantry	... 150	

3. Paragraph 161.—In line 3 the words "field inspections" will be substituted for "field firing," and the following will be inserted after line 6 :—

"For use at District Rifle Meetings"—

"3 rounds ball, 303-inch, per officer and man (Regulars and Militia) on the effective strength of districts at home on 1st June each year and at stations abroad on 1st January each year."

4. Paragraph 163.—Delete words "practice and exercise" and substitute the word "use" after "for."

Amend table to read as follows :—

Corps.	For each officer, warrant officer, non-commissioned officer, and man armed with a pistol in time of war.		
	Pistol.		
	Ball.		Blank every year.
	First year.	subsequent years.	
Cavalry	100	50	20
Artillery (Horse, Field and Mountain)	100	100	10
Engineers	100	50	10
Infantry	100	50	10
Army Ordnance Corps	—	—	—
Army Service Corps	100	50	10
Military Mounted Police	100	50	—
Military Foot Police.	—	—	—

5. Paragraph 166 will be cancelled.

6. Paragraph 169.—Delete words "gallery or."

7. Paragraph 171.—Substitute the words "Musketry Regulations" for "Regulations for Musketry Instruction."

EQUIPMENT REGULATIONS, PART II, SECTION IV.

The following will be added to Table I, Part II, Section IV of the Equipment Regulations :—

After

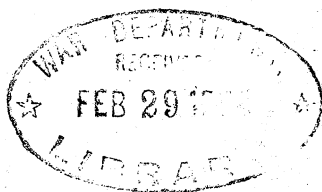

“Scabbards, sword, staff-sergts., &c.,”

54
A.O.C.
220

Insert

“Tubes, aiming, M.M. and M.E. carbines,”	{	.23 inch brushes, cleaning .. rods, cleaning ..	}	1 per Company. 1 per Detachment where con- sidered necessary. 2 per Dépôt Company.
--	---	---	---	---

Carbines, M.T.M.M. or M.E. Artillery.. }

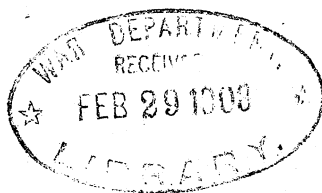

EQUIPMENT REGULATIONS, PART II, SECTION XVI (MILITIA).

1. The following will be substituted for paragraph 105 and footnotes thereto :—
105. The following are the annual proportions of small-arm ammunition allowed—

ROUNDS.							
For each trained Militiaman present at training.				For each Recruit present at training (Officer or Man).			
	Officers.	Ball.		Blank, N.C.O.'s and Men only.	Cartridges, Aiming, Tube (N.C.O.'s and Men only).	Ball.	Cartridges, Aiming, Tube.
			N.C.O.'s and Men.				
54 Militia Arty.	Royal Field Artillery, { Permanent Staff Militiamen ..	10 10 10	10 10 10	10 10 10	— — —	— 20 —	— — —
6	Royal Garrison Artillery, { Permanent Staff Militiamen ..	10 10	10 —	10 —	— —	20 —	— —
	Royal Engineers, { Permanent Staff Militiamen ..	80 80	80 20	20 —	25 50	— 100	— 50
	Infantry, { Permanent Staff Militiamen ..	80 80	80 20	20 —	25 50	— 150	— 50
	Royal Army Medical Corps..	—	—	—	—	40	—

* For each Officer exercised through Table B.

2. Paragraph 106 will be cancelled.

VOLUNTEER REGULATIONS.

AMENDMENTS.

1. The following will be substituted for paragraph 774A :—

774A.—Small-arm ammunition will be allowed in the following proportions, to be reckoned from the 1st November in each year :—

ALL SERVICES.			ROUNDS.			
			Ball.	Blank.	Aiming Tube.	
For every member, whether returned as efficient or non-efficient, on the effective strength of the Corps in the Annual Return dated 1st November,	Artillery		20	10	—	V. Gen. No. 4245
	Engineers, {	Submarine Mining and Electrical	20	10	25	104 Gen. No. 2822
		Other than above ..				
	Rifles		90	60	25	54 Gen. No. 8223

2. Paragraph 777.—As amended by A.O. 143 of 1900, is hereby cancelled.

3. Paragraph 780.—Cancel the words “for every member shown as efficient in the requisitions of commanding officers” in lines 3 and 4. The following will be substituted for the second sentence :—

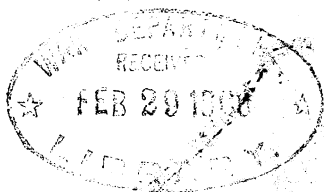

“The amount of ammunition which the corps is entitled to expend during any Volunteer year (1st November to 31st October) will, however, be determined by the effective strength (efficient and non-efficient) of the unit reported in the Annual Return for that year, and quantities drawn in excess must be paid for unless they are returned to store or deducted from the demand for the ensuing year.”

4. Paragraph 782.—The following will be added *after* words “Secretary of State” in last line but one :—

“If, on receipt of requisitions by the Army Ordnance Department, the printed Annual Return of Volunteers for the 1st November preceding has not been received in the command, the figures given by requisitioning officers should be verified by reference to District Officers Commanding*” concerned.

“The verified figures so obtained should govern the issues and should be entered on the vouchers by which the ammunition is written off charge in the accounts of the Army Ordnance Department.”

Add footnote :—*“As defined in the preamble to these Regulations.”

12-inch B.L. 1899. Price 1s. 6d.

EQUIPMENT REGULATIONS.

PART I.

AMENDMENTS.

120
Cape
2595

The following amendments will be made in Equipment Regulations, Part I :—

1.—Paragraph 119, *after* "Kingdom" *add* "In the case of Units, Officers Commanding will demand the ammunition allowed in the usual way from the local Ordnance Officer, and the requisition will be forwarded to the Chief Ordnance Officer at the port of embarkation."

Omit last sentence of the paragraph.

2.—For paragraphs 120 and 121 *substitute* :—

120. The following are the stores and the proportion in which they will be placed on board ships conveying armed and unarmed troops.

Armed Troops (on Imperial Service).

Cartridges, small arm ball, { 200 per rifle or carbine to be regarded
303 cordite as service ammunition.

Unarmed drafts (on Imperial Service or when going to India in freight ships :—

For exercise during voyage	{	Rifles, magazine	10% of strength on board (except
		Belts, waist	invalids and time
		Frogs, sword and bayonet	expired men).
		Pouches, ammunition	

Cartridges, small arm ball, { 60 per rifle. To be used in emergency
303 cordite only.

Handcuffs			pairs	1 per 100 men.
Rifle oil			pts. 18	} per 100 arms (6 months supply).
Flannelette			yds. 31	
Pullthroughs			2	

Drafts only (armed or unarmed).

Bugles 1

The following will be placed on board all transports.

For recreative purposes	{	Clubs, infantry, No. 2	sets	4
		Dumb-bells, short, 10-lbs., Mark I	"	12
		Boxing gloves, Bryans, champion, 14- to 16-ozs.	pairs	4
		Bars, horizontal		1

The Officer Commanding the Troops on board will be responsible for the care and custody of the stores issued under this paragraph, which will be dealt with as laid down in paragraph 123.

Before the ship sails, Commanding Officers will ascertain that the ammunition to accompany the troops has been placed on board and properly secured in the magazine.

(Wt. W. 39 4000 6 | 02—H & S 30)

3.—After paragraph 122*B* insert new paragraph :—

122*c*. Each ship embarking remounts will be supplied, from the Remount Depôt sending the horses, with the following articles :—

Rugs, horse					1 per horse.
Shoeing tools, sets*	...				3 per ship.
Shoes, horse (spare), without nails (sets)					5 per 100 horses.
Nails, horse shoe, sets					20 per 100 horses.
Clippers, horse, pairs*					4 per 100 horses.
Greeners Humane Killer*					1 per ship.
Cartridges for above		...			50 per ship.

4.—For paragraph 123 substitute :—

123. The method of accounting for stores issued under the authority contained in paragraphs 120, 122*b*, and 122*c*, will be as follows :—

(1.) When an acting Quarter-Master-Serjeant is appointed to the ship, the arms, ammunition, and other stores (including books) will, under the superintendence of the Officer Commanding Troops on board, be entered by him in Army Book 165 in the form of an Equipment Ledger (*see* Appendix I). On the termination of the voyage, the ledger will be balanced and forwarded to the War Office. The stores remaining on charge will be handed over to the nearest Army Ordnance Depôt.

(2.) When an acting Quarter-Master-Serjeant is not appointed, the Chief Ordnance Officer at the issuing station or Officer Commanding Remount Depôt, will forward a list of the stores issued, to the Ordnance Officer at the port of disembarkation, when this can be ascertained. The Officer Commanding the Troops on board will, in all cases, give a receipt for the articles to the Issuing Officer, and will account for the stores at the termination of the voyage to the Ordnance Officer at the port of disembarkation. In the case of ammunition, &c., expended, the Officer Commanding will give a certificate that such expenditure has been necessary, detailing the circumstances. Deficiencies will be dealt with as laid down in the King's Regulations. Certificates relating to expended stores, and correspondence respecting deficiencies, will be attached to the voucher bringing the remainder of the stores on charge in the Army Ordnance Department accounts. If any stores are disposed of *en route* at intermediate ports, the Officer Commanding will obtain temporary receipts and attach them to the original vouchers.

(3.) The destination of the troops will, where possible, be given by the issuing accountant on the voucher striking the stores off charge.

* Woolwich and Southampton only. The Woolwich Remount Depôt will supply tools and clippers for ships starting from London and the Southampton Depôt ships which sail from that port.

5.—*Cancel*, Appendix II, and *substitute* :—

54
Gen. No
8340
8573

SURVEYS ON EQUIPMENT OF TROOPS PROCEEDING TO OR FROM INDIA.

1. The equipment of troops proceeding to or from India is transferred on payment from the Imperial to the Indian Government, or *vice versa*, at the same date at which the troops are transferred to or from Indian pay, *i.e.*, in the case of ordinary reliefs, on the day of embarking for, or disembarking from, India ; in the case of Indo-Colonial reliefs at Imperial expense, on the day of disembarking in, or embarking from, India. A special survey on the equipment of troops so proceeding will always be held, for the purposes of ensuring that the equipment transferred from one Government to the other is correct and serviceable, and of affording a basis for the adjustment of its value between the War Office and the India Office.

Such surveys will be held prior to embarkation in all cases of units embarking for India ; but in the case of units returning from India the surveys will be held (1), after disembarkation, if the destination of the unit is a station at home, in Egypt, or in the Mediterranean ; or (2), before embarkation in India, if the unit is destined for any other station.

2. The Secretary of State for India will, under ordinary circumstances, appoint an officer to represent the Indian Government, for Surveys held at home, and, should he desire to do so, for those held in Egypt and at Mediterranean stations.

To represent the Imperial Government an Ordnance Officer will, under the orders of the general officer commanding, be detailed by the chief ordnance officer of the district in which the survey is to take place. The officer so appointed will, together with the representative of the Indian Government, constitute the Board of Survey, and the chief ordnance officer will make the necessary arrangements in direct communication with the "Valuation Officer, India Office, S.W."

ORDINARY RELIEFS PROCEEDING TO INDIA FROM HOME AND STATIONS ABROAD.

3. When the Secretary of State for India does not send a representative, the general officer commanding will in all cases convene a special board for the survey, not less than one month before the date fixed for embarkation, constituted, when practicable, as follows :—

A field officer, not of the unit concerned, President.	
A captain of the unit	}
An ordnance officer, if available	
or	
An officer of another unit	Members

In all cases the quartermaster of the regiment or battalion will be in attendance for the purpose of affording any information the board may require.

(30)

A 2

4. At surveys held at home the chief ordnance officer will obtain from the chief inspector of small arms, Enfield, the service of a fitter of small arms to assist the board. At stations abroad, when the viewer is not sent, expert assistance will be obtained by the board from the Army Ordnance department.

5. The following preparations for the survey will be made by the officer commanding the unit :—

- (a) The equipment ledger will be temporarily balanced to the date of the survey, and produced before the board.
- (b) Lists of all articles of equipment in possession of the unit will be prepared, for the information of the board, on Army Form G 836, as directed in the instructions on that form (Return A and B).

The necessary forms will be demanded in good time from the War Office by units at home, and from the chief ordnance officer of the district by units at stations abroad.

6. The survey will be taken by squadrons, batteries, or companies, each man bringing up his complete set of accoutrements in order of the lists (paragraph 5. b.), every article being separated. Cloaks, capes, great coats, and haversacks will be inspected at the same time.

7. The arms, accoutrements, and appointments of infantry staff serjeants, drummers, band and pioneers, the quartermaster's and industrial school stores, armourers' box, and artificers' and regimental tradesmen's tools, materials for repair, and any other miscellaneous articles of Government property will be inspected separately.

8. The results of the survey will be recorded and dealt with as follows :—

- a) The articles included in the Indian scale of equipment, found by the board to be fit to be taken over by the Indian Government, will be entered on A.F. G. 836 (Return D.) under their years of issue. This return will be made out in duplicate, one copy will be sent through the general officer commanding to the War Office, and the second copy will be retained by the officer commanding the unit. Any new articles issued from store to replace articles found unserviceable or deficient (*vide* paragraph 9) will be entered on this return.
 - (b) The articles found by the board to be unfit to be taken over will be entered on A.F. G. 998, which will be dealt with by the general officer commanding, under section II sub-section IV of these regulations.
 - (c) Any articles on charge in the equipment ledger which are not produced to the board, will be charged against the unit and paid for before embarkation.
9. Articles required to complete the arms and equipment of the unit to Indian strength (including replacement of those condemned and found deficient by the board) will be issued by the Army Ordnance department on receipt of requisitions from the officer commanding, made out on the usual forms, accompanied by a statement on A.F. G. 837 countersigned by the surveying officers (paragraph 2) or by the president of the board (paragraph 3). The

stores will be issued without waiting for the decision of the general officer commanding under paragraph 8. (b). Full information regarding the equipment to be taken to India, will be furnished to the officer commanding the unit by the Valuation Officer, India Office, on application.

10. When articles of equipment are taken to India by drafts, the officer commanding the unit to which the men belong will send to the War Office a return showing the number of articles so taken, giving the condition and dates of issue, and will name the vessel in which the men have embarked, and the date of embarkation.

11. All articles of equipment in excess of Indian scales or condemned by the board as unfit to be taken to India, except water-bottles (*see* paragraph 20), will be returned to store before the unit embarks for India. The usual vouchers will be made out, accompanied by a statement on A.F. G. 837. Any such articles taken by the unit to India will have to be paid for by the unit, or returned to England at the expense of the unit.

ORDINARY RELIEFS PROCEEDING FROM INDIA TO HOME STATIONS AND STATIONS ABROAD.

12. In the case of units proceeding from India to England, Egypt, and the Mediterranean, a similar special survey will be held by a board constituted as directed in paragraph 2 or 3, as soon as possible after the arrival of the unit at its destination. When units are destined for other stations the survey, as directed in paragraph 3, will be held in India prior to embarkation.

13. In the case of inspections held after disembarkation the officer commanding will produce to the board the Indian equipment ledger showing the final balances at the date of embarkation, together with copies of the Indian returns showing the condition and dates of issue of all equipment on leaving India. When the Boards of Survey are held prior to embarkation in India, the procedure laid down in paragraph 20 will be followed.

14. The statement of articles passed by the board as fit to be taken over by the Imperial Government (*see* paragraph 8 (a)) will form the first charge in the Imperial equipment ledger, and one copy of the statement will be rendered as a voucher with the ledger. The second copy, signed by the surveying officers (paragraph 2), or by the president of the board (paragraph 3) will be handed to the representative of the Indian Government, or, in the absence of such representative, forwarded to the Valuation Officer, India Office.

15. If a representative of the Indian Government be present, he will furnish the officer commanding the unit with the necessary vouchers for disposal of any articles not taken over by the Imperial Government. In the absence of such a representative, a statement of such articles on A.F. G. 837 will be forwarded to the Valuation Officer, India Office. Any claim against the unit for the value of any articles found deficient will be prepared by the India Office. No steps will be taken to dispose of any articles not taken over by the Imperial Government until instructions on the subject have been received from the Valuation Officer, India Office.

16. Any articles required to complete the equipment of the unit to the Imperial scale will be demanded immediately after the survey has been held on the usual forms, accompanied by a statement on A.F. G. 837. Should the survey be unduly delayed from any cause, an immediate report of the circumstances will be made by the general officer commanding to the War Office.

17. When men coming home from India join dépôts or other units direct, the officer commanding the dépôt or other unit will send to the War Office for transmission to the Valuation Officer, India Office, a return showing the condition and dates of issue of any articles of equipment brought home, together with the name of the vessel in which the men arrive, the date of disembarkation, and date of joining for duty. These returns will be sent in as soon as possible after the men join. In the case of men arriving from India who are not transferred to the Imperial Establishment, but are discharged immediately they arrive, or subsequently discharged, the necessary return of any equipment in their possession will be furnished by the officer to whom the articles are handed over. In lieu of the date of joining that of discharge should be given.

INDO-COLONIAL RELIEFS AT IMPERIAL EXPENSE.

18. Units which are to proceed to or from India as Indo-Colonial reliefs at Imperial expense will receive instructions to that effect in due course. The Boards of Survey in these cases will be held prior to embarkation or after disembarkation, as the case may be, in accordance with the provisions of paragraph 1.

19. The procedure as laid down for ordinary reliefs in paragraphs 3 to 9, and 11, will be followed in the case of units proceeding to India.

20. When units are inspected before leaving India, only the stores passed by the board as fit to be taken over by the Imperial Government will be taken by the unit on leaving India, and the statement of them drawn up by the board will form the first charge in the Imperial equipment ledger, as directed in paragraph 14. In the case of units inspected after disembarkation, the procedure laid down in paragraphs 13 and 14 will be followed.

WATER-BOTTLES.

21. Water-bottles of home service pattern will be issued to all troops proceeding to and from India, irrespectively of destination. On arrival in India these bottles will be handed over to the Indian Ordnance Department and a receipt obtained for them. On embarking from India a similar receipt will be given to the ordnance officer by the officer commanding the unit receiving the stores. These articles will be omitted from the valuation returns, but in the case of units proceeding to India they will be inspected by the surveying officers, and those condemned will be replaced before embarkation.

NOTE.—Armourers' tools will not, in future, be taken by units to India as regimental equipment, and the columns provided for these articles in the special forms should, therefore, be disregarded.

EDWARD R.I.

WHEREAS Our Principal Secretary of State for the War Department has submitted to Us revised General Regulations for the Equipment of Our Army and the Armament of Our Works of Defence; and whereas We have been pleased to approve the same;

OUR WILL AND PLEASURE is that these Regulations be the sole and standing authority on the matter herein treated of, excepting all matters relating to the equipment of such part of Our Army as may be stationed in Our Indian Empire; provided always, that Our Principal Secretary of State shall, until Our further pleasure be made known, have full power to make, with regard to the details of equipment, and to the general arrangements for equipment applicable in time of war, such additional Regulations, or modifications in the Regulations attached to this Our Warrant, as may be necessary in the interests of Our Service. The administration and interpretation of these Regulations shall likewise rest with Our Principal Secretary of State.

The Warrant of our Late Royal Mother dated the 15th of November, 1899, and the Regulations established thereby, are hereby cancelled.

Given at Our Court at St. James's, this 10th day of February, in the Second year of Our Reign.

By His Majesty's Command,

ST. JOHN BRODRICK.

(EQ. R.)

DEFINITIONS.

N.B.—The following terms used in these Regulations will have the signification shown :—

Unit	Units are bodies of troops each under a separate Commanding Officer who is an Accountant.
Accountant	Any Officer who receives and holds Army Equipment, and renders to the War Office a ledger account of the same.
Commanding Officer	The Officer Commanding any Unit.
Principal Ordnance Officer	The Officer at the head of the Army Ordnance Department at the Royal Arsenal, Woolwich.
Chief Ordnance Officer	The Officer at the head of the Army Ordnance Department in any Military Command, and the Officer in Charge of the Central Small Arms Depot, at Weedon.
Ordnance Officer	The Officer in charge of an Ordnance Depot.
Regimental Artificers	Non-commissioned Officers and Soldiers on the Regimental Establishment as Artificers, receiving pay as such, for the performance of special work.
Military Tradesmen	Tradesmen enlisted as Soldiers, and receiving pay as such, but available when required for employment in their trades, receiving extra working pay.

[The amendments made in the Regulations of 1900, are denoted by a black line in the margin. As some typographical errors may have occurred in publication, it is requested that, should any be discovered, they may be at once pointed out, in writing, to the Under Secretary of State for War.]

REGULATIONS FOR THE EQUIPMENT OF THE REGULAR ARMY, 1902.

PART I.—GENERAL REGULATIONS.

SECTION I.—DUTIES OF OFFICERS.

I.—INTRODUCTORY.

1. The following regulations for the equipment of the Regular Army and for the maintenance of the armaments of works, are promulgated for the information and guidance of officers concerned. The proportions of ammunition and stores, materials for repair, tables of duration, and details of equipment contained therein will be strictly adhered to. Regulations relating exclusively to artillery will be found in Part 2, Artillery Special Instructions and Details. No details of establishment of equipment for submarine mining, permanent telegraph, telephone and signal stations are given, special scales being authorised for each station concerned, but the general procedure as regards demand, supply, and disposal of such equipment will be as herein laid down.

Strict adherence to regulations enjoined.

2. For definitions of the terms describing commanding and other officers in these Regulations *see* page iv, and for abbreviations *see* page v.

Definitions.

3. In describing stores in equipment ledgers, requisitions, &c., the designations and sections of the vocabulary issued by the War Office will be strictly followed. Articles not included in the vocabulary will be headed "not in vocabulary" and grouped under the several sections to which, from the nature of the articles or their intended use, they would properly apply. They will also be described by drawings or otherwise, where requisite, in order to obviate the necessity of making further reference. In giving dimensions, feet and inches are always to be expressed in words.

Nomenclature.

Drawing.

Dimensions.

II.—DUTIES OF GENERAL OFFICERS COMMANDING.

General responsibility.

4. General Officers Commanding will keep themselves informed as to the condition and completeness of the armaments and equipments in their respective commands, and will satisfy themselves that the articles which would be drawn from the ordnance dépôt in their districts on mobilization are serviceable, complete, and conveniently stored for issue. The entire responsibility for the efficient custody and maintenance of mobilization stores rests with the General Officers Commanding Districts.

4A. General officers commanding will cause the following mobilization equipment to be inspected twice yearly, in April and September by a board of officers :—

(1). That in possession of units.

(2). The personal equipment and ammunition held at the headquarters of regimental districts and elsewhere for reservists.

(3). The equipment held by Army Ordnance Department for ammunition columns and parks.

The following officers will sit on the board :—

Inspection of mobilization equipment.

(1). The chief ordnance officer of the district in which the equipment is stored will be a member in all cases.

(2). In the case of mobilization equipment in charge of units other than artillery, the officer commanding the unit, and in the case of Royal Horse and Royal Field Artillery mobilization equipment the lieutenant-colonel commanding the brigade division to which the unit belongs and the officer commanding the battery concerned.

(3). In the case of equipment held by Army Ordnance Department for ammunition columns and parks :—

No. I. Park and Ist Corps Troop Column, general officer commanding R.A., Aldershot.

No. II. Park and IIInd Corps Troop Column, officer commanding R.A., Eastern District.*

No. III. Park and IIIrd Corps Troop Column, officer commanding R.A., Woolwich.*

(a.) Infantry Divisional Ammunition Columns.*—The officer commanding the brigade division, Royal Field Artillery, to which the column is allotted for mobilization.

(b.) Cavalry Brigade Ammunition Column.*—The officer commanding the battery, Royal Horse Artillery, allotted to the same cavalry brigade for mobilization.

The proceedings will be transmitted to the War Office on Army Form G 1097. In the case of ammunition columns and parks it will be recorded on this form whether the warrant officer in charge separately accounts for the equipment in Army Book 183, instead of in the consolidated mobilization account of the station, and if the personnel are thoroughly acquainted with the organisation of their unit, and the packing of the material of which it consists.

40116
7104

* In cases where the equipment is stored, and the Board consequently held, in a district other than that in which this officer is serving, the G.O.C. of the district in which the equipment is stored will arrange direct with the G.O.C. of the district in which the officer is serving, as to the attendance at the Board.

Reports on Royal Artillery units will be rendered on separate forms to those on other units.

5. The General Officer Commanding will be responsible that equipment of all kinds is issued to the troops for service purposes, in accordance with the authorised proportions, but in cases in which it is found necessary that these should be exceeded, he will give authority in writing to the chief ordnance officer to provide for the requirements of the service according to circumstances.

6. The General Officer Commanding will, when such issues are of an exceptionally large nature, report full details quarterly to the War Office, stating whether the issues are of a temporary nature on loan, or are to be considered as a permanent addition to an establishment.

7. In the event of any unnecessary delay occurring in the supply of equipment, the General Officer Commanding will report the circumstance, with the explanation of the chief ordnance officer, to the War Office.

III.—DUTIES OF COMMANDING OFFICERS.

8. Commanding officers will be held directly responsible that their equipments, including stores held on charge by units for mobilization, are in a serviceable condition, in proper working order, complete in all their details, and in the authorised proportions unless otherwise specially ordered. They will make frequent inspections of the whole of the equipments of the men and horses under their command; and when any defects are discovered therein, will at once take steps to have them remedied. Officers who are likely to require renewal or exchange of any considerable part of their equipment will give early intimation of the same to the Chief Ordnance Officer.

9. They will be held responsible, in the case of alterations of pattern, or of changes in the proportions in which articles forming their equipments are issued, that the necessary action is taken to provide for such changes.

9A. They will compare the quantities of mobilization stores when in their charge, as shown by the mobilization store tables of their respective units, with the remains of the stores shown at the end of their equipment ledgers on the 31st March in each year. A certificate will be furnished at the end of the ledger that this has been done, and a detail, with explanations, will be given of any discrepancies found.

10. Alterations of articles of equipment involving any departure from the sealed patterns, either for experiment or any other purpose, are strictly forbidden without the previous sanction of the War Office.

11. On a change of command a regimental board will be assembled to take stock of the equipment and verify the ledger balance. Both the incoming and the outgoing officers, or their representatives, should be present and sign the proceedings, which will be certified in the form shown in Appendix I and accompany the regimental equipment ledger, on transmission of the latter as laid down in that appendix.

54

Art.

9149

Issues in excess of authorised proportions.

Report of excess issues.

Delay in supply.

Responsibility of commanding officers.

In case of change of pattern, &c.

Mobilization stores in charge to be checked with tables.

Alterations of articles of equipment forbidden.

Regimental board on change of command.

On transfer
of charge of
armaments.

12. In the case of a transfer of charge of the equipment of a sub-district in an artillery district, the verification of the stores in connection with the armaments by a board of officers, need not be carried out unless at the request of either of the officers concerned. Should such a request be made by either the officer handing over, or the one taking over charge, the officer commanding Royal Artillery will appoint a board of officers for the purpose. Should no board be assembled, the officer taking over charge will be held responsible for the correctness of the stores taken over by him, as shown by the balance on the 31st of the previous March, subject to the variation caused by subsequent duly vouched store transactions.

Deficiencies
in equip-
ments.

13. When deficiencies or damages are discovered on a transfer of the equipment and stores, the value of the articles deficient, or the cost of making good the damages, will be recovered from the officer giving over the command, unless he has been relieved of the responsibility by authority of the War Office. Where any loss, injury, or deterioration of equipment, other than personal, is clearly traceable to the neglect of a subordinate, the commanding officer who is liable may apply through the General Officer Commanding to the War Office to be relieved of the cost of replacing or repairing such equipment. In the case of personal equipment the usual steps will be taken to recover the cost of replacing or repairing.

Information
to Army
Ordnance
Department.

14. In order to facilitate the maintenance of the equipment reserves, commanding officers will at all times furnish the ordnance officers with such information as they may require regarding the state of the equipments in their charge.

Corre-
spondence
with Army
Ordnance
Department.

15. All communications connected with the supply of equipment, whether authorised by, or in excess of, regulation, will be addressed to the chief ordnance officer, who will, if necessary, take the orders of the General Officer Commanding on the subject.

Delay in
supply.

16. The commanding officer will bring to the notice of the General Officer Commanding any undue delay in the supply of any articles of equipment.

SECTION II.—GENERAL SUPPLY OF EQUIPMENT.

(Paras. 17 to 21 cancelled.)

I.—REQUISITIONS FOR EQUIPMENT.

22. Officers who are direct accountants with the War Office for any portion of the service equipments will put forward requisitions for munitions of war, stores, and materials, to maintain the equipments for which they severally account, as well as for those required for the training and service of their units generally. The requisition will be prepared on the authorised forms in accordance with the nomenclature in the priced Vocabulary of Stores, and a separate form (or separate division of such forms as are divided by perforation) will be used for the Weedon and each of the Woolwich sections affected, and every section will bear the regimental or corps office stamp; the purpose for which the stores are required must be clearly shown, as well as the strength of the unit, the complete establishment or proportion of equipment allowed by regulation, the authority under which the stores are demanded, and the quantities in charge. The time that equipment to be replaced has been in use will also be stated in the case of those articles to which a period of duration has been assigned. Requisitions will be sent direct to the chief ordnance officer by the officer requiring the stores on the dates given in paragraph 24. When stores, ammunition, or equipment are demanded on payment, the requisition will be endorsed to that effect in red ink. In cases where the forms are prepared for the carbon process, requisitions will be rendered in duplicate. In the case of long requisitions with printed descriptions, which are not prepared for the carbon process, they will be completed in manuscript and rendered in duplicate.

Requisitions to be made direct on chief ordnance officer.

Preparation of.

38407

Equip.

2027

38407

Equip.

2027

22A. The equipment of units laid down in the mobilization store tables (Army Forms G 1098) will regulate the peace (except materials for repair and preservation of equipment, the proportions of which are laid down in Equipment Regulations) as well as the mobilization establishments. In framing demands for articles on the peace establishment, commanding officers will refer to the paragraph or table of the Equipment or other Regulations, which authorises the issue of the peace equipment applied for, but the demand will in all cases be in accordance with the establishment of equipment laid down in the latest issues of the mobilization store tables.

Mobilization Tables to regulate peace establishments.

23. See para. 279.

24. Requisitions for equipment, for materials for its preservation, and for veterinary stores (see paragraph 264), will, except in cases of emergency, be made quarterly, on the 1st March, 1st June, 1st September, and 1st December. An exception as regards veterinary stores will, however, be made at Woolwich, where the requirements of the troops will be provided for by the district veterinary officer; and the following classes of stores will also be

Requisitions to be made periodically.

Exceptional requisitions.

treated exceptionally :—materials for the repair of arms (including mineral jelly, rifle and Rangoon oil, used for cleaning and preservation), accoutrements, harness and saddlery, and artificers' tools, which will be demanded annually, on the 1st March ; stable necessities and materials for the repair of carriages, which will be demanded on the 1st September ; and practice and exercise ammunition as laid down in Part 1, Section VII. Camp equipment will be demanded when required, under Part 1, Section X. Paint will be demanded when most convenient to those requiring it.

57
Devonport
7839

Articles not to be replaced unless thoroughly unserviceable.

25. Requisition will not be made for equipment to replace articles deemed unserviceable, until the commanding officer has satisfied himself that they are thoroughly unserviceable or cannot be repaired by the means at his disposal, notwithstanding that such articles may have already been in use for the period of duration assigned to them under Part 1, Section XVIII. Special authority will be required to support the exchange of any equipment still serviceable, or capable of being repaired regimentally.

On change of pattern.

26. On notification of a change of pattern, involving the immediate withdrawal of that in use, requisitions will be made without delay for the new equipment ; but a commanding officer is not entitled to demand any article from store on account of any preference which he may have for a particular pattern.

Equipment to be completed before going on service abroad.

27. When units are ordered abroad, commanding officers will at once make requisition upon the chief ordnance officer, for all articles required to complete the equipments of their corps, according to the scales authorised for the particular service.

From officers commanding detachments, who are not accountants.

29. Officers commanding detachments who are not accountants, requiring articles of fixed equipment, will prepare and forward the requisitions for the same to the officers commanding their respective units for signature, before sending them to the Army Ordnance Department. When the stores are issued, a temporary receipt will be taken by the ordnance officer from the officer in command of the detachment, until the usual vouchers have been passed between the ordnance officer and the head-quarters of the unit. Should the articles be urgently required, the ordnance officer will make the issue at once, and the officer commanding the detachment will be responsible for the stores until he has procured a covering requisition from his commanding officer, and the vouchers have been passed.

Intermediate requisitions objectionable.

30. To obviate the necessity for intermediate demands, officers commanding will cause an inspection of the equipment to be made before preparing the quarterly requisitions. To meet immediate and unforeseen requirements, spare articles of equipment are supplied. Where accoutrements are lost, as for example through desertion, or arms are damaged to such an extent that the armourer cannot repair them, the wants can be temporarily met by using the equipment of men who are for the time non-effective.

Issues on payment.

31. Articles of store are not as a rule issuable to commanding or other officers on payment, in time of peace, except by order of the War Office. But small-arm ammunition, and also arms, accoutrements, or saddlery, of Service patterns which form part of an officer's regulation equipment and which he may require for his own personal use, may be issued on prepayment. Carbines and rifles may be issued under the conditions laid down in Appendix XVI.

54
Gen. No.
8198

32. The value of stores issued on repayment, and of ammunition under paragraphs 164, 168, 168A, and 169, will be recovered by the district paymaster, priced vouchers on Woolwich Form 1, being furnished by the Principal Ordnance Officer, Woolwich, and on Army Form G 982, by other ordnance officers making the issue. The officers commanding corps to whom issues are made will forward the vouchers to their district paymasters, so that it may be shown where the value is credited, before returning them to the Army Ordnance Department. Mode of repayment.

33. Stores for maintaining equipments, or for special service, are not to be appropriated to other purposes without special authority, obtained through the chief ordnance officer. Misappropriation of stores.

34. When stores have been reported as ready for issue, the troops will, if within a reasonable distance from the store dépôt, arrange for their conveyance. Troops to draw their own stores.

36. The supply of all equipment, except ammunition, due to units proceeding from one district to another, will be dealt with in the Army Ordnance Regulations. Supply. See A.O. Regulations.

37. When field companies of the Royal Engineers exchange stations, a portion of the equipment will be left behind by the out-going company and taken over by the in-coming company at each station. An officer of each company will proceed, within a week in advance, to the new station, to take over the stores to be left behind by the out-going company. The transfer of stores will be carried out in the manner laid down in paragraph 90. Equipment left behind on change of station by R.E.

A list of the stores that will usually be transferred by field companies is given in Part 2, Section X.

37A. When companies of the Army Service Corps exchange station, between England and Ireland, all the equipment, and material for its repair, &c., &c., held on charge, and detailed in Part 2, Section III for a Service Company, excepting arms, accoutrements, trumpets and bugles, will be left behind by the outgoing company, and taken over by the incoming company at each station. Ditto by A.S. Corps.

An officer and non-commissioned officer of each company will proceed in advance in sufficient time to the new station, to take over the stores to be left behind by the outgoing company.

The transfer of stores should be conducted under paragraph 90. The ammunition will be disposed of as laid down in paragraph 64.

Any stores due from the Army Ordnance Department to the outgoing company on requisitions, to complete or repair articles left behind, should be issued to the incoming company.

38. When the requisitions for camp equipment or materials for repair are large, the equipment forms with printed details will be used; but when small, the blank forms provided for such cases, Army Forms G 997 and G 1027, will be rendered. Forms for requisitions.

39. Tools for mounted services are issued to units, and held on charge by them in complete chests, and will be so demanded when required. Tools.

40. When small quantities of tools are required to be exchanged as unserviceable, they will be shown in detail in the requisition, for which purpose, either Army Form G 997, or a manuscript requisition may be used. Exchange of tools.

41. All vehicles of service pattern, whether in store or as equipment, will be shown in detail in the requisition, for which purpose, either Army Form G 997, or a manuscript requisition may be used. Straps, &c., for vehicles.

ment in possession of troops, should at all times be complete with the straps and other articles appertaining to them, as laid down in the Table of Accessories, Components, and Spare Parts. These articles should be in the custody of the officer who has the vehicles in charge. Artillery wagons in possession of cavalry units will only hold the "other articles" on charge in the proportion laid down in Section II, Part 2 of Equipment Regulations.

II.—RECEIPT AND INSPECTION OF EQUIPMENT.

Inspections of packages on receipt from carriers.

42. When equipment is received by the troops the officers or others receiving it will, before giving a receipt to the carrier, ascertain that the various packages are in good order and condition. Should any appear to have been damaged in transit, either by wet or otherwise, or to have been tampered with, the circumstances will be recorded on the bill of lading or carrier's note, and pointed out to the person conveying the stores, the packages being opened, if necessary, in his presence.

Inspection.

43. The stores will be examined, as soon as possible after receipt, in the presence of not less than two officers, one being the officer responsible for the equipment, or an officer deputed by him.

Weighing of stores.

44. All packages will be weighed before being opened, and the ascertained weight compared with that marked on the outside. Should these weights differ in any instance, the contents will be at once counted, and compared with the numbers given on the packing note which each package should contain.

Number and weight.

45. Stores received by number and weight will be both counted and weighed.

Discrepancy.

46. In reporting any discrepancy, the fullest information will be given, all numbers and weights, and any marks upon the packages giving evidence of their having been tampered with, being carefully recorded. The packages, with their notes and all wrappers, will be retained until the inquiry closes.

Inspection of equipment.

47. The equipment will be carefully inspected, to determine that the articles delivered agree with the particulars in the vouchers, and that they are correct in point of quality and pattern.

Receiving officer's liability.

48. Should the above precautions be omitted, the officer receiving the stores will render himself liable for any discrepancies.

Ammunition and explosive stores in hermetically closed cases.

49. The hermetically closed cases in which fuzes, tubes, and certain other articles are issued, will not be opened until the contents are required for use. These cases with their contents, as well as packages containing small-arm ammunition and gunpowder, will be taken on charge unopened. Any defects or discrepancies which may be discovered when the stores are subsequently inspected or used, will be at once reported, and all names, dates, and marks upon the cases will be quoted.

Objections to equipment.

50. Objections that may arise on the ground of equipment being of an inferior quality or of an obsolete pattern, or for any other cause, will, if possible, be made by the commanding officer before the articles are taken on charge, as after the receipt has been signed the responsibility for the condition of the stores will devolve upon him. Serviceable articles are not to be objected to on account of their being part worn.

51. Should any discrepancies be discovered, or any articles be found damaged or unsuitable, the commanding officer, after endeavouring to ascertain the cause of loss or damage, will bring the matter to the notice of the chief ordnance officer of the district from which the issue had been made.

Report of discrepancies.

51A. In all cases in which the reports of officers commanding, or others, bring to notice inferiority of quality or pattern, the matter will be reported to the War Office if the General Officer Commanding considers further action necessary.

Report to War Office

52. A commanding officer in receipt of articles of equipment which are not brought on charge, will, pending the result of a report on their condition, be held responsible for their safe custody until a decision has been given as to their disposal, when he will either take them on charge or return them to store, as may be ordered. He will also be held responsible for the immediate return to store of any equipment issued to him, which, in cases of emergency, he may be unable to take on charge. Should he fail to carry out these instructions, he will be liable for any loss that may ensue.

Commanding Officers responsible for safe custody of stores not taken on charge.

III.—RETURN OF EQUIPMENT INTO STORE.

53. Whenever it becomes necessary or advisable to return equipments into store, except such as have been replaced on requisition, commanding officers will make application to the chief ordnance officer to receive them, stating their description, number, the time they have been in use, and the reasons for returning them into store; the authority, if any, should also be quoted.

Application to return equipment.

When guns, carriages and slides, for drill, practice, time, saluting, or instructional purposes, are unserviceable, demands to replace them may be put forward without reference to the War Office, but no replacement of guns, &c., in the armaments, and batteries of Horse, Field, or Mountain Artillery, or volunteer batteries of position, should take place without previous reference to headquarters, unless under very exceptional circumstances, when the matter should be immediately reported.

The disposal of the unserviceable guns, &c., which are to be replaced, or of any others which are of obsolete pattern, and no longer required, will be dealt with by the Principal Ordnance Officer, Woolwich, and full information as to their value, if proposed for sale locally, or cost of removal to store, should accompany demands for new guns, or suggestions for the disposal of obsolete ordnance, &c.

54. (Cancelled—see para 25.)

55. When stores are returned to the Army Ordnance Department, vouchers will be prepared in triplicate by carbon process on A.F.G. 1033. A separate division (as divided by perforation) will be used for the Weedon and each of the Woolwich Sections, and every section will bear the regimental or corps office stamp. The vouchers will be signed by the consignor; and one copy, duly signed by the consignee, will be returned as soon as practicable after the stores have been received. When stores are passed to other accountants, the vouchers will be prepared in duplicate only.

Vouchers and receipts for returned stores.

38407

Equipmt.

2027

56. When stores are returned from a distance, vouchers will be sent by post, on the same day that the stores are despatched, to the ordnance officer to whom they are consigned. The date and

Vouchers for stores returned from a distance.

number of the order directing the return of the stores will be inserted in the headings of the vouchers, and a corresponding date and number will be conspicuously marked on the outside of each case or package, so as to enable the consignee to identify them immediately on receipt. Each case, bale, or package will be weighed, and the weight marked upon it.

Q. C. to
arrange for
return of
stores.

57. Commanding officers will make their own arrangements, as in the case of issues (*see* paragraphs 34 and 58), for the return of un-serviceable and surplus equipments into store in camp and garrison.

Articles im-
properly re-
turned.

58. Issues of regimental equipment, such as arms, accoutrements, harness and saddlery, to replace similar un-serviceable articles in possession of a unit quartered at a station where there is an ordnance depôt from which the supply of the new will be received, will not be made until the un-serviceable articles have been returned to the Army Ordnance Department, inspected, and condemned. The day and hour for exchange should be arranged for by communication between the ordnance officer and the officer commanding.

When the unit is quartered at another station the new articles will be supplied prior to the return of the un-serviceable, and the officer commanding will, upon receipt thereof, immediately return the un-serviceable, and will not cause any corps marks to be placed upon the new equipment until he receives notification from the ordnance officer that the articles returned are considered to be in a state for condemnation. The inspection and notification by the Army Ordnance Department will be carried out immediately the stores are received. Should any of the equipment so returned be found, on receipt by the Army Ordnance Department, to be not un-serviceable, or still capable of repair by regimental artificers, the chief ordnance officer will call upon the officer commanding to furnish an explanation for the information of the General Officer Commanding, who will decide whether the troops should be held liable, or a board of officers be assembled to investigate the matter. If it is decided that the articles have been improperly returned they will be sent back to the unit and the new articles issued returned to the Army Ordnance Department, the cost of carriage unnecessarily incurred being defrayed by the officer commanding the unit concerned.

Articles
unservice-
able from
unfair usage.

59. Should it be considered that any articles returned as un-serviceable have become so from unfair usage while in possession of the troops, the chief ordnance officer will also bring the same to the notice of the General Officer Commanding who will determine, by means of investigation of a board of officers, or otherwise, whether the troops are liable.

Surplus
equipment.

60. No reduction in any authorised equipment will be made without the sanction of the War Office. If, owing to an authorised reduction, or any other cause, officers who are accountants have on charge surplus stores or equipments not likely to be again required within a short period, the General Officer Commanding will decide whether they shall be retained or returned to store. If a reduction in the establishment of men or horses be authorised, the stores to be disposed of will be the actual complete sets of equipment in use by the men or horses drafted to other corps or otherwise dealt with as supernumerary.

61. Commanding officers will, previous to change of station, obtain authority from General Officers Commanding to return to the Army Ordnance Department such stores of a bulky nature as they can temporarily dispense with, and, on receiving such authority, will apply to the ordnance officer receiving them for a certificate of their quantity and condition. They will then be enabled, on reaching their destination, to draw from the Army Ordnance Department, on this certificate, an equivalent supply if necessary.

Return of stores by outgoing unit.

62. When it is not advisable to return these stores, as for example, should there be no ordnance dépôt at the station to which the unit is proceeding whence a fresh supply could be obtained, they will be taken with the corps, and public conveyance will be provided; but if this be not practicable, and expenses are incurred for carriage from one station to another, the charge must be supported by a list of the stores, and a certificate from an officer of the Army Service Corps that army transport could not be provided.

Stores when to be taken with outgoing unit.

63. All equipments issued to meet the purely local requirements of a station will be returned to store by outgoing units, unless they are required to be handed over to the incoming unit, when the transfer will be effected through the Army Ordnance Department.

Return of stores used locally.

64. Except in the case of a mobilisation, the small-arm ammunition in charge of troops, whether service or practice ammunition, will be returned into store previous to their departure from a station, with the exception of a sufficient quantity to provide the guards and escorts with 20 rounds for each man. If no ordnance dépôt exists at the station, it will be handed over to an officer of the Army Ordnance Department deputed to receive it, who will at once note thereon the condition in which it was received by him. The service and practice ammunition are to be shown separately on the vouchers. The officer who gives over the ammunition will be furnished with a proper receipt, which will be the authority for the unit to draw a similar quantity at the new station (see paragraph 173). The ammunition given into store in boxes with unopened linings will be available for re-issue to other units, and cannot be objected to.

Return of small-arm ammunition by troops on change of station.

65. When stores are issued on loan from the Army Ordnance Department (as for instance, for the service of moving ordnance on re-armament), the commanding officer to whom they are lent will be held responsible for returning them as soon as the object for which they have been issued has been accomplished.

Stores issued on loan to be returned when no longer required.

66. In order to ensure that stores issued on loan are not lost sight of, and to enable any necessary subsequent disposition of the stores to be arranged, the chief ordnance officer will ascertain at half-yearly intervals, the date of the probable return to store of the articles. When the stores have been supplied specially from Woolwich, this information will be reported to the principal ordnance officer.

Half-yearly inquiry.

67. The utmost vigilance is required on the part of officers returning stores, in order to guard against explosive stores being returned into ordinary store dépôts, instead of into the magazines, as well as to preclude the possibility of lucifer or other matches, iron nails, &c., being left among stores of any kind.

Explosive stores and matches.

(Eq. R.)

B

Return of
empty cases
and pack-
ages.

68. Commanding officers are responsible that all chests, cases, barrels, and cylinders, received with equipment of any kind, are handed over as soon as they can be dispensed with to the Army Ordnance Department; and, if possible, without cost to the public. The packages will be addressed:—The Ordnance Officer—
From the Officer Commanding at—

Empty am-
munition
packages to
be examined.
Carrier's
note to
accompany
stores sent
by carrier.

69. All empty ammunition or powder barrels, or packages, will be most carefully examined to see that they are free from iron tacks in the head, and grit and dirt on the staves, before being returned into store.

70. When stores are returned by carrier, a carrier's note, Army Form G 980, detailing the number, description, and weight of packages, bundles, and loose articles, and the number of articles contained in each bundle, will be delivered to the carrier. For explosive stores and those conveyed at owner's risk rates by railway in Great Britain, Army Form G 996 will be used in lieu of Army Form G 980 (see Allowance Regulations).

Inventory
in each
package.

70A. When stores are returned into store in packages, an inventory, on Army Form G 1028, of the contents, signed by the packer, and also, if practicable, by the person witnessing the packing, will be placed in each package.

Convoy notes
to be given
to the officer
commanding
a convoy.

71. When stores are forwarded by convoy or under escort, convoy notes, Army Book 158, will be delivered to the officer commanding the convoy or escort, or to the conductor, and the following course will be observed:—

Convoy notes
to be pre-
pared in
triplicate.

(a) The officer in command of the escort, or the conductor, will satisfy himself that the stores agree with the account given to him, in order that there may not be any subsequent questions as to the correctness of the convoy notes, three of which will be filled up. These will be signed by the officer despatching the stores, and a receipt will be taken on one of them from the officer commanding the escort or from the conductor. The receipted note will be retained by the consignor, and the other two will be carried by the officer commanding the escort or by the conductor to the consignee. One of these will be receipted, and returned to the officer or conductor, and the other kept by the consignee. The day and hour of departure will be inserted upon the convoy notes by the consignor, who will forward the proper issue voucher for the signature of the consignee. In forwarding ammunition it will always be kept separate from other stores (see paragraphs 184 to 197).

Convoy
notes, &c.,
for stores
delivered
into store.

(b) When stores are received from troops, the ordnance officer will demand from the officer in charge of the escort, or from the conductor, the convoy notes, or other receipt vouchers, and having found the articles to be correct, he will return one copy receipted to the officer or conductor, forwarding the usual receipts to the consignor as soon as possible. Should, however, the regular receipt vouchers not be forthcoming, the stores will nevertheless be received; and the ordnance officer will report the omission to the consignor, to whom he will at the same time forward a receipt for the stores actually received.

Deficiency or
loss of
stores.

(c) When the stores do not agree with the convoy notes, the ordnance officer will inquire into the cause of disagreement. If it appears to arise from negligence or fraud, such measures will be taken as may be requisite in order that the offender may not escape

punishment. If it appears to arise from just and fair causes, the ordnance officer will obtain a certificate of any such deficiency, damage, or loss, before the officer in command of the escort or the conductor can be discharged. Should a court of inquiry be necessary, the chief ordnance officer will apply for one to the General Officer Commanding.

72. The cases of all small-arm ball and .303-in. solid case blank cartridges supplied gratuitously, will be brought on charge by certificate and returned each year to the ordnance stations from which they were issued, to the extent of at least a weight equal to 90 per cent. of the ball, and 50 per cent. of the blank, expended during the year. The cases will be brought on charge by weight and not by number, at 23 lbs. per 1,000 cases to be returned. Any deficiency in these weights will be charged for at 5s. 4d. per 23 lbs.

Return of
cartridge
cases.

The value of the empty cases of cartridges obtained on payment will be refunded at the above rates to the officer who purchased them on his returning them to store. The number and date of the ordnance voucher on which the cartridges were received should be quoted on the pay-list voucher of the officer charging the value of the empty cases.

Value of to
be refunded.

The cases will be returned to store in the empty ammunition packages, not oftener than once a quarter, and officers commanding will not return a less weight than that representing 1,000 cases, except in the last quarter of the year, when the outstanding balance, whatever it may be, will be sent in. The cases are expected to be in good condition when returned, care being taken that grit and dirt are removed as far as possible beforehand; and each consignment will be accompanied by a certificate of the commanding officer that he has caused the contents of each package to be carefully sorted, and all live cartridges taken out. In the event of any live cartridges being found in any of the packages, the empty cases in that package will not be credited to the corps concerned, but will be brought on charge by certificate in the Army Ordnance accounts.

Mode of
return to
store.

Empty small-arm cartridge cases will be taken on charge by certificate receipt vouchers to the extent, at least, of the percentages above laid down, and will be accounted for as returned to store, or as paid for if not forthcoming in the proper proportions.

Minimum
quantity to
be returned
to store.

IV.—ANNUAL INSPECTIONS, BOARDS OF SURVEY AND COURTS OF INQUIRY.

73. The Officer Commanding Royal Artillery, the Commanding Royal Engineer, and the chief ordnance officer, will at least once a year, or whenever necessary, make a joint inspection of works, magazines, stores, workshops, &c., of all their departments, in order that each officer may have an opportunity of calling special attention to his requirements on the spot. When circumstances make it appear advisable, the officer or officers in local command or charge may be delegated to carry out this inspection. Advantage should be taken of this inspection to consider and discuss on the spot the requirements of the defence and the manner in which they should be met.

Joint inspection
by
O.C.R.A.,
C.R.E.,
and C.O.O.

74. Condemnations of stores must be supported by proceedings of garrison boards where boards are requisite.

Boards for
condemnation
of
stores.

(EQ. R.)

R 2

Full explanation to be given.

75. Articles of equipment which may become unserviceable, owing to accident or otherwise, before the expiration of the period fixed for their duration, are not to be written off charge, nor is the loss to be borne by the public, unless the reason for the article having become unserviceable is fully set forth.

Course to be followed when losses, &c., occur.

76. When stores or equipment of any kind are lost, destroyed, or injured, and it is a matter for consideration on whom the expense of replacing or repairing them should fall, the course laid down in the King's Regulations will be followed.

Decision of G.O.C. or War Office to be attached to requisition.

77. The original report will be forwarded to the chief ordnance officer for submission to the General Officer Commanding, and will be accompanied by Army Form G 998, duly filled in, and where stores are required to be replaced a copy of the decision of the General Officer Commanding, or of the War Office, as the case may be, will be attached to the requisition upon the Army Ordnance Department for the replacement of the stores.

Reports of commanding officers, and courts of inquiry.

78. Reports of commanding officers referred to in the preceding paragraph, and proceedings of courts of inquiry, when they refer to arms, must be confined to arms, and must not include reports on other equipment. The number on the barrel, as well as the regimental number of the arm will be recorded therein (*see* paragraph 117).

Directions as to sending damaged arms to C.I.S.A.
38407

79. When a damaged arm or barrel (*see* paragraph 343) is sent to the chief inspector of small arms for special report, a label stating the circumstances and giving the reference number and date of any War Office orders, or proceedings of courts of inquiry, will be attached to the arm or barrel for identification.

Equip.
2042
An ordnance officer to be a member of the court of inquiry.

80. If there be an officer of the Army Ordnance Department available who is not the chief ordnance officer, he will serve as a member of courts of inquiry, where necessary, under the foregoing instructions. The proceedings of such courts will be transmitted in duplicate by the president, direct to the chief ordnance officer, who will submit them, with his views, to the General Officer Commanding. After the General Officer Commanding has recorded his decision the chief ordnance officer will send one copy to the officer commanding the corps concerned, to serve as his authority to write off the stores or demand new articles to replace them.

Losses incurred by R.A. in moving heavy stores.

81. If the loss or damage has occurred when the Royal Artillery have been employed in moving heavy stores, the officer in charge of the operation should, in giving evidence, produce a statement showing distinctly the materials used, their actual dimensions, the strain calculated to be borne by them, the actual weight to be lifted, the distance through which the stores are to be lifted vertically or horizontally, and, in the case of sheers, the angle of inclination.

Stores of a technical nature.

82. When the stores forming the subject of inquiry are of a special or technical nature, or peculiar to the Royal Artillery, Royal Engineers, or any particular service, the General Officer Commanding will, when necessary, call for the written opinion of the local head of the department concerned before finally dealing with the matter. Such opinion will form part of the proceedings forwarded to the War Office in cases where this is necessary in

accordance with the instructions laid down in the King's Regulations dealing with these subjects.

83. Surveys on the equipments of troops proceeding to or returning from India, will be held in accordance with the instructions in Appendix II.

Surveys on equipments of troops proceeding to or returning from India.

V.—EQUIPMENT ACCOUNTS AND CLAIMS AGAINST CORPS.

84. Every officer receiving any equipment, service ammunition, or money for the purchase of equipment, will keep and render accurate accounts thereof, and until these accounts have been examined and allowed, he will not cease to be responsible. He will obtain receipts on the proper Army Forms for all articles leaving his charge.

Duty of officers to account.

85. Accountants will record in equipment ledgers all transactions connected with ammunition and stores, except as provided for in paragraphs 86 and 219. Detailed instructions for keeping these ledgers are given in Appendix I. Stores for submarine mining and for permanent military telegraph, telephone and signal stations will be accounted for, when in the custody of the Royal Engineers, as laid down in the Regulations for Engineer Services.

Regimental and staff ledgers.

86. Materials for repair, and other consumable articles (except ammunition) drawn upon regulated scale will not be taken on charge in the equipment ledgers; but any quantities remaining unused at the end of the year will be shown as in possession in the requisition for the next year's supply. Packages will be accounted for.

Materials for repairs, &c. Packages.

87. Ammunition, unless issued on payment, will be taken on charge in equipment ledgers. Quantities drawn for consumption will, as expended, be written off charge by quarterly expense vouchers, signed by the commanding officer. On these vouchers will be given full particulars of the numbers of men, &c., and the paragraphs of regulation or authorised scales of expenditure covering the issues.

Ammunition.

88. Articles required to replace stores lost or rendered unserviceable, and chargeable against the troops, will be demanded quarterly in accordance with paragraph 24; the unserviceable articles will be returned to the Army Ordnance Department, and the deficiencies written off charge on Army Form P 1925 at the end of each month. The value of the lost, or unserviceable stores (see paragraphs 95 and 96) will be credited to the public in the pay list on Army Form P 1963. The equipment issue voucher for the old stores struck off charge, will give a direct reference to this credit, and the requisition for stores in replacement will quote the equipment issue voucher.

Articles chargeable to troops and replaced.

88A. When lost stores, which have been paid for under paragraph 88, are subsequently found, the commanding officer will return them to the Chief Ordnance Officer with a reference to the account in which their value was credited. The General Officer Commanding, on satisfying himself that the articles returned are actually those for which the troops were charged, and that the amount stated was duly credited, may, if the vouchers by which their value was credited in the pay list, and by which they were

Stores lost, paid for, and subsequently found.

struck off charge in the equipment ledger, are still in the district, authorise the district paymaster to refund the money. A reference will be given to the voucher of the ordnance accounts on which the stores were brought on charge after being found.

Articles re-
placed and
not charged
to troops.

89. When stores on equipment ledger charge are condemned by proper authority as unfit for further service, or are lost or damaged through no fault of the troops, the dates and registration numbers of reports of boards of survey or other authority will be quoted upon the equipment issue voucher by which they are struck off charge. The reports of boards of survey or other authority will in every case be transmitted to the ordnance officer in support of the requisition when new stores are required, and will be attached to the issue voucher of the ordnance account from which they are supplied. In cases where lost stores are not required to be replaced, the proceedings of the court of inquiry will be attached to the expense voucher by which the articles are written off charge in the equipment account.

57

Chester

1611

89A. Unserviceable stores on equipment ledger charge of a unit may, under proper authority, be sold locally, to save the expense involved in transporting them to the nearest Army Ordnance Depôt. Stores so sold should be written off charge in the equipment account by certificate voucher on Army Form P 1957. The Paymaster to whom the amounts realised have been paid should duly certify this voucher, and the Chief Ordnance Officer of the district should approve it, before the stores are delivered to the purchasers.

Transfer of
stores from
one charge to
another.

90. No articles of equipment will be transferred from one equipment ledger charge to another except as allowed by regulation, or under authority of the General Officer Commanding, obtained through the chief ordnance officer. Such transfers will be reported to the War Office, and supported in the accounts by vouchers upon which the authority for the transfer should be quoted. When either of the officers concerned desires that an ordnance officer should be present at the transfer, one will be directed to attend, if available, on application. The above does not refer to transfers of equipment from one commanding officer to another on a change of command, which are governed by paragraph 11, or to transfers of submarine mining equipment between the store and vessel ledgers (Army Books 247 and 19).

Custody of
arms and
accoutre-
ments of
army
reserve.

91. Officers commanding regimental districts will be held responsible for the care and safe custody of such arms and accoutrements as may be kept in store at regimental depôts for issue to the army reserve. These stores will not under any circumstances be taken into use without previous authority from the War Office; and will be accounted for in separate columns of the equipment ledger under the head of "reserve." (See paras. 327-9.)

DP. arms
and arms for
aiming
tubes.

92. The unserviceable arms issued for drill purposes will be accounted for in the equipment ledgers, in a separate column, headed "rifles (or "carbines), D.P.," and the arms for aiming tubes in a separate column, headed "rifles (or "carbines), for aiming tubes only."

Equipment
accounts of
detach-
ments.

93. Officers commanding the following detachments will become direct accountants for their equipment. On the formation of a

detachment, a new account will be opened, and the equipment taken on charge by voucher from, the unit or units furnishing the men. The General Officer Commanding will report to the War Office the circumstances rendering the opening of a fresh account necessary :—

(a.) *Dépôts* of cavalry regiments in the colonies and Egypt. Cavalry *dépôts*.
(b.) Detachments left behind in quarters by units proceeding on active service. In such cases the equipment of each detachment will be accounted for in a separate ledger, whether the detachments remain independent, are attached to units, or are formed into provisional battalions, except only on the absorption of a detachment into its territorial *dépôt* or other unit, when the equipment will be transferred to the ledger of that *dépôt* or unit, as directed in Appendix I. The marking on the equipment of men left behind will not be altered unless they are permanently transferred. Detachments left behind.

(c.) Detachments serving abroad, and separated from their headquarters for lengthened periods, and by considerable distances. Detachments serving abroad.

(d.) Detachments of Royal Engineers, serving abroad belonging to companies serving at home, or *vice versa*, until the detachments rejoin their companies. Detachments of Royal Engineers serving at home, belonging to companies serving at home, will be governed by paragraph 37. Detachments of R. E.

(e.) Detachments of the Army Service Corps, Royal Army Medical Corps, and Army Ordnance Corps stationed abroad. Detachments of miscellaneous corps.

94. (Cancelled.)

95. A soldier, who by neglect or culpable mismanagement, loses or damages any article of his personal equipment, will be charged as follows :— Charges for loss or damage to personal equipment.

(a) *Repairable damage* :—

Actual cost of repair, including both wages and materials or components. As regards small arms, the charges will be in accordance with the scale laid down in Regulations for Army Ordnance Service, except that barrels slightly rusted inside will be thoroughly cleaned by the armourer-serjeant at a charge of 4*d.* each.

(b) *Loss or damage beyond repair* :—

The proportionate value of the article for the unexpired period of duration, provided that, (1) the maximum charge for any one arm shall not exceed 40*s.*, unless the soldier has been sentenced by court martial to pay a higher amount, (2) and the minimum charge shall not in any case be reduced below one quarter of the full value of the article, even though it has been in use for the full period of duration.

Twelve years will be taken as the period of duration for any article for which no period has been laid down; and the unexpired period will be calculated in half-years, any period of less than six months being charged against the soldier as a full half-year. The rates upon which the calculations will be made are those laid down in the priced vocabulary of stores.

96. Culpable repairable damage to equipment, other than personal equipment in possession of a soldier, will be charged for as in paragraph 95 (a). Charges for such equipment when culpably lost or damaged beyond repair will be made as in paragraph 95 (b) if Charges for culpable repairable damage to other than personal equipment.

Cavalry *dépôts*.
Detachments left behind.

Detachments serving abroad.
Detachments of R. E.

Detachments of miscellaneous corps.

9914

the proportionate value can be estimated or ascertained; if not, the full value will be charged. Any evidence as to the proportionate value will be recorded in the proceedings of the court of inquiry or other authority which investigates the loss.

Charges for deficient camp equipment will be assessed as directed in paragraph 219A.

Authority
for charges
on account
of equip-
ment.

98. The authority of the chief ordnance officer will be sufficient for any charge in the pay lists on account of equipment. When officers against whom claims are made have no cash account with the War Office, payment will be made by them to the district paymaster.

Losses
through
desertion.

99. When articles are ascertained to have been lost by desertion they will be struck off charge on Army Form P 1925, supported by a certified copy of the proceedings of the court of inquiry (Army Form B 115), held under Section 72 of the Army Act.

Articles
brought
back on a
deserter
rejoining.
Articles
deficient on
deserter
rejoining.

100. If, on rejoining, a deserter is in possession of any of the articles found deficient on his desertion, these articles will be taken on charge in the equipment ledger.

101. On a deserter rejoining, and being sentenced by court martial, or ordered by the competent military authority dispensing with the trial to be placed under stoppages for the value of any articles found deficient on desertion, such articles will be retaken on charge and struck off again as deficiencies on Army Form P 1925, showing where credit will be found, in accordance with paragraph 102.

Returns of
stoppages.

102. At the end of each month a return will be prepared on Army Form P 1963, showing the names of, and the amounts recoverable from, any soldiers liable to make good the cost of replacing or repairing articles of equipment under paragraphs 95 to 101. The stoppage returns will be made out by squadrons, batteries, or companies. In the cavalry and infantry the amount due from each squadron or company will appear in regimental orders for the month in which the stoppages are recoverable from the soldier, and will be credited in the pay list for the month, the returns being annexed as vouchers.

Losses
through
glandered
horses.

103. The order sanctioning the shooting of a glandered horse will be quoted as the authority for striking off charge portions of harness or saddlery destroyed in order to prevent infection.

Articles
locally
accounted
for,
supplies to
the general
staff.
Boats,
barges, &c.

104. The undermentioned articles will not be brought into equipment ledgers, or accounts of artillery works, or positions:—

(a.) Articles supplied to the general staff for local use, except camp equipment, which will be accounted for to the Army Ordnance Department as laid down in paragraph 219.

(b.) Boats, barges, launches and their appurtenances, which will be accounted for in the local transport equipment ledger (Army Book 165).

Barrack
stores.
Disinfectants

(c.) Barrack stores not forming part of the fixed equipment of the Royal Artillery or other corps, or issued by the Army Ordnance Department for use in camps. Also disinfectants.

Candles, oil,
and wick.

(d.) Candles, oil, and wick for magazine lanterns and signalling lamps. (These are obtained from the Army Service Corps.)

Books,
lithographs,
&c.

106. Official books, printed records, lithographs, and maps obtained from the Army Ordnance Department, except the hand books included in corps details, will not be brought on charge in

the artillery store accounts or equipment ledgers, but accurate lists thereof will be kept.

107. Accountants to the War Office will furnish with their periodical accounts a certificate that the list or catalogue alluded to in paragraph 106 has been verified and corrected to date, that deficiencies through loss or otherwise have been reported to the War Office, and that the authority for striking such deficiencies off the list has been noted thereon. Certificate as to their correctness to be furnished.

108. On changes of heads of departments, staff officers, or commanding officers, the officer assuming charge will verify the lists and report any deficiencies. On change of command.

SECTION III.—ARMS, ACCOUTREMENTS, AND ARM CHESTS.

I.—GENERAL SUPPLY OF ARMS AND ACCOUTREMENTS.

109. The arms and accoutrements supplied by the War Department to the regular forces consist of the articles given in the details for the respective services in Part 2. Details of.

110. Units will always have, during peace, arms and accoutrements for their full peace establishment. Establishment kept up.

111. Arms and accoutrements being regimentally marked may not be transferred from one unit to another, except in time of war, and as directed in paras. 127 and 129. Transfer prohibited. 54

112. *Extra service* arms, water bottles, and other accoutrements will be supplied in excess of regulated establishments to accounting units temporarily augmented. Arms so issued, being specially marked will not be taken abroad if supplied at home, and if supplied at stations abroad they will be returned into store before the corps leaves the station, unless it may be necessary to send them away with armed drafts, in which case, a return of the number of arms sent away and of their marking will be at once made by the commanding officer to the Army Ordnance Department. These arms will be shown in returns and accounts as "extra service" arms, and will be given into store when the strength is reduced to the proper establishment, unless they are likely to be required again within a reasonable period. Engrs. 9951
Supply of extra service arms and accoutrements.

113. *Drill purpose* arms at the rate of 50 per battalion of infantry will be issued on demand, at home stations, as they become available, to officers commanding, for the use of recruits. They will be supplied in the manner laid down for extra service arms; and on a regiment receiving orders to leave its station, officers commanding will make application to the chief ordnance officer for the return to store of the arms or transfer to the relieving battalion, as may be directed. These arms will not be used for ball firing, and no charges for damages will be made, except for such as are manifestly wilful. D.P. arms for use of recruits.

113A. The practice swords supplied in conformity with the barrack schedules will invariably be used (with the service scabbards) by recruits and young soldiers at drill, mounted or dis- Practice swords.

mounted, instead of their service swords; also by all soldiers at "sword post practice," etc., and at competitions and practices in which swords are liable to strike each other.

Butt-swivels
for rifles.

114. When Magazine Lee-Metford rifles Mark I* are supplied to rifle battalions and mounted infantry, a butt-swivel will be issued for each arm, to be screwed in by the armourer serjeant. All other magazine rifles have swivels screwed in before issue.

Examination
of arms on
return from
service
abroad.

115. All the arms in possession of troops returning from service abroad, except from India, will be examined, as soon after arrival as possible, by a viewer specially detailed for that duty by the chief inspector of small arms. An application for the services of a viewer for this purpose will be made by the commanding officer of the corps concerned, through the General Officer Commanding.

Duties of
viewer.

116. The viewer will report specially on the condition of the arms as regards their fitness for service, stating what repairs are necessary, and to what extent such repairs can be carried out regimentally. He will also report whether the damages to the arms have been caused by neglect, or by fair wear and tear, due to exceptional service, or to the effects of climate.

Reports
relating to
rifles.

117. In all reports relating to rifles, the number of the arm and the name of the factory at which it was manufactured will be stated. The number of the rifle and the name of the factory will be found stamped on the body.

II.—SUPPLY (INCLUDING AMMUNITION) FOR TROOPS ON BOARD SHIP.

Notification
of troops
about to
embark.

118. When the General Officer Commanding a district is apprised by the War Office of the strength of the units or detachments intended to embark for service abroad, otherwise than for India, on board a vessel starting from a port in his command, which may subsequently call for some of these troops at other ports at home, he will notify all particulars to the chief ordnance officer.

C.O.O. to
place on
board the
arms,
accoutre-
ments, &c.,
for drafts.

119. The chief ordnance officer will cause the arms, accoutrements, ammunition, and other stores, in the prescribed proportions, to be placed on board, whether the whole of the troops embark at the original port of embarkation, or portions are subsequently to be taken in at other ports, and whether the troops are stationed in his district, or in any other part of the United Kingdom. The destination of the vessel will be stated in the issue voucher.

54
Gendr. Gds

12
A. O.

140
— 1900
Ammunition,
and
magazine.

120. A supply of service ammunition at the rate of 200 rounds for each rifle or carbine, unless otherwise specially ordered, will be put on board the ship by the chief ordnance officer at the first port of embarkation, and a proper magazine will be provided for its security. In the case of units, requisitions will be put forward for this ammunition in the usual manner on the local ordnance officer, who will forward them to the chief ordnance officer at the first port of embarkation. Before the ship sails commanding officers will ascertain that the ammunition to accompany the troops has been put on board, and properly secured in the magazine.

121. When unarmed drafts embark to join regiments abroad, stationed elsewhere than in India, or when they are proceeding to India in freight ships, or when transport is provided for troops abroad, except in the case of invalids and time-expired men, the chief ordnance officer at the port of embarkation will issue to the officer commanding, for their exercise during the voyage, arms and accoutrements, in the proportion of 10 per cent. of the strength, together with 60 rounds of service ammunition for each rifle, for use in case of emergency, and one pair of handcuffs for every 100 men. The accoutrements will consist of a waist belt, a frog, and an ammunition pouch. A bugle will be placed on board all vessels carrying either armed or unarmed drafts only. The following articles will also be placed on board each transport for recreation purposes :—

Clubs, infantry, No. 2, 4 sets ;
Dumb-bells, short, 10 lbs., Mark I, 12 sets ;
Boxing gloves, Bryan's Champion, 14 to 16 ozs., 4 pairs.
Bars, horizontal, 1.

The officer commanding the troops on board will be responsible for the care and preservation of the arms issued under this paragraph. A sufficient supply of oil and cleaning materials for the voyage will be placed on board with the arms. The following proportions are sufficient for six months :—

18 pints rifle oil	} per 100 arms.
31 yards flannelette	
2 pullthroughs	

122. When arms are thus issued for drafts proceeding to India in freight ships or transports, repayment vouchers will be put forward in order that their value may be claimed from the Government of India.

122A. A supply of arms will be kept throughout the season on board all transports when employed on Indian trooping service. The General Officer commanding the Southern District will arrange for the shipment, and for the return of the arms to the Army Ordnance Department at the end of the season, to be held on charge for India for re-issue.

122B. Intrenching implements for one battalion of infantry will be packed in cases and together with 200 rounds of .303 small arm ammunition per man will be placed on board all ships conveying troops to or from India, for the equipment of units in the event of their being diverted on the voyage and landed elsewhere. These stores will be placed in charge of the master of the ship, and will be returned to store by him if not issued to the troops at the end of the trooping season. He will give a receipt to, and receive a voucher from, the Army Ordnance Officer who ships them and will in the same way obtain a receipt from that officer on giving them into store, or from the officer commanding the battalion if issued on emergency.

123. All issues of arms, accoutrements, ammunition, and other stores for drafts under the foregoing orders, will be accounted for as directed in the King's Regulations.

III.—SUPPLY FOR ROYAL ARTILLERY AND ROYAL ENGINEER STAFF CLERKS AND MILITARY POLICE, &c.

Demanding
and account-
ing.

124. The arms, accoutrements, and ammunition for Royal Artillery and Royal Engineer staff clerks and for serjeant instructors of gymnasia, at the several stations and districts will be demanded and accounted for by the staff (or other) officer under whom they are serving. Equipment for staff clerks in Royal Engineer offices, military foremen of works, and military telegraphists, will be demanded and accounted for by commanding Royal Engineers, except in the case of the Superintendent of Building Works, Royal Arsenal, Woolwich, who will be a direct accountant for the equipment of the staff under his orders.

On change of
station.

125. When a Royal Engineer staff clerk, military foreman of works, military mechanist, or military telegraphist of the rank of quartermaster-serjeant, moves from one station to another, he will take his arms and accoutrements with him, care being taken that receipt and issue vouchers are sent by the accountant to the station to which the warrant or non-commissioned officer is proceeding. In the event of the arms and accoutrements being surplus in consequence of a Royal Engineer staff clerk, military foreman of works, or military mechanist becoming non-effective, they will be returned to the nearest ordnance dépôt.

In the case of Royal Artillery staff clerks, the arms and accoutrements are held on charge by the officer commanding the company to which they are attached, except in the Scottish, North-Eastern, and Home Districts, where the officer commanding district establishments will be the accountant.

Equipment
of military
police.

126. The equipment of the military mounted and foot police will be demanded and accounted for by the provost-marshal, Aldershot.

IV.—SUPPLY FOR ROYAL ENGINEERS (EXCEPT THOSE DEALT WITH UNDER PARAGRAPHS 124-125), ARMY SERVICE CORPS (AND STAFF CLERKS ATTACHED THERETO); ROYAL ARMY MEDICAL CORPS, ARMY ORDNANCE CORPS; AND ARMY PAY CORPS.

54
Engineers
9951
and
A.O. 204
of 1900

Royal
Engineers.

127. The arms and accoutrements of dismounted men of the Royal Engineers, except carbines of men armed with that weapon, will be transferred from unit to unit and from station to station with the men, by regular voucher, from one accountant to another.* The arms and accoutrements, however, of mounted men, and the carbines of dismounted men armed with that weapon, will not be transferred with the men but will remain in charge of the several units.

Charge of
mounted
portion and
station staff,
A.S.C.

128. With the exception of those for warrant officers, the arms and accoutrements of the mounted men of the Army Service Corps, and those of the mounted station staff, will remain on charge of the companies and stations respectively, and will not be transferred with the men. Those of the station staff will be accounted for by the dépôt, or by one of the mounted companies at the station.

* These instructions will not apply to men proceeding to India.

129. The arms and accoutrements of all warrant officers of the Army Service Corps, and of the dismounted portion of the Army Service Corps, including any staff clerks attached thereto, also those of the Royal Army Medical Corps and Army Ordnance Corps, will, in all changes of station, be taken with the warrant officers, non-commissioned officers, and men, and will, except as provided in paragraph 130, be transferred by regular voucher from one accountant to another. A reasonable supply will always be retained in store at the depôt, Royal Army Medical Corps, Aldershot, for issue to recruits.

130. All surplus arms and accoutrements of the dismounted men of the Royal Engineers, the dismounted portion Army Service Corps, the Royal Army Medical Corps, and the Army Ordnance Corps, caused by men becoming non-effective, &c., will, except as provided in paragraph 131, be transmitted "in transit" through the Army Ordnance Department, as follows :—

Royal Engineers, to "G" depôt company at Chatham.
 Army Service Corps, to depôt at Aldershot (18 Co. A.S.C.).
 Royal Army Medical Corps, to depôt at Aldershot.
 Army Ordnance Corps, to depôt at Woolwich.

The articles will be charged by voucher direct to the depôt, and the consigner will be held responsible that they are properly packed, and the arms sufficiently protected by "composition preserving arms" (to be obtained, if necessary, from the Army Ordnance Department), in order to prevent damage by rust in the event of any delay in transit occurring.

131. At stations abroad, officers commanding detachments will not send home the surplus arms and accoutrements if there is a probability of vacancies being filled up locally in the departmental corps by volunteers from the garrisons, to whom the arms and accoutrements could be issued on the spot.

132. The arms and accoutrements of the Army Pay Corps will be demanded and accounted for by the paymaster under whom the men are serving, and will be dealt with as directed in paragraph 125.

In the case of a promotion necessitating a change of arms and accoutrements, the change will be carried out locally.

Warrant officers and unmounted portion of A.S. corps of R.A.M. corps and A.O. corps on change of station.

Surplus arms and accoutrements.

Corps. Stations abroad.

Arms, &c., of Army Pay Corps.

54
A.P.C.
348

V.—SUPPLY OF ARTICLES FOR MUSKETRY INSTRUCTION.

138. Articles for musketry instruction will be supplied in the undermentioned proportions; as at A to regiments of cavalry, battalions of infantry, regimental districts, the Army Service Corps at Aldershot, Devonport, and Woolwich, and the depôt Royal Army Medical Corps at Aldershot; and as at B to cavalry depôts of regiments in the colonies, units of Royal Engineers, and the depôt Army Ordnance Corps at Woolwich.

	{ M.L.M. (patt. D.)	...	4	..	4

Return to
store.

These articles will be accounted for as equipment and returned into store upon embarkation for active service.

VI.—SUPPLY OF ARM CHESTS.

Supply and
repair of
arm chests.

139. Regimental arm chests or cases, with hinges, suitable for the packing of rifles and carbines, are issued by the Army Ordnance Department for use during peace as ordinary equipment, at the rate of one chest or two cases for each company of garrison artillery, unit of Royal Engineers, and company of infantry, and two chests or four cases for each squadron of cavalry. The cost of the repair of the chests or cases will be defrayed in the manner laid down in the Allowance Regulations. These packages will only be supplied to the above-mentioned services, and the chests will be returned to store prior to embarkation to India, and cases drawn as required.

SECTION IV.—REGIMENTAL TRANSPORT.

Regimental

865

On change
of quarters.

To be kept
efficient.

Jersey 16
865

As to repair.

Materials for
repair.

Employment
private
desmen.

140. One complete set of regimental transport, as laid down in Section I, Part 2, Equipment Regulations, will be provided for each regular battalion of infantry at home (except for the battalion stationed in Jersey), and will be held on equipment ledger charge. Each set of regimental transport will be given a distinctive index number by which it will be referred to in all correspondence. In the event of a battalion permanently changing its station or barrack, the complete set of regimental transport, including shoeing tools, will be transferred to the relieving battalion. In case of delay in the relief of one battalion by another, the General Officer Commanding will arrange for the temporary custody of the regimental transport, and will direct the officer to whom it is handed over to take it on charge in his equipment account. These stores are issued for instruction in transport duties, but will be kept at all times fit for actual service. This transport may be temporarily detached from its station when required to accompany the battalion to camps, on manœuvres, &c., under instructions from the General Officer Commanding.

142. The equipment will be kept in repair by the regular artificers of the troops at the station, as the General Officer Commanding may direct, under paragraphs 319 and 320. Necessary materials for the repair of harness and saddlery in use with regimental transport will be supplied on demand, as actually required. When private tradesmen are employed, a certificate to that effect is required on the claim, which may be paid, subject to audit, without special reference to the War Office.

SECTION V.—MOBILIZATION EQUIPMENT.

142A. At certain stations the mobilization equipment will be in charge of the officer commanding, and accounted for at the end of the equipment ledger of the unit, pending mobilization.

Mobilization equipment at single unit stations.

The authorised scale of equipment is published from time to time in mobilization store tables (Army Form G 1098).

Officers commanding units, who have mobilization equipment in charge, are responsible that it is correct in every respect, and fit for service; that the instructions given in Regulations for Army Ordnance Services as to custody and arrangement of mobilization stores, are carried out with regard to it, and that, subject to the following exceptions, and to paragraph 142F, no portion of it is taken into use without the authority of the Secretary of State obtained through the general officer commanding.

Responsibility of officers for.

In the event of vehicles belonging to mobilization equipment in charge of batteries of Royal Artillery being temporarily and unavoidably required to replace peace equipment vehicles under repair or otherwise not available, or, in the event of small arm ammunition carts belonging to the mobilization equipment of units being necessarily required in the district for use on field days, or at manoeuvres and camps of instruction, the temporary issue of these vehicles may be sanctioned by the general officer commanding who is, in both cases, responsible that they are returned to store in a thoroughly serviceable condition when no longer required. Special articles of the technical equipment of Royal Engineer units, the fitness of which for service can only be verified and maintained by occasional use may be used, at the discretion of the officer commanding the unit, to insure that they are kept in a thoroughly serviceable condition and ready for immediate work, but their use is to be restricted to the purposes of the foregoing requirements, and they are to be kept quite separate from the peace equipment; a book is to be kept by the officer commanding the unit, in which is to be recorded a list of the stores tested and used, the character of the tests, the period for which the stores have been used, and the condition after testing or use. Special attention should be paid that the saddlery and harness is kept properly dubbed and in good condition.

Use of, during peace.

142B. The mobilization equipment in charge of units will be kept entirely separate from the equipment of the peace establishment; and on a unit quitting the station this equipment will, in the absence of an order to the contrary, be handed over to the officer commanding the relieving unit.

Disposition, care, and custody of mobilization equipment.

142C. Mobilization store tables of the latest editions will be kept with the equipment of units, and officers commanding units, whose mobilization equipment is in charge of the Army Ordnance Department, will always have copies of these tables in possession.

Mobilization store tables.

142D. On mobilization being ordered, the store table will be the guide as regards the articles of ordnance equipment which a unit takes with it into the field. It is, therefore, of great importance that not only the mobilization equipment of units, but also such

Equipment to be kept serviceable.

Commanding officers to check mobilization equipment in A.O.D. charge.

of their peace equipment as is, according to the store table, required for war, should be at all times complete and serviceable.

142E. When mobilization equipment is in charge of the Army Ordnance Department at or near the station of the unit, the commanding officer will inspect and check the equipment for his unit within one month of arrival at the station, and subsequently once annually, and satisfy himself that it is complete and serviceable. Should any serious omissions or imperfections exist, he will at once report them to the General Officer Commanding the district.

Commanding officers will arrange the date for these inspections with the chief ordnance officer of the district.

Date of inspection to be stated.

142F. Officers commanding units having mobilization equipment in charge, and those who are able to inspect their mobilization equipment in Army Ordnance Department charge, will attach a certificate to Army Form B 89 or 90, which is rendered half-yearly, stating the date on which they last inspected the equipment.

Mobilization equipment to be drawn annually for packing inspection, &c.

38407

Eqpt.

1958

Once in each year the mobilization equipment in charge of units (except ammunition), and where circumstances admit of it, the mobilization equipment held for units by the Army Ordnance Department, will be drawn by them, and be retained for a period of about one week. During this period each unit will be practised in packing its vehicles, the whole war outfit being completed, as far as is practicable. Empty cases or dummies will be used on these occasions to represent any articles which are not available in the district.

At the end of the week, the unit will perform a route march with its transport packed as for service, if arrangements can be made for horsing the vehicles; the horses and harness of other units in the command being utilized for this purpose. Harness and saddlery stored as mobilization equipment is not to be used during peace.

Replacing articles on peace charge from mobilization stores.

142G. When new articles are required to replace unserviceable articles in the peace equipment of the unit, requisitions should be forwarded to the army ordnance department in the usual manner, but it should be stated thereon which of the articles demanded can be supplied from the mobilization equipment on charge of the unit. The chief ordnance officer will arrange for these articles being marked with the date of issue before transfer to peace equipment takes place, and no stores should be so transferred until similar articles from ordnance depôts are actually on the spot to replace them.

Turnover of gun ammunition in Horse and Field Artillery.

142H. The "turnover" of B.L. 15-pr. and 12-pr. ammunition stored in ammunition park, ammunition column, and battery equipments at home should be carried out on the following lines, to ensure the expenditure of ammunition of the oldest date of manufacture. Under existing arrangements supplies of ammunition are made from Woolwich, on demand, to stations termed distributing depôts in the following districts, viz.:—Aldershot, Curragh, Cork, Eastern, Home, Southern and Thames, from which supplies are drawn to fill up columns and batteries in other districts as laid down in special instructions which have been promulgated. Chief ordnance officers of the districts in which the distributing stations are situated will be held responsible that ammunition of the oldest date of manufacture is issued from the ammunition parks and

columns to the batteries or districts which they supply, and that, as far as possible, newer ammunition, to replace such withdrawals, is available in the command before the columns or parks are depleted. In the event of supplies not having been received the issues to batteries or districts should not be delayed. Further instructions will be issued from time to time regarding necessary changes in the details of the system, and in the event of the supply of new ammunition failing to arrive in sufficient time to admit of simultaneous withdrawal from, and replacement in, the stores of any unit, a special report of the deficiencies will be made to the principal ordnance officer.

142i. When the Secretary of State sanctions the transfer of mobilization stores from Army Ordnance Department charge to the custody of a unit the officer commanding the unit will be responsible that the stores are arranged in accordance with the regulations (*see* para. 142A), and will, if necessary, apply to the chief ordnance officer for skilled departmental labour for carrying out the service in the first instance.

When mobilization equipment is handed over to a relieving unit, vouchers will be passed in the usual way, and should any discrepancies exist, full explanation of each will be afforded by the officer commanding the outgoing unit.

Harness and saddlery in possession of units as mobilization equipment will be inspected once in every three years by the Chief Inspector of General Stores, and all vehicles and spare wheels once in every two years by the Chief Inspector, Woolwich. A permanent record will be kept painted on a board to be hung up inside the storehouse, showing the dates upon which the inspections were made.

142j. The Instructions for the preservation of harness and saddlery, given in Regulations for Army Ordnance Services, will be followed for the harness and saddlery of mobilization equipment.

Cleaning materials, according to the following scale will be allowed for this purpose :—

				Annual proportion for each.		
				10 sets of harness (double).	10 sets of saddlery.	10 sets of pack- saddlery.
Camphor or Naphthaline*	..	ozs.	5	5	2½	4
Dubbing		lbs.	2	2	1	1
Linen, old		"	1	1	½	½
Oil, rape		qts.	2	2	½	½
Tallow†		lbs.	½	½	¼	—

* For pannels, saddle blankets, and numnahs.

† For officers' saddlery; seats and flaps of saddles; buckets, carbine, and lance at the times specified in the Regulations for Army Ordnance Services.

142k. When horse collars are stored with harness in mobilization equipment charge, the sizes of the same should be in the following proportions for the services named :—

(Eq. F.)

c

Service.	Sizes and proportion per 100 collars.								
	21 in.	21½ in.	22 in.	22½ in.	23 in.	23½ in.	24 in.	24½ in.	25 in.
Royal Engineers	6	20	20	22	20	7	3	1	1
Army Service Corps and regimental transport of cavalry and infantry	2	20	20	24	15	8	7	3	1

142L. The proportion of sizes, &c., of various articles of harness and saddlery for use with registered horses on mobilization—with instructions relating thereto—are detailed in Appendix VIIIA.

142M. Spare articles on peace charge, if liable to be expended during peace are not to be regarded as being available on mobilization.

142N. Inventory forms (Army Form G 1096 series containing printed lists of components, accessories, &c.) will during peace be pasted on one side of inventory boards issued with vehicles allotted to units as war equipment.

Material for cleaning and preservation not to be used until arrival of concentration.

142O. Material held on mobilization charge for cleaning and preservation of war equipment will not be taken into use until units arrive at their place of concentration, previous to which period their requirements will be met as follows. Units existing in peace will use up the balance of their peace supply. Units that do not exist in peace (or units not having a sufficient balance of their peace supply) will be provided for on the peace scale under the authority of the General Officer commanding.

142P. With every set of horse shoes, sixty nails will be stored for use on active service.

38407

Eqmpt.

1998

SECTION VI.—MACHINE GUNS.

143. Machine guns —

- (i.) Will be issued to stations at home and abroad to form part of the armament available for general or local defence. In cases where these guns would be liable to deterioration if left mounted, they should be kept in their chests in store, ready for immediate use.
- (ii.) Will be issued to regiments of cavalry, machine gun sections of mounted infantry, and battalions of infantry—(regulars, militia, and volunteers)—who will account for them in the regimental equipment ledgers. On relief, they will be handed over by the outgoing, to the incoming unit, issue and receipt vouchers being passed in the usual manner.

54

Machine
Guns.

660

144. Maxim machine guns in possession of regiments of cavalry, sections of mounted infantry, and infantry battalions, as part of their regimental equipment, will be provided with four barrels, viz. :—

- (i.) One in use, serviceable, to be returned to store on mobilization,
- (ii.) One old, or unserviceable marked "D.P." for drill purposes, or blank firing only, to be returned to store on mobilization.*
- (iii.) One new, spare, in regimental charge, to be taken into use on mobilization.
- (iv.) One new, spare, to be held in mobilization store, to accompany the unit as the spare barrel on mobilization.

145. To ensure that all machine guns are kept in readiness for immediate service, they will be examined at least once a month. (except boxed guns, which should be examined quarterly) by a competent armourer-serjeant or armament-artificer who has been through a course of machine guns at Enfield Lock, and any repairs necessary, which can be done locally, will be carried out. Should there be no armourer-serjeant or qualified armament artificer at the station, the service will be carried out under arrangements to be made by the General Officer commanding the district. An examination will be made after every occasion on which practice is carried out, and before the guns are replaced in their cases.

145A. To facilitate the examination, &c., each armourer-serjeant and armament-artificer will be supplied with 3 dummy cartridges of each nature of machine gun under his charge.

146. When officers commanding units of cavalry, garrison artillery, and infantry, and sections of mounted infantry, in possession of machine guns of 303-inch calibre, find that the shooting of any gun falls off, and that the barrel appears worn, a diagram of 10 shots will be taken at 500 yards (three shots being first fired as trial shots in order to give the barrel a chance of settling down); and if the figure of merit exceeds 1.50 feet for 500 yards, they will at once have the gun stripped by an armourer-serjeant or qualified armament-artificer, and the doubtful barrel replaced by a new one.

146A. When any part, other than a spare part, of a machine gun mounting (cone, parapet, field, or tripod) becomes unserviceable, the part should, if possible, be replaced by one of local manufacture. In fitting the part to the mounting the latter should not be altered.

147. At home stations, when a gun or mounting requires more repair than can be carried out locally, or a barrel has been withdrawn under paragraph 146, it will be sent in the case of the gun and barrel, cone, and parapet mountings, by the most economical route, either direct, or through the Principal Ordnance Officer, Woolwich, to the Chief Inspector of Small Arms, Enfield, and in the case of a field carriage or tripod, to the Principal Ordnance Officer, Woolwich, for necessary repairs to be carried out.

The arrangements for despatch will be made by the chief ordnance officer of the district, to whom all applications will be addressed.

* These will be supplied as they become available.

Vouchers will be passed to the Principal Ordnance Officer, Woolwich, under all circumstances, notifying when and by what route the guns, mountings, &c., have been sent.

The re-issue of guns, &c., will be conducted on the same principles.

Examina-
tion by
viewer.

148. If found to be necessary, a viewer can be sent to examine guns at home stations, on application being made to the Chief Inspector of Small Arms, through the chief ordnance officer of the district concerned.

Memoran-
dum of ex-
amination.

148A. A memorandum of examination, or history sheet, will accompany each machine gun, when issued for service. It will be kept in a paper pocket in the gun chest; it will be carefully preserved, and will be handed over with the gun to which it relates, whenever the latter is transferred from the charge of one officer to that of another. An immediate record will be made thereon of any accident which may occur to the gun, and the result of each official examination which it may undergo. On every occasion on which the gun is fired, the number of rounds will be inserted.

Targets to
be used.

148B. When practice, either by Royal Artillery, or infantry using armament machine guns, is carried out from works on sea fronts, the artillery floating target will be used, and it will be moored by the Royal Artillery boat's crew in the usual manner. For practice on land the artillery 6-ft. fir target will be used.

Spare parts.

149. Spare parts and tools are issued (in a box) with each machine gun. The parts issued with the gun should be used until actually unserviceable, when the spare articles should be taken into use, and the unserviceable returned to store, demands being at once put forward to replace them.

Materials
for cleaning
and oiling.

150. Materials for cleaning and oiling machine guns and their carriages will be supplied in the following proportions:—

		For each Nordenfelt 3-barrel, and Gardner 2-barrel gun and carriage per annum. — Peace only.	For Maxim gun and mounting, per annum. — Peace only.	For each machine gun and carriage three months' supply. — War only.
	Flannelette .. in.	54	54	13½
	Linen, old .. lbs.	3	3	¾
	Oil { paraffin, light .. pts.	½	½	¾
54	Oil { Rangoon .. "	4	6	1½
Mac. Guns	Mineral jelly .. lbs.	2½	2½	1
575	Turpentine, spirits of .. pts.	1	1	¾
	Beeswax .. lbs.	¼	¼	—
	Paraffin .. "	¼	¼	—
	Chalk, white .. ozs.	2	2	—
	Oil, Rangoon .. pts.	¾	¾	—

The following will be allowed to each store in which machine guns are kept or dealt with :—

Flannel (old blanket is very effective)		1 square yard.
Wick, common*		8 ozs.
Twisted copper wire		1 rod, 42 inches long, of wire 0.1 inch diameter, in a double twist.

150A. One "screen, artillery, manœuvre" will be supplied on demand to each regiment of cavalry or battalion of infantry. This screen will be accounted for in the equipment ledger of the unit. "Screen. artillery, manœuvre"

SECTION VII.—AMMUNITION.

I.—SERVICE SMALL-ARM AMMUNITION.

151. Service small-arm ball ammunition will be supplied in time of peace at the rates laid down for the various services in Part II of the Equipment Regulations, and should always be in possession of the troops, except when returned into store as directed in paragraphs 60 and 64.

On mobilization the quantities will be increased by the addition of those laid down as the regimental reserve for war. The latter quantities will, in the case of Field Army units, be held with their mobilization equipment, and, for other units, will be taken from the reserves held on Army Ordnance Department charge in the district in which the unit mobilizes, issued to it at the place of mobilization, and taken to the place of concentration. If, however, the place of concentration is in the district in which the unit mobilizes, this issue of ammunition may be arranged for at such station as the General Officer commanding may direct. Increase on mobilization.

The place of storage in peace, and any detailed arrangements for supply to the troops on mobilization, will be laid down in the local mobilization orders and defence schemes. Storage.

All units will be kept informed in peace of these arrangements so far as they themselves are concerned.

152. In cases of emergency the ordinary supply of service ammunition can be increased to such additional quantity as the General Officer Commanding may consider necessary. Extra supply in cases of emergency.

* Aa Army Service Corps supply.

- Custody.** 153. All service ammunition that is not in actual use will be kept in the regimental magazines, in charge of the quartermaster.
- Return to store of extra supply.** 154. Extra issues of ammunition remaining unexpended will be returned to the Army Ordnance Department on the termination of the service that necessitated the supply.
- Requisitions.** 155. Application for service ammunition will be made on Army Form G 815.
- Expense vouchers.** 156. The expense voucher by which service ammunition is struck off charge must refer to the circumstances and authority (if any) under which the expenditure took place.
- Ammunition longest in hand to be expended first.** 157. The cartridges that have been longest in the hands of the troops are to be expended first. Service ammunition issued to men mounting guard, &c., is not to be allowed to remain in the pouches, but is to be used at musketry practice before any unbroken packages are touched. The ammunition from boxes which have been opened will be completely used up before other boxes are opened, and the tin linings are not to be disturbed until the ammunition is actually required for use.
- Opened boxes to be completely used up.**

157A. Pistol ammunition will be allowed in accordance with the following scale for officers proceeding on active service :—

Branch of the Service to which attached.	Number of rounds per officer.
Cavalry	36
Royal Artillery	24
Royal Engineers (other than Railway Company) ..	36
Railway Company, R.E.	12
Mounted Infantry	36
Infantry	36
Army Service Corps	24
Army Ordnance Corps and other officers not specified above	12

II.—SMALL-ARM AMMUNITION FOR PRACTICE AND EXERCISE.

- Proportions of small-arm ammunition for practice and exercises** 159. Units may expend annually, in practice and exercise, the following quantities of ammunition for each officer and man exercised during the year through the courses prescribed for recruits and trained soldiers. These proportions of ammunition will, it is considered, be sufficient for all requirements, including those for testing rifles, and for funerals :—

38407
Equipmt.
2062

Corps.	Rounds.						
	For each trained soldier.	For each trained soldier. Rank and file only.			For each recruit (officer or man).		
		Ball.	Blank.	Cartridges, aiming tube.	Ball.	Blank.	Cartridges, aiming tube.
Cavalry	150	80	25*	200	20	25*	
Artillery	{ Garrison, including local companies of Royal Artillery Horse, field and mountain	20	20	25	20	20	...
		10	10	20	20	20	...
Engineers armed with	{ rifle ... carbine ...	80 50†	40 30	25* 25*	100 100	20 20	25* 25*
Infantry	...	200	40	25*	200	20	25*
„ reservists...	...	28†	...	...	...	...	...
Army Ordnance Corps	...	...	...	...	40†	20	...
Army Service Corps	...	30	...	25†	100	20	...
Royal Army Medical Corps	...	...	...	...	40	20	...
Mounted Infantry	...	20§	40§	...	...	...	...

In cases where the officer commanding desires the exchange, or where practice with aiming-tube cartridges cannot be carried out, ball or blank small-arm ammunition of equal value, according to the rates given in the priced vocabulary of stores, may be issued in lieu. Ten rounds of the allowance may be drawn for each recruit at such depôts as may demand it.

Any Engineer recruit or trained soldier who does not fire his trained soldier's course during the year, may draw 10 rounds for private practice and shooting matches in that year.

† This allowance is to be drawn by men stationed at head quarter stations of companies, and in Egypt and Gibraltar; at other stations blank or ball ammunition of an equivalent value according to the Priced Vocabulary of Stores, may be drawn.

§ In addition to the quantities drawn by men in their own battalions.

¶ The Field Troop are allowed 80 rounds per trained soldier.

Should a reservist make less than 40 points, a further 28 rounds may be drawn for a second practice.

160. Every soldier in the first year of his service may fire the proportions of ball, blank, and aiming tube ammunition allowed for a recruit, together with those allowed for the trained soldier. If a recruit of infantry or cavalry is put back for further training, the number of rounds already expended by him will not be deducted from the allowance, but will be allowed in addition thereto.

Quantities to be drawn in first year of service.

161. The following addition will be made to the above-mentioned proportions of ball ammunition:—

A additional allowance.

For field ~~guns~~, to be drawn only on the order of the general officer commanding a station or district—

Cavalry, regiment of 1,000 rounds

Infantry, battalion of 4,000

and the following to the proportion of blank ammunition:—

For training remounts:—

Royal Horse and Royal Field Artillery—10 rounds per remount, to be drawn by batteries when required.

Royal Engineers—400 rounds to be drawn by the field depôt.

Army Service Corps—1,780 rounds to be drawn by station staff as follows:—Aldershot, 540 rounds; Devonport, 480 rounds;

Woolwich, 480 rounds; Curragh, 140 rounds; Dublin, 140 rounds.

Allowance
of pistol
ammunition.

163. The annual allowance of ammunition for ~~practice and exercise~~ with pistols will be as follows :—

		Rounds per man.		
		Ball.		Blank.
		1st year.	Subsequent years.	Every year.
Officers, warrant officers, non-commissioned officers and men armed with pistols in time of war :—				
Cavalry (except drivers) and mounted infantry		100	50	20
Royal Artillery		100	50	10*
Royal Engineers		100	50	10*
Infantry (except drivers)		100	50	..
Drivers, regimental transport (cavalry and infantry)		100	50	10
Military Mounted Police		100	50	..
" Foot Police		100	50	..
Army Service Corps		100	50	10*
Army Ordnance Corps		100	50	..

* Officers of mounted branches only will draw blank ammunition.

Additional
supplies
of pistol
ammunition
on repayment.

164. Commanding officers are authorised, subject to the approval of the General Officer Commanding, to draw, on repayment, for each officer, to use with his own pistol, 36 rounds of pistol ammunition annually, should the state of the store admit of such issues being made. Under similar circumstances a further quantity may be obtained for the use of non-commissioned officers or men, not exceeding for infantry battalions 72 rounds, for cavalry regiments and batteries of Royal Horse and Royal Field Artillery 36 rounds per pistol on charge. The value of these supplies issued on repayment will be recovered as directed in paragraph 32.

104
Gen. No.
2870

165. Cancelled (see para. 171).

Ball ammunition
for officers.

166. Ball ammunition may be drawn at the rate of 50 rounds each for such regimental officers as may go through the course of "individual firing," but this ammunition will not be used for any other purpose.

167. (Now embodied in para. 159.)

Ammunition
for matches
on repayment.

168. The General Officer Commanding is authorised to sanction the issue on repayment of ammunition for matches, not exceeding 130 rounds for each competitor per annum; the issue of pistol ammunition being limited to those who, on service, would be armed with the revolver. The value of the ammunition will be recovered in the manner prescribed by paragraph 32.

168A. Units joining the Army Rifle Association may obtain 303 ammunition on repayment at half vocabulary rates provided

that the quantity so purchased by any one unit does not exceed 7 rounds per rifle or carbine on charge.

169. Aiming tube cartridges, required for ~~gallery or private~~ practice, may be drawn from the Army Ordnance Department on repayment, by quarterly requisitions.

Aiming-tube cartridges.

170. Non-commissioned officers and men to whom rifles or carbines are not issued as part of their equipment, when required to go through a course of musketry practice will do so with the arms of the unit to which they are attached.

N.C.O. and men not having rifles or carbines.

171. Requisitions for practice and exercise ammunition will be made on Army Form G 815, and should be sent to the chief ordnance officer in sufficient time to admit of the issue being made for the annual musketry practice laid down in the Regulations for Musketry Instruction. The quantities to be demanded in each year will be based on the number of men in or attached to a unit who it is anticipated will commence the annual musketry courses laid down in the Musketry Regulations.

Requisitions to be made annually.

172. The requisition will be made, although at the time the unit may be under orders to leave the district, *see* paragraph 173.

173. In the event of no issue of ammunition having been made prior to the unit leaving the station, the chief ordnance officer will, on the application of the commanding officer, return the requisition with a certificate thereon that no supply has been made upon it; he will also add a memorandum stating the quantity, if any, of service and other ammunition given into store (*see* paragraph 64). When the requisition has been in part complied with, the ordnance officer will furnish the commanding officer with a balance certificate on Army Form G 802 showing the amount remaining due to the corps.

When unit is under orders to move, Station from which to be drawn.

175. Any of the annual supply of ammunition which has not been drawn by the end of the musketry year for which it is allowed, will be forfeited. The last day of the musketry year will be the 31st December.

Ammunition forfeited.

Gen. No.
2870

III.—MACHINE GUN AMMUNITION.

Annual proportion for practice and exercise.

176. The annual proportions of ammunition for practice and exercises will be as follows:—

		Cartridges, machine gun.	
		Ball, for practice.	Blank.
		Per gun.	Per gun.
40116	For each unit of cavalry, mounted infantry, and infantry having machine guns actually in possession, not forming part of the armament of a station.		
7154	Cavalry and mounted infantry ...	1,100	} 1,000
	Infantry ...	1,700	
	For Stations. For each gun actually in possession, forming part of the armament (in the hands of Royal Artillery)		
	0.4 inch gun	340 * †	} 50 *
	Ditto ditto ... 303 inch gun	366 §	
	Ditto ditto ... 0.45 inch gun	290 * †	
	Ditto ditto (in the hands of infantry) 303 inch guns.	‡	‡

* The rounds drawn for the station are to be expended under the orders of the general officer commanding in training the troops at the station whether infantry or artillery.

† One complete box per two guns, to be taken from the ammunition of oldest date in charge as equipment of the guns.

‡ On infantry carriage only, as allowed for infantry units.

§ One complete box per three guns, to be taken from the ammunition of oldest date in charge as equipment of the guns.

IV.—GUN AMMUNITION FOR PRACTICE AND EXERCISE.

178. The proportion of gun ammunition for practice and exercise of the Royal Artillery, and instructions relating thereto, will be found in Part 2, Artillery Special Instructions and Details.

V.—BLANK AMMUNITION FOR REVIEWS AND FIELD DAYS.

Additional blank ammunition allowed for reviews and field days at special stations.

179. The undermentioned quantities of blank ammunition may be supplied annually on the authority of General Officers Commanding, for use at reviews, field days, and manœuvres, to units present on the 1st June in each year at the stations specified below.

When units arrive at a station after the 1st June, the General Officer Commanding at the new station will only sanction the issue of such quantity of ammunition within the annual allowance laid down for that station, as he may deem sufficient for the remainder of the year.

The issues may be made independently of the annual allowance of small-arm ammunition drawn under paragraph 159, and gun ammunition under Artillery Special Instructions and Details, Part 2.

	Blank Small Arm Ammunition. Rounds per man.	Blank Gun Ammunition. Rounds per field gun.

* Battalion of Guards only.

The above proportions of small-arm ammunition will be calculated on the number of men at each station on the 1st June in each year.

180. An allowance of blank ammunition, not exceeding 20 rounds per piece annually, will also be allowed for all guns and howitzers in the movable armament, except Q.-F. guns of a district at home or station abroad, for reviews, field days, &c.

181. Commanding officers will make requisitions on Army Form G 804 for the ammunition to be supplied under paragraph 179, and it will be issued as required to each corps.

182. Except as provided for by paragraphs 179 and 180, ammunition expended at inspections, reviews, or field days must be taken from that included in the annual allowance for practice and exercise.

VI.—CONVEYANCE OF AMMUNITION.

184. Neither gunpowder nor ammunition of any kind will be forwarded by, or to, any unit or ordnance dépôt until the officer forwarding the same is satisfied that the consignee is ready to receive it.

185. Whenever ammunition is conveyed in military wagons or carts, the loading will be performed by the troops, who will be held responsible for its correctness, as well as for the condition and suitability of the transport.

57
Salisbury
113
57
Shorncliffe
1643

Blank ammunition for movable armaments.

Form for requisitions.

For inspections, reviews, or field days to be taken from annual allowance.

Notice prior to forwarding ammunition.

Responsibility as to loading and condition of wagons.

Application
for military
transport.

186. When military transport is required by the Army Ordnance Department, the ordnance officer will apply for it to the officer commanding Army Service Corps, stating the nature and weight of the ammunition to be conveyed, and specifying, when transit by rail is necessary, the particular hour by which such ammunition must be delivered at the railway station. The officer commanding Army Service Corps will then notify to the ordnance officer at what hour the wagons will call at the ordnance dépôt for such ammunition.

Transport of
ammunition
from rail-
way.

187. The consignee will arrange in like manner with the officer commanding Army Service Corps at the station for the transport of the ammunition (after its arrival at the railway station) to its destination.

When horses
only are
applied for.

188. When horses only are required from the troops the application will state the number of wagons to go, the weight of ammunition to be conveyed, and the time the convoy should reach its destination. The officer commanding Army Service Corps will then send such horses as he may consider necessary, informing the ordnance officer when he may expect them at the dépôt.

Charge of
packages,
&c.

189. An officer or subordinate of the Army Ordnance Department will be in attendance at the dépôt, at the time appointed to hand over the packages, convoy notes, and any wadmiltits or other coverings that may be required, to the officer commanding the party, unless a conductor of the Army Ordnance Corps is appointed to accompany the convoy, which will invariably be the case whenever ammunition is forwarded by railway or other public conveyance. When a conductor is employed, he will be responsible for the ammunition, wadmiltits, or other coverings, and will retain the convoy notes. Convoy notes will be dealt with as laid down in paragraph 71.

Conductors
with con-
voys.

Receipt for
covering.

190. A receipt will be given by the officer in command of the party for any coverings supplied to him, and he will return them into store when no longer required.

Escorts, ap-
plication for
by consignee.

191. In the event of the orders existing in the district rendering a military escort necessary, the consignee will apply to the commanding officer for the escort, stating the day and hour when it will be required, and, unless the transport is provided by the troops, the number of wagons or carts to be escorted.

And by
consignee.

192. Should the ammunition be forwarded by railway, or water carriage, and the escort not accompany it, the consignee will make arrangements for the attendance of an escort, if required, to meet the ammunition on arrival, and conduct it to its destination.

Smoking
prohibited.

193. Officers in command of escorts will prohibit smoking near the wagons, and will see that none of the party have lucifer or other matches in their possession.

Military
consignees.

194. When ammunition is consigned to the troops, the officer who is the consignee will give to the conductor a receipt on the duplicate convoy note, and will be furnished by the conductor with the triplicate copy, which he will retain.

Hired trans-
port for con-
veyance to
troops.

195. Should it be necessary to hire wagons for the conveyance of ammunition when consigned to the troops, the arrangements will be made by the Army Service Corps on the application of the commanding officer.

196. In the conveyance of small quantities of small-arm ammunition by rail in the United Kingdom, to expedite issues to corps, and also to obviate the expense of the employment of powder vans, iron cylinders adapted for containing half and quarter barrels will be used. These cylinders will not, however, be required when the cartridges are packed in small-arm ammunition boxes.

Iron cylinders.

197. Commanding officers and others will, immediately on receiving these cylinders, empty and return them, with the spanners and bags supplied with them, to the ordnance officer at the station from which they were sent, using the same mode of conveyance as that by which they arrived.

To be returned at once by same mode of conveyance.

SECTION VIII.—HARNESS, SADDLERY, STABLE NECESSARIES, AND EQUITATION ARTICLES.

198. Saddlery will only be supplied at the public expense to officers provided with horses which are the property of the public; to officers belonging to field units, Royal Engineers; and to certain officers of Army Service Corps as shown in Part 2.

To whom supplied.

A.O. 160, 1900.

198A. Horse logs for use in conjunction with head ropes in billets on the line of march, will be demanded from the Army Ordnance Department, by officers commanding mounted units and returned to store on arrival at their destination.

Horse logs.

198B. When units ordered abroad are directed to take their harness and saddlery with them, it will be packed for shipment in corn or other suitable sacks (a four-bushel corn sack will hold one single set of harness or two sets of saddlery, except carbine buckets, which should be packed by themselves, 20 in a sack). Each sack should be marked in such a manner as will enable its contents to be easily identified on disembarkation, for this purpose three "brushes, sash, tool, No. 2" and three pounds of black paint per hundred sacks may be demanded.

Packing for Service Abroad.

The two sets of saddlery will be packed in the four-bushel corn sack in the following manner:—Detach numnah and stirrup irons. Loosen straps, so that wallets do not project beyond front arch. Fold numnah in four, and place it in hollow of seat between pommel and cantle. Wrap surcingle and strapping round. Lower the saddle front arch downwards into sack. Pack stirrup irons and bridle complete inside saddle together with, in the case of R.A. and A.S. Corps saddlery, traces. Place saddle blanket on top.

The second set will be packed in a similar manner, except that the saddle seat will be on opposite side of sack to first one.

199. Stable necessities, including nose bags, corn sacks, and corn bags, will be supplied on demand for all mounted services, for horses which are public property, in the proportions laid down in the several corps details, Part 2. For hired horses, when employed on the public service, there may be issued 1 horse brush, 1 curry comb, and 2 sponges for every two horses, and a nose bag for each horse.

Stable necessities.

Unserviceable stable necessities.

200. The stable necessities which are supplied annually need not, when unserviceable and replaced by fresh issues, be returned to store.

If unserviceable under the time allowed.

201. In the event of stable necessities becoming unserviceable before the expiration of the period of duration prescribed for them they must be replaced at the expense of the troops.

Pannels may be issued unstuffed.

202. Saddle pannels are, as a rule, issued stuffed, but should it be advisable at any time to issue empty cases, they will be converted into pannels by the regimental artificers without charge, and the following proportions of materials will be supplied for stuffing each pair :—

						lbs.	ozs.
Officers, new pattern				hair, horse, saddlery	3	8	
Universal pattern....				" " "	1	4	
Harness	{	new { drivers		" " "	3	0	
		pattern { luggage		" " "	2	0	
		old { drivers		" " cow	3	8	
		pattern { luggage		" " "	2	8	

Proportion of hair for stuffed pannels.

203. The following proportions of hair, in addition to the ordinary annual proportions given in the several corps details, Part 2, will be issued with each pair of stuffed pannels, if demanded :—

With each pair of new pannels for harness, new pattern, and for saddlery, } $\frac{1}{2}$ lb. of horse hair.
 old and new pattern }
 With each pair of pannels for harness, } $\frac{1}{2}$ lb. of cow hair.
 old pattern }

Twine.

204. One quarter of an ounce of quilting twine will be allowed for each pair of cases. No issues under one ounce will be made; the regimental supply will be made use of when smaller quantities are required.

Equitation articles.

205. Equitation articles will be supplied to the mounted services in the proportions shown in the several corps details, Part 2, and will be accounted for in the same manner as other equipment.

SECTION IX.—HORSESHOES.

FOR MOUNTED SERVICES AT HOME AND ABROAD EXCEPTING INDIA.

Sizes of shoes and nails to be demanded.

206. Shoes and nails in assorted sizes, as detailed below, will be issued by chief ordnance officers on the requisitions of commanding officers.

† For each pair of hind shoes with calkins, 9 nails are allowed for toe holes and 9 for heel holes.

For A. S. Corps.

Spare set of shoes.

Officers commanding units of Army Service Corps will demand horseshoes of sizes as required.

207. A spare set of shoes, in addition to those on the horses' feet, with a proper complement of nails ready fitted for immediate use, and stamped with the army and squadron, battery, company, or in the case of Royal Engineers, unit, number, will at all times be in possession of each unit for every public horse. 50 per cent. of these shoes and nails in the case of cavalry, Royal Artillery, Royal Engineers, and Army Service Corps, should be hand made, and the remaining 50 per cent. of shoes and nails machine made. These spare shoes and nails are to be used every quarter, and replaced by new ones.

Quantities to be demanded.

208. In making requisitions, commanding officers of units of cavalry, Royal Artillery, Royal Engineers, and Army Service Corps will demand shoes for one-half of the number of horses present, but not more at one time than the equivalent of three sets of shoes, with nails, per horse, this number of sets being presumably sufficient for three months. No greater proportion of shoes will be allowed without a certificate from the veterinary officer, countersigned by the commanding officer, explaining the exceptional circumstances which have rendered additional supplies necessary.

209. Shoes, for one-half of the number of horses on the establishment, will be made in the forges of the various units, referred to in the preceding paragraph, out of the worn shoes removed from the horses, and any iron that may be required in addition will be supplied by the Army Ordnance Department, on a requisition from the veterinary officer, countersigned by the commanding officer. Old shoes to be utilised.

210. Nail-rod, for making nails in the following proportions, will be supplied from the Army Ordnance Department on requisition from commanding officers :— Nail-rod when supplied.

Rod, Nail, $\frac{3}{8}$ -inch.

	Per regiment, per month.
For regiments of cavalry at home on the higher establishment	75 lbs.
For regiments of cavalry at home on the lower establishment	57 "
For regiments of cavalry in the colonies	67 "

In batteries of artillery, units of Royal Engineers and Army Service Corps, 1 lb. per month for every four horses or fraction of four.

211. When units march from one station to another, one fore shoe (with nails) will be carried on each horse, and in the case of horses with brittle feet one hind shoe (with nails) in addition. Commanding officers will arrange to send forward as heavy baggage, to such points in the line of march as may be most convenient, any further numbers likely to be required on the march, not exceeding one set per horse for the entire strength, and will return the remainder (including any old shoes in possession) to store, or, if there is no ordnance depôt at the station, hand them over to the incoming unit; in either case obtaining a receipt. The shoes removed from the horses' feet on the march will be returned to store, should opportunity offer, and a receipt likewise obtained for them, unless they can be conveniently carried by the regimental transport. When the route of the unit lies through an Army Ordnance Department station, any shoes required will be drawn there, so as to obviate, as far as possible, the expense of sending shoes forward by rail. On the arrival of the unit at its destination a number of new shoes equivalent to those returned to store, or handed over may be drawn; one new shoe being considered equal to two old ones, and the receipts above referred to being attached to the requisition. Arrange-ments as to shoes and nails when changing station.

If the unit proceeds by rail from one station to another, one fore shoe (with nails) will be taken, the balance being returned to store or handed over to the incoming unit if there is no ordnance depôt at the station, and others drawn in lieu as directed above.

Should the station to which a unit is moved have no ordnance depôt, special arrangements for the supply of shoes and nails from the nearest ordnance depôt will have to be made.

212. Officers' horses may be shod, if desired, with store shoes, such shoes and nails to be paid for at the rate of one shilling and tenpence per set. The farriers will render a monthly return of the number of officers' horses thus shod, in order that the necessary credit may be given Shoeing officers' horses.

(EQ. R.)

U

Forge and
shoeing
tools.

for the value of the shoes and nails in the pay list. All other shoeing must be done by private arrangement, and with private materials.

213. Forge and shoeing tools (except the barrack fixtures provided by the Royal Engineers) will be drawn from the Army Ordnance Department and held on equipment ledger charge.

"Chest, tool, filled, No. 7," the detailed contents of which are given in Appendix V, contains one set of forge and one set of shoeing tools. The proportions in which the chests will be supplied are as follows :—

	Peace.	War.
Regiment of cavalry	6	2
Battery of mountain artillery	1	1
" Royal Horse Artillery	1	1
" Royal Field Artillery	1	1
Pontoon troop, R.E.	2	2
Telegraph section, R.E.	1	1
Field troop, R.E.	1	2
" company, R.E.	1	2
" park, R.E.	1	2
Company of Army Service Corps	1	1

Additional sets of shoeing tools will be supplied to make the total number on charge equal to, in the case of :—

54

Gen. No.
7707

Regiments of cavalry—

1 per farrier serjeant, corporal shoeing smith and shoeing smith in peace and war. Also 1 spare set per squadron for instructional purposes in time of peace only—this set to include two aprons, basil, white.

Batteries of Royal Horse Artillery, Royal Field Artillery, and Mountain Artillery—

1 per farrier serjeant and shoeing smith in peace and war. In time of peace, 1 spare set of tools will be allowed per battery, and 1 "apron, basil, white," for each man undergoing instruction.

Royal Engineers—

Pontoon troops	5 sets each	} in war.

Infantry Regimental Transport.

Shoes,
horse, for
infantry
Regimental
Transport.
40116
6090

215. Horseshoes will be issued on demand, in sizes as required, at the rate of one set per month, for each animal borne on the establishment of regimental transport in battalions of infantry together with the proportion of nails specified in the preceding table. All the worn-out shoes will be returned to the Army Ordnance Department.

Military Mounted Police.

Shoes,
horse, for
military
mounted
police.

216. The military mounted police will draw machine made shoes for the whole of the horses on their establishment, in such quantities as may be required, all worn-out shoes being returned to Army Ordnance Department for disposal. At stations other than Aldershot no forge or shoeing tools will be specially issued, and horses will be shod by the farrier serjeant of the corps to which the horses are attached. At Aldershot, one, "Chest, tool, filled, No. 7," may be drawn for the farrier quartermaster serjeant attached to the staff.

The proportions of the various sizes of horseshoes to be drawn as follows:—

Description.		No. per cent.	No. of nails.	Total of nails per set of 4 shoes.
Shoes, horse, pairs	No. 5 { fore } { hind }	50	No. 8	30
	„ 6 { fore } { hind }	50	„ 8	36

Mounted Infantry.

Shoes, " —"
horse, for
mounted
infantry.

216A. Mounted infantry, when employed as such, will draw the full complement of machine-made shoes, viz., 1 set per month per horse. All worn-out shoes will be returned to the Army Ordnance Department.

Frost Nails.

217. On the 1st September in each year demands will be put forward by officers commanding mounted units at home (Jersey and Guernsey excepted) for frost nails in the following proportions :—

	No. of nails per horse.
Cavalry	40
Royal Artillery (horse, field, and mountain batteries)	40
Royal Engineers	40
Infantry (regimental transport)	60
Army Service Corps	120
Military mounted police	120

The nails remaining on hand on the 31st March following will be returned to store.

SECTION X.—CAMP EQUIPMENT.

218. The proportions of camp equipment for mounted and dis-mounted services, on manœuvres and in standing camps, and scale of tents for active service, are contained in Appendix VI. The scale for standing camps will guide issues to troops placed under canvas for the season, or for lengthened periods, or when camps are formed for accommodation of troops at gun or rifle practice. When barracks have to be temporarily vacated, tents and other articles may be drawn by officers commanding, as far as may be necessary, on the scale for standing camps.

219. Camp equipment and such other stores issued in connection therewith as may be received for temporary use, for manœuvres or other encampment purposes, and for like services, will not be brought on charge in the equipment ledgers, but will be accounted for on Army Form G 973 to the ordnance officer with whom the transactions occur. Ammunition will not be accounted for on this form.

219A. Charges for deficient camp equipment will be assessed in accordance with the instructions contained in paragraph 96, except that a reduction from full vocabulary rates will only be made upon the certificate of the ordnance officer who made the issue, that the rates charged are the fair or real proportionate value of the articles deficient.

220. Tents only (and bed boards and trestles if necessary) will be supplied by the Army Ordnance Department to supplement barrack accommodation. All other barrack stores will be supplied by the Army Service Corps.

221. When the General Officer Commanding finds it necessary to increase the regulated proportions of stores supplied in camp, he will proceed as directed in paragraph 6.

222. In all issues for camps of manœuvre or flying columns a home, the General Officer Commanding may, if he thinks fit, reduce the proportions in view of the requirements of the particular service, and the strength of the troops and companies, and so diminish the weights to be transported.

 224. } *Cancelled.*
 225. }

Deficiencies
of camp
equipment.

226. Prior to leaving the camp, or at the termination of the service, accounting officers will see that all the articles taken on charge are duly accounted for on Army Form G 973, as either returned into store or deficient. Any deficiencies will be charged against the unit, except in the case of wooden tent pins, of which 5 per cent. may be written off charge as expended by fair wear. In the event of lost stores being subsequently found, the procedure laid down in paragraph 88A will be followed.

Tent pins.

Method of
drawing
camp equip-
ment by non-
accountants.

227. Officers who are entitled to camp equipment, but who are not accountants and are not attached to a corps, will make their requisitions in duplicate on Army Form G 968. The depôt of supply will be inserted by the ordnance officer, who will retain one copy of the requisition and return the duplicate, which, when signed by the person receiving the stores, will be given as an issue voucher to the ordnance officer at the supply depôt, and that officer will give the officer responsible for the stores a receipt voucher, by which to take them on local charge on Army Form G 973. The officer drawing the stores will be held responsible for their due return to the Army Ordnance Department; and when the stores are returned a receipt voucher on Army Form G 1033 will be sent with them, upon which will be given particulars as to the date of the original supply and by whom made.

Wood bot-
toms for cir-
cular tents.

228. Wood bottoms for circular tents, or for marquees used for hospital purposes, will be issued when, owing to the dampness of the ground or to other causes, their use is certified to be necessary by the principal medical officer. They will not be supplied for officers', store, office, or workshop tents.

229. The General Officer Commanding, in authorising the supply of wood bottoms, will proceed as directed in paragraphs 5 and 6.

Picketing
gear, etc.,
for Officers'
horses and
hired horses.

230. Nosebags, picketing gear, waterproof covers for saddlery, and forage nets, will be supplied in camp free of charge for the regulated number of officers' horses, and for such hired horses as may be employed on the public service. For hired horses there will also be supplied blankets, surcingles and pads when required.

Barrack
stores in
standing
camp.

231. Such barrack stores as are necessary for troops when in a standing camp will be specially applied for to the Army Ordnance Department by commanding officers, and will be accounted for as directed in paragraph 219.

Mounted
units pro-
ceeding by
route march.

232. Mounted units proceeding by route march in the United Kingdom, require no camp equipment when the men and horses are billeted nightly. In cases where it is necessary to encamp during the march, officers commanding units will make requisition, previous to marching, for the camp equipment they require, being guided generally by the proportions laid down for "manœuvres," but demanding only such articles as are absolutely necessary.

All articles
to be
thoroughly
dried before
being given
into store.

233. To prevent the injury caused by damp and mildew, all tents, blankets, nosebags, sheepskins, canvas and leather buckets, and other canvas linen, cotton, woollen, or leather articles which

have become wet while in use, will be thoroughly dried, and cleaned as far as possible by the troops, before being returned into store.

234. Camp kettles and other articles liable to injury from rust, will also be dried and cleaned by the troops before return to store. Camp kettles to be cleaned.

235. When troops under canvas have to march on immediate orders, the chief ordnance officer will confer with the officer commanding the troops as to the steps which should be taken for the drying and cleaning of the camp equipment, prior to its being returned into store on the breaking up of the camp. Troops under canvas moving.

236. The chief ordnance officer will bring to the notice of the officer commanding the troops any instance in which the camp equipment is not returned into store in a proper state, due allowance being made for fair wear and tear. Officer commanding to be informed of irregularities.

237. Four used circular tents may be supplied to each regiment of cavalry, battalion of infantry, and each regimental district requiring them, for the purpose of instruction in pitching and striking. Batteries of horse, field and mountain artillery, and units of Royal Engineers are allowed two tents; companies of garrison artillery and companies of the Army Service Corps, and Army Ordnance Corps, one tent each. Headquarters of companies of Royal Army Medical Corps will be supplied with one circular tent, and one marquee each. Unserviceable articles will be utilized. These tents will be brought on charge in the equipment ledgers, and will be dealt with as equipment. Tents for instruction in pitching and striking.

238. To carry out the instructions in "field training," referred to in the "Infantry Drill," Part X, ten "kettles, camp, oval, twelve quarts," and four "buckets, canvas," may, when required, be drawn from the Army Ordnance Department by each battalion for the use of the company struck off duty. For cavalry, ten "kettles, camp, oval, twelve quarts"; six "axes, pick, 6½ lbs.," and six "spades N.P." may be issued for each regiment. For the Royal Army Medical Corps each headquarters of companies will be supplied with three "kettles, camp, oval, twelve quarts"; three "axes, pick 6½ lbs.," one "hook, bill"; one bundle of brush wood pickets; one pair cacolets; one pack saddle complete; and four "spades N.P." They will be brought to account in the equipment ledger in the usual manner. On change of station these stores, together with those specified in paragraph 237, will be handed over to the incoming unit. Supply of camp kettles, &c., for instruction.

For brigade divisions of field artillery 9 camp kettles, 6 picks and 6 shovels will be drawn and accounted for as the officer commanding brigade division may direct. When batteries are stationed singly a proportionate quantity of these stores only will be drawn and accounted for as directed for other units.

239. The articles detailed below will be issued in addition to the tents and tools authorised to be supplied for instructional purposes by paragraphs 237 and 238. Additional articles for instruction.

Cordage	{ white, 3-strand, ¾-in., 4 ft. long	pieces	20
	{ tarred, 1½-in., 20 ft. long	"	20
Spars, wood, 12 ft.			6

These articles will be issued on the terms stated in paragraphs 237 and 238.

Picketing
gear for
cavalry.

240. The articles detailed below, sufficient for one squadron, will be issued, if required, to each regiment of cavalry for instructional purposes, in addition to the tents allowed by paragraph 237:—

	For a regiment not on the Higher Establishment.	For a regiment on the Higher Establishment.
Mallets, heel peg	10	13
Pads, surcingle	98	136
Pegs, picketing	206	288
Ropes { head, cotton	98	136
{ heel	98	136
{ picketing, 4 ft. 9 ins.	98	136
Bags, corn, 12 lbs.	98	136
Nets, forage.. .. . pairs	98	136

SECTION XI.—ARTIFICERS' AND WORKSHOP TOOLS.

I.—ARTIFICERS' TOOLS.

Supply of
boxes and
tools for
armourers.

241. An armourer's box with tools (as detailed in Appendix IV) will be supplied to each unit provided with an armourer serjeant. These articles will be kept up by the armourer serjeant and will be inspected quarterly by a competent person, under the orders of the commanding officer, who will certify in the equipment accounts that this service has been performed. A special examination of the box and tools will be made on the transfer of these articles from one armourer serjeant to another, to ensure their being handed over in a complete and efficient state.

Instructions
for packing
armourers'
tools, &c.

242. Instructions for packing armourers' tools and spare parts of small arms, to be carried out by units on embarkation for distant stations abroad, are printed in the Instructions for Armourers. These directions do not apply to troops proceeding to the Mediterranean, West Indies, British North America, or Bermuda.

Tools for
regimental
artificers.

243. Tools supplied for the use of regimental artificers in repairing the service equipments or armaments, or for the general service of the army, are not to be employed for private purposes. Lists of tools for repair of the service equipments or armaments are given in the several details of Cavalry, Royal Artillery, and Royal Engineers, Part 2, and of tools for general service in Appendix V.

Tools for
Pioneers.

244. A set of pioneers' tools and appointments is issued for each service squadron of cavalry, including Household Cavalry, and each battalion of infantry. These tools are described in the Cavalry and Infantry Details in Part 2.

II.—TOOLS FOR MILITARY WORKSHOPS.

245. To encourage the employment of soldiers in trades, sets of tools will be supplied to regiments of cavalry, battalions of infantry, and principal stations of Royal Artillery at the public expense, under the special sanction of the general officer commanding in each case, and subject to the following conditions:—

Issue to cavalry, infantry, and headquarters R.A.

- a. That there are qualified tradesmen to use them.
- b. That they remain in charge of the unit to which they are issued, and are only returned to store on the authority of the general officer commanding; and on the understanding that the unit so returning them will be charged with the difference between their original cost and their actual value at the time of their receipt into store.
- c. That they be kept in order, repaired, replaced when lost or worn out by use, at the cost of the unit.
- d. That articles required to replace any of those issued be demanded of the Army Ordnance Department, in order to ensure uniformity of pattern.

Conditions of issue.

Lists of these tools will be found in Appendix V.

246. Commanding officers will direct an inspection of the tools to be made quarterly; and will certify in the ledgers in which they are brought on charge, that this service has been performed.

Inspection of tools.

247. When tools are issued to the Royal Artillery, under paragraph 245, they will be accounted for by the officer commanding the dépôt company; or, where no dépôt company exists, by the officer commanding a service company to be detailed by the officer commanding Royal Artillery in the district, in accordance with Part 2 Section XII.

Accounting for tools issued to R.A.

248. Tools for trades will not be allowed to regimental districts.

Not allowed to Regimental Districts.

SECTION XII.—SIGNALLING EQUIPMENT AND MEKOMETERS.

I.—SIGNALLING EQUIPMENT.

249. Signalling equipment will be demanded on Army Form G 997.

Stores, requisitions for.

250. Supplies will be confined to regiments of cavalry, battalions of infantry, mountain batteries and companies of artillery, and units of Royal Engineers. Issues will not be made to regimental

Supplies.

districts. A complete set of signalling equipment will be held on station charge at Jamaica and at St. Lucia, for use in case of necessity.

251. The stores to be drawn for use at the School of Signalling are detailed in Part 2, Section VIIA.

II.—MEKOMETERS.

Instructions. 252. Mekometers will be supplied as shown in the several corps details. Instructions will be found in Appendix XV.

SECTION XIII.—LITHOGRAPHS AND PHOTOGRAPHS.

Lithographs. 254. Lithographs of warlike matériel prepared in the manufacturing departments, Royal Arsenal, Woolwich, are issued as under:—

							R.L. and R.G.F. only.	R.C.D., R.L., and R.G.F.	
							To officers com- manding R.A., for instructional purposes.	To officers command- ing R.A. districts for reference.	To ordnance officers for depart- mental use.

* Horse and Field Artillery subjects only.

Three copies of each R.C.D., R.L., and R.G.F. lithographs are issued to Commandant, School of Military Engineering, Chatham, and one copy of each will be issued to Commanding Royal Engineers when demanded.

254A. A supply of photographs of selected artillery stores will be made periodically to the Artillery Schools of Instruction and Ordnance College, for instructional purposes in addition to the lithographs.

255. The issue of lithographs to officers and departments not specified in the foregoing table will be specially provided for. Other services.

256. Quarterly lists of lithographs added to the series are published in the Lists of Changes in War Matériel. Quarterly lists.

257. Text books, hand books, and range tables will be issued as laid down in Part 2, Artillery Special Instructions and Details. Text books and range tables.

SECTION XIV.—MISCELLANEOUS STORES.

Pace sticks,
and other
articles.

259. Pace sticks, ropes for drill, saluting flags, regimental camp colours, letter bags, metronomes with stands, cleaning materials for offices, and other miscellaneous stores, will be provided out of the Allowance for Miscellaneous Stores, granted by the Allowance Regulations.

54
Gen. No.
8311

259A. Machines, or hand clippers, for clipping horses will be provided regimentally (except by infantry battalions), and an allowance of sixpence per horse clipped may be charged once a year in the regimental pay lists. The charge will be supported by a certificate of the commanding officer, showing the number of horses clipped.

School-
master's
box.

261. One "box, schoolmaster's," will be issued to every schoolmaster on appointment. This box will be renewable after 12 years, if unserviceable. It will be accounted for by the officer under whom the schoolmaster is serving.

Stationery
for field
sketching,
&c.

263. The colours, brushes, papers, pencils, cardboard, string, india-rubber, and other articles of stationery required for instruction of cavalry and infantry in field sketching and reconnaissance will be supplied, on receipt of a requisition from units, on Army Form L 1380.

Blackboard
and easel
for R.A.M.C.

263A. A blackboard and easel, complete, for instruction of non-commissioned officers and men of the Royal Army Medical Corps in various technical subjects, will, except to A and B Companies, be issued to the head-quarters of the several companies, and to the undermentioned detachments at home and abroad :—

Home.

Cottonera,	
Alexandria,	} Egypt.
Cairo,	

Wicks with
lamps and
lanterns.

263B. All lamps and lanterns which burn oil, when first issued by Army Ordnance Department will, except those issued for barrack services, be complete with one foot of wick. The wicks for magazine lanterns and signalling lamps will be issued to the troops by the Army Service Corps on the usual requisitions.

Stores for
veterinary
purposes.

264. Consumable stores for veterinary purposes will in peace be issued quarterly in the proportions given in the following table on the requisition of the veterinary officer in charge of the unit, countersigned by the commanding officer of each unit concerned. The requisition will be made on Army Form G 1027. It will state the number of horses for which the stores are required, and will show any articles remaining unexpended at the time. These stores will not be accounted for in the equipment ledgers, but will be a final issue

from the Army Ordnance Department, and the issue voucher upon which they are charged will be signed by the veterinary officer only. The proportions of blankets, and of pads and surcingles allowed for sick horses will, when required, form part of the equipment of the unit, and be included in the equipment ledger.

CONSUMABLE STORES FOR VETERINARY PURPOSES.

3 Months Supply.						Per 100 Horses.	
<i>Woolwich Section 5.</i>							
Sponges, 7 drachms						4*	Para. 10421 L. of C.
<i>Woolwich Section 7.</i>							
Pins, mixed					oz.	$\frac{1}{4}$	
<i>Woolwich Section 11.</i>							
Corks, assorted						6	
<i>Woolwich Section 18.</i>							
Tow {	coarse				lbs.	2	
	fine				"	1	
Twine, packing, small					oz.	1	
<i>Woolwich Section 27.</i>							
Bandages, horse....						6	
Linen, unbleached (for bandages)					yds.	3	
Oat sacking, 27 inches (for poultices)....					yds.	4	
Tape, white, $\frac{3}{4}$ -inch					pieces	1*	$\frac{54}{\text{Art.}}$ 9699
<i>Woolwich Section 30.</i>							
Paper {	brown, common (for packing)				quires	$\frac{1}{4}$	
	white, fine (for balls)				"	$\frac{1}{4}$	
<i>Woolwich Section 31.</i>							
Blankets, grey, worn out {	"A" (Remount) Co. A.S.C.					50†	
	"B" " "					50†	
NOT IN VOCABULARY.							
Flannel, old (for fomentations)					lbs.	7 $\frac{1}{2}$	
Numnahs, old (for foot swabs)						2	

* To be drawn at these rates every six months only.

† These are the total quantities to be drawn for each company annually.

SOAP.

265. Soap for the personal use of soldiers will be supplied by the Army Ordnance Department, will be demanded by the piece (each bar of soap contains four pieces) and will be accounted for in the regimental equipment ledger. Soap: How demanded and accounted for.

In peace or on mobilization one piece will be supplied to every soldier entitled to a free kit of necessities under the Clothing Regulations, and will be kept up afterwards at his expense as part of his kit. Supply for kit.

War
supplies.

For war, a quarterly allowance of 3 pieces per officer, warrant officer, non-commissioned officer and man, as well as 24 spare pieces per 100 of all ranks will be required ; of this, one piece will be carried in each kit, and mobile units will have remainder carried in the regimental transport, other units holding their reserve as most convenient.

Supply on
board ship.

Supplies required for use on board ship will be provided regimentally, and will be paid for out of the advance of pay.

Payment for.

Soap will be supplied on payment at the published rates : credit will be given in Army Form P 1963 for the total number of pieces issued on payment.

WAGONS.

Footboards
to be
fastened up.

265A. When driving the undermentioned wagons, otherwise than by long rein, or turning them when in store, footboards will be fastened up to prevent the stays being wrenched away.

Ammunition and store, R.A., Mark II.

* Special sets are authorised for these stations, see Appendix XI.

† For West India Fortress Company, R.E. (Jamaica and St. Lucia).

§ 3 extra sets of consumable stores will also be allowed for the use of the Royal Engineer companies at this station.

¶ A special set in addition is authorised for use at Alexandria.

265c. The proportion authorised for a battery of horse or field artillery is given in Appendix XII. The issue will be restricted at Aldershot to one battery. The instruction to be conveyed by these stores embraces the construction of bridges, derricks, jetties, rafts, epaulments, gun pits, &c. The proportion given in Appendix XIII, is the supply authorised for a regiment of cavalry. Horse or field artillery and cavalry.

265d. Demands to complete the establishment of these tools and stores will be sent, by the 1st August, by the district Engineer or commanding Royal Engineer (as the case might be), to the chief ordnance officer, on Army Form G 989. Demands.

When it becomes necessary to procure any of the articles locally, the purchase will be effected under the authority of the chief ordnance officer.

265e. Staff officers for instruction, battalions of infantry, and cavalry pioneers, will be supplied with the necessary tools and materials for military engineering, and for the repair of rifle butts and ranges, from the stock in charge of the sub-district commanding Issues on inventory.

Royal Engineer concerned. The articles so supplied will be entered on inventories (Army Form G 989). The necessary instruments will also be supplied, on inventory, by the commanding Royal Engineer, from the stock in his charge to staff officers for instruction, except in the case of the Thames District, where the supply will be met by the commandant, School of Military Engineering. All articles, thus supplied on inventory, will remain in charge of the sub-district commanding Royal Engineer who makes the supply.

Local purchase for staff officers for instruction.

265F. If any materials, or tools, that may be specially and immediately required by staff officers for instruction in carrying on their duties, cannot be supplied by the Army Ordnance Department, they may be purchased locally by the ordnance officer, upon the requisition of the staff officers for instruction, approved by the commanding Royal Engineer. But such special local purchases will not exceed the value of 5*l.* annually for each instructor.

Stores for visual signalling.

265G. Stores, for the purpose of effecting communication by means of visual signalling between different posts in fortresses, and military stations, will be issued upon an establishment drawn up for the station concerned; which establishment must have received War Office approval before issues are made. The stores, when issued, will be in charge of sub-district commanding Royal Engineers concerned, and will be held on inventory by the troops using them.

265H. Application for all necessary transport, required in transferring the tools and materials from one corps to another, will be made by the sub-district commanding Royal Engineer.

SECTION XVI.—MARKING EQUIPMENT.

I.—GENERAL INSTRUCTIONS.

Stamps for marking.

266. Stamps are supplied to the various services requiring them, for marking arms, accoutrements, harness, and saddlery. The adoption of an unauthorised method of marking, or the employment of stamps differing from the standard patterns, will render a unit liable to charges for damage.

Permanent marking limited.

267. With the exception of articles of equipment for man and horse, stores issued for the service of the troops are not to receive any indelible corps marks which would render them unfit for re-issue. Should it be found, on such articles being returned into store, that they have been so defaced, the cost of the articles will be charged against the unit for whose use they were issued.

Marking on mobilization.

267A. All arms, accoutrements, harness, and saddlery, issued to, or taken into use by, troops on mobilization will be marked, with as little delay as possible, with corps marks and progressive numbers, in the manner indicated in the regulations for mobilization. They will not be marked with a date of issue.

268. Articles of equipment supplied from time to time for temporary purposes will not receive corps marks; with the exception of extra service accoutrements supplied to corps and regimental districts in excess of their regulated strength. Articles temporarily supplied not to be marked.

269. Should additional equipment be issued to detachments (*see* paragraph 93), the marking will be from 1 upwards, but with the prefix 0. The marking would thus read 01, 02, 03. How marked for detachments.

270. As a general rule the service of marking the equipments is performed, free of charge, by the paid regimental artificers, as part of their duty. Money allowances are, however, granted for marking artillery stores connected with armaments, accoutrements and musical instruments in certain cases, and squad bags when first issued. The allowances for marking accoutrements and squad bags cover both labour and the ink or paint required. Equipment marked by artificers.

271. The paint required for marking baggage (*see* King's Regulations) may be purchased by commanding officers as required, the charge being supported by a certificate stating the number of packages marked. Marking baggage.

II.—MARKING ARTILLERY STORES, &c.

(*See also Appendix X.*)

274. All side arms, handspikes, levers, as well as the handles of all intrenching tools, and other articles required for manual labour, will be left unpainted. When it is necessary to mark these articles, they will be lettered in paint, with the distinguishing marks of the unit to which they respectively belong. Marking and painting handles of tools, &c.

275. One gun, one carriage, one slide, and one pile of shot or shells in each battery, will be marked with the date of painting; and, in the event of its being necessary to exchange any guns, or other stores connected therewith, in permanent works before the next periodical painting takes place, those received will be marked with the date when last painted, so that the record may be accurately kept. The marking will be of the simplest kind, as, for example, "12/00," signifying that the painting was performed in December, 1900. Marking armaments. Example

276. Three halfpence per hour will be allowed for this service, except when such marking is performed by means of stencil plates in which case no allowance will be sanctioned. Allowance for marking.

277. The marks and numbers on stores of all natures, and every kind of projectile and fuze, on guns and artillery carriages, as also on all carriages forming the equipment of units, will be noted in all reports relating to the repair, alteration, and condemnation of such stores, in order that the date of manufacture may be readily ascertained. Marks included in reports.

III.—MARKING ARMS.

278. All arms, except those for mobilization (*see* paragraph 267A) are issued to the troops marked with the month and last two figures of the year of issue, thus, 1.00, 3.01, &c. Full instructions as to all other marking will be found in the Regulations for Army Ordnance Services. Marks before issue.

(Eq. R.)

E.

When an
armourer
serjeant is
not avail-
able.

Stamps lent
by A.O.D.

Issues to
replace
others.

Nature and
position of
marks.

Part-worn
articles.
"Extra
service"
accoutre-
ments.

Stamps for
marking.

Branding
prohibited.

Enamelled
iron water
bottles.

Straps
for water-
bottles.
Intrenching
implements.

Care should be taken that the marks on the arms are not too deeply stamped.

279. In cases where the services of an armourer serjeant are not available for marking the arms, commanding officers, in making requisitions on the Army Ordnance Department, will state the particulars of the corps marks and numbers that should be placed upon the articles.

280. Stamps for marking swords, and sword-scabbards, will be lent to dismounted services by the Army Ordnance Department.

281. Arms issued to replace others will be given the numbers of the articles replaced.

IV.—MARKING ACCOUTREMENTS.

282. All accoutrements, except those for mobilization (*see* paragraph 267A), will be marked by the Army Ordnance Department before issue with the month and last two figures of the year of issue, beneath the W.D. and broad arrow of the War Department, thus, 2.06, 3.01, &c. When received by the troops, they will be further marked, before being taken into use, to correspond with the arms. Accoutrements that have been in use, and are re-issued, will be marked by the Army Ordnance Department before re-issue, black equipment, with the letter W. and the month and year of re-issue; buff equipment, with the month and year of re-issue only in red ink.

283. Part-worn articles returned to store will be marked by the ordnance officer at the station with the month and year of return.

284. Accoutrements supplied for men in excess of the regulated establishments will be marked by the unit with consecutive numbers and the distinguishing corps marks, valises being marked inside only. Such accoutrements when returned to store will be available for re-issue to any service as part-worn articles, and will be then further marked as directed in paragraph 282.

285. Buff accoutrements will be marked with $\frac{1}{2}$ -in. inlaid copper stamps in mounted units, and with $\frac{1}{4}$ -in. brass or gunmetal stamps on wood ($\frac{3}{16}$ -in. for terminal letters for infantry only) in dismounted units, as shown in the several corps details, marking ink being used in each case for the purpose. Black or brown accoutrements will be marked with $\frac{1}{4}$ -in. steel stamps, for wood, care being taken that the leather is not cut, but merely indented. Branding the accoutrements is strictly prohibited. (*See* also paragraph 267.)

287. Enamelled iron water-bottles will be marked with corps marks only, in the centre and on the side of the felt cover which is exposed to view when the bottle is worn. The marking will be done with $\frac{1}{2}$ -in. copper inlaid stamps, and "ink, marking, woollens." The buff strip, or chain, for securing the cork will be worn facing the rear. If, when returned to store with corps marks on them, the water-bottles are considered fit for re-issue, the felt covers will be taken off by the Army Ordnance Department, turned, and resewn.

288. The straps for water bottles will be marked in the same manner as accoutrements.

289. The intrenching implements, pickaxe and shovel, will be marked on the wood handle on the side next the man's body as it hangs, with the stamps supplied for marking wood.

290. The inside of the flap of the valise, will be marked in marking ink, with the same marks as the other accoutrements, by means of the metal stamps supplied. In the case of units wearing the infantry valise, the territorial name or letters will be marked by stencilling, on the outside of the flap in 1-inch letters and numerals. Stamps for cutting these stencil plates are supplied to all districts. In the case of the R. W. Surrey and E. Kent regiments, "Queens" and "Bufs" will be substituted for the territorial name. Marking valises.

291. The battalion number and county name or letters will be placed as nearly as possible across the centre of the valise, thus :— Nature of marks.

1. LOTHIAN. 2. BUFFS. 3. WARWICK.

292. But where initial letters only are used, care will be taken to place the battalion number on the left of the central strap which passes over the flap, and the regimental letters on the right, leaving a space between for the strap, thus :— Position of marks when initials only are used.

1. | | R.F. 2. | | R.I. 3. | | S.W.B.

293. The grenade, and bugle, used respectively with fusilier and light infantry regiments will be placed to the left of the numeral. Grenades and bugles.

295. The valises of regimental depôts will not be marked on the outer flap. They will be marked on the inside only with marking ink. Regimental depôts.

296. Valises issued to the Royal Artillery, Royal Engineers, Army Service Corps, and Departmental Corps will be marked on the outside, by means of stencilling, with corps marks, as in the following examples :— R.A., R.E., A.S.C. and Departmental Corps.

ROYAL ARTILLERY.

(a.) *On the outside of the flap.*

R. | | A.

N.B.—To ensure uniformity in appearance, the letters should be placed equidistant between the two loops on the flap.

(b.) *On the back of the Valise.*

ARMY ORDNANCE CORPS.

A | | OC

ROYAL ARMY MEDICAL CORPS.

RA | | MC

ARMY PAY CORPS.

A | | PC

Paint to be used. 297. The paint to be used for marking the flaps of valises will be of the following colours :—

White.—Dismounted units, except light infantry and rifle battalion.

Green.—Light infantry and rifle battalion.

The composition of the white paint will be as follows :—

Lead, white, ground in oil					4 lbs.
Gold, size					$\frac{1}{2}$ gill.
Turpentine					$\frac{1}{4}$ gill.

The marking with this mixture will dry, in an ordinary store, in about eight hours.

Paint, green, Brunswick, ground in oil, 4 lbs., for outside flap of valises in possession of rifle regiments and light infantry battalions.

In marking the valise the brush should be used almost dry, with the paint thick. The flap should be laid flat upon a hard smooth surface, and the paint dabbed in, the brush being held vertically, and on no account worked across the stencil plate. The back of the plate should be kept clear of paint with a turpentine rag, and the face also occasionally wiped with the rag to prevent an accumulation of paint.

Marking whistles.

298. The whistles of infantry will be marked on one side of the acorn with the territorial letters or regimental district number, and on the other side with the number of the whistle, from 1 upwards. The battalion numeral will be dispensed with. The whistles of serjeants of Royal Engineers will be marked in the same manner as their arms. For the purpose of marking, the steel stamps for metal, in possession of armourer serjeants for marking small arms, will be employed.

Stamps for mounted services.

299. Stamps will not be supplied specially to mounted services for marking accoutrements, some of the stamps issued for marking the saddlery and harness being suitable for this purpose also.

300. The undermentioned allowances are granted for marking accoutrements of dismounted units under the conditions stated :—

Allowances for marking.

	s.	d.	
a. For every 300 intrenching implements, or carriages, frogs, and loops for the same, and caps, cases, frogs, and straps for pioneers' tools	0	9	
b. For every 300 of the articles of valise equipment detailed below, in the case of corps receiving a new equipment, viz., waist belts, braces, pouches, straps, carriages drum, frogs sword, and sword bayonet, loops dirk, slings (rifle and carbine), and the insides of the flaps of valises	0	9	
c. For marking the outside of the valise flap in white or green paint with the stencil plate and brush, or for renewing the same when worn off	0	1	
d. For the felt coverings of every eight enamelled iron water-bottles (<i>see</i> paragraph 287), inclusive of cost of ink	0	2	
e. For removing old marking of valise flap when necessary (which may be done with a rag wetted with methylated spirits) including cost of spirits	0	0½	
f. Annually for the purchase of marking ink required for use with the metal stamps. (<i>See</i> paragraph 285.)			Allowances for marking ink.
Battalion	2	0	
Regimental dépôt			
Depôt of Royal Army Medical Corps	1	0	
Dismounted dépôt company of Army Service Corps			
Company of Garrison Artillery	0	9	
District Establishment Artillery			
Unit of Royal Engineers (except mounted units)	0	6	
Company of Army Ordnance Corps			

301. In calculating claims for marking artillery valises, the stencilling of back and front marks will be considered as two markings. The same consideration will also guide claims for removing old marks when necessary.

Rates for artillery valises.

302. These allowances will be charged in the company pay lists, and will be vouched in each case by a certificate showing the number and description of articles marked, the date of their issue, and from what ordnance dépôt they have been issued.

To be charged in pay list.

V.—MARKING MUSICAL INSTRUMENTS.

303. When the services of an armourer-serjeant are not available, a charge of 3d. will be allowed for engraving each bugle, trumpet and drum; and a charge of ½d. per letter or figure for flutes and piccolos, which will be engraved, not stamped, on the ivory top of

Allowances for engraving the marks.

each, in consecutive numbers, from one up to the number in possession, and also with the number of the unit in the manner approved for marking the arms.

Practice
drum
stamped.

304. The silent drum for practice will be marked on the cloth on the under side, with the same stamps as are used for accoutrements.

VI.—MARKING HARNESS AND SADDLERY.

Marking by
Army
Ordnance
Department.

305. All new articles of harness and saddlery, except those issued for mobilization purposes (*see* paragraph 267A), of $\frac{3}{4}$ -in. or more in width, will be marked by the Army Ordnance Department, before issue to the troops, with the month and last two figures of the year of issue, beneath the W.D. and the broad arrow, thus—2'00, 3'01, &c. Articles that have been in use will, when first re-issued for a further period of wear, be again marked by the Army Ordnance Department, with the month and year of issue as above, and with the letter W. showing that they have been in wear before. The date being stamped close under the part worn mark.

Order of
marking.

306. Harness and saddlery when received by the troops for peace use, will be stamped with the distinguishing marks of the corps. The sets will be numbered consecutively, harness and saddlery being given different series of numbers. As articles common to both harness and saddlery will be distinguished only by the position of the set number, care must be taken to place the number correctly.

Artillery and
cavalry.

In batteries of artillery the numbering will be by sub-divisions, and in the cavalry by squadrons, as in the specimens given below.

Other units.

In other units there will be, for the entire establishment, one series of numbers for sets of universal saddlery, another for sets of officers' saddlery, and a third for single sets of harness. The numbers being placed on saddlery vertically under the corps marks; and on harness in the same line with, and following, corps, or sub-divisional marks, as in the specimens given below.

Head and
neck collar.

In every case the head and neck collars will be marked with the number of the horse instead of that of the set.

Royal Horse Artillery.

I	I Battery.
R.H.A.	Royal Horse Artillery.
A	A Sub-division.
4	No. 4 set of saddlery.
I	I Battery.
R.H.A.	Royal Horse Artillery.
B. 3	B Sub-division. No. 3 single set of harness.

Royal Field Artillery.

37 R.F.A.	37th Battery, Royal Field Artillery.
O. 1	Officers' No. 1 set of saddlery.
37. R.F.A.	37th Battery, Royal Field Artillery.
B	B Sub-division.
1	No. 1 set of saddlery.
37. R.F.A.	37th Battery, Royal Field Artillery.
B. 3.	B Sub-division. No. 3 single set of harness.

Cavalry.

- | | |
|---------|--|
| 1. L.G. | 1st Life Guards. |
| A | A Squadron. |
| 2 | No. 2 set of saddlery. |
| 5. L. | 5th Lancers. |
| B. 1. | B Squadron. No. 1 single set of harness. |

Royal Engineers.

- | | |
|-------------|---|
| T.B.—R.E.—4 | Telegraph Battalion. No. 4 set of harness. |
| T.B.—R.E. | Telegraph Battalion. No. 4 set of universal |
| — | saddlery. |
| 4 | |
| T.B.—R.E. | Telegraph Battalion. No. 2 set of officers' |
| — | saddlery. |
| O. 2 | |

Army Service Corps.

- | | |
|-------------|--|
| 10—A.S.C. 4 | No. 10 company Army Service Corps. No 4 |
| | single set of harness. |
| 10—A.S.C. | No. 10 company Army Service Corps. No. 4 |
| — | set of universal saddlery. |
| 4 | |
| 10—A.S.C. | No. 10 company Army Service Corps. No. 4 |
| — | set of officers' saddlery. |
| O. 4 | |

307. If, on a transfer of harness or saddlery, any of the sets transferred be found to bear numbers already on the harness or saddlery on charge, the articles will be renumbered, either with the numbers of sets transferred from charge, or as additions to the establishment. On transfer.

308. The harness and saddlery of each set of regimental transport will be marked before issue, by the Army Ordnance Department according to the principles laid down in paragraph 306, except that a distinguishing "index number," instead of the "corps marks" is to be assigned to the sets, thus:— Regimental transport for peace.

$$15 \text{ R.T. } 3, \text{ or } \frac{15 \text{ R.T.}}{3}$$

where 15 is the index number, and 3 the set of harness or saddlery.

309. The leather work will be marked with $\frac{3}{16}$ -in. steel stamps immediately under the army ordnance department mark of month and year of issue. Stamping leather.

310. The iron work will be marked with $\frac{1}{8}$ -in. steel stamps for metal, the portmouth bit in front of the port, the bridoon bit on top of the mouthpiece, and the stirrup irons on the bottom. Stamping iron work.

311. Sheepskins, nosebags, corn-sacks, and corn-bags will be marked with marking ink; saddle-blankets and horse-blankets (veterinary stores) with the "mixture, stamping woollens." Stamps, copper, inlaid, $\frac{1}{2}$ -inch, will be used, and the marking will be placed immediately under the War Department store mark. Marking sheepskins, &c.

VII.—MARKING SQUAD BAGS.

Marking exemplified. 312. Each squad bag will be marked on the outside of the upper flap with the initial letter of the company or squadron, the number or appellation of the battalion or regiment, and the month and year in which the squad bag was first issued from the quartermaster's stores.

The following will exemplify the mode of marking :—

B. 4/D. Gs.	D. 2/Gd. Gds.	A. 1/Manch.
1/1900.	1/1900.	1/1900.

Paint, size of letters, &c. 313. The squad bags will be marked with black paint. The figures and capital letters will be $1\frac{1}{2}$ ins. in length.

Allowance for marking. 314. The sum of fourpence for each squad bag so marked on first issue will be allowed ; the amount will be charged in the accounts of the unit, vouched by the usual receipt of the person who executed the work, and certified by the officer commanding.

VIII.—MARKING REGIMENTAL DEPOT EQUIPMENT.

Marking of equipment of regimental depôts. 315. In regimental depôts the arms, accoutrements, except those stored for reservists, musical instruments, and all articles enumerated as forming part of the equipment of a soldier, will be marked with the number of the regimental district to which they belong, followed by the letters R.D. The rifle depôts having no numbers, the equipment remaining on charge at such depôts will receive the territorial letter with the D following. Valises will not be marked on the outside, but on the inside only, in the way laid down in paragraph 290.

SECTION XVII.—REPAIR AND PRESERVATION OF EQUIPMENT.**I.—GENERAL INSTRUCTIONS.**

Unauthorised repairs prohibited. 316. Commanding officers will not allow, or pay for the performance of, any work connected with equipments, or armaments, for which there is no regulated provision, without previous authority obtained, at home from the War Office, and at stations abroad from the General, or other Officer, Commanding.

General repairs executed without charge by regimental artificers. 317. Except when otherwise specified in these regulations, the repair, and painting, of all stores that can be performed by the regimental artificers will be executed by them, under the superintendence of their commanding officers, free of charge. The necessary tools and materials will be supplied by the public, or out

of a money allowance granted for their purchase. Tables showing the time, working pay (when specially sanctioned), and materials, allowed for painting miscellaneous carts and wagons are given in Appendix VII.

318. When any of the materials, detailed in Appendix VII, are required, the officer commanding in whose charge the equipment is, will certify to the repairs being necessary, and will annex such certificate to the demand for the materials made by him on the chief ordnance officer. The commanding officer will subsequently satisfy himself that the repairs or painting have been properly executed.

O.C. to certify as to necessity for repairs.

319. The services of the regimental artificers will, when the duties of their own unit permit, and at the discretion of the General Officer Commanding, be made generally available for performing any work which they may be called upon to execute within the limits of their trades, and during working hours, for other units or detachments unprovided with artificers, or requiring the assistance of additional artificers in exceptional circumstances.

Employment of regimental artificers for other unit.

320. Repairs which cannot be executed by the regimental artificers will be performed under the direction of the Army Ordnance Department, by the artificers attached to that department, or else in accordance with the directions given in paragraph 321.

Repairs by the Army Ordnance Department.

320A. When repairs to stores, including armament and artillery material generally but exclusive of small arms cannot be carried out locally, the chief ordnance officer should apply to the principal ordnance officer, Woolwich, stating what repairs are necessary, what procedure is recommended to effect the repairs, whether repairs are urgent, and date when completion is desirable.

Repairs exclusive of small arms.

In the event of undue delay in the return of equipment that has been sent to Woolwich for repair a special report should be made by general officers commanding to the War Office on the subject.

321. Whenever repairs, painting, or other services, involving the expenditure of working pay, or payments to contractors, are required in connection with the equipments of a unit, a requisition will be made by the commanding officer on the chief ordnance officer, stating the nature of the work required, and the cost at which it could be carried out by military tradesmen receiving the authorised rates of working pay, or by local contract.

Working pay and payments to contractors.

322. The officer making the requisition will then be informed of the manner in which the service should be performed; and if it be decided to employ military tradesmen, he will, on the completion of the service, certify on the original requisition that the work has been efficiently carried out. The requisition so certified will then be attached to the working pay list as a voucher in support of payment.

How authorised.

Requisition certified.

323. Materials supplied for the repair and preservation of equipment will not be sold, or exchanged, or used for any equipments but those for which they were demanded; nor will any purchase of materials by commanding officers be sanctioned by General Officers Commanding, except in special cases which should be reported for covering approval.

Materials for repair may not be sold, or improperly appropriated.

324. In order to regulate the expenditure of the materials Army Books, 281 and 282 or 283, will be carefully kept by the units concerned, the ledger (Army Book 283) being balanced on the last day of February. The books will be periodically called for by

Regulation of expenditure and method of accounting for materials for repairs, &c.

the Chief Inspector of General Stores, Woolwich Dockyard, for examination and for testing the correctness of the proportions allowed. Stock will be taken every six months by an officer deputed by the commanding officer, and compared with the quantity received and the amount expended. The result will be reported to the commanding officer, who, if satisfied, will sign the store and shop-books. Any deficiencies will be charged against the individuals responsible, and recovered on Army Form P 1963.

The regimental storekeeper will examine Army Book 281 weekly, and satisfy himself that the materials have been expended in work on the public service.

Materials are not to be used for manufacture. Materials in hand to be credited in requisition.

325. Materials supplied for repairing equipment will not, except underspecial authority, be used for the manufacture of new articles.

326. In making requisitions for materials for repairing equipment, commanding officers will certify on the requisition that credit has been given therein for any material remaining on hand, and that the quantities demanded, together with these, do not exceed the authorised proportion.

Responsibility for reserve arms and accoutrements at regimental depôts.

327. The responsibility for the care and custody of reserve arms and accoutrements at the head quarters of regimental depôts lies with the officer commanding the regimental district (*see* para. 91). Arrangements will be made for the examination of the arms to ensure that each individual one is inspected, and re-oiled on the outside, at least once in every three months. The insides of the barrels should be wiped out, examined, and re-greased with the diluted composition referred to in paragraph 329, once in 18 months; but if any appearance of rust be observed in the muzzles at the quarterly inspections, such barrels should be immediately wiped out and well re-greased, steps being taken to have them at once examined by an armourer. The services of the non-commissioned officers of the permanent staff of Militia battalions may be utilised for the performance of this work. These reserve arms will also be periodically inspected by viewers detailed by the Chief Inspector of Small Arms in the same manner as those in use by the Militia battalions.

328. *Cancelled.* (See A.O. 207 of 1901.)

Materials supplied.

329. The annual allowance of materials for cleaning and oiling arms, and for their preservation, whilst kept in store at regimental district head quarters for issue to Army Reserve, will be as follows :—

Composition, preserving arms	galls.	2	} For every 1,000 stand- of M.L.M. arms.
Oil, Rangoon		galls.	
Flannelette		yards	
Sheeting, old		lbs.	

The "composition, preserving arms" should be diluted with rangoon oil to about the consistency of cream (one part of composition to two parts of oil), and applied to the insides of barrels, and to the flannel portion of the armoury plugs. Rangoon oil, alone, will be used for the working parts of the action, and for the exterior of the barrels.

No materials are required for accoutrements.

II.—ARMS, ACCOUTREMENTS, MUSICAL INSTRUMENTS, HARNESS AND SADDLERY.

1. Arms.

330. All the implements, stores, and chemical ingredients for browning interchangeable arms, as well as the materials for the repair of the same, are supplied at the public expense to units provided with armourer-serjeants. Oil and material for the preservation and cleaning of arms are supplied to all corps in possession of arms. Details of the stores supplied for repairing, browning, and preserving arms are printed in Appendix VIII. Instructions for the care, repair, browning, &c., of arms and bayonet scabbards, and a list of parts and materials to be carefully packed when regiments proceed on service abroad, are printed in the Instructions for Armourers, and will be supplied to all concerned.

Repair of interchangeable arms.

Browning arms.

Care and repair of arms, &c.

331. The stripping or removal of any part of the arm, except by the armourer-serjeant, or a serjeant instructor who has been through a course of instruction at the Royal Small Arms Factory, Birmingham, is strictly forbidden. Should a commanding officer doubt whether arms of any description under his charge are serviceable, he will report the matter stating the reasons for his opinion; and his report will be forwarded to the War Office. If considered advisable, an examination of the arms in question by the Chief Inspector of Small Arms will then be authorized. Testing weapons of any kind in charge of troops is strictly forbidden.

Stripping and testing arms.

332. When materials are required for the repair of arms, officers commanding squadrons or companies will certify to the repair being required, and upon such certificate the issue will be made by the quartermaster. The commanding officer will subsequently satisfy himself that the repairs have been executed.

Requisitions for, and issue of, materials.

333. Armourer-serjeants will furnish officers commanding companies or detachments (liable to detached duties) with a detailed report of each inspection upon Army Form G 1048.

Reports of inspection.

334. The arms of regimental depôts will be examined annually by the localised armourer-serjeant referred to in paragraph 337. The armourer-serjeants will execute such repairs as are necessary, and re-brown such arms as may require it. Barrels of carbines or rifles, barrels of pistols and cylinders assembled damaged beyond the power of the localised armourer-serjeant to repair will be dealt with as directed in paragraph 343. This arrangement does not relieve commanding officers from responsibility as to the care and repair of the arms, and arrangements will be made by them for such general supervision of the work of the armourer-serjeants as will ensure its being properly carried out.

Annual examination and repair of arms in regimental districts. Commanding officers not relieved of responsibility.

54

Gen. No.

7948

335. The non-commissioned officers of the permanent staff of Militia battalions who have been through a course of instruction at the Royal Small-Arms Factory at Birmingham, will be available for

Intermediate and slight repairs.

Extensive
repairs.

54

Gen. No.

mourer ser-
jeants.

the replacement of broken main-springs or strikers, and for the execution of such slight repairs as the arms are likely to require between the annual visits of the armourer serjeants. Should any arms require a more extensive repair than either the non-commissioned officer of the permanent staff or localised armourer serjeant in the district is able to execute, the officer commanding the regimental district will communicate with the chief ordnance officer, who will give instructions for the arms to be sent to the local ordnance dépôt for replacement.

336. The arms of a corps or detachment in the United Kingdom unprovided with an armourer serjeant will be dealt with, as far as practicable, in a similar manner to those of dépôt companies.

337. Circuit armourer-serjeants are posted to the following districts. They will be under the orders of the chief ordnance officer of the district in which they are stationed, excepting those shown as attached to Royal Artillery, and considered on the establishment of the Army Ordnance Department in that district :-

Scottish District.

N.E. "

N.W. "

Eastern "

Western "

Home District.

Southern "

Thames "

Guernsey.

Sub-stations
to be visited
by Armourer
Serjeants.

338. The armourer-serjeants will visit the several sub-stations, respectively, shown below under the districts to which they have been posted, and will also examine annually the arms of the Militia units in their circuits as laid down in the Militia Regulations. These circuits will be subject to alteration from time to time, as the conditions of the service may require :-

LIST OF ARMOURERS' CIRCUITS

Scottish District, 3 Armourers.

Aberdeen.	Dingwall.	Hamilton.
Alnwick.	Dunfries.	Inverness.
Ayr.	Dunbar.	Montrose.
Berwick.	Edinburgh.	Paisley.
Campbeltown.	Fort George.	Perth.
Cupar (Fife).	Glencorse.	Stirling.

N.E. District, 3 Armourers.

Barnard Castle.	Leicester.	Richmond.
Beverley.	Lincoln.	Scarborough.
Derby.	Newark.	Sunderland.
Grantham.	Newcastle-on-Tyne.	York.
Halifax.	Paull-on-Humber.	
Hartlepool.	Pontefract.	

N.W. District, 4 Armourers.

Ashton.	Hereford.	Shrewsbury.
Baumaris.	Lancaster.	Warrington.
Burnley.	Lichfield.	Warwick.
Bury.	Macclesfield.	Worcester.
Carlisle.	Mold.	Wrexham.
Carnarvon.	Preston.	
Chester.	Seaforth.	

Eastern District, 2 Armourers.

Bedford.	Harwich.	Northampton.
Bury St. Edmunds.	Hertford.	Norwich.
Ely.	Huntingdon.	Warley.
Great Yarmouth.	Ipswich.	

Western District, 3 Armourers (1 for Royal Artillery).

Aberystwith.	Devizes.	Pembroke.
Bqdmn.	Devonport.	Plymouth.
Brecon.	Exeter.	Swansea.
Bristol.	Falmouth.	Taunton.
Cardiff.	Hubberstone (Fort).	Welshpool.
Carmarthen.	Milford Haven.	
Cirencester.	Monmouth.	

Home District, 2 Armourers.

Barnet.	High Wycombe.	Oxford.
Dalston.	Hounslow.	Reading.
Finsbury.	Kingston.	Victoria Park Square.
Guildford.		

Southern District, 2 Armourers (1 for Royal Artillery).

Chichester.	Fort Victoria, Isle of	Portsmouth.
Dorchester.	Wight.	Sandown.
	Gosport.	Winchester.

Guernsey (for Channel Islands), 1 Armourer.

Alderney.	Guernsey.	Sark.
Jersey.		

Thames District, 1 Armourer (Royal Artillery and for General Service).

Canterbury.	Maidstone.	Shoeburyness.
Gravesend.	Sheerness.	

339. General Officers commanding the Districts in which the armourer-serjeants are permanently posted will determine the order in which they will visit the different stations in their circuit, arranging with regard to stations outside their own districts with other General Officers Commanding concerned. The armourer-serjeants will forward a report showing the result of their inspections, on Army Form C 366, to the chief ordnance officer for the information of the General Officer commanding the District. A copy of this report will be forwarded to the officer commanding the unit concerned.

G.O.C. to determine order of visits.

340. Officers commanding regimental depôts will make application to the chief ordnance officer for the services of the armourer-serjeant whenever the condition of the arms in their charge renders this necessary.

Services to be applied for.

341. The components required for the repair of arms of regimental districts will be demanded by the officer commanding in accordance with the scale laid down in Appendix VIII (the arms held for reservists will not be considered). For supply to militia units see Part 2, Section XVI.

Components for repair.

Additional
supply.

342. If a further quantity of these or other components be required, the armourer-serjeant will acquaint the officer commanding the unit, explaining the circumstances which render the additional supply necessary ; that officer commanding will then demand such components as are requisite from the Army Ordnance Department.

Exchange.
of arms
damaged
beyond local
repair.

54

Gen. No.

7948

343. Barrels of carbines or rifles damaged beyond local repair will be exchanged for new barrels with bodies, which will be fitted to the arms by the regimental armourer-serjeant ; the barrels, with bodies as replaced, being returned to the local ordnance depôt. The foregoing applies also to pistol barrels and cylinders assembled. All other arms damaged beyond local repair will be returned to Army Ordnance Department, and new ones demanded to replace.

Repairs
abroad.

344. The arms in possession of units or detachments abroad will be examined quarterly by an armourer-serjeant. Should the unit or detachment not be provided with an armourer-serjeant, and the arms require repair or re-browning, the General Officer Commanding will, on requisition from the commanding officer to the chief ordnance officer, detail a regimental armourer-serjeant to perform the work, or will order it to be undertaken by the Army Ordnance Department, as may seem to him advisable. The unit providing the armourer-serjeant, or the Army Ordnance Department, as the case may be, will also provide the necessary materials which, in the case of a regimental armourer-serjeant, will be obtained from ordnance depôt.

Liability of
corps pro-
vided with
armourer-
serjeant.
Injury to
barrels.

345. On the return of arms into store any repairs found necessary, which ought to have been performed by the armourer-serjeant, will be charged against the troops.

346. In cases of injury to barrels, the barrel and body together will be exchanged, but the price of the barrel or cost of repair only will be charged, provided the body is in a serviceable condition. (See para. 343.)

Tampering
with arms.

347. All tampering with arms is strictly prohibited. Any damages to arms so caused will be charged against the troops.

Annual
inspection.

348. Annual inspections will be made of the arms, and the cost of any repairs found necessary from any cause other than fair wear will be charged against the troops.

Injured
barrels to be
specially
marked.

77

15

3422

349. Stars in front of "Knox form" of barrels of rifles and carbines, and on the left hand side of the top strap of pistols, denote that the trace of a cut or of rust may be found inside the barrels. Stars on other portions of barrels denote that a trace of exterior erosion exists in the region of the star. No charge will be made against the troops at subsequent inspection for such cuts or rust. These stars are placed on the arms at the factories only.

Assistants in
browning.

350. To enable the armourer-serjeant to perform the service of browning the arms, he will be granted from the unit the assistance provided for under the Royal Warrant for Pay, &c.

Browning
bayonet
sockets.

351. When new rifles have been issued to units, and the bayonets in use with the arms returned have been retained, labour, fuel, and browning material will be allowed for the purpose of browning the bayonet sockets in the following proportions:—

Labour	$\frac{1}{3}$	} Of the regular authorised amounts for biennial browning.
Fuel	$\frac{1}{6}$	
Browning material	$\frac{1}{8}$	

352. No charge will be made against the troops for browning their arms, when the browning is rendered necessary by fair wear. Under ordinary circumstances browning should last for two years. No charge for browning.

2. Accoutrements.

353. The leather work of accoutrements of unmounted units, as shown in paragraph 354, will be repaired by the shoemaker of the unit, or such other person as may be directed by the commanding officer. Repairs of leather work of accoutrements.

354. For this service the undermentioned sums will be allowed annually to each commanding officer, for every 10, or less number, of sets of accoutrements in use :— Amount allowed.

	s.	d.
Company of Infantry	1	2
Unit of Royal Engineers (except mounted units)	1	0
Company of Garrison, and Local Companies, Royal Artillery, and Bermuda Militia Artillery	0	10
District Establishment, Royal Artillery		
Dismounted Depôt Company of Army Service Corps		
Company or Detachment of Royal Army Medical Corps		
Depôt of Royal Army Medical Corps		
Company of Army Ordnance Corps		

In addition to the above, depôt companies of Royal Garrison Artillery will be allowed $\frac{1}{2}d.$ per annum for each belt, not forming part of a set of accoutrements, held on charge for recruits.

356. The allowance for the repair of accoutrements will be claimed in advance, for the whole financial year, in the month of April, upon Army Form P 1900 and will be charged in the battery or company pay list. To be claimed annually.

357. Waxed thread and tools will be provided out of this allowance, the articles allowed for repair of accoutrements being supplied by the Army Ordnance Department. Thread and tools.

358. The repair of the metal work will be part of the ordinary duty of the armourer-serjeant, or smith, where one is available. Metal work.

359. The use of oxalic acid or other injurious materials for cleaning black or buff accoutrements, is strictly forbidden. Such parts of black accoutrements (leather valises excepted) as would show brown when in use may be blackened with ordinary blacking, but no other colouring matter is to be used in such cases. Injurious materials forbidden.

359A. When brown leather accoutrements require to be cleansed from dust and dirt, they should be washed with yellow bar soap and water, and dried in the shade. Two bars of soap per company will be found ample. Cleansing and preservation of brown accoutrements.

To preserve and polish brown leather accoutrements, a dubbing composed of :—

10 ozs. of clean mutton tallow,
6 ozs. of pure beeswax,
3 drams of camphor,

melted and mixed over a slow fire, should be used. These ingredients will make one pound of the composition, which should be rubbed on to the grain, or smooth side, of the accoutrements with a piece of coarse cloth, using as much friction as possible to enable the fatty substance to penetrate. A portion of the wax will then remain on the surface, and dry rubbing will always bring on a polish. An application of this composition once a month will, in ordinary circumstances, be found sufficient, and an allowance of 2 ozs. per man per month will be found ample ; but whenever it is necessary to clean the accoutrements with soap and water, an application of the composition should always be made before the leather is quite dry. When accoutrements get stained with mildew or perspiration, or otherwise, a slight application of limejuice will be found to remove the stains.

Cleaning
black leather
valises.

54

Gen. No.

8210

359B. Black leather valises will be cleaned by rubbing a little unmelted beeswax on the surface with a soft rag ; afterwards polish with a clean piece. The beeswax need only occasionally be applied ; at other times the polishing rag alone will be used.

"Composition, renovating," will be used to restore colour, should the leather become brown, and will be drawn from store as required.

Supply of
materials
chargeable to
the
public.

To troops.

No ripping
to pieces
until new
parts
received.

In cases of
large requi-
sitions.

360. Spare parts and furniture for accoutrements required to replace others expended or worn out, the cost of which is chargeable to the public, will be supplied in the authorised proportions, as specified in the several corps details.

361. Materials required to replace others lost or damaged by neglect, will be charged against the troops.

362. When any article, comprising two or more component parts, has become in part unserviceable in time of peace, such new parts as may be required will be obtained from store and attached by the artificers of units, free of charge. Commanding officers will take care that no article of equipment in use is ripped to pieces until the new parts required from store have been received and can be sewn on without delay.

363. In cases, however, where the requisitions for accoutrements to replace unserviceable articles are very large, and where commanding officers consider that it would be inexpedient to allow the equipments of their units to be rendered incomplete, even for a short time, accoutrements of the kind referred to in paragraph 362 may be demanded in a complete state.

3. Musical Instruments.

Drum
heads and
bugle
strings.

364. Drummers of infantry are chargeable with the cost of new drum heads ; and buglers of infantry and trumpeters of cavalry and Royal Horse Artillery with the cost of renewing the strings of their

bugles and trumpets, when these strings become unserviceable within the period assigned by regulation for their duration.

365. Instructions for the care and preservation of flutes and piccolos are printed in Appendix III. Flutes and piccolos.

4. Harness and Saddlery.

366. The authorised proportions of materials, as detailed in Appendix XIV, and in Household Cavalry corps details, which are supplied for repair of harness and saddlery, are based upon the average quantities required for the repair of articles which have been some years in use. With new equipments the same amount of materials would not be required; and commanding officers in making requisitions will demand only what is actually requisite. Needles, for the repair of harness and saddlery, may be drawn annually, at the rate of one sewing needle to five sets of saddlery or single harness, and one harness needle to four sets of saddlery or single harness. Materials for repairs.

366A. Repairs to saddle blankets carried out by regimental saddlers and collarmakers should be done with "worsted grey" and with a herring-bone stitch, about five to the inch. The edges should be drawn together and not overlapped. Repair of saddle blankets.

The stitching in all cases should be so executed that the rent or patch when repaired may lie flat.

Torn blankets can generally be repaired without patching; but when material is used, it should, as far as possible, match the blanket.

367. All cuttings from the undermentioned materials supplied to the mounted services for repairing harness and saddlery, as well as the unserviceable parts and material named, will be returned into store, as convenient opportunity offers:— Disposal of cuttings.

Cuttings from	{	canvas.		Flaps, saddle, pairs.
		cloth.		Hair, old { doe.

		numnahs.		Junk, old.
		serge.		Seats, saddle.
	{	sheepskins.		
Metal-work,	{	brass bosses,	{	bits.
		copper rivets,		cruppers and breastplates.
		iron (from saddles generally).		saddles, universal.

368. Detailed instructions for the care and preservation of the leather of harness and saddlery are printed in Appendix IX. Preservation.

SECTION XVIII.—DURATION OF EQUIPMENT.

I.—GENERAL INSTRUCTIONS.

Object of
assigning
periods of
duration.

371. Periods of duration have been assigned to the articles enumerated in the following tables, with the object of informing commanding officers and ordnance officers of the length of time equipment should remain serviceable under ordinary circumstances of continuous use. Should it appear that articles are becoming unserviceable before they have been in use the prescribed periods, inquiry should be made into the cause thereof; since, in the absence of sufficient reason to explain the circumstance, the troops become liable to be charged in accordance with paragraphs 95 and 96 of these Regulations. The periods of duration are not intended in any way to govern the times for exchanging the stores, which must continue to be used until actually unserviceable.

Duration on
active
service and
at stations
abroad.

372. On active service and at stations abroad the periods of duration are liable to vary according to the nature of the service and the climate, but the prescribed periods will be kept in view, and adhered to as far as practicable.

SECTION XIX.—DUTIES OF ARMOURER-SERJEANTS.

Duties.

373. Armourer serjeants will perform the following duties:—

(a.) Execute all repairs required to the arms (including lances, pistols, swords, and scabbards) in possession of, or that may be supplied to, their respective units; and perform any other work, within their capabilities, required to the equipment of their units, such as repairs to helmets and chains, busby chains, lancer cap chains, and the brasswork on the lancer cap.

(b.) Inspect quarterly all rifles, carbines, pistols, and sword-bayonets in use, making good defects wherever possible—*vide* paragraph 343; then, with the prescribed assistance, brown the barrels of such arms, including machine guns, as may require it. (As far as possible, the quarterly inspection to take place on Saturdays, or after 4 p.m. on other days, so that the training of the troops is not interrupted.) Apply composition preserving arms between fore-ends and barrels periodically in accordance with the instructions in foot-note to Section II, Appendix VIII. Thoroughly strip yearly for examination and cleaning all rifles, carbines, and pistols in use. Examine yearly all swords and lances. (The yearly strippings and examinations to take place during the winter season.) Examine and clean all arms issued from store before they are placed in the hands of the troops, removing any excess of lubricant from the barrels and actions. Examine and clean all machine guns in accordance with instructions for care and preservation of machine guns.

(c.) Mark all arms in possession or that may be supplied, also the drums, bugles, flutes, piccolos, or trumpets. Perform all repairs to the iron and metal-work of accoutrements, saddlery, and appointments, including the roughing of stirrup irons which is to be done every third year, or oftener if necessary. Keep in repair the tools in the armourer's boxes.

(d.) Within working hours, the services of armourer serjeants will, when the duties of their own units admit, be generally available for the performance of any of the above duties for other units or departments, without extra remuneration; but the employment of an armourer-serjeant with another corps is limited to the case of units without artificers,—or to cases in which artificers are attached, but additional assistance is required under exceptional circumstances.

(e.) Execute repairs necessitated by carelessness or wilful damage, without addition to pay.

(f.) Fit the plates supplied with cork helmets.

Localised
armourer
serjeants.

374. The localised armourer-serjeants, referred to in paragraph 337, will examine, repair, and rebrown, as necessary, the arms of all depôts, units unprovided with armourer-serjeants, and militia battalions, in the districts allotted to them.

Additional
work.

375. Armourer-serjeants will, in addition to the duties laid down in paragraphs 373 and 374, execute any trifling repairs, and also such other work within their capabilities as, under special authority, they may be called upon to perform.

Soldiers not
to be
charged.

376. Armourer-serjeants are not allowed to make any charge against a soldier for work performed on the arms.

APPENDIX I.

(Referred to in paragraphs 11 and 85.)

INSTRUCTIONS FOR KEEPING EQUIPMENT LEDGERS

Ledgers.
When bal-
anced and
furnished.

When they
need not be
furnished.

Copies to be
kept.

Special
cases.

Transfer of
equipment.

1. The ledgers will contain a faithful record of all permanent equipment received or issued. They will be balanced up to 31st March in each year, and will be forwarded, with the vouchers in support, from home stations direct, and from stations abroad through the chief ordnance officer, before the 1st May, to the War Office. The vouchers are to be laid flat in the equipment ledger.

2. When a change of commanding officers takes place between the 31st December and the 1st April, the officer assuming the command will not be required to render an equipment ledger until the 31st March of the following year, unless another change of commanding officers shall take place in the meantime.

3. Copies will be kept of all equipment ledgers sent to the War Office. Should any queries arise on the examination of the ledgers, copies of such queries and of the replies will be retained by the accountant, who will correct his copy of the ledger accordingly.

4. On a unit being disbanded, or embarking for India, the equipment ledger will be balanced and forwarded to the War Office.

5. When equipment is transferred from one accountant to another, stock will be taken as laid down in paragraph 11, Part 1, and the Board therein mentioned will furnish the following certificate :

We certify, in accordance with paragraph 11, Part 1, of the Equipment Regulations, that on the transfer of the equipment of the _____ on the _____

* Here insert *
the corps.
† Here insert
the date.

whole has been inspected by us, and has been found to be properly appropriated; in good condition, and to agree in the quantities and numbers of the several articles actually in possession, with those shown in the equipment ledger.

President, _____

Members { _____

Officer giving over charge.

Officer taking over charge.

Stores found
surplus or
deficient.

38407

Equip.

2023

6. Any surplus stores will at once be brought on charge in the ledger by certificate receipt voucher. The voucher will be signed by the officers who sign the certificate. All stores which may be found to be deficient will be struck off charge, and dealt with as laid down in paragraphs 539 to 541 King's Regulations.

7. A balance will then be struck, as directed in paragraph 18 of this Appendix, which will show the total of each article of equipment for which the officer who takes over command is responsible. This balance will agree with the numbers given by the certificate referred to in paragraph 5 of this Appendix. A balance to be struck.
8. The officer giving over command will then close his ledger to date of giving over charge, and submit it as a final account for examination; and he will be held responsible for all discrepancies which may be found to exist therein; he will also give facilities to the officer assuming command to start a new ledger, the first line, or "state," of which should agree in every particular with the balance, or "remain at date," shown in the old ledger. Ledger to be closed and submitted.
9. In forwarding the ledger to the date of transfer of charge, or date of final balance, it should be accompanied by a covering letter, and any explanations the officer giving over command may have to make as regards surplus or deficient stores. Covering letter with explanation
10. Officers commanding detachments referred to in paragraph 93, Part 1, will render equipment ledgers in accordance with these regulations, so long as they remain independently detached. When a detachment of infantry is attached to a battalion, the equipment will be transferred, by voucher, to the officer commanding the battalion, but will be accounted for by him, in a separate ledger, Army Book 239, and in the case of a provisional battalion composed of several detachments, the commanding officer will render a separate ledger for each such detachment. Equipment of detachments.
11. When a detachment returns to its own unit, or is absorbed in a territorial dépôt or other corps, the equipment will similarly be transferred to the dépôt or corps ledger; and the detachment ledger will be closed, and rendered, complete with its vouchers, to the War Office as a final ledger. Closing detachment ledgers.
12. Articles supplied in sets for which a single heading is provided in the printed equipment ledgers, will be so accounted for. Thus, chests with tools will be shown as "chests, tool, filled," and the armourer's box, with the materials and tools carried therein, as "box, armourer's." A certificate will be given at the end of the ledger by the commanding officer that the sets, tool chests, and box are complete, and contain the articles that should be comprised in them, as detailed in the regulations. When articles charged in detail are taken on in the equipment ledger as sets, reference will be given to the paragraph or table of the regulations which gives the detail. The articles drawn from the army ordnance department to replace losses, &c., in these sets will be taken on charge in the ledger, and the corresponding articles paid for or returned to store will be written off under the same heading. Articles supplied in sets not to be accounted for in detail.
- If the two transactions do not occur in the same period of account, explanatory cross references will be given on each of the vouchers concerned. 38407
Equip.
2023
13. All transactions of receipt and issue that should be recorded in the ledgers will be posted as soon as possible after they occur, and will be supported by voucher. Transaction to be promptly recorded.
14. Vouchers for stores issued are called issue vouchers, and are posted on the right hand or credit side. Vouchers for stores received are called receipt vouchers, and are entered on the left hand or debit side of the ledger. Designations and posting of vouchers.

- Vouchers to show total quantity only. 15. Both receipt and issue vouchers will be filled in by the insertion of the total numbers only in the column of the voucher headed "total number or quantity," the columns S. R. U. and D. being left for use of the army ordnance department.
- Ledger folio to be noted on vouchers. 16. The ledger folios at which entries are made should invariably be noted on the vouchers supporting the account in the column headed "ledger folio."
- Receipt and issue vouchers to be kept separate. 17. Receipt vouchers and issue vouchers will be kept distinct from each other, arranged consecutively according to date, and numbered in red ink on the face of the voucher in two distinct series from 1 upwards for the whole period of the account. The total number of each series will be stated on the inside cover of the ledger.
- How the ledger is balanced. 18. The ledger is balanced by adding up the receipts on the left hand side, and the issues on the right hand side of the ledger, by bringing the total issues over to the left hand side and writing them immediately under the total receipts, the quantities left become the ledger balance or "remain." The remain, when carried forward as the commencing line of the next account, is called the "state."
- Remain. State. 19. In forwarding the equipment account, officers commanding will certify that it has been carefully checked by an officer appointed by him for that purpose, who will sign it in evidence of such examination.
- Certificate on forwarding account.

APPENDIX II.

*(Referred to in paragraph 83.)*SURVEYS ON THE EQUIPMENT OF TROOPS PROCEEDING
TO OR RETURNING FROM INDIA.

SURVEYS AT HOME.

1. If the survey is at home, the officer appointed by the Secretary of State will ascertain, from the general officer commanding in whose district the unit is stationed, the day on which it will be convenient that the survey should be made; and will on such day being named, arrange, with the officer appointed on behalf of the Government of India, to commence the duty. Arrangements to be made with General Officers Commanding.
2. The officer so appointed on the part of the War Office will hold the survey in conjunction with the officer named by the India Office. Representative officers.
3. The object of the survey being to obtain a true account of all articles of Government property in possession of the unit, with a view to a correct valuation between the Imperial and Indian revenues, it is necessarily minute and somewhat tedious, and much, therefore, depends upon the co-operation of all concerned, in order to bring the survey to a speedy and satisfactory conclusion. Object of survey.
4. To facilitate the survey, the officer commanding the corps of which the equipment is to be inspected, will cause lists of all the articles in possession to be prepared in duplicate, together with returns showing the dates of issue of each article, in readiness to be handed over, with the inspection forms for each squadron, battery, or company, to the officers holding the survey. These lists will be made out on Army Forms, which, with the Inspection Forms, should be obtained from the Valuation Committee, India Office London. Officers commanding to have lists prepared.
5. The regimental equipment ledger will be temporarily balanced to the date of the survey, and will be handed to the surveying officers, in order that they may see that all the equipment chargeable to the unit is included in the survey report. Any transactions subsequent to the survey will be duly entered in the ledger, and a final balance struck to date of embarkation. Ledger to be temporarily balanced.
6. Previously to the commencement of the survey, the commanding officer will hand over the prepared forms referred to in paragraph 4 of this Appendix to the surveying officers, who will enter the detailed results of their inspection thereon. Forms to be handed to surveying officers.
7. The inspection will be taken by squadron, batteries, or companies, each man bringing up his complete set of accoutrements in order of the rolls, every article being separated. Cloaks, capes, great coats and haversacks will be inspected at the same time. Inspection to be by squadrons, batteries, or companies. Cloaks and great coats.

Arms and accoutrements of staff and band. Quartermasters' stores.

8. The arms, accoutrements, and appointments, of infantry staff serjeants, drummers, band, and pioneers, will be inspected separately; different rolls being provided for the detail of their appointments.

9. After this the quartermaster's and the industrial school stores, armourer's box, and artificers and regimental tradesmen's tools, materials for repair, and any other miscellaneous articles of Government property will be inspected, their condition and date of issue being carefully noted on rolls previously prepared for the purpose.

Every article to be produced.

10. It is absolutely necessary that every article be produced for inspection, as any deficiencies afterwards discovered, on the examination of the accounts, will be chargeable to the unit, and will be paid for prior to embarkation.

Report to be forwarded to the War Office.

11. On the termination of the survey, while the surveying officers are upon the spot, they will draw up a joint report of the result of the survey, and will forward the same, accompanied by the detailed forms alluded to in paragraphs 4 and 6 of this Appendix, through the general officer commanding, to the War Office.

Date of survey.

12. In the case of units proceeding from home the survey will be held about one month prior to the date on which the unit is under orders to embark.

Ledger to be balanced, &c.

13. Commanding officers will take care that their equipment ledgers are duly balanced up to date of embarkation, and are forwarded as laid down in paragraph 4, Appendix I.

Unsuitable articles to be exchanged.

14. Any arms and accoutrements which, owing to their condition at the time, the officers holding the survey and the commanding officer may consider necessary to be replaced, will be exchanged by the chief ordnance officer on requisition from the commanding officer, countersigned by the surveying officers. *See King's Regulations.* Commanding officers will be held responsible for the return to store of such unserviceable articles prior to the embarkation of the unit.

Report of articles sent with drafts to be made.

15. When articles of equipment are taken to India by drafts, the officer commanding the unit to which the men belong will send to the War Office a return showing the number of articles so taken, giving the dates of issue, and condition (*see* paragraph 14 of this Appendix), and will name the vessel in which the men have embarked, and the date of embarkation.

Water-bottles and Valises.

15A. On proceeding to, or coming from, India, troops will take, or bring with them, water-bottles and valises of home service pattern. On arrival in India these bottles and valises will be handed over to the India Ordnance Department, and a receipt obtained for them. On embarking from India a similar receipt will be given to the ordnance officer by the officer commanding the unit receiving the bottles or valises. All mention of these stores will be omitted from the valuation returns.

Troops returning from India.

Survey to be held within one week after arrival at destination.

16. The survey upon the arms, accoutrements, appointments, and clothing in possession of a unit on its return from India, will be held as early as possible after its arrival at its final destination in the United Kingdom, and will be conducted in the same manner

as in the case of regiments proceeding to India from this country. When the survey has been taken, requisitions for any articles required in place of those which may have become obsolete or unserviceable will be at once put forward, in order that no time may be lost in completing the clothing and equipment of the unit. Should the survey have to be delayed unduly from any cause, an immediate report of the circumstances will be made to the War Office by the general officer commanding. The stores brought from India will be retained by the unit or draft, or at depôts, until authority for their disposal has been received from the Valuation Committee appointed by the War and India Offices.

Arms, &c., to be retained till receipt of order for disposal.

17. When the necessary survey is held on the equipment of a unit returned from India, the surveying officers will furnish the commanding officer with a detail of the equipment taken over from the Indian Government, and this equipment will become the first charge in the Imperial equipment ledger. This detail will be put up with the ledger as a voucher for the entries made therein. They will also furnish the commanding officer with a list of the unserviceable articles to be returned to the India Store Department, but no record of the transaction will appear in the Imperial equipment ledger. All packages, the property of the Imperial Government, used for despatching the unserviceable stores will be taken on charge in the equipment ledger on receipt from the Army Ordnance Department, and struck off charge when sent to the India Store Department.

Units returning from India.

18. The commanding officer will produce to the officer representing India, the Indian equipment ledger and accounts of clothing and necessities, showing the final balances closed to the date of embarkation, together with copies of the Indian returns showing the condition and dates of issue of all equipment on leaving India.

Indian ledger and clothing accounts to be produced.

19. No articles will be sent to the India Store Dépôt, Lambeth, without a receipt and issue voucher, on the printed forms which are furnished by the Valuation Committee when the equipment is inspected; and these documents will be forwarded to the Superintendent of General Supplies, India Store Dépôt, Belvedere Road, Lambeth, so as to anticipate the arrival of the articles to which they refer.

Vouchers to be sent with articles to India Store Dépôt.

20. The name of the unit, or draft, from which the articles are sent will be marked on the outside of the cases or packages.

Name on packages.

21. Officers commanding depôts, or other units, will forward to the War Office, returns of all arms and equipment, &c., in possession of soldiers coming home from India and joining their depôts or other units direct, specifying the condition as well as dates of issue of the same. These returns will be forwarded as soon as possible after the men join, and will not include articles in possession of men who are discharged immediately they arrive.

Articles in possession of men joining direct.

22. For instructions as to the survey of clothing and necessities, see the "Clothing Regulations."

Clothing and necessities.

SURVEYS ABROAD.

Troops proceeding to India from abroad.

23. The conditions laid down in the previous paragraphs will apply equally to the surveys to be held on equipment of troops proceeding to India from stations abroad, it being left for the consideration of the Indian Government to send out an officer to act on their behalf.

Constitution of Board of Survey.

24. If the inspecting officers of the Valuation Committee are unable to attend, a special Board of Survey is to be convened for the inspection, which Board is, as far as practicable, to be constituted as follows :—

A field officer of the unit, President.	
A captain of the unit	} Members.
An army ordnance officer	

The quartermaster of the battalion or regiment will be in attendance for the purpose of affording any information the Board may require.

Arrangement with G.O.C.

25. The chief ordnance officer will arrange, as laid down in paragraph 1 of this Appendix, for the survey, and also for the convening of the Board.

Necessary forms to be supplied.

26. The necessary forms for carrying out the survey will be supplied as laid down in paragraph 4 of this Appendix, and the inspection of the equipment is to be made in accordance with the mode of procedure laid down for units proceeding from the United Kingdom, and, when completed, the returns will be signed by the president and members of the board.

Returns signed by officer commanding.

27. The quartermaster will furnish the following returns, signed by himself, and countersigned by the commanding officer :—

List of Materials for repairing	{	Accoutrements.
		Arms.

„	Armourers' tools.
„	Tools for trades (<i>if any are taken out</i>).
„	Industrial school materials to be taken out.
„	Dates of receipt of equipment.

Returns to be forwarded.

28. When all the returns and forms of inspection have been duly completed and signed, they will be forwarded, with the Board's report of result of inspection or survey, to the general officer commanding for transmission to the War Office.

APPENDIX III.

*(Referred to in paragraph 365.)*INSTRUCTIONS FOR THE CARE AND PRESERVATION
OF FLUTES AND PICCOLOS.

1. The player, in whose care the instrument is placed, must carefully wipe the joints and bore with an oiled rag or brush once or twice a week. The oil must not be put on too thick, a slight gloss in the bore is all that is required. Joints and bore to be wiped with oiled rag.

2. After use the moisture must be wiped away from the joints and bore, and when perfectly dry inside, an oiled rag or brush must be passed through the bore. Moisture to be removed.

3. To protect the wood from splitting the instrument must not be placed in the sun, nor laid on cold stone, or iron, while warm or wet inside, and the cleaning rag must not be forced through the bore. Precautions against splitting.

(EQ. R.)

G

APPENDIX IV.

(Referred to in paragraph 241.)

TOOLS AND MATERIALS FOR REGIMENTAL AND CIRCUIT ARMOURERS.

- 1. The tools and materials will be supplied free in the first instance, but are thereafter to be kept up and renewed as they become worn out, at the expense of the armourer.
- 2. The screw plates and taps when renewable must be obtained exclusively from the Army Ordnance Department.
- 3. When a regimental armourer is detailed to perform work for which tools are required which are not included in his set the additional tools can be obtained on loan from the Army Ordnance Department.

	pick { heads, 6½ lbs.			
		helves, 34½ ins.		
Bags , letter, field				1 per office of staff units.
Bars , crow				4 per regiment of cavalry and battalion of infantry, 1 per staff or other unit.
Barrows , wheel, intrenching				8 per regiment of cavalry, 3 per other mounted unit.
Boxes , stationery, field				1 per office (for staff units only).
Brooms , birch				12 per regiment of cavalry, or battalion of infantry, 6 per staff or other unit.
Buckets *				1 per 4 horses or less, and 1 per tent (except office tents).
Chairs , camp				1 per G.O.C.
Cords , forage				1 per 8 mounted N.C.O. and men or less.
Covers , saddle				1 per set of saddlery or single set of harness, 2 per double set of harness.
Flags , distinguishing				As required.
Hooks , bill				10 per regiment of cavalry, 20 per battalion of infantry, 4 per other unit.
Kettles , camp, oval				1 per 8 N.C.O. and men.
Lamps , candle				1 per office tent (staff units only).
Lanterns , {	folding			20 per regiment of cavalry, 4 per battalion of infantry, 2 per staff, 2 per other mounted unit, and 1 per other dismounted unit.
	distinguishing			As required.
	tent			
Mallets , heel peg				1 per 3 officers' horses, 1 per 8 other horses.
Mauls , common, helved				4 per squadron of cavalry or other mounted unit, 1 per battalion of infantry.

* Pails, iron, galvanised, 3 or 4 gallons, may be issued in lieu.

Camp Equipment—continued.

Table 1—continued.		Proportion.
	Nets , hay	1 per horse, if specially required.
	Ovens , Aldershot pattern....	2 per regiment of cavalry, or battalion of infantry, and 1 per other unit. (To be issued only where the same troops are under canvas for a consecutive period of more than 28 days.)
54 Gen. No. 8029	Pads , surcingle	1 per horse (public property) when not issued as equipment.
	Pegs , picketing	1 per horse, plus 15 per cent. spare.
	Posts , picket, 2½ feet	6 per 80 ft. picketing rope.
57 Gen. No. 1618	Ropes { head, hemp, with ring heel, Mark IV.	1 per horse. 85 per cent. of the number of horses, and 5 per cent. spare.
	heel, double shackle* picketing, 80 ft.	15 per cent. of the number of horses. 1 per 10 horses.
	Racks , arm, tent	1 per N.C.O. and men's tent, except that horse, field, and mountain batteries, R.A., will draw 1 per sub-division and 1 per guard tent only.
	Rugs , horse { large	1 per public service horse of household and heavy cavalry, R.E., R.A., A.S. Corps, and Military Mounted Police; and for other units in the proportion of 10 per cent. number of horses.
	small	For 90 per cent. of public service horses of units not in possession of full proportion of large rugs.
	Screens , latrine†	4 per regiment of cavalry, 6 per battalion of infantry, 2 or 3 per staff or other unit as considered necessary.
	Sheets , ground, waterproof ‡	8 per tent, or 1 for each man in tents occupied by a less number than 8.
H0443 L. of C.	Shovels , G.S.	} 10 of each per regiment of cavalry or battalion of infantry, 5 per other mounted unit, 3 per other dismounted unit.
	Spades , N.P.	
	Stools , camp	1 per office tent (staff units only).
	Stoves , Soyer's	4 per regiment of cavalry or battalion of infantry and 1 per other unit. <i>To be issued only when coal is the fuel used.</i>

* When the store of these is exhausted, "ropes, heel, Mark IV" will be issued in the proportion of 1 per horse and 20 per cent. additional.

† 1 extra service may be issued for bathing places if considered desirable.

‡ When tent bottoms are not supplied.

Camp Equipment—continued.

	<i>Miscellaneous Stores.</i>				
	Mixture, browning ‡	...	...	...	
	Sheeting, old lbs.	24	20	16½	

* The following quantities of oil will be issued for the cleaning, oiling, and preservation of small arms, including pistols, at home stations and in the Dominion of Canada in time of peace:—

RIFLE OIL.

Horse and Field Batteries, Royal Artillery, 5 pints annually.

Regimental Districts.—For every 100 stand of arms in constant use, 6 gallons annually.

Other Services.—For every 100 stand of arms, 6 gallons annually.

RIFLE OIL AND MINERAL JELLY.

At stations abroad, except in the Dominion of Canada, a mixture of oil and mineral jelly will be issued in the following proportions:—

Horse and Field Batteries, Royal Artillery, 6½ pints for each battery per annum.

Other Services.—6 gallons 1 quart for every 100 stand of arms per annum at

Gibraltar, Malta, Egypt, and South Africa; 7 gallons at Straits Settlements,

Mauritius, Ceylon, Hong Kong, Bermuda, Barbados, Jamaica; and

9 gallons at West Coast of Africa.

The above allowance of rifle oil, and rifle oil and mineral jelly will include the quantities required for browning, and also for filling the oil bottles.

RANGOON OIL.

1 gallon of Rangoon oil per 100 rifles or carbines per annum will be allowed for lubricating the actions, for which purpose rifle oil is on no account to be used.

No oil, except that supplied by the Army Ordnance Department, will be applied to the arms under any circumstances.

COMPOSITION PRESERVING ARMS.

In the West Indies, West Coast of Africa, Mauritius, Hong Kong, and Singapore, arms will be greased, between fore-end and barrel, quarterly, with "Composition, preserving arms," thickened with beeswax. For this service 4 gallons of mixture and 16 lbs. of beeswax for every 500 arms per annum will be allowed. At Ceylon the arms will be greased in this way quarterly during nine months of the year, and once a month for the remaining three months, and 6 gallons of mixture and 24 lbs. of beeswax will be supplied for 500 stand of arms. At other stations the arms will be greased once a year with "composition, preserving arms" only, and 1 quart of the mixture for every 100 stand of arms will be allowed.

† 1½ lbs. to each gallon of water. The quantities shown are the maximum allowance, but no more should be used than is actually required to remove the grease.

‡ Browning mixture is supplied in the proportions described in Instructions for the care, repair, and browning, &c., of Arms and Bayonet Scabbards, in the Instructions for Armourers. Charcoal and coal are supplied as laid down in the Allowance Regulations

Bit, Snaffle.

2. The snaffle bit is a strong double-ring pattern with twisted mouthpiece. It will be used with horses in transport not accustomed to work in portmouth bits, or that require a larger mouthpiece than the $5\frac{1}{2}$ -inch, No. 2 (largest size) portmouth reversible bit.

Breeching, Army Service Corps.—Strap, Extending.

3. The strap is $1\frac{1}{2}$ inches in width and $13\frac{3}{4}$ inches in length, and fitted with a $1\frac{1}{2}$ -inch buckle to take the breeching strap.

These straps will be required with the Army Service Corps new-pattern breechings when used on heavy van horses, as the breeching straps will be found too short to permit of their being bent back and buckled after passing through the squares in the leather parts of the traces.

Two straps will be required with each breeching, one on each side, if any extension of breeching is necessary, to allow the seat of breeching and the hip straps to work evenly.

NOTE.—The extending straps are not intended to take the place of the short breeching straps mentioned in *List of Changes*, § 7096.

Girth.—Piece, Extending.

4. The extending piece for luggage girth is 12 inches in length, fitted with two 1-inch buckles, and split into two 1-inch straps to buckle into the girth. It will suit any of the girths mentioned in the following table of girths.

The extending pieces will be found unnecessary in some cases after a few days' wear. See page 164, with reference to stretching of leather.

Girths.

(§ 7136, *List of Changes*.)

5. Percentage of sizes.

Pattern and size.	Universal saddlery.				Harness.	
	Cavalry.		Mounted infantry.	Royal Artillery, Royal Engineers, and Army Service Corps.	Artillery.	Royal Engineers, Army Service Corps, transport and ammunition columns and parks.
	Light	Heavy.				
Small (30-inch) ...	...	...	100	...	...	...
Medium (34-inch) ...	100	80	...	70	60	30
Large (38-inch) ...	...	20	...	30	40	70
Luggage (48-inch)* ...	...	...	...	...	...	...
	100	100	100	100	100	100

* All luggage saddles.

No girths having $1\frac{1}{4}$ -inch buckles are to be held in mobilization stores.

Surcingle.—Strap, Extending.

6. The strap for extending surcingle is 13 inches in length, fitted at one end with a buckle, and suitably punched at the other end.

The service surcingle is issued in one length for all services. The strap is set back on the body 5 inches to allow it to be lengthened regimentally by re-sewing the strap nearer the point, when necessary. But as this cannot be done on mobilization, extending straps are provided.

Strap, Hame, 30-inch.

7. The strap hame for future manufacture will be 30 inches. This length only will be held in mobilization stores.

Bits, Portsmouth.

8

Percentage of sizes.

Pattern and size.	Saddlery.					Harness.	
	Officers.	Cavalry.		Mounted infantry.	Royal Artillery, Royal Engineers, and Army Service Corps.	Artillery.	Royal Engineers, Army Service Corps, transport, and ammunition columns and parks.
		Light.	Heavy.

Army Service Corps pattern	...	...	...	...	...	...	100
	100	100	100	100	100	100	100

* The R.A. pattern will be issued until store is exhausted, and the Mark III to all services except with A.S.C. harness.

Cruppers and Dock-pieces.

10. Only 6 per cent. of the Army Service Corps pattern harness cruppers are to have dock-pieces.

Dock-pieces of General Service cruppers, when issued, need not be used, but turned up.

Leathers, Stirrup.

11.

Percentages of sizes.

Sizes.	Universal saddlery.				Harness.
	Cavalry.		Mounted infantry.	Royal Artillery, Royal Engineers, and Army Service Corps.	Drivers'.
	Light.	Heavy.			
Short	80	50	100	50	100
Long	20	50	...	50	...
	100	100	100	100	100

Neck-collars and Hames.

12. The registered horses will bring their own neck-collars, for use if a service collar cannot be fitted suitably for immediate work.

For tables of percentages of service collars *see* paragraph 142K.

The sizes of service hames differ by inches from 22 to 25 inches.

The service neck collars differ in sizes by half inches, and vary from 20 to 25½ inches.

Service hames of suitable sizes and of the patterns described in §§ 7883 and 7884, *List of Changes*, i.e., the General Service, Mark III., the Pole-Draught, and the Army Service Corps patterns, with detachable hame-chains, will fit any civilian pattern, or service collar.

The size of hame need not necessarily correspond with the size of collar. Each service hame will generally fit a collar two sizes below or above its own marked size, civilian pattern pipe-collars excepted.

A pipe-collar is closed at the top, and is V-shaped at the throat. The shape of the throat necessitates a full-sized hame being used, so as to place the draught-arm sufficiently high.

Pads, Collar, Zinc.

13.

Percentages of sizes.

Pattern and size.	For neck collars.		Remarks.
	Up to 21½ inches.	22 inches and upwards.	
Mark II. { small	100	...	A 23-inch collar narrow as the top will take a small size pad.
{ large	...	100	

Pannels, Hair, for Luggage Saddles.

14. Hair pannels flatten after a few days' wear, and in consequence the girths will then be worn two or three holes shorter than originally fitted.

The saddle blanket must not be carried under the saddle with hair pannels, as it will raise the saddle too high off the animal's back, and cause the girth and surcingle to be too short. It will be carried in the vehicle, when pannels are in use.

Saddles.

Percentages of sizes.

15.

Percentages of Horses.

				Universal. Sizes.		Total.	Harness.					
				0	1		2	3	Drivers'.		Luggage.	
									Large.	Small. *	Large.	Small. †
Cavalry	{light	...	...	...	40	50	10	100	...	...	...	...
	{heavy	...	...	...	25	50	25	100	...	...	...	...

Royal Horse Artillery	...	...	...	...	20	50	30	100	100	...	100	...
Field Artillery, Royal Engineers, Army Service Corps, and Regi- mental Transport	...	...	...	...	10	50	40	100	100	...	100	...

* For cobs only, 100 per cent.

† For machine-gun Infantry and mule harness only, 100 per cent.

‡ Only when horsed with animals under 15 hands (cobs).

Stretching of Leather.

16. It should be noted that all new leather subject to strain elongates from $\frac{1}{2}$ an inch to 1 inch in 12 inches, according to width and substance, and whether it is subject to strain when wet from sweat or rain.

Bit-heads, throat-lashes, breast-plates, girths, and surcingles will stretch to the maximum.

Punching Straps.

17. In punching straps the correct size of punch should, whenever possible, be used, so that holes similar to those already in the straps may be made.

Where it can be done without spoiling the appearance of the strap by punching too near the point, a spare hole or more should be punched above or below that in use.

Ropes, Head.

18. These are to be held as camp equipage only, on active field service; and, on mobilization, omitted from the sets of harness and saddlery.

Ropes, Reel.

19. The usual proportion is one per horse ; but, for active field service, 15 per cent. in addition will be stored for unruly horses, for which two each are to be used. Horses requiring two ropes will carry them on the march.

Rings, Clip.

20. When hames are not fitted with terret-rings for long-rein driving, clip rings—to be closed on the top eye of the hames—are to be used for that purpose, and will be stored accordingly with the sets of harness for mobilization, at the rate of four rings per set of long reins.

Straps, Back.

21. When back-pads are not stored with the sets of harness, two backstraps per set of long reins are to be used in long-rein driving, and stored accordingly.

54
Gen. No. 8246

* In service and depot batteries of R. H. A. and R. F. A. and ammunition columns 2 pairs of traces, saddlery, only per gun and ammunition wagon limber are allowed.

INSTRUCTIONS.

1. Hair pannels in use with saddles (except those of the luggage pattern) will, on mobilization, be left at the peace station of the unit, and saddle-blankets and numnah pannels taken into use instead.

2. Head-ropes are not included in sets of saddlery for war but under camp equipment.

Mounted Infantry Saddlery.

3. The breast-plate can be fitted to small cobs by shortening the points of the neck-straps, and cutting off the end button hole of each attachment strap and re-punching fresh holes.

4. *The Head Collar.*—The throat-lash and head of small size Cavalry head collar can be made smaller, if necessary, by cutting off two or three inches from the points, which have been left long and unpunched for this purpose. In special cases the nose-band or back stay may be shortened by cutting and re-stitching.

5. The Reversible Head for Bit must be shortened to the length required at the billet end of the long side, by cutting and re-stitching.

6. *Surcingle, Leather.*—The strap can be cut off and re-sewn from 6 inches to 8 inches up the body to give the length required and the body can be shortened equally.

HARNESS—General Service.

For R.A. (Shaft-draught), R.E., A.S.C., and Cavalry and Infantry Regimental Transport, as may be ordered.

Instructions to Guide Storage for Mobilization with Registered Horses.

1. For G.S. pattern harness there are to be 80 per cent. of port-mouth (until existing stock is exhausted, then the reversible), and 20 per cent. of snaffle, van bits.

2. Shoe-cases will not hold shoes of any size larger than No. 8, therefore Nos. 9 and 10 shoes, stored for registered heavy draught horses, are to be carried instead in the wagon box for active field service.

3. Neck-collars of registered horses are to be purchased with the horses on mobilization, for use until the service pattern from store can be fitted instead. Where those stored for a unit are found to be too small, larger sizes will be obtainable in exchange, on requisition, from ordnance dépôts on the lines of communication.

4. When G.S. pattern cruppers are issued, the dock need not be used with fractious horses, but turned up.

5. For long-rein driving, hames not fitted with terret rings are to be provided with clip-rings, at the rate of four rings (to be closed on the top eye of the respective hames) per set of long reins; also with G.S. harness (having no back-pads), two back-straps per four clip-rings are required, and should be stored accordingly.

6. Hair pannels in use with saddles (except those of the luggage pattern) will, on mobilization, be left at the peace station of the unit, and saddle-blankets taken into use instead.

7. Head-ropes are not included in sets of harness for war, but under camp equipment.

8. With snaffle van bits, in lieu of portmouth pattern, for horses with tender mouths, or requiring a larger mouthpiece, the reversible head is necessary. § 7166 L. of C.

SPECIAL FOR MOBILIZATION STORAGE.

Woolwich Section No. 5.

Bits , snaffle, van	1	1	1	1	For 20 per cent. of single sets of harness, in lieu of a similar number of reversible or G.S. bits. See para. 2 of Instructions at end of table.
Breechings , A.S.C., straps, extending..	1	1	1	1	For 40 per cent. of single sets of harness.
Girths , luggage, pieces, extending ..	1	1	1	1	For 40 per cent. of single sets of harness for all sizes of girths.
Surcingle s, leather, harness, straps, extending	1	1	1	1	For 40 per cent. of single sets of harness. 1 per neck collar.
Straps , hame, 30-inch	—	—	—	—	In the same proportion as bits, snaffle, van.
Bits , portmouth, reversible, heads, bridle	—	—	—	—	See para. 7 of Instructions at end of table.

**INSTRUCTIONS TO GUIDE STORAGE FOR MOBILIZATION
WITH REGISTERED HORSES.**

1. Only 6 per cent. of the cruppers in A.S.C. new pattern harness sets are to have dock-pieces.

2. For sets of A.S.C. new pattern harness, there are to be 80 per cent. of reversible, and 20 per cent. of the snaffle van pattern bits.

3. Shoe-cases will not hold shoes of any size larger than No. 8 ; therefore Nos. 9 and 10 shoes, stored for registered heavy draught horses, are to be carried instead in the wagon box, for active field service.

4. Neck-collars of registered horses are to be purchased on mobilization, for use until the service pattern from store can be fitted instead. Where those stored for a unit are found to be too small, larger sizes will be obtainable in exchange, on requisition, from Ordnance Depôts on the line of communications.

5. Hair pannels in use with saddles (except those of the luggage pattern) will, on mobilization, be left at the peace station of the unit, and saddle-blankets taken into use instead.

6. Head-ropes are not included in sets of harness for war, but under camp equipment.

7. With snaffle van bits, in lieu of portmouth pattern, for horses with tender mouths, or requiring a larger mouthpiece, the reversible head is necessary. §7166 L. of C.

PACK-SADDLERY, G.S., MARK III OR IV.

Set.

N.B.—Mark IV has tinned buckles and a steel-arch saddle-tree, and will not come into use until existing store of other marks is exhausted.

APPENDIX IX.

(Referred to in paragraph 368^a)

**INSTRUCTIONS FOR THE CARE AND PRESERVATION
OF THE LEATHER OF HARNESS AND SADDLERY
(OTHER THAN THAT HELD FOR MOBILIZATION) IN
POSSESSION OF TROOPS.**

- | | |
|---|---|
| Dubbing to be used. | 1. Once in every six months the saddlery and harness in possession of the troops is to be laid by in dubbing for two or three days. |
| Time for applying dubbing. | 2. From Friday afternoon until Monday afternoon is a suitable time, if the Saturday intervening be made a saddlery and harness inspection day, so that the officer immediately responsible may see that the orders are strictly carried out. |
| Proper application of dubbing. | 3. The whole of the strapping composing the saddlery and harness will be taken to pieces ; and after the articles have been cleaned, and while they are damp from the use of a wet sponge, the dubbing will be lightly rubbed in. It may be applied with a rag, sponge, or brush. Dubbing spreads more uniformly, and is incorporated more thoroughly with the fibres of the leather, if applied when the leather is damp. In the winter months the dubbing should be warmed. |
| Tallow to be rubbed off. | 4. When the dubbing has had time to penetrate the leather, which will be in two or three days, the residue of tallow on the surface should be rubbed off, and the article polished up with a cloth or brush. If this is properly done, and only a sufficiency of dubbing has been used, the leather will not soil the hand or glove when handled. |
| Articles requiring exceptional treatment. | 5. Carbine buckets, and seats and flaps of saddles; being of uncurried leather and requiring to be kept stiff, should only be very lightly dubbed <i>annually</i> , but occasional soap sponging is necessary to preserve the grain. |
| Daily use of soap. | 6. Soap should be used daily, where articles are in constant use, to produce mellowness in the leather rather, than an outward gloss. Inspecting officers should handle the straps to ascertain that they are pliable, and in good preservation. |
| Leather to be kept soft. | 7. So long as leather remains dry and clean it needs but little attention, beyond receiving a little grease half-yearly ; but when wetted, either by rain or by the water necessary to clean it, the leather becomes hard and stiff, if not softened with some oily matter. |
| Soda not to be used. | 8. Leather must not be washed with soda nor soaked in water. Its vitality is quite destroyed by being soaked in hot water, and it will be found afterwards to readily crack when bent. Washing the leather with soap and <i>luke-warm</i> water, quickly, and without soaking, will not injure it if the precaution is taken to apply oil, dubbing, or good soap, while the article is slightly damp. |

9. Drying the leather by the fire destroys its durable properties, and is strictly forbidden. Not to be dried by the fire.

10. Leather articles exposed to the action of ammonia, which is continually given off in stables, become weak and rotten sooner than those not so exposed. But the grease of oil, soap, or dubbing, applied from time to time, penetrates the leather, nourishes it, and fits it to resist the deleterious effects of ammonia, and of atmospheric moisture; it also fills up the fibres, makes the leather more mellow, and increases its tensile strength. Action of ammonia.

11. Softsoap contains an excess of alkali, and should be sparingly used; if applied freely it gives the leather a dark and sodden appearance. Soft soap to be sparingly used.

12. Bees-wax and saddle soaps, commonly used in the service to give a polish to the grain of the leather, are not objectionable, providing good yellow soap is used to the flesh (under) side to keep the leather mellow. Use of bees wax, &c.

13. Black saddlery leather requires greater care than brown. To give it a good appearance, the best blacking only should be used. Black saddlery.

14. The harness and saddlery of sick and young horses, when kept in store, should be properly cleaned, and soaped, or dubbed, before being stored. The officer immediately responsible should inspect them monthly. Monthly inspection.

INSTRUCTIONS FOR MARKING VEHICLES.

CONTENTS.

	PARAS.
Object of instructions	1
System of marking to be uniform	2
Position of "corps marks"	2, 6
Position of other marks	3
Method of marking	5
Details of corps marks	6
Details of additional marks.. .. .	3
Abbreviations to be used	6
Distribution of vehicles	7
Tables I. to VI.	

Object. 1. These instructions are issued with the object that when required for use on mobilization, every vehicle shall be marked so as to show the title of the unit to which it belongs, the formation to which the unit is allotted, and the service to which each vehicle is appropriated.

Corps marks, position of. 2. These marks, called "corps marks," are to be on the same system for all vehicles, and for all branches of the service.

The position of the marks will be as follows:—

Gun carriages and vehicles, } centre of back of ammunition boxes.
with limbers

Carriages, { infantry, { Nordenfelt, 3 barrel (Mark I), (also
field, { Maxim, Mark I, .303 guns, front plate.
machine { Maxim, Mark II, .303 guns, back of
gun, { lockers and front plate.

{ cavalry { Nordenfelt, 3 barrel (Mark I), (also Gardner, 2 bar- { off side of
or { rel), { framework
mounted { Maxim, Mark I, .303 guns, { carrying
infantry, { ammunition.

Other vehicles { on body of vehicles, on *off side*, as far to the
(if construction { front as possible, and low enough to be clear of
admits), { tarpaulin or other cover.

Other marks
not to be
mixed up
with.

3. In addition to the above-named "corps marks," there are a number of details, chiefly for regimental convenience, marked on certain vehicles, such as the nature of gun, number or letter of subdivision, number of wagon, &c. These details are not to be mixed up with the corps marks, and will be placed on the rear side, as shown in the details given in Table IV.

4. The details of the marking are given in the following paragraphs, and all vehicles detailed for use with medical units, such as bearer companies and field hospitals, will be marked with the Geneva cross, in addition to corps marks, &c. Details, where given.
Geneva cross.

5. Drawings to illustrate the method of marking, and the correct position of the marks, will be issued, on demand, to chief ordnance officers of districts, who will arrange for necessary promulgation to the troops requiring them. The marking of vehicles will be performed by hand-painting, by battery and regimental artificers. In the absence of artificers trained to hand-painting, vehicles will be marked by the army ordnance department. All marking, except the Geneva cross, which will be in red on white ground, will be for vehicles painted lead colour in white paint, and for those painted khaki colour in black paint, in letters and numerals, as laid down in Table V. Drawings.

38407
Equip.
2006

6. "Corps marks" generally require three lines:—

First line.—Title of unit, e.g., 2 Leins. R.

Second line.—Formation to which unit is allotted, e.g., 3 Inf. Bde.

Third line.—Service to which vehicle is appropriated, e.g., Baggage.

Table I shows the abbreviations to be used for titles of units.

Table II gives examples of first and second lines, and shows the special methods of marking vehicles in ammunition columns, supply columns, bearer companies, and field hospitals.

7. Since the allotment of most of the units in the field army varies from time to time, as units move from station to station in the course of relief, it is not possible to keep all vehicles permanently marked in full, but where this is possible it is always to be done. Vehicles to be permanently marked where possible.
Distribution of vehicles.

The extent to which the marking can be completed in anticipation of mobilization depends on the distribution of the vehicles during peace, which is, broadly, as follows:—

(a.) Vehicles in charge of units, and forming part of their peace equipment will be kept fully marked. Vehicles in charge of units.
Regimental transport vehicles.

Regimental transport vehicles for infantry battalions will be marked with an "index number" in addition to, and above, the corps marks. This index number will be inscribed in a circle thus, $\textcircled{15}$. A list of stations, barracks, and numbers is given in Table VI., of this Appendix.

When vehicles accompany a unit on change of station, or are handed from one unit to another on relief, any necessary changes in the marking will be at once carried out.

(b.) Vehicles forming part of the mobilization equipment in charge of units:— Mobilization equipment.

These will be kept fully marked, with the exception of the letter, number, or designation of the unit, which will be filled in on mobilization, by the particular unit which then uses the equipment.

(c.) Vehicles kept by the army ordnance department in mobilization storehouses to complete the equipment on mobilization of units which exist in peace, and the allotment of which is liable to change in course of relief:— Vehicles kept by A.O.D.

These will be kept fully marked, omitting that part only of the detail in the first line which indicates the actual title of the unit,

and the number of the battalion, regiment, &c., which will be filled in after the vehicles are taken over by the unit to which they are allotted.

(d.) Vehicles kept by the army ordnance department, in mobilization storehouses, for the equipment of units which are to be formed on mobilization, or for those units, existing in peace, the allotment of which is not affected by change of station :—

The units are given in the following list, and the vehicles held for them will be kept marked in full :—

Staff units.

Regimental staff of corps artillery.

Household Cavalry (composite) Regiment.

Ammunition column.

Ammunition Parks.

Regimental staff of corps engineers.

Troops, bridging battalion, Royal Engineers.

Divisions of telegraph battalion, Royal Engineers.

Field Troops, Royal Engineers.

Balloon sections, Royal Engineers.

Field Parks, Royal Engineers.

Militia Engineers in the Field Army.

Railway companies, Royal Engineers.

Field Companies, Royal Engineers.

Volunteer Engineers in the field army.

Mounted infantry.

Mounted infantry machine-gun sections.

Bearer companies (including those formed by the Royal Army Medical Corps Volunteers).

Field hospitals.

(e.) Vehicles which are on charge of various corps for local purposes :—

These will be marked to show the purpose to which they are locally appropriated.

TABLE I.

SHOWING the abbreviations to be used in the first line of the marking, which shows the title of the unit.

Unit.	Abbreviations.
Depôt, Royal Horse Artillery	Dep. R.H.A.
R Battery, Royal Horse Artillery	R. R.H.A.
Depôt Field Artillery	Dep. R.A.
5th Field Battery, Royal Artillery	5. R.A.
3rd Cavalry Brigade Ammunition Column	3 Cav. Bde. Ammn. Col.

* Letter or number of Unit, or number of formation.

TABLE III.

DETAILS of the third line of the marking which indicates the service to which each vehicle is appropriated.

N.B.—A separate series of consecutive numbers to be given to each nature of vehicle in the unit: "Ammunition and Store," or, "Surgery, spring," wagons allowed to units in lieu of "General service," wagons will, however, be given consecutive numbers in the series for G.S. wagons; but carts supplied in lieu of wagons will be numbered according to the respective natures of such carts. Vehicles on charge of units for peace services, and intended also for war equipment, will have priority of numbers over those held on mobilization equipment charge. The number will follow after the third line of marking.

First two lines of the marking which indicate the Unit and the Brigade, Division, &c., of which it forms part.	Last line of marking.	Remarks.
Staff III. A.C.	On 1 cart, forage.—Intel. Dept. Baggage. On 1 cart, forage.—A.S.C. On 2 wagons, G.S.—Baggage No. 1 or No. 2. On 3 wagons, G.S.—Supply No. 1, No. 2, or No. 3.	
Staff Cav. Div.	On 1 wagon, G.S.—Supply. On 1 wagon, G.S.—Baggage.	
Staff 3 Inf. Div.	On 1 wagon, G.S.—Baggage. On 1 wagon, G.S.—Supply.

TABLE IV.

DETAILED Marks, on various vehicles, which are to be in addition to the Corps Marks shown in Tables II and III.

ROYAL HORSE AND FIELD ARTILLERY.

Description of vehicle.	Nature and position of marks.	Examples.
Gun carriages	Nature of gun and letter of Sub-division on trail, near side.	12-pr. B.L.—D.
Limbers	Nature of gun, and letter of Sub-division on rear of axletree.	12-pr. B.L.—D.
Howitzer carriages	Nature of howitzer and letter of sub-division on trail, near side.	5-in. B.L.Hr.—D.
Limbers	Nature of howitzer and letter of sub-division on rear of axletree.	5-in. B.L.Hr.—D.
Ammunition boxes	<i>Of Limbers and Wagons.</i> —Letter of Sub-division, in the left top corner of each box in rear.	
71 1 762 Ammunition and store wagons.	Title of battery on rim of foot-board, wagon number and nature of load, low down on tail-board.	89—R.A. (rim of foot-board). No. 2. Baggage. (tail-board).
Forge wagon, R.A.	Title of battery, and the word "Forge" in rear centres of limber box, limber bed, and wagon body.	U.—R.H.A. Forge.
Store wagon, R.A.	As for forge wagon R.A., substituting "Stores" for "Forge."	89—R.A. Stores.

AMMUNITION COLUMNS AND PARKS.

Gun carriages	Nature of gun on trail, near side ...	12-pr. B.L.
Limbers	Nature of gun on rear of axletree ...	15-pr. B.L.
Ammunition boxes	No. of sub-division in the left top corner of each box in rear.	
71 1 752 Ammunition and store Wagons.	Title of unit on rim of foot board, number of wagon, and nature of load, low down on tailboard.	3 Div. Ammn. Col. (rim of foot-board). No. 6.—S.A. Ammn. (tailboard).
Carts, S.A.A.	Title of unit on centre of front, and number of cart, and the words "S.A. Ammn." on rear.	II. C.T. Ammn. Col. (front). No. 3.—S.A. Ammn. (rear).
Forge wagons	Title of unit, and the word "Forge" in rear centres of limber box, limber bed, and wagon body.	9 Div. Ammn. Col. Forge.
Forage cart	Title of unit on centre of front and the words "Baggage Staff" low down on rear.	1 Ammn. Park-Staff (front). Baggage Staff (rear).
Maltese cart	Title of unit on centre of front and on rear low down the words "Medical Equipt."	1 Ammn. Park-Staff (front). Medical Equipt. (rear).

Table IV—*continued.*

MOUNTAIN ARTILLERY.

Description of vehicle.	Nature and position of marks.	Examples.
Carriages	On near side of trail	2.5-in. R.M.L. 3.
Limbers	On rear of bed	10. M. 7-pr. 200 lb. R.M.L.
Packsaddlery, cradles ...	In most convenient position ...	1. M. "Ammunition." 10. M. "Carriage."

SIEGE TRAIN.

Gun or howitzer carriages.	The words "Siege Train," the number of the Division* in the train, the nature of the piece, and its number in the Division, on near side of trail or bracket.	Siege Train, No. 1 Divn.* 6.6-in. R.M.L. Hr. 4.
Limbers and boxes† ...	The words "Siege Train," the number of the Division in the train, the nature of the piece, and its number in the Division, on rear of bed. Nature of piece, and its number in the Division on left rear of boxes, close to top.	Siege Train, No. 1 Divn., 40-pr. R.M.L. 1. 40-pr. R.M.L. 1.
Forge and store wagons.	The words "Siege Train," the number of the Division in the train, and number of the wagon in the Division, on near side of perch. The word "Forge" (or "Store") and the number in the Division low down on rear of wagon.	Siege Train, No. 1 Divn. 2. Forge. 1.
Limbers of forge and store wagons.	The words "Siege Train," the number of the Division in the train, the word "Forge" or "Store," and the number of the wagon in the Division, on rear of bed. The word "Forge" or "Store," and the number of the wagon in the Division, on the rear of the box.	Siege Train, No. 1 Divn. Forge. 2. Forge. 2.
Platform wagons	The words "Siege Train," and the number of the Division in the train, on front of bed. The word "Gun" (or "Gyn and Stores"), and the number of the wagon in the Division, on rear of bed.	Siege Train, No. 1 Divn. Gun. 2.
Platforms	The words "Siege Train," the number of the Division in the train, and the number of the platform in the Division, on end of platform when packed.	Siege Train, No. 4, Divn. 1.

* Divisions Nos. 1, 2, and 3 are heavy; Nos. 4, 5, and 6 are medium, and Nos. 7, 8 and 9 are light.

† In the case of spare carriages the word "Spare" will be substituted for the numeral of the carriage or limber.

Table IV—*continued.*

Description of vehicle.	Nature and position of marks.	Examples.
Trench carts	The words "Siege Train," and the number of the Division in the train, on the front board. The number of the cart in the Division low down on the tail-board.	Siege Train, No. 1 Divn. 2.
Sling wagons and limbers.	The words "Siege Train," the number of the Division in the train, and the number of the wagon in the Division, on near side of the bed of wagon, and on rear of axletree bed of limber.	Siege Train, No. 2. Divn.
71 I 752 Ammunition and store wagons.	The words "Siege Train," and the number of the Division in the train, on the rim of foot board. The nature of the ammunition carried, and the number of the wagon in the Division, low down on the tail-board.	Siege Train, No. 4 Divn. 6·6-in. R.M.L. Hr. 2.
Triangle gyny	The words "Siege Train," the number of the Division in the train, and the number of the gyn in the Division, on the middle part of prypole.	Siege Train, No. 1 Divn. 2.

SIEGE COMPANIES.

Carriages	Title of unit on off side of trail, "Siege Company," and nature of piece on near side of trail.	* E.R.A. Siege Company. 40-pr. R.M.L. 8-in. R.M.L. howitzer.
Limbers	Title of unit, the words "Siege Company," and nature of piece on rear of bed.	...
Ammunition boxes...	Title of unit, the words "Siege Company," and nature of piece, on left rear of each box, close to the top.	...
Ammunition and store wagons.	Title of units, the words "Siege Company," and nature of ammunition carried, low down on tail-board.	* S.R.A. Siege Company- 40-pr. } R.M.L. 25-pr. } (1) 8-in. } R.M.L. 6·6-in. } Howr. } (2).
Platform wagons	Title of unit, the words "Siege Company," and nature of service.	W.R.A. Siege Company- Gun. Siege Company- Gyn.
Trench cart	Title of unit, and the words "Siege Company," on tail-board.	* E.R.A., Siege Company.

* Number of company.

Table IV—*continued.*

MOVABLE ARMAMENT.

Description of vehicle.	Nature and position of marks.	Examples.
Gun carriages	Nature of piece on near side of trail ...	40-pr. R.B.L. 16-pr. B.M.L.
Ammunition boxes ..	Of limbers and wagons. On centre of back	"Movable Arma-ment."
Hand carts	On front board	"Movable Arma-ment."
Trench carts	On front board	"Movable Arma-ment."

TABLE V.

SHOWING nature and size of letters and numerals to be used.

Marking.	Nature of letter or numeral.	Size.
Number of Army-Corps	Roman numerals	inches, $1\frac{1}{2}$

* Including additional expendable stores for the instruction of the Survey Detachment, R.E.
 † For the instruction of the Survey Detachment, R.E.
 § Forty ladders with lashings are allowed for use of battalions of infantry and fortress companies, R.E., at Devonport, Dover, Dublin, Edinburgh, Halifax, N.S., Portsmouth, and Tower of London. At Hong Kong, Ceylon, Straits Settlements, and Jamaica, ladders of the ordinary standing or of a locally improvised pattern, are to be used in the proportion of 12 to each station. At other stations 12 scaling ladders with lashings will be allowed for each fortress company, R.E., but in these cases, should such articles be available in the army ordnance department as part of any authorized reserve, they will be issued therefrom temporarily for the purpose, and additional ones need not be provided.
 ¶ A few additional stores are allowed specially to this station.
 † Where brushwood is dear.

APPENDIX XI—continued.

Gen. No. 1
—911

* Including additional expendable stores for the instruction of the Survey Detachment, R.E.

† For the Royal Engineers three bundles of brushwood, and for Infantry two bundles (one for fascines and one for gabions) per man exercised annually.

§ For the instruction of the Survey Detachment, R.E.

|| Gunotton will not be demanded for Field Companies, R.E.

¶ Four times the quantity of gun cotton and gunpowder, as for a Company, R.E., will be allowed to Gibraltar, and twice the quantity to Malta.

‡ See also Dynamite, and note.

α Will not be demanded for Field Companies, R.E.

Special quantities as under are allowed for the instruction of the Royal Engineers at Gibraltar and Malta.—

	Gibraltar. Malta.			Gibraltar. Malta.		
Detonators, { No. 8 100	100	50	Fuse, { instantaneous .. yards 400	200		
{ No. 13 100	100	50	.. Veseuvian boxes 20	100		
			Matches, Veseuvian boxes 20	10		

b Authorized for supply at Malta, Gibraltar, and Aldershot. Two full sets are authorized for Gibraltar and Aldershot, one set will include "casks water, 108 gallons"; and the other, "casks water, 64 gallons." The third set of stores authorised for Aldershot will not include "casks water."

APPENDIX XI.—continued.

APPENDIX XIV.

MATERIALS FOR REPAIR OF HARNESS AND SADDLERY.

1. In calculating for establishments beyond those given, the higher numbers should be used, and columns added together, as far as possible. For example :—

$$\begin{array}{l} 20 \text{ sets} = \frac{1}{2} \times 40 \quad \text{not } 4 \times 5. \\ 49 \text{ „} = 40 + 8 \quad \text{„ } 10 \times 5. \end{array}$$

A variation of two sets may be disregarded.

2. Infantry battalions having three or four sets of harness will draw for five sets, which will include their universal saddlery.

3. Hides and backs should be cut lengthwise from neck to butt, when it is necessary to divide them into proportions.

APPENDIX XV.

Mekometers.

1. History sheets in duplicate will be made out for each mekometer on the first occasion of issue. One copy will be retained by the Chief Inspector of Position-finding, and the other will accompany the instrument to which it relates. They will be compared whenever the instrument is returned to store, and the sheets will be carried on to completion as shown in the specimen page at end of appendix. History sheets.

2. Mekometers in possession of units proceeding to a foreign station (other than India) or on active service will be exchanged for an entire new set. Units going abroad.

3. The complete set of mekometer equipment in possession of units at home will be inspected annually at Woolwich so far as possible during the months given in the following table :— Annual inspection of mekometers at home.

Month.	All Artillery Mekometers and two Infantry Mekometers from each Battalion.	Remaining two Infantry Mekometers from each Battalion.
October ..	Aldershot, Eastern and Home Districts	
November ..	North-Eastern, North-Western and Scottish Districts	Aldershot, Eastern, and Home Districts
December ..	South-Eastern, Southern, Thames, and Western Districts	North-Eastern, North-Western, and Scottish Districts.
January ..	Woolwich, Belfast, and Channel Islands	South-Eastern, Southern, Thames, and Western Districts
February ..	Cork, Curragh, and Dublin	Woolwich, Belfast, and Channel Islands
March		Cork, Curragh, and Dublin.

4. If any instrument in possession of units at home becomes unserviceable it will at once be returned for examination and repair, without waiting for the annual inspection.

Unserviceable instruments to be returned at once.

5. When sending instruments from home stations, officers commanding units will forward them direct by rail (goods train) to the Principal Ordnance Officer, Royal Dockyard, Woolwich. The instruments are to be carefully packed in their leather cases, and

Transit and packing.

these cases wrapped in paper; the reels and cords to be also wrapped in paper, and the whole then placed in a wooden box. The box should be packed with tow, hay, or lumps of paper. The box should be marked conspicuously "Glass, with care," and contain a packing note (Army Form G—1028) detailing the articles packed, and to which unit they belong.

Instrument
to be de-
manded.

6. On dispatch of the instruments, officers commanding will, *at the same time*, transmit to the Principal Ordnance Officer, Woolwich, direct, the usual receipt and delivery vouchers, accompanied by the history sheet of the instruments, and will also at once put forward a demand for the return of the instruments from Woolwich. The registered numbers of the instruments will be quoted upon all documents relating to them.

Testing of
infantry
mekometers.

7. At stations where there is an inspector of musketry, the infantry mekometers will be occasionally tested by him, and, if found unserviceable, will be ordered to be returned to Woolwich as directed in paragraph 4.

Return of
instruments
from abroad.

8. Units serving abroad will put forward demands, as a rule, every two years, for the exchange of their range-finding equipment for the purpose of its being inspected by the Chief Inspector of Position-Finding. Should, however, at any time the instruments become unserviceable, steps should at once be taken to replace them. The old equipment will be sent home by the Local Ordnance Officer to Principal Ordnance Officer, Royal Arsenal, Woolwich.

Report of
condition to
be made.

9. When an instrument is returned for any purpose, a report on its condition at the time will be made on a half sheet of foolscap paper, signed by the officer commanding, and pinned to the history sheet. The report will consist of answers to questions in the following form :—

CONDITION OF INSTRUMENT, No.

MARK.

Are the parts and fittings complete and in good order?

Is the right instrument correct?

Is the left instrument correct?

Are the cords and reels correct?

Are the telescopes and handles correct?

Are the cases correct?

In case of damage or deficiency, state how it occurred.

57
Devonport
841

10. If the cord of a mekometer breaks, care must be taken to make it up again to the correct length.

Remaining entries will be made as follows :-

Issue to corps, or to C.O.O. abroad by P.O.O., also name of instrument-maker who executes repairs.

Return to Store by officer returning the instrument.

Inspection by inspecting officer.

APPENDIX XVI.

(REFERRED TO IN PARAGRAPH 31.)

Conditions governing Sale of Carbines and Rifles to Officers.

Officers on the active list of the regular forces, cavalry, and infantry, are permitted to purchase carbines or rifles respectively at vocabulary rates under the following conditions:—

1. The rifle or carbine will be kept for the sole and exclusive use of the officer purchasing it, and will be produced for inspection annually, and at any other time when required. No officer may be in possession of more than one such arm at one time.

2. Should the holder at any time desire to surrender his arm, he may return it into the regimental store, receiving a receipt for the same, but no refund of purchase money will be made by Government on surrender. It will then be open to another officer of the corps to apply for and draw it, on signing the certificate in (5). Any payment by a future holder must be arranged privately between him and the last holder.

3. The course laid down in (2) will be followed in case of the original or any subsequent holder of an arm retiring from the service, or being transferred to, or exchanging into, another unit.

4. Arms so purchased will be issued on prepayment by the officer commanding the unit to which the officer belongs, credit being given to the public in the accounts of the District Paymaster. The arms will be marked with the corps mark, an "S," and a consecutive number in the unit. They will remain on charge in the equipment ledger of the unit, and will be shown in a separate column in the distribution list at the beginning of the ledger. For each such arm a voucher signed by the officer concerned, acknowledging possession of the arm on the day of closing the account, will be rendered with the ledger.

5. Certificate to be signed by all officers desiring to purchase a government rifle or carbine:—

"I hereby certify that the government rifle or carbine which I desire to purchase is for my sole and exclusive use, and I promise that on no account will I at any time dispose of, lend, or part with the same to any other person whomsoever. I further bind myself to observe all the regulations governing the purchase of service arms by officers.

"(Signed)....."

This certificate to be made out in the officer's handwriting, and to accompany the application for purchase.

6. Should an arm so purchased be lost or stolen, an immediate report is to be made by the holder to his commanding officer, who will deal with the case under paragraphs 539—541, King's Regulations, as if the rifle had remained public property.

* These articles, with the exception of "Brushes" and "Buckets," are included in
Tables 14 to 18.

† Two shovels for each wagon of the Pontoon Troops.

‡ For Telegraph Battalion only.

§ Not for Telegraph Battalion.

Harness and Saddlery.

When the stock of O.P. harness is exhausted, issues to the Royal Engineers will be of the A.S.C. pattern, and the short traces shewn below will not be required.

Designation.	Peace.	War.	Remarks.
Woolwich Section, No. 5.			
Saddlery, Officers, sets, R.A. sets	1 per mounted officer doing duty with field units.	As for peace	For details of all sets of harness and saddlery, see Appendix VIII, Part I, Equipment Regulations.
Harness, A. S. C., wheel, double sets*	Nil	1 per pair of draught horses in excess of peace establishment*	
Harness, { sets, R.E., { near wheel { off traces, harness, short (spare) pairs	{ 1 per pair of draught horses* { 1 per wagon or double tool cart	{ 1 per pair of draught horses on peace establishment*	
Woolwich Section, No. 6.			
Saddlery, Universal, sets, R.A.	1 per public riding horse	As for peace	
Woolwich Section, No. 27.			
Packsaddlery, general service... .. sets	1 per pack horse ...	As for peace	

116
Engineers.
1189

* In peace each field company will have an additional double set of harness, and in war two additional double sets for use of pack animals.

† The following spare parts in addition:—

Bits, bridoon { chains, curb } 1 per 50 horses.
Bits, portsmouth { hooks, curb, 1 per 25 horses.
Hames with rings, pairs, 1 per 20 sets of double harness.
Whips, drivers, 1 per 14 sets of double harness.
Chains, hame, 1 per 20 hames.
Collars, neck; Field Depot has 12 large size for use in training remounts.
Hames, pairs, 4 per pontoon troop and 1st and 3rd divisions Telegraph Battalion.
Traces, saddlery, 2 per Pontoon Troop.

F

TABLE 20.

EQUIPMENT OF A RAILWAY COMPANY.

The tools and stores enumerated are considered to be sufficient for the immediate wants of a company on taking the field, and to place the men in a position to make themselves useful at once. A railway company so equipped on taking possession of a section of railway (say a length of 25 miles) partially destroyed, and provided with a certain amount of rolling stock and stores, should be able to put the line into working order in a short space of time, and to work it.

If the line is to be worked for any length of time, it would be necessary to demand, as soon as possible, a fresh supply of all consumable stores, such as oil, Russian tallow, waste, red and white lead, stationery, &c.

In extensive operations, where the railway formation has to be made prior to plate laying, and where large parties of civil labourers and soldiers have to be employed, very large quantities of special plant, tools, stores, &c, in addition would be required, and it would be the care of the Director of Railways to elaborate the demands for these stores, &c., according to the necessity of the case.

The careful arrangement and assortment of stores is of real importance, as the more order is introduced into a storeyard, the better can control be kept over the expenditure of stores.

Moreover, no railway can be efficiently and economically managed without a proper control over its stores.

The stores are tabulated under two heads :—

- (a) Company stores.
- (b) Terminal stores.

As regards (a) these stores would be actually carried by the company.

With regard to (b), these stores would not form part of the ordinary Engineer Field Park, but would be a separate store, which would be established at the railway base of operations, and be under the charge of the Quarter-Master, or Chief Storekeeper, attached to the Staff of the Director of Railways.

Railway Company Stores.

## EQUIPMENT REGULATIONS. AMENDMENTS AND ADDITIONS.

### PARTS I AND II.

The following amendments will be made in the Equipment Regulations Parts I and II :—

54  
Gen. No.  
8845

#### PART I.

1. In paragraph 1, line 8, after "submarine mining" insert "defence electric lights, Brennan torpedo installations." Gen. No. 5  
1810

2. In paragraph 11—insert at end of paragraph :—

In a case where the officer taking over the command does not arrive until after the departure of the out-going commanding officer, the Regimental Board will be assembled prior to the departure of the out-going officer, and the senior officer remaining with the unit, will take over and be responsible for the equipment until it is handed over by him to the officer assuming command.

54  
Artillery  
971

Page 9, Section II, Subsection III.

Delete "into store" from heading and the words "(Cancelled, see paragraph 25)" against paragraph 54.

54  
Gen. No.  
8844

Insert new paragraph as follows :—

54. Unserviceable or obsolete stores on charge of a unit may, under the authority of the General Officer Commanding, obtained through the Chief Ordnance Officer, be disposed of locally, to save the expense involved in transporting them to the nearest Army Ordnance Depot for survey and condemnation. In giving effect to this arrangement the general rules to be observed in the condemnation of equipment are as follows :—

- (a) The condemnation of stores will not be effected by the unit on whose charge they are held.
- (b) Whenever possible, the condemning authority should be either an Ordnance Officer or a Garrison Board.

(Wt. w. 115 5000 6 | 03—H & S 1435.)  
(1435)

A

- (c) At remote stations where there are insufficient officers to form a Garrison Board, it may be undesirable, in the interests of economy, to adopt either alternative mentioned in paragraph (b). In such cases the General Officer Commanding may instruct a competent military officer to examine the stores and, after consideration of his report, authorise their condemnation and local disposal. Officers should not be specially detailed for this duty, if, within a reasonable time, a qualified officer will visit the station in connection with other military duties.
- (d) When stores condemned without return to Ordnance Store, under sub-paragraphs (b) and (c) or obsolete stores similarly situated, are to be disposed of locally, all necessary instructions as to their disposal will be given by the Chief Ordnance Officer.

3. The following will be *substituted* for paragraph 72 :—

72. The fired cases of 1-pr. Q. F. and .303 inch small arm ball and blank cartridges supplied gratuitously, will be brought on charge by certificate in the percentages shown below, and returned each year, wherever practicable, to the Army Ordnance Dépôts from which they were issued. The cases will be brought on by weight and not by numbers.

| Nature of ammunition.           | Percentage of fired cases which must be returned to store. | Weight per 1,000 cases. |
|---------------------------------|------------------------------------------------------------|-------------------------|
|                                 |                                                            | lbs.                    |
| 1-pr. Q.F. service cartridge*.. | 100 per cent.                                              | 360                     |
| "    blank    "    *..          | 100    "                                                   | †                       |
| .303 inch ball    ..    ..      | 90    "                                                    | 23                      |
| "    "    blank Mark V    ..    | 50    "                                                    | 23                      |
| "    "    "    "    VI    ..    | 50    "                                                    | 26 $\frac{3}{4}$        |
| Pistol, Webley, ball and blank  | 90    "                                                    | 10                      |

\* But any deficiencies accounted for to the satisfaction of the General Officer Commanding may be dealt with by him under paragraphs 539—541 King's Regulations.

† Particulars will be inserted when the pattern is sealed.

The rates to be charged for any deficiencies in the above percentages for ammunition supplied gratuitously, and amounts to be refunded to units returning fired cases of ammunition supplied on payment, will be governed by the rates included in the "Statement of prices obtainable at the Royal Arsenal to guide disposal of produce, &c." (published half yearly by the Principal Ordnance Officer, Woolwich), plus 25 per cent. for 1-pr. Q.F. cases. These rates will be notified in District Orders.

Cases will be returned to store in the empty ammunition packages, once a quarter, and in the case of S.A.A. cases, officers commanding will not return a less weight than that representing 1,000 cases, except in the last quarter of the year, when the outstanding balance, whatever it may be, will be sent in. Cases must be in good condition when returned, care being taken that grit and dirt are removed, and that no live cartridges are included in them. Each package will contain a packing note signed by a responsible subordinate on A.F. G. 904, and commanding officers will certify upon the vouchers returning the cases that they have been carefully sorted before despatch. In the event of any live cartridges being found in any of the packages, the empty cases in that package will not be credited to the corps concerned, but will be brought on charge by certificate in the Army Ordnance accounts.

The number and date of the Ordnance voucher on which the cartridges were received will be quoted on the payment voucher of the officer charging the value of the empty cases.

4. The following will be *substituted* for paragraph 77.

77. The original report will be forwarded to the Chief Ordnance Officer for submission to the General Officer Commanding, and will be accompanied by A.F. G. 998 duly filled in. Further action will then be taken as follows :—

(a) When the report is forwarded by the General Officer Commanding to the War Office for decision, indents for any stores required in replacement, may be put forward on the Army Ordnance Department without waiting for the decision of the War Office in the matter. The date and number of the letter from the General Officer Commanding to the War Office will be quoted on the indents.

(b) When the General Officer Commanding approves or decides the action to be taken on a report, the date and registered number of such approval or decision, will be quoted on the indent on the Army Ordnance Department for any stores required to be replaced.

5. The following will be *substituted* for paragraph 88A :—

88A. Should any deficient article for which a charge has been made be subsequently recovered, a refund of the amount paid may be made, if authorised by the General Officer Commanding. The refund will be supported by a reference to the cash credit, and to the voucher and account by which the returned article has been brought on store charge.

6. The following will be *substituted* for paragraph 89 :—

89. When stores on equipment ledger charge are condemned by proper authority as unfit for further service, or are lost or damaged through no fault of the troops, the reports of the boards of survey, or other authority will be attached to the voucher by which the

articles are written off charge. Any stores required to be replaced, will be obtained as laid down in paragraph 77.

54

Gen. No.

8544

7. The following will be *substituted* for paragraph 89A :—

89A. All stores disposed of locally under paragraph 54, should be written off charge in the equipment account by certificate voucher on A.F. P. 1957. The paymaster to whom the amounts realised have been paid should duly certify this voucher, and the Chief Ordnance Officer of the district should approve it, before the stores are delivered to the purchasers.

54

Engineers.

336

8. After paragraph 124 *insert* :—

124A. Magazine rifles will be issued to the supernumerary staff Royal Engineers, for use at shooting competitions, rifle meetings &c., at all stations at which such an issue is desired. The arms will be held on charge by Commanding Royal Engineers in the equipment ledger of the supernumerary staff. The number issued must not at any time exceed 25 per cent. of the local strength of the R.E. supernumerary staff. A proportionate part of the cleaning materials allowed by Appendix VIII may be drawn.

9. Paragraph 159.—Table, as amended by Army Order 262 of 1902.

Column 7—

*Insert footnote* against the allowances of aiming tube cartridges shown for Cavalry, Engineer, and Infantry recruits :—

“|| This may be drawn at depôts, if the General Officer Commanding considers it necessary.”

Amend footnote \* by striking out first sentence.

A.C.D.

India

1021

10. The following will be *substituted* for paragraph 261 :—

261. “Chests, clothing or school materials” will be issued to the troops, and to schoolmasters on first appointment, in the proportions laid down in Appendix XVII. They will be renewable after 15 years, if unserviceable. The chests in possession of schoolmasters will be accounted for by the officer under whom they are serving.

Units on proceeding to India will not take any “chests, clothing” they may have on charge, but will arrange for their return to store prior to embarkation. These instructions do not apply to chests in possession of schoolmasters.

54

| "                             | a Division or District                                                                                                                                                                | "             | 2 |
| "                             | a Brigade                                                                                                                                                                             | ....          | 1 |
| "                             | a Regiment of Cavalry, Brigade of Artillery, Battalion of Infantry, and such corresponding units of other arms of the service on the recommendation of the General Officer Commanding | ....          | 1 |

264B. Commanding officers will be held responsible that Government cycles are used only on military duty, and, in the event of their units proceeding on foreign service, that the cycles, accessories, &c., on their charge, are returned to the Army Ordnance Department prior to departure.

264C. Cleaning materials, &c., will be allowed in the proportions laid down in Appendix VIIId.

Lamp oil and wick will be obtained from the officer in charge of barracks.

Materials for repair of punctures will be supplied, and any necessary repairs executed by the Army Ordnance Department.

12. The following will be *substituted* for paragraph 290 :—

290. The inside of the flap of the valise, will be marked in marking ink, with the same marks as the other accoutrements, by means of the metal stamps supplied. In the case of the Foot Guards, the approved designation will be stencilled on the outside of the flap in 1-inch letters and numerals. Stamps for cutting these stencils may be obtained on loan from the Army Ordnance Department.

#### Mess Tins.

22. Drafts proceeding from Indian or Home or Colonial stations and *vice versa* will retain possession of their mess tins, together with mess-tin straps in the case of mounted men, and mess-tin covers in the case of dismounted men. Valuation returns will not be rendered for these articles, except in the case of armourer serjeants, when they will be included in the valuation returns in common with other equipment. Care will be taken that all unserviceable tins, &c., are replaced before embarkation.

Mess tins, mess-tin covers and straps in possession of units proceeding from Home to India and *vice versa* will be included in valuation returns in the same manner as other articles of equipment.

3. In addition to the above-named "corps marks," there are a number of details, chiefly for regimental convenience, marked on certain vehicles, such as the nature of gun, number or letter of subdivision, number of wagon, &c. These details are not to be mixed up with the corps marks, and will be placed as in Table 4. The general principles indicated in that table should be followed in marking any vehicles for which specific details are not given.

**APPENDIX XVI.**

V  
7/60  
289

(Referred to in paragraph 31.)

**CONDITIONS GOVERNING SALE OF CARBINES AND RIFLES TO OFFICERS.**

Officers on the active list of the Regular and Auxiliary Forces, are permitted to purchase carbines or rifles at vocabulary rates under the following conditions :—

(1) The rifle or carbine will be kept for the sole and exclusive use of the officer purchasing it, and will be produced for inspection annually, and at any other time when required. No officer may be in possession of more than one such arm at one time.

(2) Should the holder at any time desire to surrender his arm, he may return it into the regimental store, receiving a receipt for the same, but no refund of purchase money will be made by Government on surrender. It will then be open to another officer of the corps to apply for and draw it, on signing the certificate in (5). Any payment by a future holder must be arranged privately between him and the last holder.

(3) The course laid down in (2) will be followed in the case of the original or any subsequent holder of an arm retiring from the service. In the case of an officer who owns a rifle being transferred to, or exchanging into another unit, the rifle may with the consent

of the Commanding Officer be also transferred, the usual receipt and issue vouchers being passed, and the transaction recorded in the equipment accounts of the two units. The same course will be followed in the case of staff officers owning rifles, transferred from one district to another, or from a unit to the staff or *vice versa*, the rifle being accounted for as laid down in paragraph 4.

(4) Arms so purchased will be issued on prepayment by the Chief Ordnance Officer, in the case of regimental officers, through the officer commanding the unit, and in the case of staff officers through the chief staff officer, credit being given to the public in the accounts of the District Paymaster.

Arms purchased by staff officers will be marked "staff," and accounted for by the Chief Staff Officer of the district or station in his equipment ledger. Those purchased by regimental officers will be marked with the corps mark, an "S," and a consecutive number of the unit, and will be taken on charge in the regimental equipment ledger, in a separate column from the ordinary regimental arms, and shown in the distribution list at the beginning of the ledger. A voucher signed by all the officers concerned acknowledging possession of such arms on the day of closing the account will be rendered with the ledger.

(5) Certificates to be signed by all officers desiring to purchase a Government rifle or carbine :—

"I hereby certify that the Government rifle or carbine, which I desire to purchase, is for my sole and exclusive use, and I promise that on no account will I at any time dispose of, lend, or part with the same to any other person whomsoever. I further bind myself to observe all the regulations governing the purchase of service arms by officers."

"(Signed)....."

This certificate to be made out in the officer's handwriting, and to accompany the application for purchase.

(6) Should an arm so purchased be lost or stolen, an immediate report is to be made by the holder to his commanding officer, who will deal with the case under paragraphs 539-541, King's Regulations, as if the rifle had remained public property.

33. Insert new table as follows :—

#### MACHINE GUNS.

| Table 5.                                                                       | Proportions. |
|--------------------------------------------------------------------------------|--------------|
| <i>Woolwich Section 15.</i>                                                    |              |
| Carriages, field, machine gun, infantry Maxim, Mark III ..                     | 2*           |
| Mountings, tripod, .303-inch Maxim Gun, Mark II ..                             | 2*           |
| Guns, Maxim, .303-inch .. .. .                                                 | 4*           |
| <i>Woolwich Section 27.</i>                                                    |              |
| Pack saddlery machine gun, .303-inch, for Mark II tripod mounting .. .. . sets | 2*           |

\* Complete with equipment, spare parts, &c., in accordance with Equipment Regulations, Part II, Section I (Infantry Details), except, that in the case of pack saddlery, only 1 ammunition saddle is issued with each set.

23  
Gen. No.  
2212

34. Part II, Section IX, Table 3 :—

“Cartridges, aiming tube,”

Amend proportions to read :—

“An annual allowance not exceeding 25 rds. per prisoner accommodated during the year.”

54  
S.E. of  
Scotland  
Artillery  
13

35. Part II, Section XVI, the following will be substituted for paragraphs 111 and 112 :—

111. The fired cases of .303-inch small arm ball and blank cartridges, supplied gratuitously, will be brought on charge by certificate, in the percentages shown below, and returned each year, wherever practicable, to the Army Ordnance Depôts from which they were issued. The cases will be brought on by weight and not by numbers.

| Nature of ammunition.          | Percentage of fired cases which must be returned to store. | Weight per 1,000 cases. |
|--------------------------------|------------------------------------------------------------|-------------------------|
| .303 inch ball .. ..           | 90 per cent.                                               | lbs.<br>23              |
| " " blank Mark V ..            | 50 "                                                       | 23                      |
| " " " " VI ..                  | 50 "                                                       | 26 $\frac{1}{2}$        |
| Pistol, Webley, ball and blank | 90 "                                                       | 10                      |

The rates to be charged for any deficiencies in the above percentages for small arm ammunition supplied gratuitously, and amounts to be refunded to units returning empty cases of ammunition supplied on payment, will be governed by rates which will be included in the "Statements of prices, obtainable at the Royal Arsenal, to guide disposal of produce, &c.," published half yearly by the Principal Ordnance Officer, Woolwich. These rates will be notified in District Orders.

112. The number and date of the Ordnance voucher on which the cartridges were received should be quoted on the payment voucher of the Officer charging the value of the empty cases.

36. Paragraph 161, page 28, 4th line from bottom :—

*Delete* "stencil plates."

Table, page 29 :—

*Delete* from "For valises" to end.

37. Paragraph 163—

*Delete* from "On the outside of the flap" to end.

*Insert* new paragraphs as follows, which will replace paragraph 786, "Militia Regulations" :—

163A. The following allowances will be granted for marking accoutrements :—

|                                                                                                                                                                                                                                                                | s. | d. |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|----|
| For every 300 water bottles, carriages for same, oil bottles, frogs (sword and bayonet), slings (rifle and carbine), waist belts, braces, pouches, straps and cases for pioneers' shoeing tools, mess tins and covers, and the insides of flaps of valises.... | 0  | 9  |
| To each unit annually for the purchase of marking ink for use with the metal stamps...                                                                                                                                                                         | 2  | 0  |

54

63

87

163B. These allowances will be charged in the regimental pay-lists on the authority of the Chief Ordnance Officer, and will be vouched in each case by a certificate showing the number and descriptions of articles marked, the date, and from what dépôt they were issued.

| Wagon, Artillery, Mark I* .. .. .                   |  | 63 |

## SPECIAL INSTRUCTIONS.

**I.—EQUIPMENT OF STAFF AND DEPÔTS, RIDING ESTABLISHMENT, SCHOOL OF GUNNERY (HORSE AND FIELD), AND MOUNTED BAND, ROYAL ARTILLERY.**

**Details for units, &c.** 1. Details of the equipments of staff and depôts, riding establishment, school of gunnery and mounted band, will be found on pages 18 to 44.

**Method of accounting for stores.** 2. The stores will be held on charge in the equipment ledger, and the account will be balanced and rendered as laid down in Appendix I, Equipment Regulations, Part I.

**II.—MARKING OF EQUIPMENT.**

**Marking equipment.** 3. The camp kettles, portable magazines, and water-buckets will be marked in front with the letters "R.H.A." or "R.F.A." (as the case may be), and in rear with the letter of the sub-section and depôt letter or number, thus,

|        |        |
|--------|--------|
| " A "  | " D "  |
| A Dep. | 3 Dep. |

Camp kettles in white, others in black.

Drawings to illustrate the method of marking, and the correct position of the marks, will be issued, on demand to chief ordnance officers of districts, who will arrange for necessary promulgation to units, &c., requiring them.

Bags, picketing gear, will also be similarly marked, but on the end.

4. Detailed instructions for marking vehicles and equipment will be found in Equipment Regulations, Part I.

**III.—REPAIRS.**

**Examination and repair of equipment.** 5. Officers commanding are responsible that their equipment is at all times in a serviceable condition. The examination and repair of equipment should be carried out, when possible, by depôt artificers. When special tools or appliances are required, which are not available with the depôt, the artificers should be sent, together with the material requiring repair, to the nearest army ordnance department workshop at which the necessary facilities exist, in order that the artificers may there carry out or assist in carrying out the repair.

Special tools for the repair of field artillery equipment have been issued to the army ordnance workshops at Aldershot, Colchester, Curragh, Devonport, Dover, Dublin, Haulbowline, Portsmouth, and Tynemouth.

6. Applications for the inspection or repair of equipment which cannot be carried out by depôt artificers should be addressed to chief ordnance officers of districts.

## IV.—RETURNS.

7. Stores due from Army Ordnance Department should be hastened as laid down in para. 1,000, Regulations for Army Ordnance Services. Stores due to be hastened.

8. Ordnance on Royal Artillery charge will be included in the Annual Return A.F. G 872, rendered on the 1st June by officers commanding Royal Artillery in districts in accordance with the King's Regulations. Ordnance on R.A. charge.

## V.—EXAMINATION OF ORDNANCE.

9.—Instructions for the examination of ordnance will be found in Regulations for Army Ordnance Services. Examination of ordnance by I.O.O.

10. All spare parts should be tried for interchangeability as soon as possible after receipt, and a report of the defects, if any, forwarded to the chief inspector, Woolwich. Examination of spare parts.

## VI.—TEXT BOOKS, HAND BOOKS, AND RANGE TABLES.

11. Texts book, hand books, and range tables are issued in the following proportions, and will be held on charge as laid down in Equipment Regulations, Part I. Text and hand books.

| Distribution.     |                            | Text books,<br>sets. <sup>a</sup> | Handbooks. <sup>b</sup>           | Range tables.                                                       |
|-------------------|----------------------------|-----------------------------------|-----------------------------------|---------------------------------------------------------------------|
| R.H.A. and R.F.A. | Officers commanding depôts | 1                                 | 2 per nature of gun in the depôt. | 2 per nature of gun in the depôt.                                   |
|                   | Depôts ..                  | —                                 | 12 per nature of gun on charge.   | 12 per nature of gun on charge, 6 printed on rubber and 6 on paper. |

<sup>a</sup> The text books referred to comprise the following works:—"Treatise on Ammunition," "Treatise on Military Carriages," "Treatise on Service Ordnance," "Treatise on Service Explosives."

<sup>b</sup> The following are the handbooks referred to:—

Handbook for nature of gun in use.

" .. Telescopic Sights.

" .. of the Mekometer.

## VII.—STORES FOR THE REPAIR AND PRESERVATION OF EQUIPMENT.

### Harness and Saddlery.

**Staff of R.A. Dis.r.ct.** 12. The repair of saddlery allowed for the staff 1 Royal Artillery districts will be effected by the artificers of the nearest battery when practicable.

### Ordnance, Carriages, Projectiles, &c.

**Reference to the detailed instructions.** 13. Detailed instructions for the preservation and inspection of ordnance, &c., are given in the "Regulations for the Care and Preservation of War Matériel and for Magazines" for the guidance of officers of artillery in carrying out the services therein referred to and of army ordnance officers in supplying such materials and stores as may be from time to time required for performing the same.

### VIIa.—STORES FOR MUSKETRY INSTRUCTION.

14. The following stores will be allowed per dépôt for musketry instruction :—

| Articles.                                                |    |    |    |    |    |    | No. |

*a* For details of sets of harness and saddlery see Appendix VIII*b*, Part I, Equipment Regulations.

*b* In order to increase facilities for instructions in riding drill, sufficient stirrup irons, stirrup leathers, and stirrup leather runners may be demanded to complete each "off" saddle with these articles.

## Harness and Saddlery.

## Materials for Repair and Preservation of Equitation Articles.

| TABLE 24.                     | No.           | Remarks.         |
|-------------------------------|---------------|------------------|
| Woolwich Section No. 5.       |               |                  |
| Sponges, 7 drachms ... ..     | 2             | Annual supply.   |
| Woolwich Section No. 6.       |               |                  |
| Cord, whip ... .. ozs.        | 9             | Annual supply.   |
| Woolwich Section No. 11.      |               |                  |
| Oil, rape ... .. pints        | 2             | } Annual supply. |
| Soap, soft a ... .. lbs.      | 6             |                  |
| Woolwich Section No. 30.      |               |                  |
| Linen, o'd (rags) ... .. lbs. | $\frac{1}{2}$ | Annual supply.   |

a  $\frac{1}{2}$ -bar of hard soap may be drawn in lieu of every  $\frac{1}{2}$ -lb. soft, if preferred.

N.B.—No other materials than those given in this Table are considered necessary, the materials supplied for repairing the harness and saddlery generally being sufficient for casual repairs to the equitation articles also.

## Camp Equipment.

| TABLE 25.                           | No. | Remarks. |
|-------------------------------------|-----|----------|
| <i>Woolwich Store Charge No. 2.</i> |     |          |
| Axes, felling, curved helve ... ..  | 2   |          |

## Ordnance and General Stores.

| TABLE 26.                                                      | No.                                                     | Remarks. |

<sup>a</sup> Bolsters of this description are required for both kinds of wagons, but differ in pattern.

<sup>b</sup> These articles are required with each complete wagon, but are charged separately, and must be so demanded.

<sup>c</sup> Articles, special, for wagons fitted with ordinary main pin and wheel plate.

# EQUIPMENT REGULATIONS.

PART 2. SECTION XI (a) *unc 9*  
1904.

## AMENDMENTS.

Page 6. *Dele* para. 8 and *substitute*—

Storage of  
Ammuni-  
tion.  
8/Equip./8

"8. The following instructions are to be observed with regard to the storage of ammunition in charge of the unit:—

"(a) Ammunition should, as a general rule, be stored in the vehicles in which it will be carried, except that in cases where the vehicles are necessarily kept in dangerous proximity to inhabited houses, or other possible causes of fire, suitable arrangements will, as far as possible, be made locally for the storage of all cartridges.

"(b) When not stored in the vehicles the cartridges will be kept in properly lutened and dated M.L. cases, the tubes, fuzes, and shells grouped according to age and date.

"(c) Ammunition in mobilization equipment should never be taken out of store except to replenish peace equipment, or on mobilization. On no account should ammunition which has been in charge of the troops be returned to mobilization equipment in charge of the unit. This does not apply to the annual week's practice to be carried out under para. 142F, Part 1, Equipment Regulations, 1902."

# EQUIPMENT REGULATIONS.

## PART 2. SECTION XI (b). 1904.

### AMENDMENTS.

Page 5. *Against* "Carriage" and "Limber field" *dele* "B.L."

Storage of  
ammuni-  
tion.

Page 6. *Dele* para. 7 and *substitute*—

"7. The following instructions are to be observed with regard to the storage of ammunition in charge of the unit :—

"(a) Ammunition should, as a general rule, be stored in the vehicles in which it will be carried, except that in cases where the vehicles are necessarily kept in dangerous proximity to inhabited houses, or other possible causes of fire. Suitable arrangements will, as far as possible, be made locally for the storage of all cartridges.

"(b) When not stored in the vehicles, the cartridges will be kept in special cases, the fuzes and shells grouped according to age and date.

"(c) Ammunition in mobilization equipment should never be taken out of store, except to replenish peace equipment, or on mobilization. On no account should ammunition which has been in charge of the troops be returned to mobilization equipment in charge of the unit. This does not apply to the annual weeks practice to be carried out under para. 142F, Part 1, Equipment Regulations, 1902."

G-7  
EQUIPMENT REGULATIONS.

PART 2. SECTION XI (c).  
1904.

AMENDMENTS.

Storage of  
ammuni-  
tion.  
8/Equip./s

Page 6. *Dele* para. 7 and *substitute*—

“7. The following instructions are to be observed with regard to the storage of ammunition in charge of the unit :—

“(a) Ammunition should as a general rule be stored in the vehicles in which it will be carried, except that in cases where the vehicles are necessarily kept in dangerous proximity to inhabited houses or other possible causes of fire, suitable arrangements will, as far as possible, be made locally for the storage of all cartridges.

“(b) When not stored in the vehicles, the cartridges will be kept in properly lutened and dated M.L. cases, the tubes, fuzes, and shells grouped according to age and date.

“(c) Ammunition in mobilization equipment should never be taken out of store except to replenish peace equipment or on mobilization. On no account should ammunition which has been in charge of troops be returned to mobilization equipment in charge of the unit. This does not apply to the annual week's practice to be carried out under para. 142f, Part I, Equipment Regulations, 1902.”

# EQUIPMENT REGULATIONS.

PART 2. SECTION XI (d).

1904.

## AMENDMENTS.

Page 6. *Dele* para. 7 and *substitute*—

Storage of  
ammuni-  
tion.  
8/Equip./3

"7. The following instructions are to be observed with regard to the storage of ammunition in charge of the unit :—

"(a) Ammunition should, as a general rule, be stored in the vehicles in which it will be carried, except that, in cases where the vehicles are necessarily kept in dangerous proximity to inhabited houses or other possible causes of fire, suitable arrangements will, as far as possible, be made locally for the storage of all cartridges and lyddite shells.

"(b) When not stored in the vehicles, the cartridges will be kept in properly luted and dated M.L. cases, the tubes, fuzes, and shells grouped according to age and date.

"(c) Ammunition in mobilization equipment should never be taken out of store except to replenish peace equipment or on mobilization. On no account should ammunition which has been in charge of the troops be returned to mobilization equipment in charge of the unit. This does not apply to the annual week's practice to be carried out under para. 142F, Part 1, Equipment Regulations, 1902."

A.O. 58

1908

**Materials for care and preservation of arms.***Detention Barracks.*

Rifle oil and flannelette will be allowed for the D.P. and R.F. rifles on charge, also for the arms taken by soldiers with them to detention barracks. They should be demanded in the following proportions :—

|                          |     |     |                      |  |  |                     |
|--------------------------|-----|-----|----------------------|--|--|---------------------|
| Oil, petroleum, Russian, |     |     |                      |  |  | } Annual allowance. |
| lubricating              | ... | ... | 36 pints per 50 arms |  |  |                     |
| Flannelette, Mark III    | ... | ... | 4 yards per arm      |  |  |                     |

A.O. 58

1908

**Targets.***Detention Barracks.*

Targets for practice purposes will be made up in the detention barracks from paper pasted on to cardboard, the size of the targets being regulated to give them the appearance of the full-size regulation target at the assumed distance.

The necessary materials should be obtained, as required, on demand from the Army Ordnance Department, by whom they will be procured locally.

A.O. 58

1908

**Bugles.***Detention Barracks.*

One bugle, and one string, bugle and trumpet, green, are allowed for instructional and ordinary purposes.

**Tents.***Detention Barracks.*

Unserviceable circular tents for instructional purposes will be allowed in the following proportions :—

For the Detention Barracks at :—

|         |            |     |     |     |     |     |     |     | No. |

|                    |                                           | Battalions and Regimental Depôts. |
|--------------------|-------------------------------------------|-----------------------------------|
| Tubes,<br>aiming   | Martini-Henry rifle... ..                 | } 2 per company.                  |
|                    | Brushes, cleaning, Martini-Henry          |                                   |
|                    | Keys, Martini-Henry ... ..                |                                   |
|                    | Rods, cleaning, Martini-Henry rifle       |                                   |
|                    | Sights, fore, false, Martini-Henry rifle. |                                   |
| Rifles, M.H., M.T. | ... ..                                    | 2 per company, for aiming tubes.  |

N.B.—Serjeant majors, band masters, quarter master serjeants, orderly room serjeants, serjeant drummers, serjeant pipers, armourer serjeants, serjeant cooks, serjeant instructors of musketry, canteen-serjeants, band serjeants, and serjeant master tailors are armed and accounted as staff serjeants. The three last-named are included in the establishment of serjeants and have staff appointments, in reduction of three rank and file rifles.

The number of serjeants arms and appointments are according to establishment of serjeants, whether such serjeants are effective or not; if taken for other duties, such as the canteen serjeant, band serjeant, and serjeant master tailor, their arms will be carried by the lance serjeants or others performing their duty.

Rifles for Depôts will be of two descriptions :—

*A.—Serviceable Arms.*

Which are to be kept entirely distinct from those stored for the Army Reserve, will be issued to the Head-Quarters of Regimental Districts in the following proportions :—

1. Depôts of regiments with one battalion abroad, at which the recruits of one Militia battalion only are trained .... 40
2. Depôts of regiments with one battalion abroad, at which the recruits of two Militia battalions are trained .... 80
3. Depôts of regiments with two battalions abroad, at which the recruits of one Militia battalion are trained.... 120
4. Depôts of regiments with two battalions abroad, at which the recruits of two Militia battalions are trained .... 160
5. Double Regimental Districts will be treated proportionately to the number of their depôts, and the number of Militia battalions whose recruits are trained at those depôts.
6. Rifle Depôt, Winchester.... 380
7. Depôt, West India Regiment, according to Establishment.

A 2

## Sect. I.

## Infantry.

B.—*Unserviceable (D.P.) Arms.*

Which will be issued, according to local requirements, for drill purposes to Regimental Districts—for the use of Regimental Depôts and Militia recruits—and to the Depôt, West India Regiment, on the authority of the General Officer Commanding.

Such arms will be issued with cleaning rod, jag, bayonet, and scabbard, and will not be used for ball firing.

## Military Foot Police.

\* For rifles.

† Except rifles.

‡ No pouch is issued for the serjeant pioneer, nor for Nos. 9 and 10, as their gun-spikes are carried in pockets on their respective leather cases.

§ For shoeing smiths of battalions which have regimental transport.

## Regimental Transport.

(Referred to in paragraph 27, Part 1.)

The consumable materials in this Table are a six months supply.

TABLE 6.

\* Regiments termed "Royal," or designated as "King's," "Queen's," "King's Own," "Queen's Own"; also the Guards, and the Somerset Light Infantry, have *Royal* strings; the remainder, including the Rifles, have *Green* strings.

† Two bugles in addition are allowed to regimental depôts when both battalions are abroad.

‡ The Service drum-sticks are to be used with the silent drums.

§ Nor to regimental depôts composed partly of light infantry. A drum with sticks is allowed to light infantry regimental depôts, and regimental depôts composed partly of light infantry, for beating time in drilling recruits.

## Camp Equipment and Intrenching Tools.

Camp equipment and intrenching tools when required for camps, in time of peace, will be issued in the proportions laid down in Appendix III., Part 1.

## Tools, Artificers, and Opening Packages.

\* These stamps, where already in possession, should be retained.

† The letters R.D. will be issued on demand for the use of armourers employed in marking the arms of Regimental Districts.

‡ These stamps will be issued on loan, as required, under paragraph 278, Part 1.

N.B.—The "Guards" will have also the letters G., C. G., or S. G., one per battalion.

## Infantry.

## Sect. I.

## Miscellaneous Stores and Instruments.

The consumable materials in this table are a 12 months supply.

## PART 3.—GENERAL REGULATIONS.

### W A R.

#### I.—INTRODUCTORY.

1. In the Tables of Details appended to Part 3, Tables of provision is made for the equipment of units on war Details. establishment, as given in Field Army Establishments, 1892, and under normal conditions.
2. In the absence of orders to the contrary, Officers Demands. Commanding units allotted to the Field Army will on mobilization demand stores according to the scales given.
3. A portion of the war equipment is held by units in Custody of. peace as shown in Part 2—the balance (termed "Mobilization Stores") is held by the Ordnance Store Department at the stations named in the Mobilization Tables.
4. The stores supplied by the Ordnance Store Department to units on mobilization are comprised under three Classification of mobilization stores. heads, viz. :—
  1. Personal equipment.
  2. 1st Regimental equipment.
  3. 2nd Regimental equipment.

The articles included under each head are indicated in the Tables of Details.

Broadly considered—

*Personal Equipment* comprises arms and accoutrements.

*1st Regimental Equipment* comprises all stores supplied by the Ordnance Store Department, other than those included under Personal or 2nd Regimental Equipment.

*2nd Regimental Equipment* comprises small-arm ammunition, tents (for service abroad), and the vehicles which carry them ; vehicles which belong to ammunition columns ; ambulance wagons, supply wagons, and water-carts.

5. Each general service wagon, forage cart, or pack Wagon, animal is equipped with certain stores, termed "wagon" cart, and pack stores.

### Duties of Officers.

"cart" or "pack" stores (as the case may be). Lists of these stores are given in the Tables of Details.

Wagon and cart stores will always accompany the vehicle for which they are supplied, and they will be considered as "1st" or "2nd" Regimental equipment according to the classification of the vehicle to which they appertain, and will be stored and demanded accordingly. Pack stores are always "1st Regimental equipment."

Issues.

6. When troops are actually in the field, it may not be always possible or advisable to meet requisitions sent in, even though they are according to scales laid down. Many circumstances may affect this matter, such as the state of the reserves; priority of claim, having due regard to the Service as a whole; and special circumstances of which Commanding Officers may not be cognizant. All these must be taken into consideration before stores are issued according to scales given in the tables.

7. When it becomes likely that the stores in Ordnance Store charge will become insufficient to meet demands made on scales laid down, it will be the duty of Ordnance Store Officers to bring the circumstances to the notice of the General Officer Commanding, and to take his orders thereon as to what proportions shall be issued.

## II.—DUTIES OF OFFICERS.

### Duties of General Officers Commanding Districts.

G.O.C. to facilitate issues.

8. When mobilization has been ordered, General Officers Commanding Districts will facilitate by all possible means the speedy issue of mobilization stores in their districts held for, and demanded by units named in the Mobilization Tables, wherever these units may be stationed at the time they make their demands.

Instructions for issuing stores.

9. The Regulations for Mobilization contain detailed instructions to all concerned as to sending for these stores, and in the event of several units waiting to receive their stores, the senior officer on the spot will decide in what order they are to be supplied.

Peace Establishment to be kept up.

10. Equipment in possession of units in peace should be complete up to peace establishment, and in a condition efficient for war, and on this basis the balance held by the Ordnance Store Department is estimated and provided.

Unserviceable articles in possession.

11. In the event, however, of any articles in possession being found on mobilization unserviceable for war, they must be replaced by serviceable stores, so far as the demand can be met from the general stock kept by the Ordnance Store Department in the district. The General

**Estimates.—Requisitions.**

Officers Commanding Districts will decide as to priority of issue in doubtful cases, due consideration being given to the requirements of all units drawing from the store stations in question.

**Duties of Commanding Officers.**

12. The Commanding Officer of a "unit," as defined in the Regulations for Mobilization, is an accountant to the War Office. C.O. as accountant.

13. Whenever in the field it has been decided to constitute an independent detachment, or irregular levy, or corps, into an accounting body, or when an individual officer is detailed to act in an independent capacity, the fact will be announced in the General Orders of the force. The Senior Ordnance Store Officer at the Head Quarters of the force will furnish the necessary account books and forms, with instructions, to the corps or officers concerned, pointing out when the first accounts will be due. Detachment as accounting body, &c.

**III.—ESTIMATES FOR EQUIPMENT.**

14. Equipment is provided in these regulations for units up to war establishment, and consumable articles (except ammunition) for 3 months' supply. Consumable articles.

15. In the field, estimates of probable requirements will be sent to Senior Ordnance Store Officers of Divisions (or of the Line of Communication, in the case of Line of Communication troops, if on service abroad) in time to admit of stores being brought up as required. Estimates when forwarded.

16. On service abroad neither reserve nor spare stores will be kept available for issue beyond the advanced dépôt. Reserve or spare stores.

17. It must be borne in mind that regimental transport is provided only for the articles named in the Tables of Details. Regimental transport.

**IV.—REQUISITIONS FOR EQUIPMENT.**

18. The Ordnance Stores required by each unit on mobilization are shown in "Mobilization Store Tables," which are issued to officers commanding units. Copies of these tables are kept with the stores for each unit, as are also receipt and issue vouchers, on Army Forms, G. 1087 to G. 1095, according to the service concerned, which will be passed in the usual manner. Demands for mobilization stores.

**Transfers.**

- Home Defence, Garrison, and unallotted units.** 19. Units allotted to Garrisons for Home Defence and unallotted units for Home Defence will demand articles of personal equipment only (cavalry will also demand saddlery), in the proportions given in the Tables of Details for the Field Army. The other stores required will be arranged for, as directed in the Regulations for Mobilization.
- Conveyance of stores.** 20. The unit which demands the stores will arrange for their conveyance as directed in the Regulations for Mobilization.
- Deficiencies on receipt.** 21. In the event of any deficiency of, or injury to, stores being discovered on their arrival at the unit, demands will be at once sent in to make good what is required. These demands will be met at once if the general store admits. The matter will be reported to the General Officer Commanding the District, if necessary, for after adjustment.
- Staff units.** 22. Equipment for staff units (including Military Police) will be demanded by one officer per staff, who will be the accounting officer, and who will be detailed for this purpose by the General or other Officer Commanding the unit.
- Issues on payment.** 23. On active service, when necessary articles of equipment are not otherwise procurable, the General Officer Commanding may allow such to be issued to officers on payment when the store admits; the transaction will not appear in the regimental accounts. Departmental expenses will not be added.
- Personal equipment.** 24. When detachments are despatched for active service, they will take with them their complete personal equipment, which will be transferred in the manner laid down in paragraph 25.

**V.—TRANSFERS.**

- Disposal of arms and accoutrements.** 25. Military Staff Clerks, all ranks of the Medical Staff Corps, and Ordnance Store Corps, and 1st Class Staff Sergeant-Majors, dismounted warrant officers, and men of the Army Service Corps, will take their arms and accoutrements with them on transfer from one unit to another. Regular vouchers will be passed from one accountant to another for arms and accoutrements so transferred.
26. In all other cases, men transferred will leave their arms and accoutrements with the units in which they have been serving, and they will be provided with fresh equipment on joining their war unit.

---

Return of Equipment.

---

Men sent from their unit to the dépôt on mobilization will leave with their units the personal equipment already in possession.

**VI.—RETURN OF EQUIPMENT INTO STORE.**

27. All stores which are surplus to the war establishment, and which do not accompany men sent from the unit to the dépôt on mobilization, will be returned to the nearest Ordnance Store, but this is not to delay the issue of mobilization stores to the unit. Surplus stores

28. Stores should not be returned by units to the Ordnance Store Department in the field, unless they are not likely soon to be required again, or cannot be carried. In the field.

29. When stores are forwarded by convoy or under escort, convoy notes, Army Form F 754, will be delivered to the officer commanding the convoy or escort, who will satisfy himself that the numbers of packages agree with the account given to him, and, together with the consignor, will sign the convoy notes made out in triplicate. One of the notes will be retained by the consignor, and the other two will be handed over to the officer commanding the escort, or to the 1st class Staff Serjeant Major, who will give one to the consignee and obtain his receipt on the other, which he will retain. The day and hour of departure will be inserted upon the convoy notes by the consignor. Convoy notes.

30. If when stores are received from a unit, the regular receipt vouchers are not forthcoming, the stores will nevertheless be accepted at the risk of the consignor, to whom the Ordnance Store Officer will report the omission. The consignor will then furnish the necessary vouchers without delay. Receipt vouchers.

31. When the packages do not agree with the convoy notes, or appear to have been tampered with, the consignee will inquire into the cause. If the discrepancy appear to arise from negligence or fraud, such measures will be taken as may be requisite, in order that the offender may be punished. If it appear to arise from just and fair causes, the consignee will obtain a certificate of the cause of any such deficiency, damage, or loss, before the officer in command of the escort or the 1st class Staff Serjeant Major is discharged. Should a court of inquiry seem to be necessary, the consignee will apply for one to the General Officer Commanding. Deficiencies

## Boards of Survey.

## VII.—ISSUE OF STORES ON BOARD SHIP.

- Charge of. 32. When Ordnance Store Officers embark with stores consigned to the Ordnance Store Department, such stores will be in charge of the Master of the ship, in accordance with the bill of lading signed by him, and the owners are liable for any loss or damage.
- Issue during voyage: 33. If there be troops on board, and if during the voyage the Commanding Officer should require, on emergency, an issue to the troops of any articles consigned to the Ordnance Store Department, he will make requisition on the Ordnance Store Officer, certifying in writing that the urgency of the service demands a departure from the general rule. The Ordnance Store Officer will then apply to the Master for the packages required, and give him a receipt on the Master's bill of lading for such as he may receive. He will afterwards take receipts from the Commanding Officer for all stores so issued, and hand them, with a report of his proceedings, to the Senior Ordnance Store Officer at the port of debarkation on arrival. Stores issued to the troops under these circumstances will be accounted for by the Commanding Officer.

## VIII.—BOARDS OF SURVEY AND COURTS OF INQUIRY.

- Boards for condemnation of stores. 34. Condemnations of stores must be supported by proceedings of Garrison Boards on Army Form No. A 2, where Boards are requisite.
- Prompt investigation of loss of equipment. 35. When stores or equipment of any kind are lost, destroyed, or injured, and it is a matter for consideration on whom the expense of replacing or repairing them should fall, the Commanding Officer will at once bring the circumstance to the notice of the General Officer Commanding, through the Adjutant General's Department, in order that it may be investigated by a court of inquiry, and, in the event of such Court not duly making a report on the subject, he will not be relieved of liability for any loss that may have occurred. The Court will be composed, if possible, of officers not belonging to the corps interested. If there be an Ordnance Store Officer available, who is not the Senior Ordnance Store Officer of the Division, he will serve as a member.
- The proceedings of the Court of Inquiry will be transmitted in duplicate by the President, direct to the Senior Ordnance Store Officer of the Division, who will see that they are complete and then submit them, with his views, to the General Officer Commanding. After

### Accounts and Claims.

the General Officer Commanding has recorded his decision, the Senior Ordnance Store Officer will send one copy to the Officer Commanding the corps concerned, to serve as his covering authority to demand new articles to replace those lost or damaged. The Commanding Officer will append this copy to his requisition for the supply.

When supply is necessary before the General Officer has given his decision, the Commanding Officer's copy of the proceedings will be noted, as soon as he receives it, and passed on to the Ordnance Store Officer, quoting the requisition on which the issue was made, to which it will then be attached.

The duplicate copy will be sent by the Senior Ordnance Store Officer to the local Auditor of Army Accounts, or, if there is no such appointment, to the Adjutant General to the Forces, Horse Guards.

Should the loss or damage form the subject of a charge before a Court Martial, two copies of the finding of the Court, and confirmation of the General Officer Commanding, will be sent by the Commanding Officer to the Senior Ordnance Store Officer as soon as possible, for attachment to the original and duplicate proceedings.

36. When the stores forming the subject of inquiry are of a special or technical nature, or peculiar to the Royal Artillery, Royal Engineers, Medical Department, or any particular service, the written opinion of the local head of the Service or Department concerned should be taken before the matter is finally dealt with by the General Officer Commanding, and will form part of the proceedings. Special stores.

### IX.—EQUIPMENT ACCOUNTS AND CLAIMS AGAINST CORPS.

37. Accountants, while on active service, will record in their equipment ledgers all transactions connected with ammunition and stores. Consumable articles drawn for expenditure will not be inserted. Ledgers.

38. Articles of equipment lost or destroyed, and chargeable to the troops, will be struck off charge by a voucher, on which will be quoted the date and number of the cash voucher to the Pay List in which credit for their value is given. Articles lost or destroyed.

39. No articles of equipment will be transferred from one equipment ledger charge to another, except under authority of the General Officer Commanding, obtained through the Senior Ordnance Store Officer. Such transfer will be supported by vouchers upon which the authority for the transfer should be quoted. When either of the Transfer of equipment.

### Accounts and Claims.

officers concerned desires that an Ordnance Store Officer should be present at the transfer, one will be directed to attend, if available, on application. In the case of units belonging to different branches of the Service, the receipt and issue vouchers will be passed under cover to the Senior Ordnance Store Officer of the Division, who will countersign them and pass them to the respective accountants. Vouchers will likewise be passed for all equipment that may be taken by men detached from their corps, but not permanently transferred, to serve with another corps also in the field. The above does not refer to transfers of equipment from one Commanding Officer to another on a change of command, which are governed by paragraph 9, Part I.

Charges for  
damages,  
&c.

40. The value of all arms, accoutrements, and other stores rendered unserviceable by neglect or carelessness, will be recovered from the soldiers chargeable, and credited in the regimental accounts. Charges will be made only for the proportionate value of the unexpired period of wear, except in cases of wilful damage, when they will be assessed according to the extent of such damage. Not less than half-price will be charged for any article wilfully or carelessly lost and for which the soldier has been held liable, although it may have been in use the prescribed period of wear.

The amount to be charged on account of any one arm will not exceed 40s., and the period of wear will be taken as 12 years for the purpose of assessing charges for arms, bayonets (sword and triangular), and swords; also for any other article of equipment for which no period of wear has been fixed.

Payment by  
non-accountants.

41. When Officers against whom claims are made have no cash account with the War Office, payment will be made by them to the District Paymaster.

Loss by  
desertion.

42. When articles of equipment are ascertained to have been lost through desertion, they will be struck off charge by voucher Army Form P 1925, on which will be stated the Regimental number, rank, name and date of desertion of each man, as well as, in detail, the articles taken by him, and the value of each article. These articles and their respective values will be entered on Army Form P 1963, and will be charged against the deserter, and credited to the public in the current pay list of the squadron, battery, or company.

Deserter  
rejoining.

43. In the event of a deserter, on rejoining, being in possession of any of the articles of equipment charged against him on desertion, as directed in paragraph 42, the articles brought back by him will be taken on charge in the equipment ledger, and the amount which was charged against the soldier on desertion will be credited to him

**Arms and Accoutrements.**

for such articles as are in a serviceable condition, and will be admitted as a charge against the public, if supported by a reference to the pay list and the voucher on Army Form P 1963 on which the amount was credited to the public at the time of desertion.

44. At the end of each month a return will be prepared on Army Form P 1963, showing the names of, and the amounts recoverable from, any soldiers liable to make good the value of articles of equipment under paragraphs 40 to 43. The stoppage returns will be made out by squadrons, batteries or companies. In the cavalry and infantry the amount due from each squadron or company will appear in Regimental Orders for the month in which the stoppages are recoverable from the soldier, and will be credited in the pay list for the month, the returns being annexed as vouchers. Return of stoppages.

45. The order sanctioning the destruction of a glandered horse will be quoted as the authority for striking off charge portions of harness or saddlery destroyed in order to prevent infection. Losses through glandered horses.

46. Equipment Accounts will be balanced half-yearly (to 30th September and 31st March) and rendered, with their supporting vouchers, to the local Auditor of Army Accounts or, if there is no such appointment, to the Secretary of State for War, War Office. Balancing and rendering of accounts.

**X.—ARMS AND ACCOUTREMENTS.****Disposal of Arms, Ammunition, and Accoutrements of Sick and Wounded in the Field.**

47. The arms, accoutrements, and ammunition of men received into hospital in the field will be taken charge of by the Army Medical Department in the first instance, as directed in paragraphs 627, 628, 629, 637, and 656, Regulations for Army Medical Services, Part I. Charge of equipment of men in hospital.

If the man is likely to return to his duty soon, his equipment will be retained by the Army Medical Department, and returned to the man on his discharge to duty.

If the man is not likely to be again fit for duty at the front, his equipment will be handed over to the nearest Ordnance Store Dépôt.

The Officer in charge of the hospital, from which arms, &c., of patients are returned to store, will pass delivery and receipt vouchers, Army Form No. G 1033 (which will show the corps to which the equipment belongs), with the Ordnance Store Officer to whom he hands the equipment. The Ordnance Store Officer will send a duplicate receipt to the officer commanding the corps concerned, to enable him to clear his charge.

---

**Ammunition.—Harness and Saddlery.**

---

**Supply for Armed Drafts proceeding on Active Service.**

48. Men selected for drafts proceeding to join a force engaged on active service abroad will take with them the arms and accoutrements already in their possession, which arms and accoutrements will be replaced.

Transfer of. 49. When the drafts proceed from their stations, the Commanding Officers of their respective corps or dépôts will transfer their arms and accoutrements to the Commanding Officers serving abroad, who will become accountable for them. Commanding Officers will take a temporary receipt from the officer or non-commissioned officer in command of each draft, to hold good until the regular issue vouchers shall have been received from the unit concerned.

Marking. 50. The earliest opportunity will be taken by Commanding Officers in the field receiving such arms and accoutrements with drafts, to have the articles re-marked with the proper corps marks, the old marking being at the same time scored across.

**XI.—AMMUNITION.**

51. Service small arm ammunition will be supplied at the rates given in the Tables of Details.

When mobilizing for Home Defence, cavalry and infantry units will retain the 20 rounds per carbine or rifle of their peace supply of service ammunition, receiving the balance at the places named in the Mobilization Tables.

For service abroad, these units will return all their ammunition into store before leaving their station, and will receive their service supply at the places mentioned in the Mobilization Tables.

Application for service ammunition will be made on Army Form G 815.

The expense voucher by which service ammunition is struck off charge must refer to the circumstances and authority (if any) under which the expenditure took place.

Normally, ammunition will be replenished, in the field, from ammunition columns. But in cases of emergency units will draw direct upon the nearest store of ammunition available.

**XII.—HARNESS, SADDLERY, AND STABLE NECESSARIES.**

52. Saddlery will only be supplied at the public expense to officers provided with horses which are the property of the public, to officers belonging to mounted units of the Royal Engineers, and to certain officers of Army Service Corps, as shown in Tables of Details.

**Horse Shoes.**

Stable necessities, including nose bags, corn sacks, and corn bags, will be supplied on demand for all horses in the proportions laid down in the several corps details annexed to these Regulations.

**XIII.—HORSE SHOES.**

53. On active service, all horses and other animals requiring shoes will be shod with machine-made shoes, which will be supplied to the several arms according to the following scale, unless otherwise demanded :—

---

**Camp Equipment.—Miscellaneous.**

---

60 nails per set of shoes will be issued.

Every horse will carry a fore and hind shoe, and sufficient nails in the shoe case, the other hind and fore shoe, as well as 15 per cent. of the establishment of sets of shoes, will be carried regimentally.

**XIV.—CAMP EQUIPMENT AND INTRENCHING TOOLS.**

**Proportions.** 54. The proportions of Camp Equipment and Intrenching Tools allowed, under ordinary circumstances, for the various units of the Army are shown in the several corps details.

**Picketing gear and forage nets.** 55. Picketing gear and forage nets will be supplied in camp free of charge for the regulated number of officers' horses.

**Tents and blankets.** 56. No tents or blankets are provided for the field army for home defence after the units have left their places of concentration.

**Issues on Standing Camp scale.** 57. General Officers Commanding will determine when camp equipment shall be issued on the "Standing Camp" scale. On active service abroad time must be allowed to bring up stores from the base, to admit of large issues on the higher scale.

**XV.—MISCELLANEOUS STORES.**

**Wicks and candles for lamps and lanterns.** 58. All lamps and lanterns which burn oil when first issued by the Ordnance Store Department for field service will be complete with one foot of wick. Officers Commanding corps using lamps or lanterns of special patterns will be responsible that all such lamps or lanterns are fitted with one foot of wick on taking the field, and, on joining the force, will immediately notify the Army Service Corps Officer providing them of the descriptions of oil and wick required, and number of lamps or lanterns.

The wicks for magazine lanterns and signalling lamps will be issued to the troops by the Army Service Corps, on the usual requisition, for field as well as for general service.

The first supply of candles required for lanterns will be obtained by local purchase by Officers Commanding units at their mobilization stations.

## PART 3.—GENERAL REGULATIONS.

### WAR.

#### I.—INTRODUCTORY.

1. In the Tables of Details appended to Part 3, Tables of provision is made for the equipment of units on war Details. establishment, as given in Field Army Establishments, 1892, and under normal conditions.

2. In the absence of orders to the contrary, Officers Demands. Commanding units allotted to the Field Army will on mobilization demand stores according to the scales given.

3. A portion of the war equipment is held by units in Custody of peace as shown in Part 2—the balance (termed “Mobilization Stores”) is held by the Ordnance Store Department at the stations named in the Mobilization Tables.

4. The stores supplied by the Ordnance Store Department on mobilization are comprised under three Classification of mobilization stores heads, viz. :—

1. Personal equipment.
2. 1st Regimental equipment.
3. 2nd Regimental equipment.

The articles included under each head are indicated in the Tables of Details.

Broadly considered—

*Personal Equipment* comprises arms and accoutrements.

*1st Regimental Equipment* comprises all stores supplied by the Ordnance Store Department, other than those included under Personal or 2nd Regimental Equipment.

*2nd Regimental Equipment* comprises small-arm ammunition, tents (for service abroad), and the vehicles which carry them ; vehicles which belong to ammunition columns ; ambulance wagons, supply wagons, and water-carts.

5. Each general service wagon, forage cart, or pack Wagon, animal is equipped with certain stores, termed “wagon” cart, and pack stores.

### Duties of Officers.

"cart" or "pack" stores (as the case may be). Lists of these stores are given in the Tables of Details.

Wagon and cart stores will always accompany the vehicle for which they are supplied, and they will be considered as "1st" or "2nd" Regimental equipment according to the classification of the vehicle to which they appertain, and will be stored and demanded accordingly. Pack stores are always "1st Regimental equipment."

Issues,

6. When troops are actually in the field, it may not be always possible or advisable to meet requisitions sent in, even though they are according to scales laid down. Many circumstances may affect this matter, such as the state of the reserves ; priority of claim, having due regard to the Service as a whole ; and special circumstances of which Commanding Officers may not be cognizant. All these must be taken into consideration before stores are issued according to scales given in the tables.

7. When it becomes likely that the stores in Ordnance Store charge will become insufficient to meet demands made on scales laid down, it will be the duty of Ordnance Store Officers to bring the circumstances to the notice of the General Officer Commanding, and to take his orders thereon as to what proportions shall be issued.

## II.—DUTIES OF OFFICERS.

### Duties of General Officers Commanding Districts.

G.O.C. to facilitate issues.

8. When mobilization has been ordered, General Officers Commanding Districts will facilitate by all possible means the speedy issue of mobilization stores in their districts held for, and demanded by units named in the Mobilization Tables, wherever these units may be stationed at the time they make their demands.

Instructions for issuing stores.

9. The Regulations for Mobilization contain detailed instructions to all concerned as to sending for these stores, and in the event of several units waiting to receive their stores, the senior officer on the spot will decide in what order they are to be supplied.

Peace Establishment to be kept up.

10. Equipment in possession of units in peace should be complete up to peace establishment, and in a condition efficient for war, and on this basis the balance held by the Ordnance Store Department is estimated and provided.

Unserviceable articles in possession.

11. In the event, however, of any articles in possession being found on mobilization unserviceable for war, they must be replaced by serviceable stores, so far as the demand can be met from the general stock kept by the Ordnance Store Department in the district. The General

**Estimates.—Requisitions.**

Officers Commanding Districts will decide as to priority of issue in doubtful cases, due consideration being given to the requirements of all units drawing from the store stations in question.

**Duties of Commanding Officers.**

12. The Commanding Officer of a "unit," as defined in the Regulations for Mobilization, is an accountant to the War Office. C.O. as accountant.

13. Whenever in the field it has been decided to constitute an independent detachment, or irregular levy, or corps, into an accounting body, or when an individual officer is detailed to act in an independent capacity, the fact will be announced in the General Orders of the force. The Senior Ordnance Store Officer at the Head Quarters of the force will furnish the necessary account books and forms, with instructions, to the corps or officers concerned, pointing out when the first accounts will be due. Detachment as accounting body, &c.

**III.—ESTIMATES FOR EQUIPMENT.**

14. Equipment is provided in these regulations for units up to war establishment, and consumable articles (except ammunition) for 3 months' supply. Consumable articles.

15. In the field, estimates of probable requirements will be sent to Senior Ordnance Store Officers of Divisions (or of the Line of Communication, in the case of Line of Communication troops, if on service abroad) in time to admit of stores being brought up as required. Estimates when forwarded.

16. On service abroad neither reserve nor spare stores will be kept available for issue beyond the advanced depot. Reserve or spare stores.

17. It must be borne in mind that regimental transport is provided only for the articles named in the Tables of Details. Regimental transport.

**IV.—REQUISITIONS FOR EQUIPMENT.**

18. The Ordnance Stores required by each unit on mobilization are shown in "Mobilization Store Tables," which are issued to officers commanding units. Copies of these tables are kept with the stores for each unit, as are also receipt and issue vouchers, on Army Forms, G. 1087 to G. 1095, according to the service concerned, which will be passed in the usual manner. Demands for mobilization stores.

## Transfers.

- Home Defence, Garrison, and unallotted units.** 19. Units allotted to Garrisons for Home Defence and unallotted units for Home Defence will demand articles of personal equipment only (cavalry will also demand saddlery), in the proportions given in the Tables of Details for the Field Army. The other stores required will be arranged for, as directed in the Regulations for Mobilization.
- Conveyance of stores.** 20. The unit which demands the stores will arrange for their conveyance as directed in the Regulations for Mobilization.
- Deficiencies on receipt.** 21. In the event of any deficiency of, or injury to, stores being discovered on their arrival at the unit, demands will be at once sent in to make good what is required. These demands will be met at once if the general store admits. The matter will be reported to the General Officer Commanding the District, if necessary, for after adjustment.
- Staff units.** 22. Equipment for staff units (including Military Police) will be demanded by one officer per staff, who will be the accounting officer, and who will be detailed for this purpose by the General or other Officer Commanding the unit.
- Issues on payment.** 23. On active service, when necessary articles of equipment are not otherwise procurable, the General Officer Commanding may allow such to be issued to officers on payment when the store admits; the transaction will not appear in the regimental accounts. Departmental expenses will not be added.
- Personal equipment.** 24. When detachments are despatched for active service, they will take with them their complete personal equipment, which will be transferred in the manner laid down in paragraph 25.

## V.—TRANSFERS.

- Disposal of arms and accoutrements.** 25. Military Staff Clerks, all ranks of the Medical Staff Corps, and Ordnance Store Corps, and 1st Class Staff Sergeant-Majors, dismounted warrant officers, and men of the Army Service Corps, will take their arms and accoutrements with them on transfer from one unit to another. Regular vouchers will be passed from one accountant to another for arms and accoutrements so transferred.
26. In all other cases, men transferred will leave their arms and accoutrements with the units in which they have been serving, and they will be provided with fresh equipment on joining their war unit.

---

**Return of Equipment.**

---

Men sent from their unit to the depôt on mobilization will leave with their units the personal equipment already in possession.

**VI.—RETURN OF EQUIPMENT INTO STORE.**

27. All stores which are surplus to the war establishment, and which do not accompany men sent from the unit to the depôt on mobilization, will be returned to the nearest Ordnance Store, but this is not to delay the issue of mobilization stores to the unit. Surplus stores

28. Stores should not be returned by units to the Ordnance Store Department in the field, unless they are not likely soon to be required again, or cannot be carried. In the field.

29. When stores are forwarded by convoy or under escort, convoy notes, Army Form F 754, will be delivered to the officer commanding the convoy or escort, who will satisfy himself that the numbers of packages agree with the account given to him, and, together with the consignor, will sign the convoy notes made out in triplicate. One of the notes will be retained by the consignor, and the other two will be handed over to the officer commanding the escort, or to the 1st class Staff Serjeant Major, who will give one to the consignee and obtain his receipt on the other, which he will retain. The day and hour of departure will be inserted upon the convoy notes by the consignor. Convoy notes.

30. If when stores are received from a unit, the regular receipt vouchers are not forthcoming, the stores will nevertheless be accepted at the risk of the consignor, to whom the Ordnance Store Officer will report the omission. The consignor will then furnish the necessary vouchers without delay. Receipt vouchers.

31. When the packages do not agree with the convoy notes, or appear to have been tampered with, the consignee will inquire into the cause. If the discrepancy appear to arise from negligence or fraud, such measures will be taken as may be requisite, in order that the offender may be punished. If it appear to arise from just and fair causes, the consignee will obtain a certificate of the cause of any such deficiency, damage, or loss, before the officer in command of the escort or the 1st class Staff Serjeant Major is discharged. Should a court of inquiry seem to be necessary, the consignee will apply for one to the General Officer Commanding. Deficiencies.

## Boards of Survey.

## VII.—ISSUE OF STORES ON BOARD SHIP.

**Charge of.** 32. When Ordnance Store Officers embark with stores consigned to the Ordnance Store Department, such stores will be in charge of the Master of the ship, in accordance with the bill of lading signed by him, and the owners are liable for any loss or damage.

**Issue during voyage.** 33. If there be troops on board, and if during the voyage the Commanding Officer should require, on emergency, an issue to the troops of any articles consigned to the Ordnance Store Department, he will make requisition on the Ordnance Store Officer, certifying in writing that the urgency of the service demands a departure from the general rule. The Ordnance Store Officer will then apply to the Master for the packages required, and give him a receipt on the Master's bill of lading for such as he may receive. He will afterwards take receipts from the Commanding Officer for all stores so issued, and hand them, with a report of his proceedings, to the Senior Ordnance Store Officer at the port of debarkation on arrival. Stores issued to the troops under these circumstances will be accounted for by the Commanding Officer.

## VIII.—BOARDS OF SURVEY AND COURTS OF INQUIRY.

**Boards for condemnation of stores.**

**Prompt investigation of loss of equipment.**

34. Condemnations of stores must be supported by proceedings of Garrison Boards on Army Form No. A 2, where Boards are requisite.

35. When stores or equipment of any kind are lost, destroyed, or injured, and it is a matter for consideration on whom the expense of replacing or repairing them should fall, the Commanding Officer will at once bring the circumstance to the notice of the General Officer Commanding, through the Adjutant General's Department, in order that it may be investigated by a court of inquiry, and, in the event of such Court not duly making a report on the subject, he will not be relieved of liability for any loss that may have occurred. The Court will be composed, if possible, of officers not belonging to the corps interested. If there be an Ordnance Store Officer available, who is not the Senior Ordnance Store Officer of the Division, he will serve as a member.

The proceedings of the Court of Inquiry will be transmitted in duplicate by the President, direct to the Senior Ordnance Store Officer of the Division, who will see that they are complete and then submit them, with his views, to the General Officer Commanding. After

---

**Accounts and Claims.**

---

the General Officer Commanding has recorded his decision, the Senior Ordnance Store Officer will send one copy to the Officer Commanding the corps concerned, to serve as his covering authority to demand new articles to replace those lost or damaged. The Commanding Officer will append this copy to his requisition for the supply.

When supply is necessary before the General Officer has given his decision, the Commanding Officer's copy of the proceedings will be noted, as soon as he receives it, and passed on to the Ordnance Store Officer, quoting the requisition on which the issue was made, to which it will then be attached.

The duplicate copy will be sent by the Senior Ordnance Store Officer to the local Auditor of Army Accounts, or, if there is no such appointment, to the Adjutant General to the Forces, Horse Guards.

Should the loss or damage form the subject of a charge before a Court Martial, two copies of the finding of the Court, and confirmation of the General Officer Commanding, will be sent by the Commanding Officer to the Senior Ordnance Store Officer as soon as possible, for attachment to the original and duplicate proceedings.

**36.** When the stores forming the subject of inquiry are of a special or technical nature, or peculiar to the Royal Artillery, Royal Engineers, Medical Department, or any particular service, the written opinion of the local head of the Service or Department concerned should be taken before the matter is finally dealt with by the General Officer Commanding, and will form part of the proceedings. Special stores.

**IX.—EQUIPMENT ACCOUNTS AND CLAIMS  
AGAINST CORPS.**

**37.** Accountants, while on active service, will record in their equipment ledgers all transactions connected with ammunition and stores. Consumable articles drawn for expenditure will not be inserted. Ledgers.

**38.** Articles of equipment lost or destroyed, and chargeable to the troops, will be struck off charge by a voucher, on which will be quoted the date and number of the cash voucher to the Pay List in which credit for their value is given. Articles lost or destroyed.

**39.** No articles of equipment will be transferred from one equipment ledger charge to another, except under authority of the General Officer Commanding, obtained through the Senior Ordnance Store Officer. Such transfer will be supported by vouchers upon which the authority for the transfer should be quoted. When either of the Transfer of equipment.

### Accounts and Claims.

officers concerned desires that an Ordnance Store Officer should be present at the transfer, one will be directed to attend, if available, on application. In the case of units belonging to different branches of the Service, the receipt and issue vouchers will be passed under cover to the Senior Ordnance Store Officer of the Division, who will countersign them and pass them to the respective accountants. Vouchers will likewise be passed for all equipment that may be taken by men detached from their corps, but not permanently transferred, to serve with another corps also in the field. The above does not refer to transfers of equipment from one Commanding Officer to another on a change of command, which are governed by paragraph 9, Part I.

Charges for  
damages,  
&c.

40. The value of all arms, accoutrements, and other stores rendered unserviceable by neglect or carelessness, will be recovered from the soldiers chargeable, and credited in the regimental accounts. Charges will be made only for the proportionate value of the unexpired period of wear, except in cases of wilful damage, when they will be assessed according to the extent of such damage. Not less than half-price will be charged for any article wilfully or carelessly lost and for which the soldier has been held liable, although it may have been in use the prescribed period of wear.

The amount to be charged on account of any one arm will not exceed 40s., and the period of wear will be taken as 12 years for the purpose of assessing charges for arms, bayonets (sword and triangular), and swords; also for any other article of equipment for which no period of wear has been fixed.

Payment by  
non-account-  
ants.

41. When Officers against whom claims are made have no cash account with the War Office, payment will be made by them to the District Paymaster.

Loss by  
desertion.

42. When articles of equipment are ascertained to have been lost through desertion, they will be struck off charge by voucher Army Form P 1925, on which will be stated the Regimental number, rank, name and date of desertion of each man, as well as, in detail, the articles taken by him, and the value of each article. These articles and their respective values will be entered on Army Form P 1963, and will be charged against the deserter, and credited to the public in the current pay list of the squadron, battery, or company.

Deserter  
rejoining.

43. In the event of a deserter, on rejoining, being in possession of any of the articles of equipment charged against him on desertion, as directed in paragraph 42, the articles brought back by him will be taken on charge in the equipment ledger, and the amount which was charged against the soldier on desertion will be credited to him

**Arms and Accoutrements.**

for such articles as are in a serviceable condition, and will be admitted as a charge against the public, if supported by a reference to the pay list and the voucher on Army Form P 1963 on which the amount was credited to the public at the time of desertion.

44. At the end of each month a return will be prepared on Army Form P 1963, showing the names of, and the amounts recoverable from, any soldiers liable to make good the value of articles of equipment under paragraphs 40 to 43. The stoppage returns will be made out by squadrons, batteries or companies. In the cavalry and infantry the amount due from each squadron or company will appear in Regimental Orders for the month in which the stoppages are recoverable from the soldier, and will be credited in the pay list for the month, the returns being annexed as vouchers. Return of stoppages.

45. The order sanctioning the destruction of a glandered horse will be quoted as the authority for striking off charge portions of harness or saddlery destroyed in order to prevent infection. Losses through glandered horses.

46. Equipment Accounts will be balanced half-yearly (to 30th September and 31st March) and rendered, with their supporting vouchers, to the local Auditor of Army Accounts, or, if there is no such appointment, to the Secretary of State for War, War Office. Balancing and rendering of accounts.

**X.—ARMS AND ACCOUTREMENTS.****Disposal of Arms, Ammunition, and Accoutrements of Sick and Wounded in the Field.**

47. The arms, accoutrements, and ammunition of men received into hospital in the field will be taken charge of by the Army Medical Department in the first instance, as directed in paragraphs 627, 628, 629, 637, and 656, Regulations for Army Medical Services, Part I. Charge of equipment of men in hospital.

If the man is likely to return to his duty soon, his equipment will be retained by the Army Medical Department, and returned to the man on his discharge to duty.

If the man is not likely to be again fit for duty at the front, his equipment will be handed over to the nearest Ordnance Store Depot.

The Officer in charge of the hospital, from which arms, &c., of patients are returned to store, will pass delivery and receipt vouchers, Army Form No. G 1033 (which will show the corps to which the equipment belongs), with the Ordnance Store Officer to whom he hands the equipment. The Ordnance Store Officer will send a duplicate receipt to the officer commanding the corps concerned, to enable him to clear his charge.

### Ammunition.—Harness and Saddlery.

#### Supply for Armed Drafts proceeding on Active Service.

- 48.** Men selected for drafts proceeding to join a force engaged on active service abroad will take with them the arms and accoutrements already in their possession, which arms and accoutrements will be replaced.
- Transfer of.** **49.** When the drafts proceed from their stations, the Commanding Officers of their respective corps or depôts will transfer their arms and accoutrements to the Commanding Officers serving abroad, who will become accountable for them. Commanding Officers will take a temporary receipt from the officer or non-commissioned officer in command of each draft, to hold good until the regular issue vouchers shall have been received from the unit concerned.
- Marking.** **50.** The earliest opportunity will be taken by Commanding Officers in the field receiving such arms and accoutrements with drafts, to have the articles re-marked with the proper corps marks, the old marking being at the same time scored across.

### XI.—AMMUNITION.

**51.** Service small arm ammunition will be supplied at the rates given in the Tables of Details.

When mobilizing for Home Defence, cavalry and infantry units will retain the 20 rounds per carbine or rifle of their peace supply of service ammunition, receiving the balance at the places named in the Mobilization Tables.

For service abroad, these units will return all their ammunition into store before leaving their station, and will receive their service supply at the places mentioned in the Mobilization Tables.

Application for service ammunition will be made on Army Form G 815.

The expense voucher by which service ammunition is struck off charge must refer to the circumstances and authority (if any) under which the expenditure took place.

Normally, ammunition will be replenished, in the field, from ammunition columns. But in cases of emergency units will draw direct upon the nearest store of ammunition available.

### XII.—HARNES, SADDLERY, AND STABLE NECESSARIES.

**52.** Saddlery will only be supplied at the public expense to officers provided with horses which are the property of the public, to officers belonging to mounted units of the Royal Engineers, and to certain officers of Army Service Corps, as shown in Tables of Details.

## Horse Shoes.

Stable necessities, including nose bags, corn sacks, and corn bags, will be supplied on demand for all horses in the proportions laid down in the several corps details annexed to these Regulations.

## XIII.—HORSE SHOES.

53. On active service, all horses and other animals requiring shoes will be shod with machine-made shoes, which will be supplied to the several arms according to the following scale, unless otherwise demanded :—

---

**Camp Equipment.—Miscellaneous.**

---

60 nails per set of shoes will be issued.

Every horse will carry a fore and hind shoe, and sufficient nails in the shoe case, the other hind and fore shoe, as well as 15 per cent. of the establishment of sets of shoes, will be carried regimentally.

**XIV.—CAMP EQUIPMENT AND INTRENCHING TOOLS.**

**Proportions.** 54. The proportions of Camp Equipment and Intrenching Tools allowed, under ordinary circumstances, for the various units of the Army are shown in the several corps details.

**Picketing gear and forage nets.** 55. Picketing gear and forage nets will be supplied in camp free of charge for the regulated number of officers' horses.

**Tents and blankets.** 56. No tents or blankets are provided for the field army for home defence after the units have left their places of concentration.

**Issues on Standing Camp scale.** 57. General Officers Commanding will determine when camp equipment shall be issued on the "Standing Camp" scale. On active service abroad time must be allowed to bring up stores from the base, to admit of large issues on the higher scale.

**XV.—MISCELLANEOUS STORES.**

**Wicks and candles for lamps and lanterns.** 58. All lamps and lanterns which burn oil when first issued by the Ordnance Store Department for field service will be complete with one foot of wick. Officers Commanding corps using lamps or lanterns of special patterns will be responsible that all such lamps or lanterns are fitted with one foot of wick on taking the field, and, on joining the force, will immediately notify the Army Service Corps Officer providing them of the descriptions of oil and wick required, and number of lamps or lanterns.

The wicks for magazine lanterns and signalling lamps will be issued to the troops by the Army Service Corps, on the usual requisition, for field as well as for general service.

The first supply of candles required for lanterns will be obtained by local purchase by Officers Commanding units at their mobilization stations.

## PART 3.—GENERAL REGULATIONS.

### WAR.

#### I.—INTRODUCTORY.

1. In the Tables of Details appended to Part 3, <sup>Tables of</sup> provision is made for the equipment of units on war <sup>Details.</sup> establishment, as given in Field Army Establishments, 1892, and under normal conditions.

2. In the absence of orders to the contrary, Officers Demands. Commanding units allotted to the Field Army will on mobilization demand stores according to the scales given.

3. A portion of the war equipment is held by units in <sup>Custody of</sup> peace as shown in Part 2—the balance (termed “Mobilization Stores”) is held by the Ordnance Store Department at the stations named in the Mobilization Tables.

4. The stores supplied by the Ordnance Store Department to units on mobilization are comprised under three <sup>Classification of mobilization stores</sup> heads, viz. :—

1. Personal equipment.
2. 1st Regimental equipment.
3. 2nd Regimental equipment.

The articles included under each head are indicated in the Tables of Details.

Broadly considered—

*Personal Equipment* comprises arms and accoutrements.

*1st Regimental Equipment* comprises all stores supplied by the Ordnance Store Department, other than those included under Personal or 2nd Regimental Equipment.

*2nd Regimental Equipment* comprises small-arm ammunition, tents (for service abroad), and the vehicles which carry them; vehicles which belong to ammunition columns; ambulance wagons, supply wagons, and water-carts.

5. Each general service wagon, forage cart, or pack <sup>Wagon,</sup> animal is equipped with certain stores, termed “wagon” <sup>cart, and</sup> pack stores.

### Duties of Officers.

- Issues.** "cart" or "pack" stores (as the case may be). Lists of these stores are given in the Tables of Details.
- Wagon and cart stores will always accompany the vehicle for which they are supplied, and they will be considered as "1st" or "2nd" Regimental equipment according to the classification of the vehicle to which they appertain, and will be stored and demanded accordingly. Pack stores are always "1st Regimental equipment."
6. When troops are actually in the field, it may not be always possible or advisable to meet requisitions sent in, even though they are according to scales laid down. Many circumstances may affect this matter, such as the state of the reserves; priority of claim, having due regard to the Service as a whole; and special circumstances of which Commanding Officers may not be cognizant. All these must be taken into consideration before stores are issued according to scales given in the tables.
7. When it becomes likely that the stores in Ordnance Store charge will become insufficient to meet demands made on scales laid down, it will be the duty of Ordnance Store Officers to bring the circumstances to the notice of the General Officer Commanding, and to take his orders thereon as to what proportions shall be issued.

## II.—DUTIES OF OFFICERS.

### Duties of General Officers Commanding Districts.

- G.O.C. to facilitate issues.** 8. When mobilization has been ordered, General Officers Commanding Districts will facilitate by all possible means the speedy issue of mobilization stores in their districts held for, and demanded by units named in the Mobilization Tables, wherever these units may be stationed at the time they make their demands.
- Instructions for issuing stores.** 9. The Regulations for Mobilization contain detailed instructions to all concerned as to sending for these stores, and in the event of several units waiting to receive their stores, the senior officer on the spot will decide in what order they are to be supplied.
- Peace Establishment to be kept up.** 10. Equipment in possession of units in peace should be complete up to peace establishment, and in a condition efficient for war, and on this basis the balance held by the Ordnance Store Department is estimated and provided.
- Unserviceable articles in possession.** 11. In the event, however, of any articles in possession being found on mobilization unserviceable for war, they must be replaced by serviceable stores, so far as the demand can be met from the general stock kept by the Ordnance Store Department in the district. The General

**Estimates.—Requisitions.**

Officers Commanding Districts will decide as to priority of issue in doubtful cases, due consideration being given to the requirements of all units drawing from the store stations in question.

**Duties of Commanding Officers.**

12. The Commanding Officer of a "unit," as defined in the Regulations for Mobilization, is an accountant to the War Office. C.O. as accountant.

13. Whenever in the field it has been decided to constitute an independent detachment, or irregular levy, or corps, into an accounting body, or when an individual officer is detailed to act in an independent capacity, the fact will be announced in the General Orders of the force. The Senior Ordnance Store Officer at the Head Quarters of the force will furnish the necessary account books and forms, with instructions, to the corps or officers concerned, pointing out when the first accounts will be due. Detachment as accounting body, &c.

**III.—ESTIMATES FOR EQUIPMENT.**

14. Equipment is provided in these regulations for units up to war establishment, and consumable articles (except ammunition) for 3 months' supply. Consumable articles.

15. In the field, estimates of probable requirements will be sent to Senior Ordnance Store Officers of Divisions (or of the Line of Communication, in the case of Line of Communication troops, if on service abroad) in time to admit of stores being brought up as required. Estimates when forwarded.

16. On service abroad neither reserve nor spare stores will be kept available for issue beyond the advanced depot. Reserve or spare stores.

17. It must be borne in mind that regimental transport is provided only for the articles named in the Tables of Details. Regimental transport.

**IV.—REQUISITIONS FOR EQUIPMENT.**

18. The Ordnance Stores required by each unit on mobilization are shown in "Mobilization Store Tables," which are issued to officers commanding units. Copies of these tables are kept with the stores for each unit, as are also receipt and issue vouchers, on Army Forms, G. 1087 to G. 1095, according to the service concerned, which will be passed in the usual manner. Demands for mobilization stores.

## Transfers.

- Home Defence, Garrison, and unallotted units.** 19. Units allotted to Garrisons for Home Defence and unallotted units for Home Defence will demand articles of personal equipment only (cavalry will also demand saddlery), in the proportions given in the Tables of Details for the Field Army. The other stores required will be arranged for, as directed in the Regulations for Mobilization.
- Conveyance of stores.** 20. The unit which demands the stores will arrange for their conveyance as directed in the Regulations for Mobilization.
- Deficiencies on receipt.** 21. In the event of any deficiency of, or injury to, stores being discovered on their arrival at the unit, demands will be at once sent in to make good what is required. These demands will be met at once if the general store admits. The matter will be reported to the General Officer Commanding the District, if necessary, for after adjustment.
- Staff units.** 22. Equipment for staff units (including Military Police) will be demanded by one officer per staff, who will be the accounting officer, and who will be detailed for this purpose by the General or other Officer Commanding the unit.
- Issues on payment.** 23. On active service, when necessary articles of equipment are not otherwise procurable, the General Officer Commanding may allow such to be issued to officers on payment when the store admits; the transaction will not appear in the regimental accounts. Departmental expenses will not be added.
- Personal equipment.** 24. When detachments are despatched for active service, they will take with them their complete personal equipment, which will be transferred in the manner laid down in paragraph 25.

## V.—TRANSFERS.

- Disposal of arms and accoutrements.** 25. Military Staff Clerks, all ranks of the Medical Staff Corps, and Ordnance Store Corps, and 1st Class Staff Sergeant-Majors, dismounted warrant officers, and men of the Army Service Corps, will take their arms and accoutrements with them on transfer from one unit to another. Regular vouchers will be passed from one accountant to another for arms and accoutrements so transferred.
26. In all other cases, men transferred will leave their arms and accoutrements with the units in which they have been serving, and they will be provided with fresh equipment on joining their war unit.

---

**Return of Equipment.**

---

Men sent from their unit to the dépôt on mobilization will leave with their units the personal equipment already in possession.

**VI.—RETURN OF EQUIPMENT INTO STORE.**

27. All stores which are surplus to the war establishment, and which do not accompany men sent from the unit to the dépôt on mobilization, will be returned to the nearest Ordnance Store, but this is not to delay the issue of mobilization stores to the unit. Surplus stores.

28. Stores should not be returned by units to the Ordnance Store Department in the field, unless they are not likely soon to be required again, or cannot be carried. In the field.

29. When stores are forwarded by convoy or under escort, convoy notes, Army Form F 754, will be delivered to the officer commanding the convoy or escort, who will satisfy himself that the numbers of packages agree with the account given to him, and, together with the consignor, will sign the convoy notes made out in triplicate. One of the notes will be retained by the consignor, and the other two will be handed over to the officer commanding the escort, or to the 1st class Staff Serjeant Major, who will give one to the consignee and obtain his receipt on the other, which he will retain. The day and hour of departure will be inserted upon the convoy notes by the consignor. Convoy notes.

30. If when stores are received from a unit, the regular receipt vouchers are not forthcoming, the stores will nevertheless be accepted at the risk of the consignor, to whom the Ordnance Store Officer will report the omission. The consignor will then furnish the necessary vouchers without delay. Receipt vouchers.

31. When the packages do not agree with the convoy notes, or appear to have been tampered with, the consignee will inquire into the cause. If the discrepancy appear to arise from negligence or fraud, such measures will be taken as may be requisite, in order that the offender may be punished. If it appear to arise from just and fair causes, the consignee will obtain a certificate of the cause of any such deficiency, damage, or loss, before the officer in command of the escort or the 1st class Staff Serjeant Major is discharged. Should a court of inquiry seem to be necessary, the consignee will apply for one to the General Officer Commanding. Deficiencies.

---

 Boards of Survey.
 

---

## VII.—ISSUE OF STORES ON BOARD SHIP.

**Charge of.** 32. When Ordnance Store Officers embark with stores consigned to the Ordnance Store Department, such stores will be in charge of the Master of the ship, in accordance with the bill of lading signed by him, and the owners are liable for any loss or damage.

**Issue during voyage.** 33. If there be troops on board, and if during the voyage the Commanding Officer should require, on emergency, an issue to the troops of any articles consigned to the Ordnance Store Department, he will make requisition on the Ordnance Store Officer, certifying in writing that the urgency of the service demands a departure from the general rule. The Ordnance Store Officer will then apply to the Master for the packages required, and give him a receipt on the Master's bill of lading for such as he may receive. He will afterwards take receipts from the Commanding Officer for all stores so issued, and hand them, with a report of his proceedings, to the Senior Ordnance Store Officer at the port of debarkation on arrival. Stores issued to the troops under these circumstances will be accounted for by the Commanding Officer.

## VIII.—BOARDS OF SURVEY AND COURTS OF INQUIRY.

**Boards for condemnation of stores.**

**Prompt investigation of loss of equipment.**

34. Condemnations of stores must be supported by proceedings of Garrison Boards on Army Form No. A 2, where Boards are requisite.

35. When stores or equipment of any kind are lost, destroyed, or injured, and it is a matter for consideration on whom the expense of replacing or repairing them should fall, the Commanding Officer will at once bring the circumstance to the notice of the General Officer Commanding, through the Adjutant General's Department, in order that it may be investigated by a court of inquiry, and, in the event of such Court not duly making a report on the subject, he will not be relieved of liability for any loss that may have occurred. The Court will be composed, if possible, of officers not belonging to the corps interested. If there be an Ordnance Store Officer available, who is not the Senior Ordnance Store Officer of the Division, he will serve as a member.

The proceedings of the Court of Inquiry will be transmitted in duplicate by the President, direct to the Senior Ordnance Store Officer of the Division, who will see that they are complete and then submit them, with his views, to the General Officer Commanding. After

---

**Accounts and Claims.**

---

the General Officer Commanding has recorded his decision, the Senior Ordnance Store Officer will send one copy to the Officer Commanding the corps concerned, to serve as his covering authority to demand new articles to replace those lost or damaged. The Commanding Officer will append this copy to his requisition for the supply.

When supply is necessary before the General Officer has given his decision, the Commanding Officer's copy of the proceedings will be noted, as soon as he receives it, and passed on to the Ordnance Store Officer, quoting the requisition on which the issue was made, to which it will then be attached.

The duplicate copy will be sent by the Senior Ordnance Store Officer to the local Auditor of Army Accounts, or, if there is no such appointment, to the Adjutant General to the Forces, Horse Guards.

Should the loss or damage form the subject of a charge before a Court Martial, two copies of the finding of the Court, and confirmation of the General Officer Commanding, will be sent by the Commanding Officer to the Senior Ordnance Store Officer as soon as possible, for attachment to the original and duplicate proceedings.

36. When the stores forming the subject of inquiry are Special stores. of a special or technical nature, or peculiar to the Royal Artillery, Royal Engineers, Medical Department, or any particular service, the written opinion of the local head of the Service or Department concerned should be taken before the matter is finally dealt with by the General Officer Commanding, and will form part of the proceedings.

**IX.—EQUIPMENT ACCOUNTS AND CLAIMS  
AGAINST CORPS.**

37. Accountants, while on active service, will record in their equipment ledgers all transactions connected with ammunition and stores. Consumable articles drawn for expenditure will not be inserted. **Ledgers.**

38. Articles of equipment lost or destroyed, and chargeable to the troops, will be struck off charge by a voucher, on which will be quoted the date and number of the cash voucher to the Pay List in which credit for their value is given. **Articles lost or destroyed.**

39. No articles of equipment will be transferred from one equipment ledger charge to another, except under authority of the General Officer Commanding, obtained through the Senior Ordnance Store Officer. Such transfer will be supported by vouchers upon which the authority for the transfer should be quoted. When either of the **Transfer of equipment.**

### Accounts and Claims.

officers concerned desires that an Ordnance Store Officer should be present at the transfer, one will be directed to attend, if available, on application. In the case of units belonging to different branches of the Service, the receipt and issue vouchers will be passed under cover to the Senior Ordnance Store Officer of the Division, who will countersign them and pass them to the respective accountants. Vouchers will likewise be passed for all equipment that may be taken by men detached from their corps, but not permanently transferred, to serve with another corps also in the field. The above does not refer to transfers of equipment from one Commanding Officer to another on a change of command, which are governed by paragraph 9, Part I.

Charges for  
damages,  
&c.

40. The value of all arms, accoutrements, and other stores rendered unserviceable by neglect or carelessness, will be recovered from the soldiers chargeable, and credited in the regimental accounts. Charges will be made only for the proportionate value of the unexpired period of wear, except in cases of wilful damage, when they will be assessed according to the extent of such damage. Not less than half-price will be charged for any article wilfully or carelessly lost and for which the soldier has been held liable, although it may have been in use the prescribed period of wear.

The amount to be charged on account of any one arm will not exceed 40s., and the period of wear will be taken as 12 years for the purpose of assessing charges for arms, bayonets (sword and triangular), and swords; also for any other article of equipment for which no period of wear has been fixed.

Payment by  
non-account-  
ants.

41. When Officers against whom claims are made have no cash account with the War Office, payment will be made by them to the District Paymaster.

Loss by  
desertion.

42. When articles of equipment are ascertained to have been lost through desertion, they will be struck off charge by voucher Army Form P 1925, on which will be stated the Regimental number, rank, name and date of desertion of each man, as well as, in detail, the articles taken by him, and the value of each article. These articles and their respective values will be entered on Army Form P 1963, and will be charged against the deserter, and credited to the public in the current pay list of the squadron, battery, or company.

Deserter  
rejoining.

43. In the event of a deserter, on rejoining, being in possession of any of the articles of equipment charged against him on desertion, as directed in paragraph 42, the articles brought back by him will be taken on charge in the equipment ledger, and the amount which was charged against the soldier on desertion will be credited to him

### Arms and Accoutrements.

for such articles as are in a serviceable condition, and will be admitted as a charge against the public, if supported by a reference to the pay list and the voucher on Army Form P 1963 on which the amount was credited to the public at the time of desertion.

44. At the end of each month a return will be prepared on Army Form P 1963, showing the names of, and the amounts recoverable from, any soldiers liable to make good the value of articles of equipment under paragraphs 40 to 43. The stoppage returns will be made out by squadrons, batteries or companies. In the cavalry and infantry the amount due from each squadron or company will appear in Regimental Orders for the month in which the stoppages are recoverable from the soldier, and will be credited in the pay list for the month, the returns being annexed as vouchers. Return of stoppages.

45. The order sanctioning the destruction of a glandered horse will be quoted as the authority for striking off charge portions of harness or saddlery destroyed in order to prevent infection. Losses through glandered horses.

46. Equipment Accounts will be balanced half-yearly (to 30th September and 31st March) and rendered, with their supporting vouchers, to the local Auditor of Army Accounts, or, if there is no such appointment, to the Secretary of State for War, War Office. Balancing and rendering of accounts.

### X.—ARMS AND ACCOUTREMENTS.

#### Disposal of Arms, Ammunition, and Accoutrements of Sick and Wounded in the Field.

47. The arms, accoutrements, and ammunition of men received into hospital in the field will be taken charge of by the Army Medical Department in the first instance, as directed in paragraphs 627, 628, 629, 637, and 656, Regulations for Army Medical Services, Part I. Charge of equipment of men in hospital.

If the man is likely to return to his duty soon, his equipment will be retained by the Army Medical Department, and returned to the man on his discharge to duty.

If the man is not likely to be again fit for duty at the front, his equipment will be handed over to the nearest Ordnance Store Depot.

The Officer in charge of the hospital, from which arms, &c., of patients are returned to store, will pass delivery and receipt vouchers, Army Form No. G 1033 (which will show the corps to which the equipment belongs), with the Ordnance Store Officer to whom he hands the equipment. The Ordnance Store Officer will send a duplicate receipt to the officer commanding the corps concerned, to enable him to clear his charge.

---

**Ammunition.—Harness and Saddlery.**

---

**Supply for Armed Drafts proceeding on Active Service.**

48. Men selected for drafts proceeding to join a force engaged on active service abroad will take with them the arms and accoutrements already in their possession, which arms and accoutrements will be replaced.

Transfer of. 49. When the drafts proceed from their stations, the Commanding Officers of their respective corps or depôts will transfer their arms and accoutrements to the Commanding Officers serving abroad, who will become accountable for them. Commanding Officers will take a temporary receipt from the officer or non-commissioned officer in command of each draft, to hold good until the regular issue vouchers shall have been received from the unit concerned.

Marking. 50. The earliest opportunity will be taken by Commanding Officers in the field receiving such arms and accoutrements with drafts, to have the articles re-marked with the proper corps marks, the old marking being at the same time scored across.

**XI.—AMMUNITION.**

51. Service small arm ammunition will be supplied at the rates given in the Tables of Details.

When mobilizing for Home Defence, cavalry and infantry units will retain the 20 rounds per carbine or rifle of their peace supply of service ammunition, receiving the balance at the places named in the Mobilization Tables.

For service abroad, these units will return all their ammunition into store before leaving their station, and will receive their service supply at the places mentioned in the Mobilization Tables.

Application for service ammunition will be made on Army Form G 815.

The expense voucher by which service ammunition is struck off charge must refer to the circumstances and authority (if any) under which the expenditure took place.

Normally, ammunition will be replenished, in the field, from ammunition columns. But in cases of emergency units will draw direct upon the nearest store of ammunition available.

**XII.—HARNES, SADDLERY, AND STABLE NECESSARIES.**

52. Saddlery will only be supplied at the public expense to officers provided with horses which are the property of the public, to officers belonging to mounted units of the Royal Engineers, and to certain officers of Army Service Corps, as shown in Tables of Details.

---

Horse Shoes.

---

Stable necessities, including nose bags, corn sacks, and corn bags, will be supplied on demand for all horses in the proportions laid down in the several corps details annexed to these Regulations.

**XIII.—HORSE SHOES.**

53. On active service, all horses and other animals requiring shoes will be shod with machine-made shoes, which will be supplied to the several arms according to the following scale, unless otherwise demanded :—

**Camp Equipment.—Miscellaneous.**

---

60 nails per set of shoes will be issued.

Every horse will carry a fore and hind shoe, and sufficient nails in the shoe case, the other hind and fore shoe, as well as 15 per cent. of the establishment of sets of shoes, will be carried regimentally.

**XIV.—CAMP EQUIPMENT AND INTRENCHING TOOLS.**

**Proportions.** 54. The proportions of Camp Equipment and Intrenching Tools allowed, under ordinary circumstances, for the various units of the Army are shown in the several corps details.

**Picketing gear and forage nets.** 55. Picketing gear and forage nets will be supplied in camp free of charge for the regulated number of officers' horses.

**Tents and blankets.** 56. No tents or blankets are provided for the field army for home defence after the units have left their places of concentration.

**Issues on Standing Camp scale.** 57. General Officers Commanding will determine when camp equipment shall be issued on the "Standing Camp" scale. On active service abroad time must be allowed to bring up stores from the base, to admit of large issues on the higher scale.

**XV.—MISCELLANEOUS STORES.**

**Wicks and candles for lamps and lanterns.** 58. All lamps and lanterns which burn oil when first issued by the Ordnance Store Department for field service will be complete with one foot of wick. Officers Commanding corps using lamps or lanterns of special patterns will be responsible that all such lamps or lanterns are fitted with one foot of wick on taking the field, and, on joining the force, will immediately notify the Army Service Corps Officer providing them of the descriptions of oil and wick required, and number of lamps or lanterns.

The wicks for magazine lanterns and signalling lamps will be issued to the troops by the Army Service Corps, on the usual requisition, for field as well as for general service.

The first supply of candles required for lanterns will be obtained by local purchase by Officers Commanding units at their mobilization stations.

## PART 3.—GENERAL REGULATIONS.

### WAR.

#### I.—INTRODUCTORY.

1. In the Tables of Details appended to Part 3, <sup>Tables of</sup> provision is made for the equipment of units on war <sup>Details.</sup> establishment, as given in Field Army Establishments, 1892, and under normal conditions.

2. In the absence of orders to the contrary, Officers <sup>Demands.</sup> Commanding units allotted to the Field Army will on mobilization demand stores according to the scales given.

3. A portion of the war equipment is held by units in <sup>Custody of</sup> peace as shown in Part 2—the balance (termed “Mobilization Stores”) is held by the Ordnance Store Department at the stations named in the Mobilization Tables.

4. The stores supplied by the Ordnance Store Department to units on mobilization are comprised under three <sup>Classification of mobilization stores</sup> heads, viz. :—

1. Personal equipment.
2. 1st Regimental equipment.
3. 2nd Regimental equipment.

The articles included under each head are indicated in the Tables of Details.

Broadly considered—

*Personal Equipment* comprises arms and accoutrements.

*1st Regimental Equipment* comprises all stores supplied by the Ordnance Store Department, other than those included under Personal or 2nd Regimental Equipment.

*2nd Regimental Equipment* comprises small-arm ammunition, tents (for service abroad), and the vehicles which carry them ; vehicles which belong to ammunition columns ; ambulance wagons, supply wagons, and water-carts.

5. Each general service wagon, forage cart, or pack <sup>Wagon,</sup> animal is equipped with certain stores, termed “wagon” <sup>cart, and</sup> pack <sup>stores.</sup> stores.

### Duties of Officers:

"cart" or "pack" stores (as the case may be). Lists of these stores are given in the Tables of Details.

Wagon and cart stores will always accompany the vehicle for which they are supplied, and they will be considered as "1st" or "2nd" Regimental equipment according to the classification of the vehicle to which they appertain, and will be stored and demanded accordingly. Pack stores are always "1st Regimental equipment."

#### Issues.

6. When troops are actually in the field, it may not be always possible or advisable to meet requisitions sent in, even though they are according to scales laid down. Many circumstances may affect this matter, such as the state of the reserves; priority of claim, having due regard to the Service as a whole; and special circumstances of which Commanding Officers may not be cognizant. All these must be taken into consideration before stores are issued according to scales given in the tables.

7. When it becomes likely that the stores in Ordnance Store charge will become insufficient to meet demands made on scales laid down, it will be the duty of Ordnance Store Officers to bring the circumstances to the notice of the General Officer Commanding, and to take his orders thereon as to what proportions shall be issued.

## II.—DUTIES OF OFFICERS.

### Duties of General Officers Commanding Districts.

#### G.O.C. to facilitate issues.

8. When mobilization has been ordered, General Officers Commanding Districts will facilitate by all possible means the speedy issue of mobilization stores in their districts held for, and demanded by units named in the Mobilization Tables, wherever these units may be stationed at the time they make their demands.

#### Instructions for issuing stores.

9. The Regulations for Mobilization contain detailed instructions to all concerned as to sending for these stores, and in the event of several units waiting to receive their stores, the senior officer on the spot will decide in what order they are to be supplied.

#### Peace Establishment to be kept up.

10. Equipment in possession of units in peace should be complete up to peace establishment, and in a condition efficient for war, and on this basis the balance held by the Ordnance Store Department is estimated and provided.

#### Unserviceable articles in possession.

11. In the event, however, of any articles in possession being found on mobilization unserviceable for war, they must be replaced by serviceable stores, so far as the demand can be met from the general stock kept by the Ordnance Store Department in the district. The General

**Estimates.—Requisitions.**

Officers Commanding Districts will decide as to priority of issue in doubtful cases, due consideration being given to the requirements of all units drawing from the store stations in question.

**Duties of Commanding Officers.**

12. The Commanding Officer of a "unit," as defined in the Regulations for Mobilization, is an accountant to the War Office. C.O. as accountant.

13. Whenever in the field it has been decided to constitute an independent detachment, or irregular levy, or corps, into an accounting body, or when an individual officer is detailed to act in an independent capacity, the fact will be announced in the General Orders of the force. The Senior Ordnance Store Officer at the Head Quarters of the force will furnish the necessary account books and forms, with instructions, to the corps or officers concerned, pointing out when the first accounts will be due. Detachment as accounting body, &c.

**III.—ESTIMATES FOR EQUIPMENT.**

14. Equipment is provided in these regulations for units up to war establishment, and consumable articles (except ammunition) for 3 months' supply. Consumable articles.

15. In the field, estimates of probable requirements will be sent to Senior Ordnance Store Officers of Divisions (or of the Line of Communication, in the case of Line of Communication troops, if on service abroad) in time to admit of stores being brought up as required. Estimates when forwarded.

16. On service abroad neither reserve nor spare stores will be kept available for issue beyond the advanced depot. Reserve or spare stores.

17. It must be borne in mind that regimental transport is provided only for the articles named in the Tables of Details. Regimental transport.

**IV.—REQUISITIONS FOR EQUIPMENT.**

18. The Ordnance Stores required by each unit on mobilization are shown in "Mobilization Store Tables," which are issued to officers commanding units. Copies of these tables are kept with the stores for each unit, as are also receipt and issue vouchers, on Army Forms, G. 1087 to G. 1095, according to the service concerned, which will be passed in the usual manner. Demands for mobilization stores.

---

**Transfers.**

---

Home Defence, Garrison, and unallotted units.

19. Units allotted to Garrisons for Home Defence and unallotted units for Home Defence will demand articles of personal equipment only (cavalry will also demand saddlery), in the proportions given in the Tables of Details for the Field Army. The other stores required will be arranged for, as directed in the Regulations for Mobilization.

Conveyance of stores.

20. The unit which demands the stores will arrange for their conveyance as directed in the Regulations for Mobilization.

Deficiencies on receipt.

21. In the event of any deficiency of, or injury to, stores being discovered on their arrival at the unit, demands will be at once sent in to make good what is required. These demands will be met at once if the general store admits. The matter will be reported to the General Officer Commanding the District, if necessary, for after adjustment.

Staff units.

22. Equipment for staff units (including Military Police) will be demanded by one officer per staff, who will be the accounting officer, and who will be detailed for this purpose by the General or other Officer Commanding the unit.

Issues on payment.

23. On active service, when necessary articles of equipment are not otherwise procurable, the General Officer Commanding may allow such to be issued to officers on payment when the store admits; the transaction will not appear in the regimental accounts. Departmental expenses will not be added.

Personal equipment.

24. When detachments are despatched for active service, they will take with them their complete personal equipment, which will be transferred in the manner laid down in paragraph 25.

**V.—TRANSFERS.**

Disposal of arms and accoutrements.

25. Military Staff Clerks, all ranks of the Medical Staff Corps, and Ordnance Store Corps, and 1st Class Staff Sergeant-Majors, dismounted warrant officers, and men of the Army Service Corps, will take their arms and accoutrements with them on transfer from one unit to another. Regular vouchers will be passed from one accountant to another for arms and accoutrements so transferred.

26. In all other cases, men transferred will leave their arms and accoutrements with the units in which they have been serving, and they will be provided with fresh equipment on joining their war unit.

---

Return of Equipment.

---

Men sent from their unit to the depôt on mobilization will leave with their units the personal equipment already in possession.

**VI.—RETURN OF EQUIPMENT INTO STORE.**

27. All stores which are surplus to the war establishment, and which do not accompany men sent from the unit to the depôt on mobilization, will be returned to the nearest Ordnance Store, but this is not to delay the issue of mobilization stores to the unit. Surplus stores.

28. Stores should not be returned by units to the Ordnance Store Department in the field, unless they are not likely soon to be required again, or cannot be carried. In the field.

29. When stores are forwarded by convoy or under escort, convoy notes, Army Form F 754, will be delivered to the officer commanding the convoy or escort, who will satisfy himself that the numbers of packages agree with the account given to him, and, together with the consignor, will sign the convoy notes made out in triplicate. One of the notes will be retained by the consignor, and the other two will be handed over to the officer commanding the escort, or to the 1st class Staff Serjeant Major, who will give one to the consignee and obtain his receipt on the other, which he will retain. The day and hour of departure will be inserted upon the convoy notes by the consignor. Convoy notes.

30. If when stores are received from a unit, the regular receipt vouchers are not forthcoming, the stores will nevertheless be accepted at the risk of the consignor, to whom the Ordnance Store Officer will report the omission. The consignor will then furnish the necessary vouchers without delay. Receipt vouchers.

31. When the packages do not agree with the convoy notes, or appear to have been tampered with, the consignee will inquire into the cause. If the discrepancy appear to arise from negligence or fraud, such measures will be taken as may be requisite, in order that the offender may be punished. If it appear to arise from just and fair causes, the consignee will obtain a certificate of the cause of any such deficiency, damage, or loss, before the officer in command of the escort or the 1st class Staff Serjeant Major is discharged. Should a court of inquiry seem to be necessary, the consignee will apply for one to the General Officer Commanding. Deficiencies.

## Boards of Survey.

## VII.—ISSUE OF STORES ON BOARD SHIP.

- Charge of.** 32. When Ordnance Store Officers embark with stores consigned to the Ordnance Store Department, such stores will be in charge of the Master of the ship, in accordance with the bill of lading signed by him, and the owners are liable for any loss or damage.
- Issue during voyage.** 33. If there be troops on board, and if during the voyage the Commanding Officer should require, on emergency, an issue to the troops of any articles consigned to the Ordnance Store Department, he will make requisition on the Ordnance Store Officer, certifying in writing that the urgency of the service demands a departure from the general rule. The Ordnance Store Officer will then apply to the Master for the packages required, and give him a receipt on the Master's bill of lading for such as he may receive. He will afterwards take receipts from the Commanding Officer for all stores so issued, and hand them, with a report of his proceedings, to the Senior Ordnance Store Officer at the port of debarkation on arrival. Stores issued to the troops under these circumstances will be accounted for by the Commanding Officer.

## VIII.—BOARDS OF SURVEY AND COURTS OF INQUIRY.

- Boards for condemnation of stores.** 34. Condemnations of stores must be supported by proceedings of Garrison Boards on Army Form No. A 2, where Boards are requisite.
- Prompt investigation of loss of equipment.** 35. When stores or equipment of any kind are lost, destroyed, or injured, and it is a matter for consideration on whom the expense of replacing or repairing them should fall, the Commanding Officer will at once bring the circumstance to the notice of the General Officer Commanding, through the Adjutant General's Department, in order that it may be investigated by a court of inquiry, and, in the event of such Court not duly making a report on the subject, he will not be relieved of liability for any loss that may have occurred. The Court will be composed, if possible, of officers not belonging to the corps interested. If there be an Ordnance Store Officer available, who is not the Senior Ordnance Store Officer of the Division, he will serve as a member.
- The proceedings of the Court of Inquiry will be transmitted in duplicate by the President, direct to the Senior Ordnance Store Officer of the Division, who will see that they are complete and then submit them, with his views, to the General Officer Commanding. After

---

**Accounts and Claims.**

---

the General Officer Commanding has recorded his decision, the Senior Ordnance Store Officer will send one copy to the Officer Commanding the corps concerned, to serve as his covering authority to demand new articles to replace those lost or damaged. The Commanding Officer will append this copy to his requisition for the supply.

When supply is necessary before the General Officer has given his decision, the Commanding Officer's copy of the proceedings will be noted, as soon as he receives it, and passed on to the Ordnance Store Officer, quoting the requisition on which the issue was made, to which it will then be attached.

The duplicate copy will be sent by the Senior Ordnance Store Officer to the local Auditor of Army Accounts, or, if there is no such appointment, to the Adjutant General to the Forces, Horse Guards.

Should the loss or damage form the subject of a charge before a Court Martial, two copies of the finding of the Court, and confirmation of the General Officer Commanding, will be sent by the Commanding Officer to the Senior Ordnance Store Officer as soon as possible, for attachment to the original and duplicate proceedings.

36. When the stores forming the subject of inquiry are of a special or technical nature, or peculiar to the Royal Artillery, Royal Engineers, Medical Department, or any particular service, the written opinion of the local head of the Service or Department concerned should be taken before the matter is finally dealt with by the General Officer Commanding, and will form part of the proceedings. Special stores.

**IX.—EQUIPMENT ACCOUNTS AND CLAIMS  
AGAINST CORPS.**

37. Accountants, while on active service, will record in their equipment ledgers all transactions connected with ammunition and stores. Consumable articles drawn for expenditure will not be inserted. Ledgers.

38. Articles of equipment lost or destroyed, and chargeable to the troops, will be struck off charge by a voucher, on which will be quoted the date and number of the cash voucher to the Pay List in which credit for their value is given. Articles lost or destroyed.

39. No articles of equipment will be transferred from one equipment ledger charge to another, except under authority of the General Officer Commanding, obtained through the Senior Ordnance Store Officer. Such transfer will be supported by vouchers upon which the authority for the transfer should be quoted. When either of the Transfer of equipment.

---

Accounts and Claims.

---

officers concerned desires that an Ordnance Store Officer should be present at the transfer, one will be directed to attend, if available, on application. In the case of units belonging to different branches of the Service, the receipt and issue vouchers will be passed under cover to the Senior Ordnance Store Officer of the Division, who will countersign them and pass them to the respective accountants. Vouchers will likewise be passed for all equipment that may be taken by men detached from their corps, but not permanently transferred, to serve with another corps also in the field. The above does not refer to transfers of equipment from one Commanding Officer to another on a change of command, which are governed by paragraph 9, Part I.

Charges for  
damages,  
&c.

40. The value of all arms, accoutrements, and other stores rendered unserviceable by neglect or carelessness, will be recovered from the soldiers chargeable, and credited in the regimental accounts. Charges will be made only for the proportionate value of the unexpired period of wear, except in cases of wilful damage, when they will be assessed according to the extent of such damage. Not less than half-price will be charged for any article wilfully or carelessly lost and for which the soldier has been held liable, although it may have been in use the prescribed period of wear.

The amount to be charged on account of any one arm will not exceed 40s., and the period of wear will be taken as 12 years for the purpose of assessing charges for arms, bayonets (sword and triangular), and swords; also for any other article of equipment for which no period of wear has been fixed.

Payment by  
non-account-  
ants.

41. When Officers against whom claims are made have no cash account with the War Office, payment will be made by them to the District Paymaster.

Loss by  
desertion.

42. When articles of equipment are ascertained to have been lost through desertion, they will be struck off charge by voucher Army Form P 1925, on which will be stated the Regimental number, rank, name and date of desertion of each man, as well as, in detail, the articles taken by him, and the value of each article. These articles and their respective values will be entered on Army Form P 1963, and will be charged against the deserter, and credited to the public in the current pay list of the squadron, battery, or company.

Deserter  
rejoining.

43. In the event of a deserter, on rejoining, being in possession of any of the articles of equipment charged against him on desertion, as directed in paragraph 42, the articles brought back by him will be taken on charge in the equipment ledger, and the amount which was charged against the soldier on desertion will be credited to him

**Arms and Accoutrements.**

for such articles as are in a serviceable condition, and will be admitted as a charge against the public, if supported by a reference to the pay list and the voucher on Army Form P 1963 on which the amount was credited to the public at the time of desertion.

44. At the end of each month a return will be prepared on Army Form P 1963, showing the names of, and the amounts recoverable from, any soldiers liable to make good the value of articles of equipment under paragraphs 40 to 43. The stoppage returns will be made out by squadrons, batteries or companies. In the cavalry and infantry the amount due from each squadron or company will appear in Regimental Orders for the month in which the stoppages are recoverable from the soldier, and will be credited in the pay list for the month, the returns being annexed as vouchers. Return of stoppages.

45. The order sanctioning the destruction of a glandered horse will be quoted as the authority for striking off charge portions of harness or saddlery destroyed in order to prevent infection. Losses through glandered horses.

46. Equipment Accounts will be balanced half-yearly (to 30th September and 31st March) and rendered, with their supporting vouchers, to the local Auditor of Army Accounts, or, if there is no such appointment, to the Secretary of State for War, War Office. Balancing and rendering of accounts.

**X.—ARMS AND ACCOUTREMENTS.****Disposal of Arms, Ammunition, and Accoutrements of Sick and Wounded in the Field.**

47. The arms, accoutrements, and ammunition of men received into hospital in the field will be taken charge of by the Army Medical Department in the first instance, as directed in paragraphs 627, 628, 629, 637, and 656, Regulations for Army Medical Services, Part I. Charge of equipment of men in hospital.

If the man is likely to return to his duty soon, his equipment will be retained by the Army Medical Department, and returned to the man on his discharge to duty.

If the man is not likely to be again fit for duty at the front, his equipment will be handed over to the nearest Ordnance Store Depot.

The Officer in charge of the hospital, from which arms, &c., of patients are returned to store, will pass delivery and receipt vouchers, Army Form No. G 1033 (which will show the corps to which the equipment belongs), with the Ordnance Store Officer to whom he hands the equipment. The Ordnance Store Officer will send a duplicate receipt to the officer commanding the corps concerned, to enable him to clear his charge.

---

**Ammunition.—Harness and Saddlery.**

---

**Supply for Armed Drafts proceeding on Active Service.**

48. Men selected for drafts proceeding to join a force engaged on active service abroad will take with them the arms and accoutrements already in their possession, which arms and accoutrements will be replaced.

Transfer of.

49. When the drafts proceed from their stations, the Commanding Officers of their respective corps or depôts will transfer their arms and accoutrements to the Commanding Officers serving abroad, who will become accountable for them. Commanding Officers will take a temporary receipt from the officer or non-commissioned officer in command of each draft, to hold good until the regular issue vouchers shall have been received from the unit concerned.

Marking.

50. The earliest opportunity will be taken by Commanding Officers in the field receiving such arms and accoutrements with drafts, to have the articles re-marked with the proper corps marks, the old marking being at the same time scored across.

**XI.—AMMUNITION.**

51. Service small arm ammunition will be supplied at the rates given in the Tables of Details.

When mobilizing for Home Defence, cavalry and infantry units will retain the 20 rounds per carbine or rifle of their peace supply of service ammunition, receiving the balance at the places named in the Mobilization Tables.

For service abroad, these units will return all their ammunition into store before leaving their station, and will receive their service supply at the places mentioned in the Mobilization Tables.

Application for service ammunition will be made on Army Form G 815.

The expense voucher by which service ammunition is struck off charge must refer to the circumstances and authority (if any) under which the expenditure took place.

Normally, ammunition will be replenished, in the field, from ammunition columns. But in cases of emergency units will draw direct upon the nearest store of ammunition available.

**XII.—HARNES, SADDLERY, AND STABLE NECESSARIES.**

52. Saddlery will only be supplied at the public expense to officers provided with horses which are the property of the public, to officers belonging to mounted units of the Royal Engineers, and to certain officers of Army Service Corps, as shown in Tables of Details.

**Horse Shoes.**

Stable necessities, including nose bags, corn sacks, and corn bags, will be supplied on demand for all horses in the proportions laid down in the several corps details annexed to these Regulations.

**XIII.—HORSE SHOES.**

58. On active service, all horses and other animals requiring shoes will be shod with machine-made shoes, which will be supplied to the several arms according to the following scale, unless otherwise demanded :—

*Cavalry.*

| 5                      | " | 16 |

**Camp Equipment.—Miscellaneous:**

60 nails per set of shoes will be issued.

Every horse will carry a fore and hind shoe, and sufficient nails in the shoe case, the other hind and fore shoe, as well as 15 per cent. of the establishment of sets of shoes, will be carried regimentally.

**XIV.—CAMP EQUIPMENT AND INTRENCHING TOOLS.**

**Proportions.** 54. The proportions of Camp Equipment and Intrenching Tools allowed, under ordinary circumstances, for the various units of the Army are shown in the several corps details.

**Picketing gear and forage nets.** 55. Picketing gear and forage nets will be supplied in camp free of charge for the regulated number of officers' horses.

**Tents and blankets.** 56. No tents or blankets are provided for the field army for home defence after the units have left their places of concentration.

**Issues on Standing Camp scale.** 57. General Officers Commanding will determine when camp equipment shall be issued on the "Standing Camp" scale. On active service abroad time must be allowed to bring up stores from the base, to admit of large issues on the higher scale.

**XV.—MISCELLANEOUS STORES.**

**Wicks and candles for lamps and lanterns.**

58. All lamps and lanterns which burn oil when first issued by the Ordnance Store Department for field service will be complete with one foot of wick. Officers Commanding corps using lamps or lanterns of special patterns will be responsible that all such lamps or lanterns are fitted with one foot of wick on taking the field, and, on joining the force, will immediately notify the Army Service Corps Officer providing them of the descriptions of oil and wick required, and number of lamps or lanterns.

The wicks for magazine lanterns and signalling lamps will be issued to the troops by the Army Service Corps, on the usual requisition, for field as well as for general service.

The first supply of candles required for lanterns will be obtained by local purchase by Officers Commanding units at their mobilization stations.

## ESTABLISHMENTS.

The numbers of men belonging to the Ordnance Store Corps who may be required in war, depend so much upon the circumstances of each case that general proportions only are given in the following tables.

## Arms.

| TABLE I.                                        | Proportions.                                                                |

|                         | { buglers' ... .. }                                            | 1 per band corporal, bandsman, and bugler, Rifles.                                   |
|                         | { drummers' ... .. }                                           | 1 per band corporal, bandsman, drummer, and bugler, line, except Highland regiments. |
| <b>Swords</b>           | { pioneers' ... .. }                                           | 1 per serjeant pioneer and pioneers.                                                 |
|                         | { staff-serjeants' { gilt hilt<br>Highland regiments           | Line ... .. } 1 per Warrant Officer and staff-serjeant.                              |
|                         | { iron hilt<br>Rifles ... .. }                                 | Highland regiments                                                                   |
| <b>Scabbards, sword</b> | { buglers' ... .. }                                            | 1 per sword.                                                                         |
|                         | { drummers' ... .. }                                           |                                                                                      |
|                         | { pioneers' ... .. }                                           |                                                                                      |
|                         | { staff-serjeants' { Highland regiments,<br>Fatt. '89 ... .. } |                                                                                      |

N.B.—Serjeant majors, band masters, quarter master serjeants, orderly room serjeants, serjeant drummers, serjeant pipers, armourer serjeants, serjeant cooks, serjeant instructors of musketry, canteen-serjeants, band serjeants, and serjeant master tailors are armed and accounted as staff serjeants. The three last-named are included in the establishment of serjeants and have staff appointments, in reduction of three rank and file rifles.

The number of serjeants arms and appointments are according to establishment of serjeants, whether such serjeants are effective or not; if taken for other duties, such as the canteen serjeant, band serjeant, and serjeant master tailor, their arms will be carried by the lance serjeants or others performing their duty.

Rifles for Depôts will be of two descriptions:—

*A.—Serviceable Arms.*

Which are to be kept entirely distinct from those stored for the Army Reserve, will be issued to the Head-Quarters of Regimental Districts (including the Rifle Depôt, Winchester), in the following proportions:—

A.O. 58,  
1892.

A.O. 123,  
1892.

On account of each Line battalion } Any number, not exceeding 60, of  
that belongs to the Regimental } rifles of the description that the  
District .. .. } battalion is armed with.

These rifles will be complete with side-arms, sight-protectors, and jags or pull-throughs.

The supply of serviceable arms for the Depôt, West India Regiment, will be according to its requirements, as approved by the General Officer Commanding.

(EQ. R. 1)

## Sect. I.

## Infantry.

B.—*Drill purpose (D.P.) arms*, of which an establishment not exceeding 136 will be supplied on the requisition of the Officer Commanding the Regimental District (including the Rifle Depôt, Winchester), together with such additional number (if available) as the General Officer Commanding may consider necessary, who, however, before sanctioning any considerable increase, will ascertain whether the arms are available.

These arms will be used for the drill of the Depôt and Militia recruits, but not for ball-firing, and the proportion of each description of rifle (M.H. or M.L.M.) to be drawn to make up the total establishment, will be determined from time to time, according to the varying requirements of each case, by the Officer Commanding the Regimental District, so far as the establishment up to 136 is concerned, and by the General Officer Commanding, so far as any excess over 136 is concerned.

Serviceable jags or pull-throughs will be supplied for all D.P. rifles. Serviceable oil bottles (but not cleaning rods) will also be supplied for the M.L.M. rifles if desired. Side-arms (unserviceable, if available) will be supplied for both the M.H. and M.L.M. rifles if desired, except that when the Militia service side-arms are available at the place of training of the Militia recruits, such service side-arms will be used with the D.P. rifles by those recruits, and side-arms will then be drawn for only half of the 136 D.P. rifles.

The number of D.P. arms to be supplied to the Depôt, West India Regiment, will be determined by the General (or other) Officer Commanding.

NOTE.—Articles of regimental transport issued to Battalions for use in peace time, also form part of the units war equipment. In time of peace, wagons and carts will be turned out fully equipped, with all stores belonging to them, only when they are to be taken on parade, or if special orders are given to that effect.

\* Regiments termed "Royal," or designated as "King's," "Queen's," "King's Own," "Queen's Own"; also the Guards, and the Somerset Light Infantry, have *Royal* strings; the remainder, including the Rifles, have *Green* strings.

† Two bugles in addition are allowed to regimental depôts when both battalions are abroad.

‡ The Service drum-sticks are to be used with the silent drums.

§ Nor to regimental depôts composed partly of light infantry. A drum with sticks is allowed to light infantry regimental depôts, and regimental depôts composed partly of light infantry, for beating time in drilling recruits.

TABLE 15. Camp Equipment and Intrenching Tools.

Camp equipment and intrenching tools when required for camps, in time of peace, will be issued in the proportions laid down in Part I.

(Eq. R. 1)

| <b>Spades</b> , N.P. ... ..                        |          | 1 per company for drill. (See paragraph 237, Part 1.) |
| <b>Tents</b> , complete, circular, single I ... .. |          |                                                       |

\* These are for protection of harness and saddlery in camp, or bivouac, but will be used while on the march for protecting the mounted kits. They should only be drawn from store when required.

These are for drill purposes.

Five per cent. spare pins for tents are also provided.

* Clearing rods will be issued with all .303 arms, but in time of peace will be in possession of serjeants and corporals only, those for other ranks being withdrawn and kept on regimental charge.

† Three will be allowed for the Guards' Depôt at Caterham.

N.B.—Serjeant majors, band masters, quarter master serjeants, orderly room serjeants, serjeant drummers, serjeant pipers, armourer serjeants, serjeant cooks, serjeant instructors of musketry, canteen-serjeants, band serjeants, and serjeant master tailors are armed and accoutred as staff

Infantry.

Sect. I.

serjeants. The three last-named are included in the establishment of serjeants and have staff appointments, in reduction of three rank and file rifles.

Rifles for Depôts will be of two descriptions:—

A.—*Serviceable Arms*, which are to be kept entirely distinct from those stored for the Army Reserve, will be issued to the Head-Quarters of Regimental Districts (including the Rifle Depôt, Winchester), in the following proportions:—

On account of each Line battalion	} Any number, not exceeding 60, of rifles of the description that the battalion is armed with.
that belongs to the Regimental District	

These rifles will be complete with side-arms, sight-protectors, oil bottles and pull-throughs.

The supply of serviceable arms for the Depôt, West India Regiment, will be according to its requirements, as approved by the General Officer Commanding.

B.—*Drill purpose (D.P.) arms* (but not clearing rods), of which an establishment not exceeding 136 will be supplied on the requisition of the Officer Commanding the Regimental District (including the Rifle Depôt, Winchester), together with such additional number (if available) as the General Officer Commanding may consider necessary, who, however, before sanctioning any considerable increase, will ascertain whether the arms are available.

These arms will be used for the drill of the Depôt and Militia recruits, but not for ball-firing.

Serviceable pull-throughs will be supplied for all D.P. rifles. Serviceable oil bottles will also be supplied if desired. Side-arms (unserviceable, if available) will be supplied if desired, except that when the Militia service side-arms are available at the place of training of the Militia recruits, such service side-arms will be used with the D.P. rifles by those recruits, and side-arms will then be drawn for only half of the 136 D.P. rifles.

The number of D.P. arms to be supplied to the Depôt, West India Regiment, will be determined by the General (or other) Officer Commanding.

2532

Infantry.

Sect. I.

N.B.—Serjeant majors, band masters, quarter master serjeants, orderly room serjeants, serjeant drummers, serjeant pipers, serjeant cooks, serjeant instructors of musketry, canteen-serjeants, band-serjeants, and serjeant master tailors are armed and accoutred as staff serjeants. The three last-named are included in the establishment of serjeants and have staff appointments, in reduction of three sets of rank and file arms and equipment. The transport serjeant is armed and accoutred as a mounted serjeant of Army Service Corps. The armourer serjeant comes from the Army Ordnance Corps with full peace equipment.

54

Staff

56

Rifles for Depôts will be of two descriptions:—

A.—*Serviceable Arms*, which are to be kept entirely distinct from those stored for the Army Reserve, will be issued to the Head-Quarters of Regimental Districts (including the Rifle Depôt), in the following proportions:—

On account of each Line battalion	} Any number, not exceeding 60, of rifles of the description that the battalion is armed with.
that belongs to the Regimental District	

38407

Equip.

1728

These rifles will be complete with side-arms, sight-protectors, oil bottles and pull-throughs.

The supply of serviceable arms for the Depôt, West India Regiment, will be according to its requirements, as approved by the General Officer Commanding.

B.—*Drill purpose (D.P.) arms* (but not clearing rods), of which an establishment not exceeding 136 will be supplied on the requisition of the Officer Commanding the Regimental District (including the Rifle Depôt), together with such additional number (if available) as the General Officer Commanding may consider necessary, who, however, before sanctioning any considerable increase, will ascertain whether the arms are available.

These arms will be used for the drill of the Depôt and Militia recruits, but not for ball-firing.

38407

Equip.

1728

Serviceable pull-throughs will be supplied for all D.P. rifles. Serviceable oil bottles will also be supplied if desired. Side-arms (unserviceable, if available) will be supplied if desired, except that when the Militia service side-arms are available at the place of training of the Militia recruits, such service side-arms will be used with the D.P. rifles by those recruits, and side-arms will then be drawn for only half of the 136 D.P. rifles.

The number of D.P. arms to be supplied to the Depôt, West India Regiment, will be determined by the General (or other) Officer Commanding.

Military Foot Police.

Arms.

† Or locks, pad, iron, small, 40, according to pattern of ambulance wagon.

‡ Forty-seven of these bars are for preservation of harness and saddlery, and remainder as company reserve for men's kits. To be packed in field service cases.

§ To be drawn from A.O.D. by the unit on the same occasion upon which it draws the harness and saddlery for mobilization. Of the yellow soap, 24 bars are for preservation of harness and saddlery, 12 bars as reserved for men's kits, and remainder for hospital use.

# EQUIPMENT REGULATIONS.

## PART II., SECTION IX.

23

Gen. No.  
2179

The following amendments and additions will be made in Part II., Section IX., as amended by Army Order 110 of 1902 :—

1. The heading will be amended to read as follows :—

“Section IX.—Military Prisons and Military Prison Staff Corps Details.”

2. The following will be added to Table I. :—

### *Arms.*

| TABLE I.                                           | Proportions.                                        |
|----------------------------------------------------|-----------------------------------------------------|
| WEEDON SECTION.                                    |                                                     |
| For Central and District Prisons only :—           |                                                     |
| Rifles, M.T. (M.L.-M. or M.L.-E.)                  | 20 per cent. of total accommodation of each prison. |
| Pull throughs .. .. .                              | 1 per rifle.                                        |
| Bottles, oil .. .. .                               | 1 per rifle.                                        |
| Tubes, aiming, 0·23-in. (M.L.-M. or M.L.-E. rifle) | 50 per cent. of rifles, M.T.                        |
| Brush, cleaning .. .. .                            | 1 per tube, aiming.                                 |
| Rod, cleaning .. .. .                              | 1 per tube, aiming.                                 |

3. Add new table as follows :—

### *Ammunition (for Central and District Prisons only).*

| TABLE III.                       | Proportions.                                                                        |
|----------------------------------|-------------------------------------------------------------------------------------|
| Cartridges, aiming, tube .. .. . | 25 rounds per prisoner up to total accommodation of each prison (annual allowance). |

*Materials for care and preservation (Central and District Prisons only).*

4. Rifle oil and flannelette will be allowed up to the available accommodation of each prison for the M.T. Rifles and Aiming Tubes on charge, also for the arms taken by soldiers with them to prison. They should be demanded in the following proportions :—

|                  |      |                      |                     |
|------------------|------|----------------------|---------------------|
| Oil, rifle ....  | .... | 24 pints per 50 arms | } Annual allowance. |
| Flannelette .... | .... | 18 inches per arm    |                     |

|          |
|----------|
| 23       |
| Gen. No. |
| 2190     |

*Targets (for Central and District Prisons only).*

5. Targets for practice purposes will be made up in the prisons from paper pasted on to cardboard, the size of the targets being regulated to give them the appearance of the full-size regulation target at the assumed distance.

The necessary materials should be obtained, as required, on demand from the Army Ordnance Department, by whom they will be procured locally.

REGULATIONS

FOR THE

EQUIPMENT OF THE ARMY

(REGULAR FORCES AND MILITIA).

PART 2, SECTION XVI—MILITIA.

GENERAL REGULATIONS.

I.—CARE AND CUSTODY OF EQUIPMENT.

1. Commanding officers of Militia will be responsible for the care, custody and efficiency of the equipment of their units, and for the supervision of the accounts of the same during the training period, *i.e.*, for the period that elapses between the assemblage of the first and second of the boards of survey referred to in paragraph 5.

Responsi-
bility of
officers
commanding

54

Militia

1892

Officers commanding regimental districts will be responsible during the remaining period. The latter will personally inspect the stores, and examine the books once in every six months.

Responsi-
bility of
officers
commanding
regimental
districts.

2. Officers commanding regimental districts will be entirely responsible for the care, custody, efficiency and serviceability of all regimental depôt stores, and also for the supervision of the accounts specified in paragraph 43.

3. Should there be any inconvenient delay in the supply of any articles of equipment the supervising officer will bring the same to the notice of the General Officer commanding.

Delay in
supply.

4. In the event of the Militia unit being trained away from the headquarters of the regimental depôt, an officer will be appointed to act temporarily as quartermaster at the regimental depôt, and all the spare small arms and stores of the Militia unit will remain in the custody of the officer so appointed. Arm chests, at the rate of one per battalion, will be allowed for use at the place of training.

When
trained away
from head-
quarters.

5. Boards of survey, composed of a field officer of the line, one other officer of the line, and the Adjutant of the Militia unit, will assemble twice yearly immediately before and after the annual training, to take stock of the articles of equipment on charge of units, and verify them with the quantities shown in the ledger charge.

Biennial
boards of
survey.

54

Militia

1892

(EQ. R.)

II.—REQUISITIONS AND ESTIMATES FOR EQUIPMENT.

Requisitions and estimates direct on Army Ordnance Department 6 Units will always have, during peace, arms and accoutrements for their full peace establishment, and officers commanding will put forward requisitions and estimates to maintain the equipment for which they severally account. The requisitions will be prepared on the approved forms, and will, except those for artillery stores and estimates for artillery equipment referred to in paragraph 10, be sent direct to the chief ordnance officer. The vouchers notifying the receipt and delivery of the articles when supplied will also be sent direct.

Forms for, and preparation of, requisitions. 7. Army Form G 1027 will be used for consumable stores and materials for repair, and Army Form G 997 for non-consumable stores, except in the case of ammunition and camp equipment, for which special forms are provided. The time that equipments to be replaced have been in use, especially as regards articles to which periods of duration are assigned, will also be stated, and the authority for the supply given. When stores, ammunition, or equipment are demanded on payment, the requisition will be endorsed to that effect in red ink.

Demands when to be made. 8. With the exception of demands for camp equipment, requisitions will, except in special cases to be explained, not be made more frequently than three times a year—in January for small-arm ammunition for practice and exercise; in March, for gun ammunition and the spare parts and materials for repair and preservation of small arms; and at the termination of the annual training for any articles actually required to replace deficiencies which may have occurred thereat.

Supplementary requisitions 9. Should additional small arms or accoutrements be required in consequence of augmentation of establishment, a supplementary requisition will be put forward.

Requisitions and estimates for artillery stores. 10. Requisitions for artillery stores additional to the authorized equipment will be forwarded through the officer commanding Royal Artillery in the district to the chief ordnance officer. They will be submitted to the War Office prior to taking further action.

V. Annual estimates for artillery equipment will be prepared in duplicate on Army Form G 801 and rendered to the officer commanding Royal Artillery by the 1st June of the year preceding that for which the equipment is required.

Time of supply. 11. The Army Ordnance Department, in communication with the officers to whom the issues are to be made, will arrange as to the mode and time of supply.

12. All requisitions and receipts will be signed by the officer commanding the unit, or by an officer acting in his name.

Officers commanding Militia units. 13. Non-commissioned officers of Royal Artillery and Royal Militia Artillery, on their transfer to the permanent staff of Militia units, will leave their arms and accoutrements with their units, and the commanding officers of the Militia units will, if the equipments be not already on charge, demand for them, from the chief ordnance officer, the accoutrements of a serjeant of the Royal Artillery and arms of the description in use in the Militia unit.

R. M. A.

This equipment will then be taken on charge by the commanding officers of the units to which the men are transferred or attached, and will be accounted for in the equipment account.

III.—RECEIPT AND INSPECTION OF EQUIPMENT.

14. When equipments of any kind are under inspection, the officer responsible for them, or an officer duly deputed by him, will be present.

Those in charge to attend inspections.

15. No equipment will be transferred from the charge of one unit to another except by the authority of the War Office, in which case an officer of the Army Ordnance Department will be present; nor will any articles be received from or delivered into store without the receiving and delivering officers making a careful inspection of all such stores, either personally or by deputy.

Inspection of stores changing hands.

16. Officers or others receiving stores will ascertain, before giving a receipt, whether the packages have been damaged in transit. Should such be the case, or should any suspicion arise as to their having been tampered with, the circumstance will be at once pointed out to the person conveying the stores, and, if requisite, the packages will be opened in his presence, and a record of the circumstance will be made on the carrier's note. Neglect to carry out this instruction will render the officer receiving the stores personally responsible.

Inspection of stores on receipt.

17. Stores received by number and weight will be both counted and weighed. When stores are packed in cases or bales, the packages will be weighed, and the weight marked upon each.

Stores to be counted and weighed.

18. All equipments, when received by units, will be at once examined, the packages opened, and the contents counted in the presence of the officer commanding the unit, or an officer deputed by him, before being taken on charge. Lids of cases and casks should be kept so as to be ready for use in returning the stores, if necessary.

Inspection on receipt of stores.

19. When arms are removed from the arm-chests, the greatest care will be taken not to damage the chest fittings. When the fittings appear to have been injured by unfair treatment, their value will be charged against the unit concerned.

Care of chest fittings.

20. All objections to equipment on the ground of its being of inferior quality, of an obsolete or incorrect pattern, or for any other cause, will, if possible, be made by officers commanding units before the articles are taken on charge; but objections are not to be made to articles solely on account of their being part worn. When the store vouchers have been passed, the responsibility devolves on commanding officers.

Objections to equipment.

21. In every case of deficiency or irregularity, a report will be made without delay to the ordnance officer, the stores concerned, as well as their packages or wrappers, being put aside for further inquiry. Should the matter not be cleared up, the General Officer commanding will, if necessary, order an investigation by a court of inquiry.

Inquiry as to deficiency or irregularity.

22. Fuzes, tubes, and other articles which are issued in hermetically closed cases, as well as small-arm ammunition and

Ammunition and combustible stores.

gunpowder, will be accepted as received, the exact numbers or quantities being checked when the articles are required for use. Any defects will then be reported without delay, all names, dates, or other marks upon the cases being quoted.

IV.—RETURN OF EQUIPMENT INTO STORE.

Articles
improperly
returned.

23. Issues of arms, accoutrements, and other articles of equipment to replace similar unserviceable articles in possession of a unit will not be made until the unserviceable articles have been returned to the Army Ordnance Department, inspected, and condemned.

Articles
improperly
returned.

24. When articles returned into store as unserviceable are considered by the ordnance officer receiving them to be still serviceable, or capable of repair by the corps; or when any of those that are really unserviceable are considered to have become so from improper use or negligence; or when articles returned are found, on examination, to have been injured while in possession of the unit, which is thereby rendered liable to pay the cost of repair, the chief ordnance officer will call the attention of the officer returning the articles to the subject, in order that the damages may be made good, or an explanation afforded for the information of the General Officer commanding, who, if necessary, will order a board of officers to investigate the matter. The cost of carriage unnecessarily incurred will be defrayed by the officer commanding the unit.

Articles still
serviceable.

25. Articles of equipment will not, even if they have been the prescribed time in use, be returned into store (except as laid down in paragraphs 23 and 24) for the purpose of being replaced until they have become thoroughly unserviceable. Nor will they be returned on the ground that they are of an obsolete pattern. The authority of the War Office is required before any equipment still serviceable can be exchanged.

Authority to
return
equipment.

26. Whenever it becomes necessary or advisable to return articles of equipment into store (except as provided in paragraphs 23 to 25), officers commanding corps will make application to the Army Ordnance Department to receive them, stating their description, number, the time they have been in use, and the cause of their proposed return, such as the reduction of establishment, or the improbability of their being required again.

Delivery
and receipt
vouchers
always to be
sent by post.

27. When stores are returned from a distance, the officers returning them will send, by post, to the ordnance officer at the station to which they are consigned receipt and delivery vouchers on Army Form G 1033, on the same day that the goods are dispatched.

Date and
order always
to be
inserted.

28. The date and number of the order directing the return of the stores will be conspicuously marked on the outside of each case or package, so as to enable the consignee to identify them on receipt. Each case, bale, or package will be weighed, and the weight marked upon it.

Vouchers
to contain
details.

29. A detailed list of every article returned, with the numbers, will be entered in the usual manner in the delivery and receipt vouchers, the former being signed by the consignor, and a memorandum specifying the date on which the articles were despatched,

the name or designation of the carrier, and the mode of transit, will be entered at the foot of the detailed list on the delivery voucher.

30. When stores are returned by carrier, a carrier's note (Army Form G 980) will be delivered to the carrier after the mode of conveyance to be used has been ascertained from the officer in charge of transport in the sub-district, or from the officers authorised to pay for the conveyance by the Allowance Regulations. For explosive stores conveyed by railway in Great Britain, the special form of carrier's note supplied by the railway companies will be used in lieu of Army Form G 980. Carrier's note to accompany the stores.

31. When stores are returned into store in packages, an inventory of the contents on Army Form G 1028, signed by the packer, and, if practicable, also by the person witnessing the packing, will be placed in each package. Inventory of contents of package.

32. Commanding officers will take care that all packages received with ammunition or equipment are handed over, when empty, to the ordnance officer at the nearest dépôt as soon as they can be dispensed with, if possible without cost to the public. The packages will be addressed :— Empty cases, &c.

The Ordnance Officer _____
From the Officer Commanding _____
at _____

33. The utmost vigilance is required on the part of officers returning stores, in order to guard against explosive stores being returned into ordinary store depôts. instead of into the magazines, as well as to preclude the possibility of lucifer or other matches being left among stores of any kind, or of blank and ball small-arm ammunition being returned to store in the same package. Explosive stores.

V.—BOARDS OF SURVEY AND COURTS OF INQUIRY.

34. Commanding officers may order the assembling of regimental boards of survey, if they desire assistance in judging as to the conditions of the equipment; but the reports of such boards may not be used as authority to strike articles off charge, or to demand equipment from store. Condemnation of stores must be supported by the proceedings of garrison boards, where boards are requisite. Commanding officers may assemble boards for their own information.

35. When stores or equipment of any kind are lost, destroyed, or injured, and it is a matter for consideration on whom the expense of replacing or repairing them should fall, the course laid down in the Queen's Regulations will be followed. Course to be followed when losses, &c., occur.

36. The original report to the General Officer commanding will be accompanied by Army Form G 998, duly filled in, and where stores are required to be replaced a copy of the decision of the General Officer commanding, or of the War Office, as the case may be, will be attached to the requisition upon the Army Ordnance Department for the replacement of the stores. Decision of G.O.C. or War Office to be attached to requisition.

37. Reports of Commanding Officers referred to in paragraph 36, and proceedings of Courts of Inquiry, when they refer to arms, must be confined to arms, and must not include reports on other equipment. The number on the barrel, as well as the regimental number of the arm, will be recorded therein. Reports when they refer to arms to be confined to arms.

Rifles or
carbines.

38. In all reports relating to rifles or carbines, the number of the arm, and the factory at which it was manufactured, will be stated, in order to facilitate identification in cases where particular rifles or carbines are referred to. The number of the arm and the name of the factory will be found stamped on the body.

Directions
as to
sending
damaged
arms to
C.I.S.A.

39. When a damaged arm is sent to the Chief Inspector of Small Arms for special report, or assessment of damages, a label stating the circumstances and giving the reference number and date of any War Office orders, or proceedings of Courts of Inquiry, should be attached to the arm for identification, and a copy of the decision, if any, of the General Officer commanding regarding it, together with a copy of Army Form G 998, should be attached to the vouchers when forwarding the arm.

Proceedings
of Courts of
Inquiry.

40. If there is an ordnance officer available who is not the chief ordnance officer of the district, he will serve as a member of Courts of Inquiry, where necessary, under the foregoing instructions. The proceedings of Courts of Inquiry will be transmitted in duplicate by the President, direct to the chief ordnance officer, who will submit them, with his views, to the General Officer commanding, and after the General Officer commanding has recorded his decision the chief ordnance officer will send one copy to the officer commanding the corps concerned, to serve as his authority to write off the stores or demand new articles to replace them.

Losses
incurred by
R.A.
in moving
heavy
stores.

41. If the loss or damage has occurred when the Artillery have been employed in moving heavy stores, the officer in charge of the operation should, in giving evidence, produce a statement showing distinctly the materials used, their actual dimensions, the strain calculated to be borne by them, the actual weight to be lifted, the distance through which the stores are to be lifted, vertically or horizontally, and, in the case of sheers, the angle of inclination.

Stores of a
technical
nature.

42. When the stores forming the subject of inquiry are of a special or technical nature, or peculiar to the Royal Artillery, Royal Engineers, or any particular service, the written opinion of the local head of the department concerned should be taken before the matter is finally dealt with by the General Officer commanding.

VI.—EQUIPMENT ACCOUNTS AND CLAIMS AGAINST UNITS.

Accurate
accounts to
be kept of all
equipment.

43. Quartermasters of units will keep and render accurate accounts of any equipment on charge of the units to which they are attached, and until these accounts have been examined, and allowed their responsibility will not cease. All transactions connected with the equipment of the unit are to be recorded in these accounts. In units which have no quartermasters the duty devolves on the Adjutant. In the case of regimental dépôts the quartermaster-serjeant, under the supervision of the officer commanding the regimental district will keep the equipment accounts.

44. Artillery stores, as well as the other permanent equipment in possession of Militia Artillery units will be accounted for in Army Book 233.

45. Upon transfer of charges from one accountant to another a verification of the stores on charge need not be carried out unless

54
Militia
1392

at the request of either of the accountants concerned. Should such a request be made, the Officer commanding the regimental district will appoint a board of officers for the purpose, and the accountants will sign a certificate on the form shown in Appendix I. Should no such board be held, the accountant taking over charge will be responsible for the correctness of the stores taken over by him as from the date of the last board held under paragraph 5.

46. The officer commanding the Militia and Volunteer Artillery in the district will, under the orders of the Officer commanding Royal Artillery of the district, from time to time verify the balances of the Artillery store accounts by comparison with the actual stock of stores on charge, and any deficiencies will be dealt with under paragraph 61.

47. Equipment accounts will be balanced up to the 31st March in each year, and will be forwarded within one month from that date to the War Office, supported by vouchers, and certified as carefully checked.

48. Copies will be kept of all equipment accounts sent to the War Office. Should any queries arise on the examination of an account, copies of such queries and of the replies will be retained by the accountant, who will correct his copy of the account accordingly.

49. Stores received for temporary purposes or held on inventory as barrack stores, or received on payment as the property of the unit, materials for repair, and other consumable articles drawn upon regulated scale (except ammunition) will not be taken on charge in the equipment accounts, but any quantities of consumable articles unused at the end of the year will be shown as in possession in the requisition for the next year's supply.

50. Ammunition for practice and exercise will be taken on charge, and written off at the time of being expended. The Expense Voucher (Army Form P 1925) will give particulars of the numbers of men exercised and of the quantities expended, with a reference to the authority for the expenditure. Small-arm cartridges which have been expended from the gratuitous supply will be retaken on ledger charge by certificate receipt voucher as empty cartridge cases as directed in paragraph 118.

51. Packages will be accounted for in the equipment ledger.

52. All transactions which are to be recorded in the account will be supported by vouchers and promptly recorded as they occur. The "account folio" column of the vouchers will be invariably completed. Receipt and issue vouchers will be kept distinct, and numbered consecutively according to date in two series, from one upwards, for the whole period of the account.

Vouchers will be passed for small arms and components of small arms (including the chests, cases, &c.) sent to the Royal Small Arms Factory for rebrowning and repairs.

53. The stores will be described in strict accordance with the nomenclature and classification of the Priced Vocabulary of Stores.

54. The balance of stores remaining at the close of an account is called the "remain," and will be brought forward as the commencing line of the next account, where it is called the "state."

Description
of stores.

Remain.

Assessment of charges for loss or damage.

55. The value of all arms, accoutrements, and other stores rendered unserviceable or lost by neglect or culpable mismanagement, will be recovered from the individuals chargeable, and credited in the accounts of the station paymaster. Charges on account of articles of permanent equipment will be made only for the proportionate value of the unexpired period of wear; no charge will, however, be reduced below a quarter of the full value, and in the case of any one arm, no charge will exceed 2% unless otherwise determined by sentence of court-martial.

Period of duration.

56. For the purpose of assessing charges, but not in any way to govern the times for exchanging the stores, it will be considered that part-worn articles issued to the Militia should last, subsequently to such issue, the full periods laid down for duration of similar articles in the hands of the regular forces; and that articles issued new should last for double these periods.

Reduction of charges in the case of camp equipment.

57. As regards articles issued for camps and other temporary services, a reduction from full vocabulary rates can only be made upon the certificate of the ordnance officer who made the issue, that the rates charged are the fair or real proportionate value.

Calculation of charges.

58. The unexpired period will be calculated in years, any period of less than 12 months being charged against the individual responsible as a full year. The charges will be calculated in accordance with the rates laid down in the Priced Vocabulary of Stores. Any evidence as to the proportionate value will be recorded in the proceedings of the Court of Inquiry or other authority which investigates the loss. Where the proportionate value of permanent equipment, other than personal, cannot be ascertained, the full value will be charged.

Charge for injury to barrels

59. In cases of injury to barrels, the barrel and body together will be exchanged, but the amount assessed for the damage to the barrel only will be charged.

Charge for complete arm.

60. In the case of culpable repairable damage of equipment, whether personal or other, the actual cost of repair, including both wages and materials or components, will be charged, provided that the maximum rate of 2% for any one arm be not exceeded without authority of a court-martial.

Articles lost or unserviceable when chargeable.

61. Articles of equipment charged against the unit will be struck off charge in the equipment account.

A reference to the period of the account in which the credit of the amount charged will be found will be given on the equipment expense voucher (Army Form P 1925), and the requisition for stores in replacement will quote such expense voucher.

Payment for stores to be made prior to issue.

62. The value of stores authorized to be issued on payment will be paid to the district paymaster prior to issue, priced vouchers in triplicate on Army Form G. 982 being furnished by the Army ordnance officer. The original copy, after receiving the paymaster's signature, will be returned to the ordnance officer, and upon receipt of it issue will be made.

Articles replaced and not chargeable to troops.

63. When stores are condemned by proper authority as unfit for further service, or are lost or damaged through no fault of the troops, the dates and registration numbers of the reports of boards of surveys or other authority will be quoted upon the equipment issue voucher by which they are struck off charge. The reports of

boards of survey or other authority will in every case be transmitted to the chief ordnance officer in support of the requisition when new stores are received, and will be attached to the issue voucher of the ordnance account from which they are supplied.

When lost stores are not to be replaced, the proceedings of the Court will be attached to the expense voucher by which they are written off charge.

64. Such equipments as may become unserviceable will be returned into store as soon as possible (*see* paragraph 23). Unserviceable articles.

65. Credits on account of accoutrements and stores for the permanent staff will appear in the station pay list, and for Militiamen in the Militia pay list on Army Form N 1495 for the training period, and on Army Form N 1496 for the non-training period. All charges on account of accoutrements and stores will be made in the station pay lists. Credits for stores lost or made away with, or obtained by improper enlistment, will be supported by Army Form P 1963. Credits and charges in pay list.

66. Articles of equipment lost by desertion will be struck off charge on Army Form P 1925. In the event of a deserter, on rejoining, being in possession of any of the articles found deficient on his desertion, the articles brought back by him will be taken on charge in the equipment ledger. Articles lost by desertion.

67. In the event of a deserter rejoining and being sentenced by court-martial, or being ordered by the competent military authority dispensing with the trial to be placed under stoppage for the value of any articles found deficient on desertion, such articles will be retaken on charge and struck off again as deficiencies on Army Form P 1925, showing where credit will be found in accordance with paragraph 68. Deserter re-joining.

68. At the end of each month a return will be prepared on Army Form P 1963, showing the names of, and the amounts recoverable from, any men liable to make good the cost of repairing or replacing articles of equipment under paragraphs 55 to 60 and 67. The stoppage returns will be made out by companies, &c., and the amount due from each company, &c., will be notified in regimental orders, and credited in the company, &c., pay list, the returns being annexed as vouchers to the account in which credit is given. Stoppage returns.

ARMS, ACCOUTREMENTS AND HANDCUFFS, MUSICAL INSTRUMENTS, STORES FOR DRILL AND INSTRUCTION, AND PIONEER EQUIPMENT.

69. Arms, equipment, &c., will be supplied to units in accordance with the scales laid down in Appendices III to VI. Proportions allowed.

Militia Artillery.

70. The guns which are allotted to Militia Artillery for drill and instruction will be provided with the proper equipment of side-arms, etc., for drill and practice, in addition to the stores allowed by Appendix III. Guns for drill and instruction.

How accounted for. 71. Lithographs will not be brought on charge in store accounts, but correct lists of them will be kept by the officers for whose use they are supplied.

Special stores. 72. Issues of gyny, sling wagons, or other exceptional stores, &c., require special War Office authority.

Targets for instruction. 73. Targets for instructional purposes (the same as that approved for Horse and Field Artillery, § 4487, *List of Changes*) will be allowed in the proportion of 1 for every 2 companies, plus 1 in the case of units having an odd number of companies. These targets will be issued from the Army Ordnance Department complete. For instructions regarding their use, see Appendix VIII.

74. The following targets will be allowed for the practice of Militia Artillery :—

(i.) Regiments practising from Royal Artillery works or batteries will use targets, floating or moving, held at the station on charge of the Royal Artillery. Such regiments will draw no allowance of targets.

(ii.) At stations where no targets in the Royal Artillery charge are provided, two floating targets per company will be allowed, but the total number held at any one station will not exceed six. If practice is carried out with guns on traversing mountings at such stations, two moving targets per station will be allowed in addition to the floating targets.

75. Arrangements for obtaining vessels for towing the moving targets allowed under paragraph 74, will be made under the orders of General Officers commanding, by the local Army Service Corps officer in charge of transport, to whom application should be made. In the event of no public vessel being available, hiring may be resorted to, provided the cost does not exceed £5 per company or £30 per corps per annum. The bills will be supported by a certificate that no public vessel was available.

76. A description of the floating target, Mark III, to be used with detail of components, is given in Appendix IX. At certain stations where currents are strong, or other exceptional circumstances render the use of heavier or special targets necessary, sanction must be obtained from the War Office.

77. A drawing of the moving target is given in Appendix X. Specifications to guide manufacture can be obtained from the Army Ordnance Department on demand.

78. Floating targets and rafts when shot away at practice may be written off charge by a certificate to that effect from the commanding officer, on Army Form G 1049. When anchors or cables are lost, the circumstances will be investigated and dealt with in accordance with the instructions contained in paragraph 35.

79. Floating targets are not to be left out at night, either before, during, or after practice, if it can possibly be avoided.

Care and preservation of stores. 80 The instructions in the Equipment Regulations with regard to the marking, care and preservation of ordnance, carriages, platforms, &c., will be followed as far as practicable by officers commanding Militia Artillery units in connection with the Artillery matériel in their charge.

81. The officer commanding the Militia and Volunteer Artillery in the district will be responsible to the officer commanding the Royal Artillery that the Artillery matériel is kept in an efficient state, and that due economy is observed in its maintenance.

Artillery matériel, care of and responsibility.

He will inspect all such matériel from time to time, and will report on its condition in the Annual Inspection Reports, taking such steps as may be necessary to have the carriages examined, and, before recommending any to be replaced, he will satisfy himself that they are unserviceable.

All recommendations proposing the condemnation of such matériel will be forwarded by the officer commanding the Militia and Volunteer Artillery in the sub-district to the officer commanding the Royal Artillery

MOBILIZATION EQUIPMENT.

82. Battalions of Militia which hold their mobilization equipment during peace will conform to the instructions on the subject laid down for units of the regular army.

83. The authorized scale of equipment is published from time to time in Mobilization Store Tables (Army Form G. 1098).

84. The instructions for the preservation of harness and saddlery, given in the Regulations for Army Ordnance Services, will also be followed for harness and saddlery of mobilization equipment, and cleaning materials, according to the following scale, will be allowed for the purpose :—

	Annual Proportion for each.		
	10 sets of Harness (double).	10 sets of Saddlery.	10 sets of Pack Saddlery.
Linen lb.	1	$\frac{1}{2}$	$\frac{1}{2}$
Oil Rape qts.	2	$\frac{1}{2}$	$\frac{1}{2}$
Dubbing lbs.	2	1	1
Camphor and Naphthaline*.. ozs.	5	$2\frac{1}{2}$	4

* For pannels, saddle blankets, and numnahs.

AMMUNITION.

I.—GUN AMMUNITION.

Annual allowance.

85. The quantity of gun ammunition allowed for the annual training of each company of a unit of disembodied Militia Artillery will be, for practice 45 rounds, and for exercise 45 rounds. These rounds must be all expended during the financial year, and none carried over from one year to the next.

Scale.

86. The following will be the ordinary scale of allowance :—

Articles.	No.
<i>Companies practising from 64-pr. R.M.L., and 40-pr. R.B.L. guns.</i>

Exercise ammunition for recruits. Commutation scale.

87. Fifty per cent. of the R.M.L. gun exercise ammunition will be fired by recruits on dismissal from drill.

88. When it is considered desirable or necessary that regiments should practise from other guns than those specified in paragraph 85, the ordinary allowance may be commuted for other ammunition, provided that the total expense is not increased.

89. Aiming tube cartridges required for use with Ewart's aiming rifle will also be commuted from the ordinary allowance.

90. When any commutation is proposed, the officer commanding Royal Artillery in the district will, after conferring with the chief ordnance officer, submit the proposal to the General Officer commanding in time to obtain his sanction thereto before the preparation of the annual estimates. The estimates, when authorised, will govern the natures of ammunition to be used for practice during the ensuing season.

Commutation to be submitted early.

91. All common shells, 7-inch R.M.L. and upwards, and also all lighter natures when fired over sea ranges, will be fired plugged. In places where practice with live shells is permitted, all shells, except 7-inch R.M.L. and upwards, will be filled and fired as for service. In places where no live shells can be fired, the proportion of common shells allowed will be fired plugged. Common shells will also be used in place of the proportion of Shrapnel or segment; and except in the case of 7-inch R.M.L. and upwards, will then be loaded with blowing charges, for which calico bags will be supplied and properly fused.

Shells, how fired.

92. Plugged common or double shells will be filled with water, and the metal plugs screwed into the fuze-holes. R.B.L. shells of the F.S. gauge will also have the papier-mâché wads placed in the sockets. No more shells than those required for immediate practice will be filled with water. Shells filled with water which have not been expended in practice, or which have been recovered after practice, will be emptied and dried before being placed in store.

Plugged shells.

93. All shells fired with blowing charges will be filled with dry coal dust, space only being left for the insertion of the fuze and of the bag containing the blowing charge.

Shells firing blowing charges, how filled.

94. For artillery practice no spare fuzes will be authorized, but spare friction tubes will be allowed in the proportion of 10 per cent. for R.M.L., and 20 per cent. for R.B.L. guns.

Spare fuzes and tubes.

95. Fuzes, tubes, and primers will be issued in sealed cylinders, which should on no account be opened until their contents are required for use. When the contents of a cylinder have not been entirely expended, they should be returned to the Army Ordnance Department.

Issued in sealed cylinders.

96. Tin cups and calico and paper bags for bursters of shells, and paper cartridge covers, need not be returned, but should be shown as expended.

Tin cups and calico and paper bags.

97. Any "prematures" or other failures which may occur in the ammunition used at practice will be at once reported to the District Officer Commanding for transmission to the Chief Inspector, Royal Arsenal, Woolwich.

Prematures and failures, report of.

104

Arty.

945

Recovery and destruction of projectiles.

98. Immediately on the close of Artillery practice each day, search will be made on the ranges for unexploded projectiles. Plugged shells not filled with explosives and shot may be handed over to the Army Ordnance Department; but all fuze shells and filled plugged shells will be destroyed *in situ*, as laid down in the instructions for the destruction of shells by means of gun-cotton, contained in the Equipment Regulations, Part II., Section XII.

99. A set of stores for the destruction of shells; and such quantity of gun-cotton and detonators as may be considered necessary, will be allowed to all land ranges. The regulations for packing and storing gun-cotton and detonators will be strictly

Destruction of shells.

observed, and where there are no available suitable buildings or sheds for storage, tents will be used for the purpose. The destruction of shells by means of gun-cotton will only be carried out under the personal superintendence of the adjutant. Where grass is likely to be injured by the fragments of projectiles lying about on the ranges, fatigue parties will be sent out to collect them and pile them on bare spots in the neighbourhood.

Rewards for recovery.

100. Rewards will be paid for the recovery of projectiles in accordance with the Regulations for Army Ordnance Services.

Notices cautioning civilians.

101. Notices will be posted up in the vicinity of all ranges cautioning civilians against the extreme danger of handling projectiles found on the range, and informing them that no rewards, or payment of any description, for finding shells or collecting projectiles, will be paid to a civilian.

Demands.

102. Gun ammunition for practice of Militia Artillery will be issued on the demand of the officer commanding the unit, but in order to ensure that the ammunition expended is of oldest date and pattern, the demands (Army Form G 807) will be made through the officer commanding Royal Artillery in the district, on the officer of Royal Artillery in charge of the sub-district in which the work from which the practice is to be carried out is located. This officer will then arrange for the supply of the ammunition of oldest date and pattern from the equipment of the guns of the armament, passing the demand to the chief ordnance officer of the district, and replacing the expended ammunition by the new supply from store.

Officers under instruction.

103. Each officer of the Militia Artillery undergoing a course at the School of Instruction, Woolwich, will be allowed to fire the following quantity of ammunition at Shoeburyness :—

Natures.							No. of rounds.
R.B.L. 40-pr.	..	..	..	..	..	..	4
R.M.L.	{ 64-pr.	..	..	..	..	..	5
	{ 9-inch	..	..	..	..	..	5

104. The quantity of ammunition allowed for each officer of Militia Artillery undergoing a three months' course at the School of Instruction, Woolwich, to qualify as Instructor of Artillery, will be as follows :—

Natures.							No. of rounds.
R.B.L. 40-pr.	..	..	..	..	..	..	3
R.M.L.	{ 64-pr.	..	..	..	..	..	3
	{ 9-inch	..	..	..	..	..	5

II. — SMALL-ARM AMMUNITION.

105. The following are the annual proportions of small-arm Annual ammunition allowed :— proportions.

	Ball.	Blank.	Cartridges, aiming tube.
For each officer (except of Militia Artillery) who goes through the annual course of individual firing	60	..	..
For each serjeant of the Permanent Staff of Militia Artillery	20*	..	..
For each drummer and bugler capable of bearing arms, and for each serjeant of the Permanent Staff of Militia Engineers or Infantry exercised in Musketry	35*	..	25
For each non-commissioned officer and private present at training who has been previously instructed	Artillery .. 10† Engineers .. 45 Infantry .. 50	10 20 20	.. 25 25
For each officer (except of Militia Artillery), non-commissioned officer, drummer, bugler, and private present at training and not previously instructed	Artillery .. 20 Engineers .. 80 Infantry .. 85 Medical Staff Corps .. 40	20 20† 20† 20	.. 25 25 ..

106. A further allowance of 10 rounds of ball ammunition will be issued to each man who has qualified to compete for the prizes of best and second-best shots of battalion. Extra ammunition for prize shooting.

107. The following quantities of '303 dummy cartridges will be issued to units armed with Magazine Lee-Metford rifles :— Dummy-cartridges.

Companies of Engineers 50

Battalions of Infantry 800

108. The proportion of issues will be reckoned from the 1st January in each year. Ammunition remaining undrawn on the 31st December will be forfeited, and any portion drawn but unexpended will be reckoned towards the next year's supply, an explanation being given on the requisition why it had not been returned to the Army Ordnance Department, as required by paragraph 110. Issues to reckon from 1st January.

109. Requisitions for small-arm ammunition will be made out on Army Form G 812 not later than the 10th January in each year, and sent to the chief ordnance officer. The commanding officer will demand for the numbers expected to be present at training, adding Requisitions.

* Including 10 rounds for shooting matches.

† To be drawn, or not, at the option of the commanding officer.

‡ Five additional rounds of blank ammunition may be drawn when aiming tube cartridges cannot be used.

(E.Q.R.)

B

the necessary amount for the extra allowance of ammunition required by paragraph 106.

Surplus ammunition, &c., to be returned.

110. At the end of the annual practice and exercise, the commanding officer will return to the Army Ordnance Department any surplus ammunition, except where proper magazine accommodation is provided.

Return of empty cartridge cases.

111. The cases of .303-inch small-arm cartridges supplied gratuitously will be brought on charge by certificate, and returned each year to the Army Ordnance stations from which they were issued, to the extent of, at least, a weight equal to 90 per cent. of the ball, and 50 per cent. of the blank, expended during the year. The cases will be brought on charge by weight, and not by number, at 23 lbs. per 1,000 cases. Any deficiency in these weights will be charged for at 5s. 4d. per 23 lbs.

112. On return to store the value of the empty cases of cartridges issued on payment will be refunded at the above rate. The number and date of the ordnance voucher on which the cartridges were received should be quoted on the payment voucher of the officer charging the value of the empty cases.

113. The cases will be returned to store in the empty ammunition packages, not oftener than once a quarter, and officers commanding will not return a less weight than that representing 1,000 cases. The cases are expected to be in good condition when returned, care being taken that grit and dirt are removed as far as possible beforehand. Each consignment will be accompanied by a certificate of the commanding officer that he has caused the contents of each package to be carefully sorted, and all filled cartridges taken out. In the event of any filled cartridges being found in any of the packages, the empty cases in that package will not be credited to the corps concerned, but will be brought on charge by certificate in the Army Ordnance accounts.

57
Gen. No.
317

114. An allowance at the rate of 2s. 6d. for 23 lbs. will be given for the labour of collecting cases obtained from ammunition supplied gratuitously.

Blank in lieu of ball on alternate years.

115. In battalions of upwards of six companies, in which the prescribed musketry course is gone through by half-battalions in alternate years, 10 additional rounds of blank ammunition may be drawn in lieu of the 50 rounds of ball ammunition allowed by paragraph 105, for each non-commissioned officer and private present at the training who has been previously instructed, and who belongs to the companies which do not go through the practice. A similar amount of blank in lieu of ball ammunition may be drawn in battalions stationed where no range is available for ball practice for each non-commissioned officer and private who has been previously instructed.

When no range is available for ball practice.

Queen's birthday.

116. Units which are out for training on the Queen's birthday, will be allowed to draw three rounds of blank ammunition for each man, for the purpose of firing a *feu-de-joie*.

Blank ammunition for brigade field day.

117. In the case of a battalion taking part in a brigade field day, 10 rounds of blank ammunition for each man will be issued by the Army Ordnance Department on the authority of the General Officer commanding the district.

Service am-

118. Service small-arm ball ammunition will be held on charge

by Militia units in the following proportions, calculated upon the ^{ammunition.} number of arms on the fixed establishment of each unit :—

Artillery	...	...	...	rounds per arm	20
Engineers	...	...	...	"	50
Infantry	...	...	...	"	100

This ammunition will be stored in regimental magazines, except in Ireland and in cases where this accommodation is not at present available, when it will be held by the Army Ordnance Department for the unit concerned.

On mobilization the above amounts will be increased by the following, to be taken from the reserves held on Army Ordnance Department charge in the district in which the unit mobilizes :—

Engineers	...	...	...	rounds per arm	100
Infantry	...	...	...	"	200

Upon mobilization for war each unit will draw ammunition in the above proportions, and take it in regimental charge to its place of concentration. If, however, the place of concentration is in the district in which the unit mobilizes, this issue of ammunition may be arranged for as the General Officer commanding may direct.

The place of storage in peace, and any detailed arrangements for supply of this ammunition, will be laid down in the local defence schemes, and all units will be kept informed in peace of these arrangements as far as they themselves are concerned.

119. Commanding officers are permitted to purchase on prepayment from the Army Ordnance Department, such quantity of ball and aiming-tube cartridges, in addition to that fixed by paragraph 108, as may be required for regimental purposes. Purchase on prepayment.

III.—CARE AND CONVEYANCE OF AMMUNITION.

120. The ammunition longest in charge, including the service ammunition, will be first expended. The service ammunition will be replaced by that received annually from store. The ammunition from boxes which have been opened will be completely used up before the linings of other boxes are opened, and tin linings are not to be disturbed until the ammunition is actually required for use. Old ammunition to be used first.

121. Commanding officers, when demanding gunpowder or ammunition of any description, will at the same time notify to the Army Ordnance Department that a magazine is ready for its reception. Berwick 12
1
Magazine for reception of powder, &c.

122. When ammunition is forwarded from Government stores for the use of a unit, arrangements will be made by the Army Ordnance Department for its conveyance from the railway station or port to which it may have been transmitted. Conveyance of ammunition.

123. Ammunition for breechloading small-arms which contains its own means of ignition, must not be stored within the same masonry compartments of magazines as gunpowder, whether the latter is in the shape of filled gun cartridges or loose powder. B.L.S.A. ammunition, where stored.

124. Whenever it becomes necessary to return gunpowder or gun or small-arm ammunition into store, officers commanding will apply to the ordnance officers from whom they originally received the ammunition for instructions as to its mode of conveyance, specifying the number of cases or of half and quarter barrels. Return of ammunition to store.

(E.Q.R.)

B 2

- Address labels not to be removed.** 125. Commanding officers will take care that the printed address labels on the barrels, &c., are not removed; and in the event of any of the labels being accidentally defaced or removed, the name and number of the unit should be marked on each package.
- Ammunition barrels to be free from dirt, &c.** 126. When powder and ammunition barrels, whether full or empty, are to be returned to the Government stores, great care is to be taken to remove all tacks, dirt, and grit from them. Instructions will be given to the persons by whom such barrels are to be conveyed to keep them free from dirt and grit during their transit. Address cards will be affixed to the barrels by means of paste or string, and not on any account by means of tacks or nails.
- Packing ammunition.** 127. Ammunition will only be packed in the presence of a commissioned officer, and no person will be allowed to enter the magazine or room in which the packing takes place unless he has changed his boots for magazine slippers, and until it has been ascertained that he has not on his person any pipes or matches.
- Magazines to be kept private.** 128. Magazines will only be used for the storage of the ammunition of the unit for which they have been approved. No ammunition belonging to other units will be admitted without the sanction of the General Officer commanding the district. No explosives belonging to private individuals, associations, or corporations will be stored therein on any pretence whatever.
- Instructions for magazines, &c.** 129. The "Instructions in regard to Magazines and Ammunition Stores in charge of Royal Artillery," contained in Army Form G 879, will be made applicable as far as possible to the Militia Artillery. Copies of these instructions can be obtained on demand.

CAMP EQUIPMENT AND INTRENCHING TOOLS.

- Demands.** 130. The proportion of all articles of camp equipment and intrenching tools to be demanded, except for manœuvres (see paragraph 136), are laid down in Appendix VII. Commanding officers will be careful not to demand any articles of camp equipment that are not actually required, the demand (Army Form G 968) being based upon the number of officers and men who it is believed will actually be encamped. All requisitions for camp equipment will be prepared in detail, and sent to the chief ordnance officer by commanding officers as early as practicable, in order to give time for checking and supply (see para. 138A).
- Hospital use.** 131. Camp equipment for hospital use will be issued on the requisition of the medical officer, countersigned by his commanding officer, who will account for the stores.
- Separate requisitions for camp equipment.** 132. Camp equipment issued to a Militia unit at manœuvres or camps of instruction will be demanded on separate requisitions from stores belonging to the personal equipment of units; and vouchers for this service—either for receipt or issues of stores—will be kept distinct from vouchers relating to the personal equipment of units. The scale allowed for manœuvres will be in accordance with that detailed in the proportions to be issued for

the dismounted services when required for manœuvres, as laid down in Part I, Equipment Regulations.

133. The provision of extra blankets which it may become necessary to issue to troops in camp under certain circumstances, as when the ground is wet, or when straw cannot easily be procured, will likewise be subject to special consideration and report, the necessity being certified to by the medical officer. Extra blankets.

134. Picketing implements and waterproof covers for saddlery, nose-bags, and corn-bags, will be the only articles supplied free of charge for the officers' horses. Horse equipment.

135. Tents, blankets, nose-bags, canvas and leather buckets, and other canvas, linen, cotton, woollen, or leather articles which have become wet while in use, will be thoroughly dried and cleaned by the troops before being returned into store, in order to prevent the injury which arises from damp and mildew. Any damage resulting from the neglect of these instructions will be charged against the unit. A similar course will be followed in the case of camp kettles and other articles liable to injury from rust. Tents, &c., to be dried and cleaned before returned into store.
Camp kettles, &c.

136. When the camp of a Militia unit is broken up in wet weather, tents should not be struck or other articles of equipment handed over in a wet state. A detachment will be left behind until the articles are in a proper condition to be returned into store. This detachment will consist of a serjeant of the permanent staff and any Militiamen who may volunteer for the duty, not exceeding one non-commissioned officer for the party and two men a company; or of a serjeant and the drummers. Wet weather.
Detachment left in charge.

137. The following rules and instructions for packing will be observed when handing over stores on the termination of a camp:— Rules for packing-camp:—

A. When stores are handed into an ordnance dépôt at the camp:—

(1.) A space at the ordnance dépôt on the camping ground will be allotted to each battalion, in which its stores will be laid out for handing over to the Army Ordnance Department.

(2.) Paillasse cases, bolsters (after being emptied of straw), blankets, and waterproof sheets will be laid out flat, one on the top of the other, in piles of any height; they will be checked off and tied in bundles when being taken over by the Army Ordnance officer.

(3.) Camp kettles will be packed in the cradles in which issued.

(4.) Tents will be left in the valises and stacked in pile, except as stated in sub-paragraph (8).

(5.) Pin bags will be emptied and laid out flat, one on the top of the other, in heaps of 20 or less, as may be convenient.

(6.) Marquees will not be securely tied up, as they will have to be examined to check over the various parts, &c.

(7.) Axes, mallets, tent poles, spades, and other small stores will be collected and placed so that they can be readily counted.

(8.) Should the weather be wet, arrangements will be made for handing over blankets, paillasses, bolsters, waterproof sheets, pin bags, and all other damageable stores in a store marquee at the dépôt, which will be told off to each battalion on the morning of the day of termination of the camp, but all tents will be left standing.

B. When stores are not handed over at an ordnance dépôt on the ground :—

Stores will if possible be returned in the same cases or vats in which they were received : each package will be labelled and addressed to the ordnance officer. Bundles will be tied, in at least two places, with spun yarn.

Blankets, G.S., will be rolled lengthwise in bundles of 20, and fastened near either end with spun yarn ; horse blankets, paillasse cases, &c., and waterproof sheets (unless packed in cases or vats) in similar bundles of 10. Buckets, tubs, and pails will be nested five together and fastened with yarn ; camp kettles will be packed in cradles (5 each). Bolster cases will be packed (200) in a paillasse case. Tents will be in valises, pins and mallets in pinbags, poles tied in sets ; the loose parts of Soyer's stoves and vehicles will be firmly secured with spun yarn.

Accounts. 138. Camp equipment will not be entered in the annual equipment accounts of units, but officers commanding will keep an account, on Army Form G 973 (which will be furnished to them by the chief ordnance officer), of all the articles of camp equipment received, and on the termination of the encampment they will balance the account and return it, with the whole of the stores remaining on hand, to the chief ordnance officer.

FIELD HOSPITAL EQUIPMENT.

**Field
Hospital
Equipment.**

138A. When Militia units are encamped for training at places where no hospital building is available, field hospital equipment will be demanded on Army Form G 968, for the articles supplied by the Army Ordnance Department, and on Army Form I 1209 for the hospital equipment detailed in Appendix XI. The equipment, when no longer required, will be taken over by the regimental authorities, and returned into store.

ARTICLES FOR MUSKETRY INSTRUCTION.

139. Articles for musketry instruction will be supplied, if desired by the officer commanding in the undermentioned proportions to units of Royal Engineers and to dépôts for the use of Militia Infantry recruits. The articles will be accounted for as equipment.

				For M.L.-M. and M.L.-E Arms.
Actions, skeleton (with butts)	...	...	...	1
Aim correctors	...	...	...	1*
Implements, action, M.L.-M., pattern C.	...	...	...	2
Tool, removing striker, M.L.-M. rifle	...	...	...	1

* For R.E. units only. Those allowed for Infantry battalions are detailed in Appendix V.

PRESERVATION, REPAIR, AND MARKING OF EQUIPMENT.

I.—ARMS.

I. Examination, Repair, Browning, Cleaning, and Storing.

140. The armourer-serjeants in the Scottish, North Eastern, North Western, Eastern, Western, Home, Southern, Thames, and Jersey districts will examine annually the arms in possession of the Militia units in their circuits, will execute such repairs as may be necessary, and will re-brown the arms as required. The above arrangement does not relieve commanding officers from responsibility as to the care and repair of the arms, and arrangements will be made by them for such general supervision of the work of the armourer-serjeants as will ensure its being properly carried out.

Yearly examination, &c., by armourer-serjeants.

141. Officers commanding Militia units will, on the conclusion of the annual training, make application to the General Officer commanding for the services of the armourer-serjeant of their circuit whenever the condition of the arms renders this necessary.

Application for armourer-serjeant's services.

142. Circuit armourers will be supplied in advance by the chief ordnance officer of the district with the components estimated to be required for repairing the various descriptions of arms, and such supplies will be written off charge in the ordnance accounts by expense voucher. On completion of the tour, the circuit armourer will produce lists of the components expended on the arms of each unit, supported by the certificate of the commanding officer that he is satisfied that the quantities affecting his arms are correct.

Browning materials and spare parts.

64
Gen. No.
7612

The Chief Ordnance Officer, after satisfying himself that the components, if any, brought back by the circuit armourers are the correct balance, will bring them on Army Ordnance charge by certificate voucher.

143. If on examination of the arms the armourer-serjeant should meet with an arm which he considers unserviceable, or which may require more extensive repairs than he is able to execute on the spot, he should report the circumstance to the officer commanding, who will, should he consider there is any doubt as to who should bear the cost of repairing or replacing it, proceed as directed in paragraphs 35 and 36, in order to ascertain if blame is to be attached to any individual. The arm will be sent to the Inspector of Small Arms, Sparkbrook, Birmingham, as soon after the annual examination as possible, application as to the means of conveyance being made, in accordance with Queen's Regulations, to the transport officer at that station.

Arms unserviceable or needing extensive repairs.

144. In cases where it is not possible entirely to remove marks in the barrels caused by cuts or rust without unduly enlarging the bore, a star (*) will be placed upon the barrels of rifles and carbines in front of the "Knox form," and upon the barrels of pistols on the left-hand side of the "top strap." This mark is only to be made at the factory, and will denote that a trace of a cut or of rust may be expected, and that no charge for such cut or rust will be made against the soldier at any subsequent inspection.

Marks on barrels.

- Armourer-serjeant or viewer receive assistance.** 145. The armourer-serjeants or viewers sent from the Inspection Department will receive any necessary assistance in stripping and re-assembling arms. The men so employed will receive working pay at the third rate, under the Royal Warrant relating to Pay, &c. All claims for such working pay, on Army Form O 1779, will be certified by the armourer-serjeant or viewer, and countersigned.
- A portion of the arms may be browned.** 146. Should it be considered to be for the convenience of the service not to brown all the arms of a Militia unit in one year, arrangements may be made for a portion only to be dealt with. In such cases a record will be kept of the numbers of the arms browned, and the date on which this service was performed.
- When embodied.** 147. Should a Militia Infantry battalion be embodied, an armourer-serjeant will be attached to it, and the arms will be dealt with in a similar manner to those of the battalions of regular infantry.
- Occasional examination, &c., by serjeant-instructor.** 148. During the period the arms are in store they will be examined by the serjeant-instructor (or the non-commissioned officer detailed for the duty), the barrels wiped out and oiled, and the actions, if found to act stiffly, also cleaned and oiled as occasion may require, and especially just before the annual training; but the actions will not be taken to pieces, as the oiling is quite sufficient to clean arms, except that serjeant-instructors who have been through a course of instruction in the care and preservation of arms at the Royal Small-Arms Factory, Birmingham, will be held responsible that the mainsprings and strikers of the arms of their units are kept in good order; and they will at once replace either of these parts should one become broken.
- Trigger-spring broken.** 149. In the event of a trigger-spring breaking, the arm will be sent to the Inspector of Small Arms, Sparkbrook, Birmingham, in order that the "pull-off" may be properly adjusted.
- Store for arms to be dry.** 150. The store for the arms should be a dry and well-aired building, kept perfectly clean, and free from worm-eaten timber.
- Charges for returning arms to store dirty.** 151. A charge of 6d. for each arm will be made by the Army Ordnance Department against any unit returning arms to store in a dirty or neglected state. This charge may be reduced on the authority of the General Officer commanding, if the weather during the camping season has been very wet.
- Instructions for care and cleaning.** 152. Instructions for the care, inspection, and cleaning of arms are given in Appendix II.
- Report and testing of unserviceable arms.** 153. Should a commanding officer doubt whether arms of any description under his charge are serviceable, he will report the matter, stating the reasons for his opinion; and his report will be forwarded to the War Office. If considered advisable, an examination of the arms in question by the Chief Inspector of Small Arms will be authorized. The practice of testing weapons of any kind in charge of troops is forbidden.

2. Tools and Materials for Repairing and Cleaning.

Tools.

- Proportion of tools for repairing arms.** 154. The following proportions of tools are supplied by the Army Ordnance Department for the use of the serjeant-instructor in repairing arms (see also Appendix II):—

Tools—Armourer's.

						Number per shop for	
						M.L.M. arms.	M.M. & M.E. arms.
<i>Weedon Section.</i>							
Braces, armourer's bits, screw-driver	{	butt plate screw	..	..	1	1	
		stockbolt	{	M.H.	..	1*	
			{	M.L.M.	..	1	
				stop-nut, M.H.	..	1

Vices, standing, 36 lbs.	..	..	..	..	1	1	

155. The armourer-serjeant will take with him such tools as he may be likely to require, in addition to such as he will find in the shops.

* When the stock of these is used up they will be replaced by the next item.

† For artillery carbine, M.M., Mark II only.

‡ Mark II. for magazine arms except Mark I*.

Spare Parts for Repair of Rifles and Carbines.

Proportions. 156. Units of Militia Artillery and Infantry having a serjeant-instructor, with a certificate from the Chief Inspector of Small Arms, will be granted an annual allowance of spare parts in accordance with the following scale. The proportion will be kept up by an annual demand on the chief ordnance officer of the district (except in the Woolwich district, where the requisition will be sent to the chief ordnance officer, Weedon) for such parts as may have been expended in repair during the previous year :—

	For each unit † per 1,000 Arms.		
	Rifle, Maga- zine Lee-Met- ford, Mark I*.	Rifle, Maga- zine Lee-Met- ford, Mk. II.	Carbine Artillery M.M. Mk. II. and Martini- Enfield, Mark I.

‡ Per 100 arms.

157. All parts required for the repair of a rifle can be obtained **Demands.** on demand from the chief ordnance officer, either on repayment or otherwise, and commanding officers will be held responsible that no arm is repaired with a spare part other than of Government manufacture.

Materials for Cleaning.

158. The following materials will be supplied for cleaning and **Materials for** oiling arms:— **cleaning.**

For M.L.M. Rifles and M.M. Carbines.

For every 100 stand of arms.	{	While in use.	Rifle oil, at the rate of 2 pints per week of the period that the arms are in use.	{	For the whole period.
			Flannelette, 33 yards		
	{	While not in use.	Rangoon oil, 1 pint		
			Sheeting old, 4 lbs.		
			Rangoon oil, 1 pint per annum.		
			Flannelette, ½ yard per annum.		
			Sheeting, old, 2 lbs.		

In the case of Militia units whose arms (except those of the permanent staff) are kept in Government stores during the non-training period, the allowance of material for arms "while not in use" will not be drawn. No oil except that supplied by the Army Ordnance Department will be applied to arms under any circumstances.

54	One quart of composition, preserving arms, will be allowed annually per 100 stand of arms, for application between stock and barrel by the circuit armourer at his annual inspection.
Militia	
1405	

3. Marking.

Arms
marked
before issue

159. Arms issued to Militia will be marked by the Army Ordnance Department, in accordance with the Regulations for Army Ordnance Services, before being issued. No further marking will be necessary. The full designation of the unit, and the consecutive numbers to be marked on the arms, should be stated on all requisitions for arms. When arms are issued to replace others, they should receive the consecutive numbers of those replaced.

II.—REPAIRING AND MARKING ACCOUTREMENTS AND RE-STITCHING LEATHER BAYONET SCABBARDS.

Repairs at
close of
annual
training

160. At the termination of the annual training, should any articles of the Woolwich Section be found to require repair, a statement of the articles, showing the nature and extent of the repairs required, and the estimated cost of executing them, will be forwarded to the chief ordnance officer of the district for approval. His authority for the execution of the repairs will be attached as a voucher for the charges, which will be made in the regimental accounts. Should any leather bayonet scabbards require re-stitching, a similar course will be followed.

Marking
accoutre-
ments.

161. All accoutrements, except those for mobilization, will be marked by the Army Ordnance Department before issue, with the year of issue, beneath the W.D. and broad arrow of the War Department. When received by the unit, they will be further marked before being taken into use, to correspond with the arms. Articles that have been in use, and are re-issued, will be marked by the Army Ordnance Department—black equipment with the letter 'W' and the month and year of re-issue; buff equipment with the month and year of re-issue only, in red ink. These marks will be carefully and legibly placed on the inside or back part of the belts, pouches, slings, and other articles. Buff accoutrements will be marked with $\frac{1}{4}$ -inch (and $\frac{3}{16}$ -inch for terminal letters of Infantry) brass or gun-metal stamps on wood, and marking ink. Black or brown accoutrements will be marked with $\frac{1}{4}$ -inch steel stamps for wood, care being taken that the leather is not cut but merely indented. Branding the accoutrements is strictly prohibited. The stamps, stencil plates, &c., of the descriptions and in the proportions detailed below, will be supplied by the Army Ordnance Department, provided that none of the articles are already in possession for marking clothing.

Articles.	Militia Artillery, Engi- neers and Medical Staff Corps, each unit.	Militia Infantry each unit.	Remarks.	
<i>Woolwich Section, No. 25.</i>

Stamps, brass, or gun-metal, on wood, $\frac{1}{4}$ -inch, figures, 0 to 8	1	1		
<i>For Valises.</i>				
Brushes, stencil	..	..	} 2 per Company	
Plates, stencil, paper	..	..		

162. The wooden water-bottle of the Italian pattern will be marked on the upper edge with the stamps supplied for marking wood. Water bottles.

163. The canvas inside the outer flap of the valise will be marked in marking ink with the same marks as the other accoutrements by means of the metal stamps supplied. On the outside of the flap the marking will be by stencilling. In the case of infantry the battalion number and county name will be placed as nearly as possible across the centre of the valise thus :— Valises.

5. Warwick.

If initial letters only are used, a space will be left for the central strap, and the battalion number placed to the left of it, and the regimental letters on the right, thus :—

3. S. W. B.

The grenade and bugle used respectively with fusilier and light infantry regiments will be placed to the left of the numeral.

In the case of the Royal Artillery, Royal Engineers, and Medical Staff Corps, the stencilled marking will be as follows :—

Artillery.

(Initial letters only.)

(a) On the outside of the flap.

R.A.

(b) On the back of the valise.

Carmn. A. for Carmarthen Artillery, W. Dn. R.A

Royal Engineers.

(Initial letters only.)

(a) On the outside of the flap.

R.E.

(b) On the back of the valise.

R.M.M. for Royal Monmouthshire Engineers (Militia).

Plym. M.D. for Plymouth Division R.E. (Militia) Submarine Miners.

Medical Staff Corps.

For Hants Company, H.M./ /M.S.C.

For Middlesex Company, Mx.M./ /M.S.C.

For Surrey Company, S.M./ /M.S.C.

For Eastern Counties Company, E.M./ /M.S.C.

For Kent Company, K.M./ /M.S.C.

For Berkshire Company, B.M./ /M.S.C.

White paint of the following composition should be used :—

Lead, white, ground in oil ... 4 lbs.

Gold size ... ½ gill

Turpentine ... ¼ gill

For the outside flap of valises in possession of Rifle Regiments :—
Paint, green, Brunswick, ground in oil, 4 lbs.

The marking with this mixture will dry, in an ordinary store, in about eight hours.

In marking the valise the brush should be used almost dry, with the paint thick. The flap should be laid flat upon a hard, smooth surface, and the paint dabbed in, the brush being held vertically, and on no account worked across the stencil plate. The back of the plate should be kept clear of paint with a turpentine rag, and the face also occasionally wiped with the rag to prevent an accumulation of paint.

III.—MARKING MUSICAL INSTRUMENTS.

Marking
musical
instruments.

164. The marks on bugles, trumpets, brass side-drums, flutes, and piccolos will be engraved, not stamped. A charge of three-pence each will, on the authority of the chief ordnance officer, be admitted in the regimental accounts for marking each bugle, trumpet, and drum, and a charge of a halfpenny per letter or figure for marking flutes and piccolos, which should be engraved on the ivory top. The instruments will be marked with the territorial letters of the unit, and numbered consecutively from 1 upwards.

IV.—GENERAL INSTRUCTIONS.

165. Materials supplied for the repair and preservation of equipment will be used solely for the purpose for which they are demanded. The purchase of materials by officers commanding units will not be sanctioned by General Officers commanding except in special cases. Materials to be used for legitimate purposes.

166. Accoutrements will on no account be cut to fit the men without special authority from the War Office. Accoutrements not to be cut.

167. With the exception of articles of personal equipment, no stores issued to units are to receive any indelible unit marks which would render them unfit for re-issue. Should it be found on such articles being returned into store that they have been so defaced, the loss to the public caused thereby will be charged against the unit, the time the articles have been in use being taken into account. Stores other than personal equipment not to be marked.

168. Trumpeters and buglers serving on the permanent staff of units are chargeable with the cost of renewing their trumpet and bugle strings when these become unserviceable within a period of six years from the first issue. Drummers of infantry are chargeable with the cost of new drum heads. Trumpet and bugle strings.

APPENDIX I.

CERTIFICATE ON CHANGE OF ACCOUNTANT.

[Referred to in paragraph 45.]

WE CERTIFY, in accordance with paragraph 45, Section XVI, Part 2 of the Equipment Regulations for the Regular Forces and Militia, that on the transfer of the equipment of the * _____

on the † _____

the whole has been verified, and has been found to be properly appropriated, in good condition, and to agree in the quantities and numbers of the several articles actually in possession with those shown in the Regimental Equipment Ledger.†

Accountant giving over charge.

Accountant taking over charge.

* Here insert the regiment.

† Here insert date.

‡ In cases where discrepancies are found to exist between the quantities actually in possession and the equipment ledger, the following words are to be added to the certificate, "*with the exception of the items shown in the accompanying list of discrepancies.*"

APPENDIX II.

Instructions for the Care, &c. of Martini-Metford, Martini-Enfield, Magazine Lee-Metford, and Magazine Lee-Enfield Arms.

[Referred to in paragraph 152.]

CLEANING.

The oil used should be Rangoon for the actions, and rifle oil for barrels only.

1. All barrels will be wiped out with oiled flannelette daily during the training period, also before firing, and thoroughly cleaned and oiled after firing. When cleaning before return to quarters is not practicable, the bore must under any circumstances be wiped out with oiled flannelette immediately firing is over, and thoroughly cleaned as soon as possible. Too much care cannot be bestowed in keeping the inside perfectly clean and uninjured. In wet weather the arms will invariably be cleaned immediately on return to quarters.

2. The inside of the body, the action, and the bolt of magazine arms should be wiped with an oiled rag to prevent rust and to remove dirt, and then the outside of the body and the barrel should be cleaned.

3. In the case of M.M. and M.E. arms, the inside of the body, as far as practicable, the block and the cartridge chamber, should be wiped with an oiled rag, and the outside of the barrel rubbed.

4. Bores will be cleaned as follows:—Oil the gauze of the pull-through well with rifle oil, drop the weight through the barrel from the breech, and pull the gauze completely through. Then insert in the loop nearest the gauze a piece of dry flannelette, and draw it through the barrel; the flannelette should never be pulled back when partly through, as it would probably jam. Finally, an oiled piece of flannelette should be drawn through and the bore left oily.

Rifle oil contains a proportion of caustic soda, the alkaline character of which causes it to neutralise any acid which may be in the fouling, and generally to prevent rust. The oil should be well shaken before use.

It may be necessary to use three or four pieces of flannelette before the barrel is "rag clean," *i.e.*, before the material remains unsoiled after use; but those which are little soiled should be saved for future use.

No larger piece of flannelette than 4 inches by 2 inches should ever be used, and the width may sometimes be reduced with advantage.

When the gauze on the pull-through ceases to fit the barrel tightly, narrow strips of flannelette or paper may be inserted under each side to increase its diameter.

It saves time if two men assist one another, one holding the rifle, the other manipulating the pull-through.

Water should on no account be used after firing with cordite ammunition.

Although an arm in which rust has been allowed to form may be cleaned so as to be "rag clean," it may be so pitted or rusted that it would not be "view clean," i.e., in a state to be passed by an expert inspector. It is necessary, therefore, that the greatest care should be taken to prevent the formation of rust, which can only be done by strictly carrying out the foregoing instructions.

5. No hard substance, such as emery, sand-paper, &c., is ever to be used for cleaning either the inside or outside of the rifle or carbine, and care is to be taken to prevent the browning being rubbed off the barrel.

6. To prevent water soaking into the stock, and at the same time to give it a polished appearance, it should be well rubbed with oil. French polish or varnish is on no account to be used.

GENERAL INSTRUCTIONS.

7. The greatest care must be taken to prevent the barrel being bent or dented, as either would be detrimental to accurate shooting. A rifle or carbine must never be used for carrying weights, or for any other unauthorised purpose. Placing arms forcibly in a rack, or piling them carelessly so that they fall down, will often cause serious damage to the barrel, especially at the muzzle.

8. Care must be taken not to run the muzzle into the ground; should this be accidentally done, the dirt must be at once removed, for if the rifle be fired with any obstruction in the muzzle, the barrel will probably burst.

9. The fore-sight must be carefully protected from being injured; and arms should never be carried with the leaf of the back-sight raised. When in the barrack room the sight protector should invariably be kept on the arm.

10. On no account should a piece of rag be kept in the muzzle, when a rifle or carbine is in the arm rack.

11. A miss-fire is the non-ignition of the charge. The proportion of those which occur from defective caps is so small that most miss-fires are probably due either :—

(a) To a defect in the rifle or carbine, which should on all occasions be at once examined and tested as to strength of spring, protrusion of striker, and, in the case of magazine arms, clearance of bolt-head. The cartridge should also be tried in another rifle or carbine.

(b) The soldier pressing the cocking-piece with his thumb.

Whenever there is reason to suppose that a miss-fire is due to either (a) or (b) no report need be made under the Queen's Regulations.

12. Ammunition should be kept perfectly dry. To prevent cartridge cases jamming in extraction they must be kept free from oil, dust, or sand.

13. No militiaman is ever to attempt to take to pieces any portion of the action, or to loosen or tighten any of the screws.

Magazine Arms.

14. *To Remove the Bolt.*—Raise the knob with the right hand as
(E. & R.)

c

far as it will go, draw back the bolt to the resisting shoulder release the bolt head with the forefinger of the right hand from the retaining spring, and raise it to the full extent; then draw back and remove the bolt.

15. *To Replace the Bolt*—Ascertain that the cocking piece and resisting lug are in a straight line, and that the bolt head is turned over to the left as far it will go. Place the bolt in the body with the extractor upwards; press the bolt till the head is just clear of the resisting shoulder; push the head downwards till it is caught by the retaining spring, close the breech, and press the trigger.

16. *To remove the hand guard*.—Hold the small of the butt between the thighs; place the tips of the forefingers pointing upwards under the front end of the hand guard where rounded off; place the tips of the thumbs on the hinge of the back-sight, and press upwards with the forefingers.

The hand guard should only be taken off by the militiaman for the purpose of removing rust on the barrel, and when this is necessary great care should be taken to prevent breaking or injuring it in any way.

17. *The brass oil bottle* is to be carried in the trap in the butt of magazine arms, the pull-through being packed on the top of the oil bottle, as follows:—

Hold the pull-through (loop end) between the forefinger and thumb of the left hand, so that the end falls about two inches below the third finger, roll it loosely three times round the first three fingers. Slip the coil off the fingers and lap it tightly with the remainder of the cord, leaving sufficient to allow of the weight dropping easily into the recess in the butt. Push the cord into the trap, leaving the loose end uppermost, drop the weight into the recess, and close the trap.

18. The amount of pressure required to release the nose of the sear from the full bent of the cocking-piece is called the "pull off." When it is too heavy or too light, the defect is not to be remedied by the serjeant-instructor or militiaman. The pull-off should be between 6 lbs. and 8 lbs.

19. The mainspring should never be allowed to remain compressed except when the rifle is loaded. The position of the cocking-piece shows when the spring is compressed and when released. In the former case it projects about $1\frac{1}{2}$ inch in the Lee-Metford, and 2 inches in the Lee-Enfield, from the rear of the body; and in the latter about $\frac{1}{2}$ inch in the Lee-Metford and $1\frac{1}{2}$ inch in the Lee-Enfield. The cocking-piece must on no account be let down to the half-bent when the rifle is loaded.

20. Cartridges should not be kept in the magazine of the rifle when the arm is not in use, as, if the spring is kept compressed, it becomes weakened. In charging the magazine care must be taken not to attempt to put in more than the proper number of cartridges, viz., in Lee-Metford Mark I* rifle, 8; in Lee-Metford Mark II, and Lee-Enfield Mark I, 10.

21. The magazine is to be considered as an integral portion of the rifle, and is on no account to be detached, and the rifle is not to be used without it. No attempt should be made to take out

the platform of the magazine ; nor should the bolt ever be removed except for cleaning purposes.

M.M. and M.E. Arms.

22. *Oiling the Action.*—The action can usually be sufficiently oiled by pouring a few drops of Rangoon oil through the opening between the lever and body, when the end of the lever loop is drawn out of its catch-block, and the carbine held with the trigger guard uppermost.

23. *Easing Springs.*—The breech being open, place the thumb on the thumb-seat, the forefinger on the trigger, and the remaining fingers under the guard, press the trigger firmly without touching the lever, and when the lever is closed, secure it in the catch-block by claspings the bow of the lever and small of the butt with the right hand. Springs must never be eased when a cartridge is in the chamber.

24. *The mainspring* should never be allowed to remain compressed, except when the arm is loaded. The position of the indicator shows when the spring is compressed and when released. In the former case it points to the rear of the block axis pin, in the latter well to the front of it.

APPENDIX III.

DETAILS OF EQUIPMENT—MILITIA ARTILLERY.

[Referred to in Paragraph 69.]

I.—ARMS.

Articles.	Proportions.
<i>Weedon Section.</i>	
SMALL ARMS.	
Carbines, M.M. or M.E., Artillery ..	Serjeants, and rank and file.
Pull-throughs, {	1 per carbine.
{ double	5 per 100 carbines (with two spare gauzes to each).
Reflectors, mirror, '303" (for examining interior of barrels)	1 per company.
Rods, clearing*	1 per carbine.
Sword, bayonets (with scabbards), M.H. carbine, Mark I.	1 per trumpeter.
Sword bayonets, pattern '88 (with scabbards)	1 per carbine.
Swords, staff-serjeants, artillery (with scabbards)	1 for each warrant officer and staff-serjeant.

NOTE.—D.P. Arms will be supplied when required for training supernumeraries enlisted under paragraph 132, Regulations for the Militia.

* Clearing rods will be issued with all '303 arms, but in time of peace will be in possession of serjeants and corporals only, those for other ranks being withdrawn and kept in regimental charge.

(EQ. R.).

c 2

II.—ACCOUTREMENTS AND HANDCUFFS.

Articles.	Proportions.
<i>Woolwich Section, No. 1.</i>	
ACCOUTREMENTS.	
*Belts, { pouch, buff, G.S. waist, buff, Warrant Offi- cers, Artillery. }	For all warrant officers and staff-serjeants not wearing V.E.
Bottles, water, Italian, without spring clip	All ranks, non-commissioned officers and men.
Bottles, zinc, oil	1 per carbine.
Carriage, water-bottle, Italian ..	1 per water-bottle.
Frogs, buff, bayonet, G.S.	1 per sword bayonet.
Handcuffs, common	1 pair per company.
Knots, sword, buff, G.S.	1 per sword.
Pouches, writing materials, Artillery	1 for each warrant officer and staff-serjeant not wearing V.E.
Slings, carbine, buff, artillery. . .	1 per carbine.
VALISE EQUIPMENT, PATTERN 1882, BUFF.	
Belts, buff, waist, G.S.	1 per N.C.O. and man (except staff-serjeants, and including trumpeters).
Braces, { Serjeants and { left rank and file { right }	1 of each per valise.
Chapes, waistbelt	2 per valise for ranks not wearing pouches, and 1 per serjeant and rank and file wearing pouches.
Pouches, ammunition	1 per serjeant and rank and file armed with carbines.
Straps, { greatcoat and mess-tin supporting and mess-tin	2 per man. 2 per valise.
Valises, japanned	1 per N.C.O. and man except staff- serjeants.

* White enamelled belts will continue in use until worn out.

III.—STORES, &c., FOR DRILL AND INSTRUCTION.

Articles.	Proportion for each drill station.			Remarks.	
	1 to 4 companies.	5 to 7 companies.	8 or more companies.

{ ¼ " ..	1 }
<i>Woolwich Section, No. 30.</i>	
PACKAGES, &c.	
Hoops, birch (of sizes as necessary)*	2 spare per cask or vat.

APPENDIX VIII.

INSTRUCTIONAL TARGET.

[Referred to in Paragraph 73.]

The target is made of half-inch deal, and is 4 feet square; it is painted half bright red and half bright green. On the top is fixed an iron rod, $\frac{5}{16}$ th of an inch thick and 3·5 feet long, on which runs a ring, to which is attached a chain. A leaden triangle of 6 inches side, painted white, and with a circular hole $\frac{7}{16}$ inch in diameter in the centre, is suspended by the chain from the ring.

1. *Instruction in laying for direction only.*

Stand the target so that the line down the centre is vertical; direct the recruit to lay on that line.

2. *Instruction in laying for elevation only.*

Stand the target so that the centre line is horizontal; direct the recruit to lay so that the point of the trunnion sight and the two sides of the V are on this line.

3. *Instruction in laying for elevation and direction.*

Allow the triangle to hang in front of the target, and direct the recruit to lay on one or other of its angles.

4. *To teach the use of the deflection scale.*

Set up the target with the centre line vertical, at a measured distance of a 100 yards from the gun; direct the recruit to lay without deflection on the centre line. This done, let him lay with a given number of minutes of deflection at the same point. Show him, by letting him look over the sights, with the deflection scale again at zero, that he has thus laid the gun the same number of inches to the right or left of the centre.

At the distance of 50 yards the number of inches will be one-half of that of the minutes of deflection, and so on in proportion for longer or shorter distances.

5. *To test individual laying.*

1. Lay the gun on one angle of the triangle—mark with chalk the position of the hole—remove the triangle. Let recruit look over the sights, and give directions for the movement of the triangle

until the angle on which the gun was previously laid appears to him to be in the line of sight. Mark with chalk the second position of the hole.

The distance between the two chalk marks will give the personal error of the recruit.

2. Lay the gun on one angle of the triangle (or on any small object), with given elevation and deflection. Put down the tangent-scale, but do not move the gun.

Let the recruit set the tangent-scale and deflection-leaf, shifting each until the sights appear to him to be on the object.

The difference between the two readings of elevation and deflection will give his personal error.

APPENDIX IX.

DESCRIPTION OF THE FLOATING TARGET FOR ARTILLERY PRACTICE (MARK III).

[Referred to in Paragraph 76.]

The target consists of a raft made of two pieces of deal 10 feet in length, 9 inches wide, and 3 inches in thickness, united together crosswise, and having a cask or ordinary half-ton vat placed on it and secured, as shown in the drawing, by four wooden snugs and four small guy lines.

A flagstaff, $2\frac{1}{2}$ inches in diameter and 14 feet in height, with flag 4 feet 6 inches by 4 feet, is inserted upright in the vat and secured by four guys to the extremities of the raft.

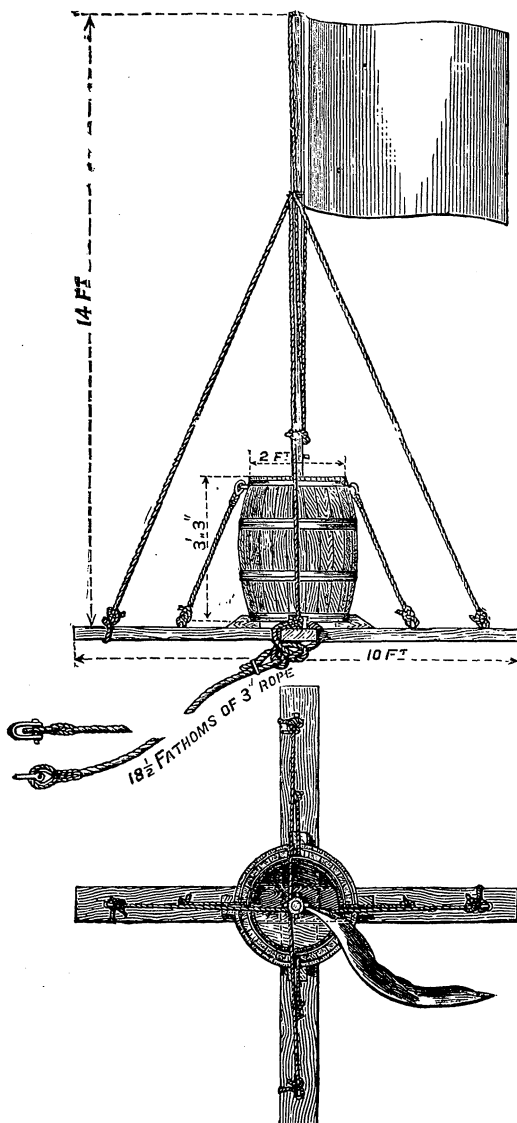

A 3-inch rope, $18\frac{1}{2}$ fathoms in length with an iron shackie at one end for attaching an anchor or grapnel, is made fast to the raft, as shown in the drawing.

The raft will be issued *not* put together, the two pieces being simply nailed together when required for use.

The following are the component parts:—

Anchors, 30-lb.					1
Cables, $18\frac{1}{2}$ fathoms 3-inch tarred rope, with shackie					1
Casks, vat, half-ton, fitted with guy ropes					1
Flags, red, 4' x 4' 6"					1
Floats, fir, 24" x 3" x 3", with 10 fathoms of 1-inch tarred rope					1
Guy ropes, flag-staff, $4\frac{1}{2}$ fathoms 1-inch tarred rope					2
Halyards, $3\frac{1}{2}$ fathoms $\frac{1}{2}$ -inch white rope					1
Rafts, light, two pieces of deal, each 10' x 9" x 3", with two snugs					1
Staves, flag, wood, 14' x $2\frac{1}{2}$ "					1

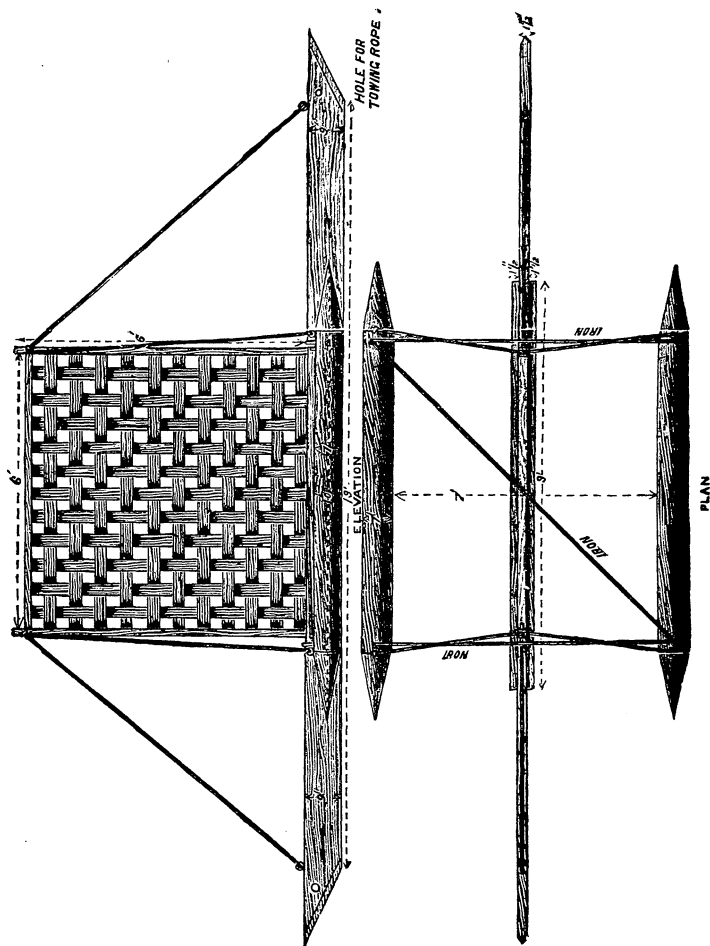

TARGET, ARTILLERY, FLOATING (MARK III).

I.—EQUIPMENT OF BRIGADE DIVISION STAFFS AND BATTERIES.

Details for batteries, etc.

1. Details of the equipments of brigade division staffs and batteries for Field Service and for use in peace will be found on pages 27 to 81.

2. The equipment for brigade division staffs will be drawn by one of the batteries in each brigade division.

Batteries to be in possession of complete war equipment.

3. Batteries are at all times to have in possession their complete war equipment, on the scale laid down in "war establishments."

Equipment for cavalry brigade batteries.

4. A battery allotted on mobilization to a Cavalry Brigade will draw and hold, the equipment shown on pages 34 to 37.

This equipment will be kept distinct from the mobilization equipment in charge of the unit.

Explanation of the terms, "Peace equipment" and "mobilization equipment in charge of the unit."

5. The equipment of a battery is divided under two headings :—

(a.) *Peace Equipment*.—That which is required by the battery for use in peace, according to its peace establishment of men and horses.

(b.) *Mobilization Equipment in charge of the unit*.—That which is required to complete the equipment of the battery when raised from a peace to a war establishment.

Method of accounting for stores.

6. The stores will be held on charge in the Battery Equipment Ledger, the peace equipment in the first part, and the mobilization equipment in charge of the unit in the second part.

Rendition of account.

7. The account will be balanced and rendered as laid down in Appendices I and II, Equipment Regulations, Part 1, and not when the mobilization equipment in charge of the unit is handed over to a relieving battery.

Ammunition in mobilization equipment in charge of the unit.

8. The following instructions are to be observed with regard to ammunition in mobilization equipment in charge of the unit, viz. :—

The cartridges will be stored in properly luted and dated M.L. cases, the tubes, fuzes, and shells grouped according to age and date.

Ammunition should never be taken out of store except on mobilization, or to replenish peace equipment. On no account should ammunition which has been in battery use be returned to mobilization equipment in charge of the unit.

Used articles of harness or saddlery placed in mobilization equipment in charge of the unit to be exchanged.

9. Any articles of harness and saddlery which have been used as peace equipment by batteries on the higher establishment, when taken over by a battery on the lower establishment, should be placed in mobilization equipment in charge of the unit, but they should be exchanged for new at the earliest opportunity. Commanding Officers will ascertain periodically from the Chief Ordnance Officer whether new articles are available, or can be obtained, to meet such exchanges. On receipt of the new stores, they should be placed in mobilization equipment in charge of the unit, and the part worn articles returned to the Army Ordnance Department for disposal.

10. Further instructions regarding mobilization equipment are contained in Equipment Regulations, Part 1.

11. To enable batteries to carry out the annual course of Military Training laid down in the Field Artillery Drill, 1896, the issue of a complete set of camp equipment for one battery will be made from local ordnance store to each brigade division (or in the case of single battery stations, each station) serving in the district, it being considered undesirable that the articles belonging to the mobilization equipments in charge of units should be used for the purpose.

Camp equipment for annual course of instruction of batteries.

12. The stores required should be demanded under the orders of lieutenant-colonels commanding brigade divisions, who will detail the battery to demand, and arrange the sequence in which the equipment is to be handed over from one battery to another. The equipment when no longer required should be returned to Army Ordnance Department by the last battery using it, on the same vouchers as it was originally drawn.

Lieutenant-colonels to order, demand, and arrange sequence, &c.

13. Local arrangements must be made to ensure that the complete equipment of the battery in every respect is available, and correctly packed. Empty cases or dummies will be used on these occasions to represent any articles which are not available in the district.

Completeness and correctness of equipment to be ensured.

14. The general scale of equipment for standing camps and manœuvres should be demanded in accordance with the scale laid down in Equipment Regulations, Part 1.

Camp equipment.

II.—MARKING OF EQUIPMENT.

15. Camp kettles, portable magazines, and water-buckets, belonging to the peace equipment of batteries, will be marked in black paint with the letters, "R.H.A." in front, and in the rear with the letter of the sub-division and battery letter, thus,

Marking equipment.

$$\frac{\text{"A"}}{\text{P}}$$

Drawings to illustrate the method of marking, and the correct position of the marks, will be issued, on demand to chief ordnance officers of districts, who will arrange for necessary promulgation to the batteries, &c., requiring them.

Bags, kit, R.A., and picketing gear will also be similarly marked, but on the end.

54
Arty.
7882

16. Detailed instructions for marking vehicles and equipment will be found in Equipment Regulations, Part 1.

III.—REPAIRS.

17. Battery commanders are responsible that their equipment is at all times in a serviceable condition. The examination and repair of equipment should be carried out by battery artificers so far as may be possible. When special tools or appliances are required, which are not available with the battery, the battery artificers should be sent, together with the material requiring repair, to the nearest army ordnance department workshop at which the necessary facilities exist, in order that they may there carry out or assist in carrying out the repair.

Examination and repair of equipment.

Special tools for the repair of field artillery equipment have been issued to the army ordnance workshops at Aldershot, Colchester, Curragh, Devonport, Dover, Haulbowline, Portsmouth, and Tynemouth.

18. Applications for the inspection or repair of equipment which cannot be carried out by battery artificers should be addressed to chief ordnance officers of districts.

IV.—RETURNS.

Returns
relating to
Artillery
Matériel, &c.

19. Army Form G 1085 (return of stores due to batteries from Army Ordnance Department) should be rendered quarterly by batteries, and forwarded to the Principal Ordnance Officer, Woolwich, on the 1st March, 1st June, 1st September, and 1st December in each year. Only stores 3 months in arrear at date of return will be included.

Returns of
field
ordnance
equipped.

20. When any deficiencies are noted by the officer commanding Royal Artillery upon the annual returns of rifled field ordnance equipped, the chief ordnance officer should note on such returns the steps that have been taken to supply the equipments required to complete the batteries.

Ordnance
on R.A.
charge.

21. Ordnance on Royal Artillery charge will be included in the Annual Return Army Form G 872, rendered on the 1st June by officers commanding Royal Artillery districts in accordance with the King's Regulations.

V.—REGULATIONS FOR THE INSPECTION OF ORDNANCE.

1. General Instructions.

Examina-
tion of
ordnance by
I.O.O.

22. When guns require examination the officer commanding will submit Army Form G 875, with the memorandum of examination, to the chief ordnance officer, who will make arrangements for the examination to be carried out by the inspecting ordnance officer or by the inspector of ordnance machinery. The inspector will make two copies of this form; and on the completion of the examination will enter the sentence on and sign all three. He will pass the original direct to the officer in charge of the gun for transmission to the officer commanding Royal Artillery; the other two copies, with impressions, except in obviously trivial cases, will be forwarded by the chief ordnance officer direct to the chief inspector, Woolwich. The chief inspector, Woolwich, will enter the final sentence, retain one copy, and return the other to the chief ordnance officer, who will retain it after passing to the officer commanding Royal Artillery to note. In the event of the gun being serviceable, the "memorandum of examination" will be returned by the inspector direct to the officer in charge of the gun; if unserviceable he will forward it with the impressions to the chief inspector, Woolwich, who will return it after final sentence through the chief ordnance officer.

At home
where there
is no I.O.O.

23. In districts at home in which there is no inspecting ordnance officer or inspector of ordnance machinery the chief ordnance officer will forward the requisitions to the chief inspector, Woolwich, who will arrange for the examination to be carried out, and if necessary send an examiner to the station.

Examina-
tion of spare
parts.

24. All spare parts should be tried for interchangeability as soon as possible after receipt, and a report of the defects, if any, forwarded to the chief inspector, Woolwich.

VI.—TARGETS FOR GUN PRACTICE.**Land Ranges.**

25. Exceptional arrangements exist for manufacture and supply of targets used by batteries at practice over the land ranges mentioned in the table at para. 26 (scales A, B and C); the targets are of the pattern described in paragraph 9478 List of Changes in War Matériel, and together with the dummies and other stores are issued in special proportions (*vide* instructions for supply of stores to the various camps, for batteries of horse or field artillery). Targets for
land ranges.

VII.—GUN AMMUNITION FOR PRACTICE AND EXERCISE.

26. The annual proportions of gun ammunition for practice and exercise are as follows :— Gun
ammunition.

Royal Horse Artillery Batteries.

Articles.	Practice.					Annual exercise.	
	Scale A.	Scale B.	Scale C.		Scale D.	Higher establishment battery.	Lower establishment battery.
	Land range at Okehampton.	Annual, for all other stations in Great Britain, land ranges.	Ireland, land range.		Colonial and foreign (6 guns).		
			1st and 2nd year.	3rd year.	Annual.		
	B.L., 12-pr., 6-cwt.	B.L., 12-pr., 6-cwt.	B.L., 12-pr., 6-cwt.	B.L., 12-pr., 6-cwt.	B.L., 12-pr., 6-cwt.		
<i>Woolwich Section No. 22.</i>							
Fuzes, time and percussion, No. 56	715	198	378	358	194	...	...
Tubes, friction, T	790	240	410	390	225	440a	315a
<i>Woolwich Section No. 22A.</i>							
Cartridges, { 12-pr., 6 cwt., 12 $\frac{1}{16}$ oz. cordite, filled, B.L. { size 5	730	210	390	370	200	...	...
	...	...	...	...	...	...	...
	715	198	378	358	194	...	...
	15-pr. or 12-pr., 1 $\frac{1}{4}$ blank	...	...	...	...	...	...
Shell, B.L., filled, shrapnel	715	198	378	358	194	...	...
Shot, B.L., case	15	12	12	12	6	...	...

a 90 rounds of shrapnel shell and 90 rounds of blank ammunition are included in the above numbers for each unit for the dismissal of recruits.

27. To ensure a proper "turn over" of ammunition, all ammunition fired at annual practice by batteries will be taken from their service equipment, that in peace equipment being used up first.

Turn over of ammunition.

Further instructions regarding the turnover of ammunition are laid down in Equipment Regulations, Part I.

Demands to complete equipment will be put forward prior to departure of battery to practice, so that on return to station the ammunition may be in readiness.

In cases where batteries are to change stations after practice, the new station where the ammunition will be required should be clearly indicated on the demand.

28. Canvas covers for cartridges will be returned to store at the conclusion of practice.

29. Gun ammunition will be demanded on Army Form G 806. Any of the annual supply which has not been drawn by the end of the year (31st March) for which it is allowed will be forfeited.

Requisitions.

30. In demanding fuzes, tubes, primers, and other laboratory stores supplied in sealed cylinders, the numbers given in the details of equipment will be adhered to as closely as possible; but full cylinders should always be demanded. Cylinders containing these articles will on no account be opened, unless their contents are required for immediate use.

Supply of fuzes, tubes, and laboratory stores. Cylinders not to be opened till wanted. Marking fuze cylinders.

31. The hermetically sealed tin cylinders containing fuzes, issued to royal horse artillery, will be marked by the battery, by scratching on them with a pointed implement, the date on which they are received.

Fuzes which have been in possession of the battery the longest time will be used first, without regard to the age of the fuze.

32. Immediately on the close of artillery practice each day, search will be made on the ranges for unexploded projectiles. Rewards will be paid for the recovery of projectiles in accordance with the Army Ordnance Regulations.

Search for projectiles after artillery practice. Recovery of projectiles

All fuzed shell will be destroyed where found as laid down in Regulations for Magazines, etc.

VIII.—TEXT BOOKS, HAND BOOKS, AND RANGE TABLES.

Text and
hand books.

33. Text books, hand books, and range tables are issued in the following proportions, and will be held on charge as laid down in Equipment Regulations, Part 1.

Distribution.	Text Books, sets. <i>a</i>	Handbooks. <i>b</i>	Range Tables.
Lieut.-Colonels commanding brigade divisions	1	2 per nature of field gun in the division.	2 per nature of field gun in the division.
Batteries	—	12 per nature of gun on charge.	12 per nature of gun on charge.
Lecture rooms <i>c</i>	1	1 per nature of ord- nance in the district.	1 per nature of ord- nance in the district.
Gunnery Instructors <i>d</i> ...	1	ditto.	1 ditto.

a The text books referred to comprise the following works:—"Treatise on Ammunition," "Treatise on Military Carriages," "Treatise on Service Ordnance," "Treatise on Service Explosives."

b The following are the handbooks referred to:—

Handbook for nature of gun in use.

.. Telescopic Sights.

.. of the Mekometer.

c For use of the Gunnery Instructor, but not to exceed one set per district except in special cases.

d At stations where there are no lecture rooms. At stations where a lecture room for R.A. exists, books will not be issued to the Gunnery Instructor, those in the lecture room being available.

IX—NECK COLLARS.

34. When neck collars are stored in mobilization equipment in charge of the unit, the sizes of the same should be in the following proportions :—

Unit.	No. of collars.		Percentage of sizes allowed per unit.								No. of each size allowed per unit.						Total per unit.
	To be held in mobilization equipment in charge of the unit to bring the unit up to normal war scale.	To be issued in addition to normal war scale when specially ordered.	21 inch.	21½ inch.	22 inch.	22½ inch.	23 inch.	23½ inch.	24 inch.	21 inch.	21½ inch.	22 inch.	22½ inch.	23 inch.	23½ inch.	24 inch.	
Brigade Division Staff R.H.A.	8	..	...	...	...	...	...	...	...	...	1	2	3	2	...	...	8
R.H.A. battery on higher peace establishment ...	{ 44	{ ... 6	13	21	24	25	12	3	2	{ 6 1	9	10	11	5	2	1	44
R.H.A. battery on lower peace establishment ...	{ 64	{ ... 6	13	21	24	25	12	3	2	{ 8 1	14	15	16	8	2	1	64
											1	1	2	1	...	...	6

Sizes of neck collars.

X.—HORSE SHOES.Scale of
horse-shoes.

35. On active service, all horses requiring shoes will be shod with machine-made shoes, which will be supplied according to the following scale, unless otherwise demanded :—

Royal Artillery.

Description.		No. per Cent. R.H.A. Batteries.
Shoes, horse, pairs	No. 3 { fore	3
	{ hind	3
	No. 4 { fore	16
	{ hind	16
	No. 5 { fore	28
	{ hind, without calkins	18
	{ hind, with calkins	10
	No. 6 { fore	32
	{ hind, without calkins	8
	{ hind, with calkins	24
	No. 7 { fore	11
	{ hind, without calkins	2
	{ hind, with calkins	9
	No. 8 { fore	4
	{ hind, with calkins	4
	No. 9 { fore	4
	{ hind, with calkins	4
	No. 10 { fore	2
	{ hind, with calkins	2

60 nails per set of shoes will be issued. Every horse will carry a fore and hind shoe, and sufficient nails in the shoe cases ; the other hind and fore shoe, as well as nails, will be carried regimentally.

XI.—SUPPLY OF STORES FOR THE REPAIR AND PRESERVATION OF EQUIPMENT.**Harness and Saddlery.**Staff of R.A.
District.

36. The repair of saddlery and harness, etc., allowed for the staffs of Brigade Divisions and Royal Artillery districts will be effected by the artificers of the nearest battery when practicable.

Any materials for repair that may be required by Brigade Division Staffs on service will be available from the equipments of Batteries of the Brigade Division.

Ordnance, Carriages, Projectiles, &c.Reference to
the detailed
instructions.

37. Detailed instructions for the preservation and inspection of ordnance, &c., are given in the "Regulations for Magazines and Care and Preservation of War Matériel" for the guidance of officers of artillery in carrying out the services therein referred to and of army ordnance officers in supplying such materials and stores as may be from time to time required for performing the same.

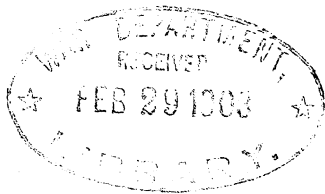

38. The following proportions of lubricants will be allowed annually for wheels and for preservation of straps and leather work for travelling carriages :—

Dubbing—Batteries,		{ without wagons, 1 lb. per gun		{ for straps and	
		{ with „ 1½ lb. do.		{ leatherwork.	
Grease, Field's, <i>a</i>	{	3 lbs. per wheel	{	On certificate of	
		½ lb. ditto		commanding officer that they are in constant use.	
				{ When not in constant use	

39. As tin closing bands and bottoms of fuze cylinders are liable to become detached through jolting in the limbers, thus causing deterioration of the fuzes, a set of tinman's tools is supplied to each battery, and loose bands and bottoms should be refastened as soon as any such defect becomes apparent.

40. T friction tubes, other than Mark I, will, as soon as possible, and not later than 24 hours after firing, be immersed in ordinary mineral oil for 24 hours and, after removal, be allowed to drain. They will then be returned to the chief ordnance officer for transmission to Woolwich to be cleaned and refilled. Half a gallon of oil is required to cover 100 tubes, and about $\frac{1}{10}$ pint per 100 tubes will be used up in the treatment.

a Black grease will be used at all stations abroad, except British North America and St. Lucia.

XII.—STORES FOR DESTRUCTION OF SHELLS.

41. A set of stores for the destruction of shells, as also such quantity of guncotton and detonators as are considered necessary, will be allowed to all land ranges, and will be demanded in the undermentioned proportions and accounted for by the officer commanding Royal Artillery in camp :—

MATERIALS REQUIRED FOR EACH CHARGE.*Woolwich Section No. 2.* No.

Bags, sand, common 4

Woolwich Section No. 21.

Guncotton, { dry primers, H—1'25-in. × 1'25-in. 1
 { wet slabs, T 6½-in. × 6½-in. × 1½-in. 4

Woolwich Section No. 22.

Detonators, electric, No. 13 1

STORES.

Articles.	No.	Remarks.
<i>Woolwich Section No. 7.</i>		
Cloth , emery, fine sheets	2	Cleaning ends of wire.
Pliers , side-cutting, 7-inch pairs	1	
<i>Woolwich Section No. 18.</i>		
Twine , choking, 3-thread lbs.	1	Securing charge.
<i>Woolwich Section No. 28.</i>		
Exploders , dynamo-electric, quantity	1	} Repairing defective wire.

Solution , india-rubber.... ½-lb. tins	1	
Tape , india-rubber, pure ¼-lb. „	2	
<i>Woolwich Section No. 29.</i>		
Wire , covered, C 8 yards	2,000	Old telegraph cable unfit for general issue would do if available.

XIII.—SIGNALLING STORES.

42. One "Screen, Manœuvre," will be supplied, on demand, to each battery. This screen will be held on charge, and accounted for as part of the battery equipment.

43. The following will be issued to the undermentioned stations for use of batteries, to be planted in the ground when a battery is in action to denote by the colour of the flag used what it is firing at (*see* "Infantry Drill") :—

Flags, musketry instruction,	{ red and white		1	} per battery.
	{ white		1	
	{ poles		2

	...	...										

Carried as convenient.

a For contents of chests see pages 18-26.

b When a battery is placed on the War Establishment, the smiths' and wheelers' tools are carried in special chests forming part of the force wagon, and the ordinary chests returned to store. These tools will then be taken on charge, as "Tools, sets, No. 3 F.....", and "Tools, sets, No. 10.....", respectively. Four sponge cloths and a book for military artificers are carried with the wheelers and with the smiths' tools. c On mobilization this chest will be emptied and returned to store.

d Carried in locker under rear of ammunition and store wagon for baggage.

One spare set of shoes with nails for each horse; of these, a near shoe and an off shoe of each set, with nails, are carried in the shoe cases, 3 sets in each A. and S. wagon (see footnote "i"). and the remainder in the forge wagon.

{ Carried as convenient.
For mineral jelly.
Annual allowances, 126 lbs. for higher establishment batteries, and 70 lbs. for lower establishment batteries.

a Carried in locker under rear of ammunition and store wagon for "baggage."

b For sharpening swords. To be returned to Ordnance Store before the mobilized unit leaves for place of concentration.

c Issued with "Chest, tool, filled, No. 7."

d 1 set for each farrier and shoeing smith, including the set allowed with "Chest, tool, filled, No. 7," and 1 set for instructional purposes. The set issued for instructional purposes will, on mobilization, be returned to store.

e The tinman's tools consist of—1 groover; 1 iron, soldering; 1 mallet, tinman's; 1 pair shears, tinman's Scotch, and a small allowance of solder, and these, together with 4 sponge cloths, will be carried on active service in a drawer of the forge wagon with the smith's tools.

f Belongs to forge wagon, but in peace, is held on peace equipment charge, and is carried as convenient.

g 1 carried as convenient.

h For regulations as to horse shoes see Sect. IX, Part I (Peace) and Paragraph 35 of Special Instructions, page 14.

i In addition to which 3 sets, with the nails sewn up in canvas, will be carried in the locker under the rear of each ammunition and store wagon, "baggage" and "supply."

j Includes 95½ sets carried with nails in shoe cases.

k Provided in order that horses joining on mobilization may be re-shod if necessary.

l ½-lb. per wheel per annum will be allowed, in addition, for vehicles in mobilization equipment in charge of the unit.

a Each fuze will be separately wrapped in paper and packed in its own cylinder. The designation number is shown on the label of the Cylinder or other package in which the fuze is packed. The number stamped on the fuze itself denotes the number of the thousands manufactured.

b Mark I* equipment only.

c Mark II equipment.

d Mark I to be used up with Mark I guns.

e Packed in tin boxes containing 10.

f A. and S. wagons for supplies and tents, &c., only.

g R.H.A., as required, in addition to battery letter or letters.

^a R.I.A., as required in addition to the battery letter or letters.

^b Supply wagon only.

^c Every Service Battery will be supplied with a mekometer complete.

The equipment consists of—

2 mekometers (right and left) in 2 leather cases,
2 reels, each with one 50-yard cord, with 8 hooks,
4 telescopes,
5 yards of cord spare.

To be strictly maintained for service.

In time of peace, a battery ordered abroad will return its mekometer to store, and will demand a new equipment, except its destination be India, in which case it will receive its new equipment on arrival. The exchange of equipment will be optional in time of war, at the discretion of the officer commanding the battery. For further instructions, see the Mekometer Handbook, also Regulations for Magazines and Care and Preservation of War Matériel.

I.—EQUIPMENT OF BRIGADE DIVISION STAFFS AND BATTERIES.

Details for batteries, etc.

1. Details of the equipments of brigade division staffs and batteries for Field Service and for use in peace will be found on pages 25 to 75.

2. The equipment for brigade division staffs will be drawn by one of the batteries in each brigade division.

Batteries to be in possession of complete war equipment.

3. Batteries are at all times to have in possession their complete war equipment, on the scale laid down in "war establishments."

Explanation of the terms, "Peace equipment" and "mobilization equipment in charge of the unit."

4. The equipment of a battery is divided under two headings:—

(a.) *Peace Equipment*.—That which is required by the battery for use in peace, according to its peace establishment of men and horses.

(b.) *Mobilization Equipment in charge of the unit*.—That which is required to complete the equipment of the battery when raised from a peace to a war establishment.

Method of accounting for stores.

5. The stores will be held on charge in the Battery Equipment Ledger, the peace equipment in the first part, and the mobilization equipment in charge of the unit in the second part.

Rendition of account.

6. The account will be balanced and rendered as laid down in Appendices I and II, Equipment Regulations, Part 1, and not when the mobilization equipment in charge of the unit is handed over to a relieving battery.

Ammunition in mobilization equipment in charge of the unit.

7. The following instructions are to be observed with regard to ammunition in mobilization equipment in charge of the unit, viz.:—

The cartridges will be stored in properly lutened and dated M.L. cases, the tubes, fuzes, and shells grouped according to age and date.

Ammunition should never be taken out of store except on mobilization, or to replenish peace equipment. On no account should ammunition which has been in battery use be returned to mobilization equipment in charge of the unit.

Used articles of harness or saddlery placed in mobilization equipment in charge of the unit to be exchanged.

8. Any articles of harness and saddlery which have been used as peace equipment by batteries on the higher establishment, when taken over by a battery on the lower establishment, should be placed in mobilization equipment in charge of the unit, but they should be exchanged for new at the earliest opportunity. Commanding Officers will ascertain periodically from the Chief Ordnance Officer whether new articles are available, or can be obtained, to meet such exchanges. On receipt of the new stores, they should be placed in mobilization equipment in charge of the unit, and the part-worn articles returned to the Army Ordnance Department for disposal.

Camp equipment

9. Further instructions regarding mobilization equipment are contained in Equipment Regulations, Part 1.

10. To enable batteries to carry out the annual course of military training laid down in the Field Artillery Drill, 1896, the issue of a

complete set of camp equipment for one battery will be made from local ordnance store to each brigade division (or in the case of single battery stations, each station) serving in the district, it being considered undesirable that the articles belonging to the mobilization equipments in charge of units should be used for the purpose.

for annual
course of
instruction
of batteries.

11. The stores required should be demanded under the orders of lieutenant-colonels commanding brigade divisions, who will detail the battery to demand, and arrange the sequence in which the equipment is to be handed over from one battery to another. The equipment when no longer required should be returned to Army Ordnance Department by the last battery using it, on the same vouchers as it was originally drawn.

Lieutenant-
colonels to
order,
demand,
and arrange
sequence,
&c.

12. Local arrangements must be made to ensure that the complete equipment of the battery in every respect is available and correctly packed. Empty cases or dummies will be used on these occasions to represent any articles which are not available in the district.

Completeness and
correctness
of equip-
ment to be
ensured.

13. The general scale of equipment for standing camps and manœuvres should be demanded in accordance with the scale laid down in Equipment Regulations, Part 1.

Camp
equipment.

II.—MARKING OF EQUIPMENT.

14. Camp kettles, portable magazines, and water buckets, belonging to the peace equipment of batteries will be marked in black paint with the letters, "R.F.A." in front, and in rear with the letter of the sub-division and battery number, thus,

Marking
equipment.

$$\frac{\text{"D"}}{4}$$

4046
7102

Drawings to illustrate the method of marking, and the correct position of the marks, will be issued, on demand to chief ordnance officers of districts, who will arrange for necessary promulgation to the batteries, &c., requiring them.

Bags, kit, R.A., and picketing gear will also be similarly marked, but on the end.

54
Arty.
7882

15. Detailed instructions for marking vehicles and equipment will be found in Equipment Regulations, Part 1.

III.—REPAIRS.

16. Battery commanders are responsible that their equipment is at all times in a serviceable condition. The examination and repair of equipment should be carried out by battery artificers so far as may be possible. When special tools or appliances are required, which are not available with the battery, the battery artificers should be sent, together with the material requiring repair, to the nearest army ordnance department workshop at which the necessary facilities exist, in order that they may there carry out or assist in carrying out the repair.

Examination
and repair of
equipment.

Special tools for the repair of field artillery equipment have been issued to the army ordnance workshops at Aldershot, Colchester, Curragh, Devonport, Dover, Haulbowline, Portsmouth, and Tynemouth.

17. Applications for the inspection or repair of equipment which cannot be carried out by battery artificers should be addressed to chief ordnance officers of districts.

IV.—RETURNS.

Returns relating to Artillery Matériel, &c. 18. Army Form G 1085 (return of stores due to batteries from Army Ordnance Department) should be rendered quarterly by batteries, and forwarded to the Principal Ordnance Officer, Woolwich, on the 1st March, 1st June, 1st September, and 1st December in each year. Only stores 3 months in arrear at date of return will be included.

Returns of field ordnance equipped. 19. When any deficiencies are noted by the officer commanding Royal Artillery upon the annual returns of rifled field ordnance equipped, the chief ordnance officer should note on such returns the steps that have been taken to supply the equipments required to complete the batteries.

Ordnance on R.A. charge. 20. Ordnance on Royal Artillery charge will be included in the Annual Return Army Form G 872, rendered on the 1st June by officers commanding Royal Artillery districts in accordance with the King's Regulations.

V.—REGULATIONS FOR THE INSPECTION OF ORDNANCE.

1. General Instructions.

Examination of ordnance by I.O.O. 21. When guns require examination the officer commanding will submit Army Form G 875, with the memorandum of examination, to the chief ordnance officer, who will make arrangements for the examination to be carried out by the inspecting ordnance officer or by the inspector of ordnance machinery. The inspector will make two copies of this form; and on the completion of the examination will enter the sentence on and sign all three. He will pass the original direct to the officer in charge of the gun for transmission to the officer commanding Royal Artillery; the other two copies, with impressions, except in obviously trivial cases, will be forwarded by the chief ordnance officer direct to the chief inspector, Woolwich. The chief inspector, Woolwich, will enter the final sentence, retain one copy, and return the other to the chief ordnance officer, who will retain it after passing to the officer commanding Royal Artillery to note. In the event of the gun being serviceable, the "memorandum of examination" will be returned by the inspector direct to the officer in charge of the gun; if unserviceable he will forward it with the impressions to the chief inspector, Woolwich, who will return it after final sentence through the chief ordnance officer.

At home where there is no I.O.O. 22. In districts at home in which there is no inspecting ordnance officer or inspector of ordnance machinery the chief ordnance officer will forward the requisitions to the chief inspector, Woolwich, who will arrange for the examination to be carried out, and if necessary send an examiner to the station.

Examination of spare parts. 23. All spare parts should be tried for interchangeability as soon as possible after receipt, and a report of the defects, if any, forwarded to the chief inspector, Woolwich.

VI.—TARGETS FOR GUN PRACTICE.**Land Ranges.**

24. Exceptional arrangements exist for manufacture and supply of targets used by batteries at practice over the land ranges mentioned in the table at para. 25 (scales A, B, C, and D); the targets are of the pattern described in paragraph 9478 List of Changes in War Matériel, and together with the dummies and other stores are issued in special proportions (*vide* instructions for supply of stores to the various camps, for batteries of horse or field artillery). Targets for
land ranges.

VII.—GUN AMMUNITION FOR PRACTICE AND EXERCISE.

25. The annual proportions of gun ammunition for practice and exercise are as follows :— Gun
ammunition.

Royal Field Artillery Batteries.

Articles.	Practice.							Annual exercise.	
	Scale A.	Scale B.	Scale C.a	Scale D.		Scale E.	Higher Establishment battery.	Lower Establishment battery.	
	Land range at Okehampton, B.L., 15-pr.	Annual, for batteries at Exeter and Bristol, practicing at Okehampton, B.L., 15-pr.	Annual, for all other stations in Great Britain, and ranges.	Ireland, land range.		Colonial and foreign (6 guns).			
				1st and 2nd year.	3rd year.				
									B.L., 15-pr.
<i>Woolwich Section No. 22.</i>	715	432	198	378	358	283	..	..

Tubes, friction { copper solid drawn, special	..	..	..	..	..	..	440bd	315bd	
<i>Woolwich Section No. 22A.</i>	730	440	210	390	370	295	..	..	
Cartridges, { 15-pr., 15½ oz. cordite, size 5 15-pr. or 12-pr., 1½ lb. blank c filled, B.L.	..	..	..	..	..	..	390d	29d	
Shell, B.L., filled, shrapnel	715	432	198	378	358	283	..	..	
Shot, B.L., case	15	8	12	12	12	12	..	..	

^a In addition to the number of rounds allowed under this scale, the batteries practising at Church Stretton will draw between them an additional 110 rounds of shrapnel shell.
^b For Mark I guns only.
^c For Marks II-IV guns.
^d 90 rounds of shrapnel shell and 90 rounds of blank ammunition are included in the above numbers for each unit for the dismissal of recruits.

26. To ensure a proper "turn over" of ammunition, all ammunition fired at annual practice by batteries will be taken from their service equipment, that in peace equipment being used up first. Turn over of ammunition.

Further instructions regarding the turn over of ammunition are laid down in Equipment Regulations, Part I.

Demands to complete equipment will be put forward prior to departure of battery to practice, so that on return to station the ammunition may be in readiness.

In cases where batteries are to change stations after practice, the new station where the ammunition will be required should be clearly indicated on the demand.

27. Canvas covers for cartridges will be returned to store at the conclusion of practice.

28. Gun ammunition will be demanded on Army Form G 806. Requisitions.
Any of the annual supply which has not been drawn by the end of the year (31st March) for which it is allowed will be forfeited.

29. In demanding fuzes, tubes, primers, and other laboratory stores supplied in sealed cylinders, the numbers given in the details of equipment will be adhered to as closely as possible; but full cylinders should always be demanded. Cylinders containing these articles will on no account be opened, unless their contents are required for immediate use. Supply of fuzes, tubes, and laboratory stores. Cylinders not to be opened till wanted.

30. The hermetically sealed tin cylinders containing fuzes, issued to royal field artillery, will be marked by the battery, by scratching on them with a pointed implement, the date on which they are received. Marking fuze cylinders.

Fuzes which have been in possession of the battery the longest time will be used first, without regard to the age of the fuze.

31. Immediately on the close of artillery practice each day, search will be made on the ranges for unexploded projectiles. Rewards will be paid for the recovery of projectiles in accordance with the Army Ordnance Regulations. Search for projectiles after artillery practice. Recovery of projectiles.

All fuzed shell will be destroyed where found as laid down in Regulations for Magazines, &c.

VIII.—TEXT BOOKS, HAND-BOOKS, AND RANGE TABLES.

Text and
hand books.

52. Text books, hand-books, and range tables are issued in the following proportions, and will be held on charge as laid down in Equipment Regulations, Part 1.

Distribution.	Text Books, sets. <i>a</i>	Hand-books. <i>b</i>	Range Tables.
Lieut.-Colonels commanding brigade divisions	1	2 per nature of field gun in the division.	2 per nature of field gun in the division.
Batteries	—	12 per nature of gun on charge.	12 per nature of gun on charge.
Lecture rooms <i>c</i>	1	1 per nature of ordnance in the district.	1 per nature of ord- nance in the district.
Gunnery Instructors <i>d</i>	1	Ditto.	1 ditto.

a The text books referred to comprise the following works:—"Treatise on Ammunition," "Treatise on Military Carriages," "Treatise on Service Ordnance," "Treatise on Service Explosives."

b The following are the hand-books referred to:—
Hand-book for nature of gun in use.
" " Telescopic Sights.
" " of the Micrometer.

c For use of the Gunnery Instructor, but not to exceed one set per district except in special cases.

d At stations where there are no lecture rooms. At stations where a lecture room for R.A. exists books will not be issued to the Gunnery Instructor, those in the lecture room being available.

IX.—NECK COLLARS.

33. When neck collars are stored in mobilization equipment in charge of the unit, the sizes of the same should be in the following proportions:—

Unit.	No. of collars.		Percentage of sizes allowed per unit.						No. of each size allowed per unit.						Total per unit.		
	To be held in mobilization equipment in charge of the unit to bring the unit up to normal war scale.	To be issued in addition to normal war scale when specially ordered.	21 inch.	21½ inch.	22 inch.	22½ inch.	23 inch.	23½ inch.	24 inch.	21 inch.	21½ inch.	22 inch.	22½ inch.	23 inch.		23½ inch.	24 inch.
Brigade Division Staff R.F.A.	8	..	..	..	..	..	..	..	..	..	2	3	2	1	..	..	8

Sizes of neck collars.

Sizes of neck collars.

X.—HORSE SHOES.Scale of
horse shoes.

34. On active service, all horses requiring shoes will be shod with machine-made shoes, which will be supplied according to the following scale, unless otherwise demanded :—

Royal Artillery.

Description.		No. per Cent.
		R.F.A. Batteries.
Shoes, horse, pairs	No. 4 { fore	5
	{ hind	5
	No. 5 { fore	18
	{ hind, without calkins ..	12
	{ hind, with calkins ..	6
	No. 6 { fore	30
	{ hind, without calkins ..	9
	{ hind, with calkins ..	21
	No. 7 { fore	24
	{ hind, without calkins ..	—
	{ hind, with calkins ..	24
	No. 8 { fore	7
	{ hind, with calkins ..	7
	No. 9 { fore	8
	{ hind, with calkins ..	8
	No. 10 { fore	8
	{ hind, with calkins ..	8

60 nails per set of shoes will be issued. Every horse will carry a fore and hind shoe, and sufficient nails in the shoe cases ; the other hind and fore shoe, as well as nails will be carried regimentally.

XI.—SUPPLY OF STORES FOR THE REPAIR AND PRESERVATION OF EQUIPMENT.**Harness and Saddlery.**Staff of R.A.
District.

35. The repair of saddlery and harness allowed for the staffs of Brigade Divisions and Royal Artillery districts will be effected by the artificers of the nearest battery when practicable.

Any materials for repair that may be required by Brigade Division Staffs, on service, will be available from the equipments of Batteries of the Brigade Division.

Ordnance, Carriages, Projectiles, &c.Reference to
the detailed
instruction.

36. Detailed instructions for the preservation and inspection of ordnance, &c., are given in the "Regulations for Magazines and Care and Preservation of War Matériel" for the guidance of officers of artillery in carrying out the services therein referred to and of army ordnance officers in supplying such materials and stores as may be from time to time required for performing the same.

37. The following proportions of lubricants will be allowed annually for wheels and for preservation of straps and leather work for travelling carriages :—

Dubbing,—Batteries		{ without wagons, 1 lb. per gun				} for straps and leatherwork.
		{ with „ 1½ lb. „				
Grease, Field's, <i>a</i>	{	3 lbs. per wheel				} On certificate of commanding officer that they are in constant use.
		½ lb. „				
					{	When not in constant use.

38. As tin closing bands and bottoms of fuze cylinders are liable to become detached through jolting in the limbers, thus causing deterioration of the fuzes, a set of tinman's tools is supplied to each battery, and loose bands and bottoms should be refastened as soon as any such defect becomes apparent.

39. Friction tubes, other than Mark I, will as soon as possible, and not later than 24 hours after firing, be immersed in ordinary mineral oil for 24 hours and, after removal, be allowed to drain. They will then be returned to the chief ordnance officer for transmission to Woolwich to be cleaned and refilled. Half a gallon of oil is required to cover 100 tubes, and about $\frac{1}{10}$ pint per 100 tubes will be used up in the treatment.

a Black grease will be used at all stations abroad, except British North America and St. Lucia.

XII.—STORES FOR DESTRUCTION OF SHELLS.

40. A set of stores for the destruction of shells, as also such quantity of guncotton and detonators as are considered necessary, will be allowed to all land ranges, and will be demanded in the undermentioned proportions and accounted for by the officer commanding Royal Artillery in camp :—

MATERIALS REQUIRED FOR EACH CHARGE.

<i>Woolwich Section No. 2.</i>					No.
Bags, sand, common					4

<i>Woolwich Section No. 21.</i>					
Guncotton	{	dry primers, H—1'25-in. × 1'25-in.		1	
	{	wet slabs, T 6 $\frac{1}{8}$ -in. × 6 $\frac{1}{8}$ -in. × 1 $\frac{1}{8}$ -in.		4

<i>Woolwich Section No. 7.</i>		
Cloth , emery, fine sheets	2	Cleaning ends of wire.
Pliers , side-cutting, 7-inch .. pairs	1	
<i>Woolwich Section No. 18.</i>		
Twine , choking, 3-thread .. lbs.	1	Securing charge.
<i>Woolwich Section No. 28.</i>		
Exploders , dynamo-electric, quantity	1	} Repairing defective wire.
Knives , paring, telegraph jointers ..	2	
Solution , india-rubber .. $\frac{1}{2}$ -lb. tins	1	
Tape , india-rubber, pure $\frac{1}{4}$ -lb. ,,	2	
<i>Woolwich Section No. 29.</i>		
Wire , covered, C 8 yards	2,000	Old telegraph cable unfit for general issue would do if available.

XIII.—SIGNALLING STORES.

41. Two signalling screens, complete with lashings, bracing lines and poles, are allowed to each battery practising over land ranges under Scale B, page 8. Proportion
of screens,
&c.

42. One "Screen, Manœuvre," will be supplied, on demand, to each battery. This screen will be held on charge, and accounted for as part of the battery equipment.

43. The following will be issued to the undermentioned stations for use of batteries, to be planted in the ground when a battery is in action to denote by the colour of the flag used what it is firing at (*see* "Infantry Drill") :—

Flags, musketry	{ red and white	 1	} per battery.
instruction,	{ white	 1	
	{ poles	 2	

Stations.

Woolwich.	Strensall.

to yards or corps, spare.

In time of peace, a battery ordered abroad will return its mekometer to store, and will demand a new equipment, except its destination be India, in which case it will receive its new equipment on arrival. The exchange of equipment will be optional in time of war, at the discretion of the officer commanding the battery. For further instructions, see the Mekometer Handbook Regulations for "Magazines", and Care and Preservation of War Material.

A 2

I. EQUIPMENT OF BRIGADE DIVISION STAFFS AND BATTERIES.

Details for batteries, etc.

1. Details of the equipments of brigade division staffs and batteries for Field Service and for use in peace will be found on pages 26 to 63.

Batteries to be in possession of complete war equipment.

2. The equipment for Brigade division staffs will be drawn by one of the batteries in each brigade division.

Explanation of the terms, "Peace equipment" and "Mobilization equipment in charge of the unit."

3. Batteries are at all times to have in possession their complete war equipment, on the scale laid down in "war establishments."

4. The equipment of a battery is divided under two headings :—

(a.) *Peace Equipment.*—That which is required by the battery for use in peace, according to its peace establishment of men and horses.

(b.) *Mobilization Equipment in charge of the unit.*—That which is required to complete the equipment of the battery when raised from a peace to a war establishment.

Method of accounting for stores.

5. The stores will be held on charge in the Battery Equipment Ledger, the peace equipment in the first part, and the mobilization equipment in charge of the unit in the second part.

Rendition of account.

6. The account will be balanced and rendered as laid down in Appendices I and II, Equipment Regulations, Part I, and not when the mobilization equipment in charge of the unit is handed over to a relieving battery.

Ammunition in mobilization equipment in charge of the unit.

* 7. The following instructions are to be observed with regard to ammunition in mobilization equipment in charge of the unit, viz. :—

The cartridges will be stored in special cases, the fuzes and shells grouped according to age and date.

Ammunition should never be taken out of store except on mobilization, or to replenish peace equipment. On no account should ammunition which has been in battery use be returned to mobilization equipment in charge of the unit.

Used articles of harness or saddlery placed in mobilization equipment in charge of the unit to be exchanged.

8. Any articles of harness and saddlery which have been used as peace equipment by batteries on the higher establishment, when taken over by a battery on the lower establishment, should be placed in mobilization equipment in charge of the unit, but they should be exchanged for new at the earliest opportunity. Commanding Officers will ascertain periodically from the Chief Ordnance Officer whether new articles are available, or can be obtained, to meet such exchanges. On receipt of the new stores, they should be placed in mobilization equipment in charge of the unit, and the part worn articles returned to the Army Ordnance Department for disposal.

9. Further instructions regarding mobilization equipment are contained in Equipment Regulations, Part I.

Camp equipment for annual course of instruction of batteries.

10. To enable batteries to carry out the annual course of military training laid down in the Field Artillery Drill, 1896, the issue of a complete set of camp equipment for one battery will be made from local ordnance store to each brigade division (or in the case of single battery stations, each station) serving in the district, it being con-

sidered undesirable that the articles belonging to the mobilization equipments in charge of units should be used for the purpose.

11. The stores required should be demanded under the orders of lieutenant-colonels commanding brigade divisions, who will detail the battery to demand, and arrange the sequence in which the equipment is to be handed over from one battery to another. The equipment when no longer required should be returned to Army Ordnance Department by the last battery using it, on the same vouchers as it was originally drawn. Lieutenant-colonels to order, demand, and arrange sequence, &c.

12. Local arrangements must be made to ensure that the complete equipment of the battery in every respect is available, and correctly packed. Empty cases or dummies will be used on these occasions to represent any articles which are not available in the district. Completeness and correctness of equipment to be ensured.

13. The general scale of equipment for standing camps and manœuvres should be demanded in accordance with the scale laid down in Equipment Regulations, Part I. Camp equipment.

II.—MARKING OF EQUIPMENT.

14. Camp kettles and water-buckets belonging to the peace equipment of batteries will be marked in black paint with the letters "R.F.A." in front, and in rear with the letter of the subdivision and battery number, thus, Marking equipment.

" D "

10

Drawings to illustrate the method of marking, and the correct position of the marks, will be issued, on demand to chief ordnance officers of districts, who will arrange for necessary promulgation to the batteries, &c., requiring them.

Bags, kit, R.A., and picketing gear will also be similarly marked, but on the end.

15. Detailed instructions for marking vehicles and equipment will be found in Equipment Regulations, Part I.

III.—REPAIRS.

16. Battery commanders are responsible that their equipment is at all times in a serviceable condition. The examination and repair of equipment should be carried out by battery artificers so far as may be possible. When special tools or appliances are required, which are not available with the battery, the battery artificers should be sent, together with the material requiring repair, to the nearest army ordnance department workshop at which the necessary facilities exist, in order that they may there carry out or assist in carrying out the repair. Any implements, &c., of this equipment required in carrying out a repair should accompany the battery artificers. Examination and repair of equipment.

Special tools for the repair of field artillery equipment have been issued to the army ordnance workshops at Aldershot, Colchester, Curragh, Devonport, Dover, Haulbowline, Portsmouth, and Tynemouth.

17. Applications for the inspection or repair of equipment which cannot be carried out by battery artificers should be addressed to chief ordnance officers of districts.

IV.—RETURNS.Returns
relating to
Artillery
Matériel, &c.

18. A.F. G 1085 (return of stores due to batteries from Army Ordnance Department) should be rendered quarterly by batteries, and forwarded to the Principal Ordnance Officer, Woolwich, on the 1st March, 1st June, 1st September, and 1st December in each year. Only stores 3 months in arrear at date of return will be included.

Returns of
field
ordnance
equipped.

19. When any deficiencies are noted by the officer commanding Royal Artillery upon the annual returns of rifled field ordnance equipped, the chief ordnance officer should note on such returns the steps that have been taken to supply the equipments required to complete the batteries.

Ordnance
on R.A.
charge.

20. Ordnance on Royal Artillery charge will be included in the Annual Return A.F. G 872, rendered on the 1st June by officers commanding Royal Artillery districts in accordance with the King's Regulations.

V.—REGULATIONS FOR THE INSPECTION OF ORDNANCE.**1. General Instructions.**Examina-
tion of
ordnance by
I.O.O.

21. When guns require examination the officer commanding will submit A.F. G 875, with the memorandum of examination, to the chief ordnance officer, who will make arrangements for the examination to be carried out by the inspecting ordnance officer or by the inspector of ordnance machinery. The inspector will make two copies of this form; and on the completion of the examination will enter the sentence on and sign all three. He will pass the original direct to the officer in charge of the gun for transmission to the officer commanding Royal Artillery: the other two copies, with impressions, except in obviously trivial cases, will be forwarded by the chief ordnance officer direct to the chief inspector, Woolwich. The chief inspector, Woolwich, will enter the final sentence, retain one copy, and return the other to the chief ordnance officer, who will retain it after passing to the officer commanding Royal Artillery to note. In the event of the gun being serviceable, the "memorandum of examination" will be returned by the inspector direct to the officer in charge of the gun; if unserviceable he will forward it with the impressions to the chief inspector, Woolwich, who will return it after final sentence through the chief ordnance officer.

At home
where there
is no I.O.O.

22. In districts at home in which there is no inspecting ordnance officer or inspector of ordnance machinery the chief ordnance officer will forward the requisitions to the chief inspector, Woolwich, who will arrange for the examination to be carried out, and if necessary send an examiner to the station.

Examina-
tion of spare
parts.

23. All spare parts should be tried for interchangeability as soon as possible after receipt, and a report of the defects, if any, forwarded to the chief inspector, Woolwich.

VI.—TARGETS FOR GUN PRACTICE.**Land Ranges.**Targets for
land ranges.

24. Exceptional arrangements exist for manufacture and supply of targets used by batteries at practice over the land ranges

mentioned in the table at para. 25 (scales A, B, C, and D); the targets are of the pattern described in paragraph 9478 List of Changes in War Matériel, and together with the dummies and other stores are issued in special proportions (*vide* instructions for supply of stores to the various camps, for batteries of horse or field artillery).

VII.—GUN AMMUNITION FOR PRACTICE AND EXERCISE.

25. The annual proportion of gun ammunition for practice and exercise are as follows :—

Gun
ammunition

Royal Field Artillery Batteries.

Articles.	Practice.						Annual exercise.	
	Scale A.	Scale B.	Scale C.	Scale D.		Scale E.		
	Land range at Okehampton, Q.F., 15-pr.	Annual, for batteries at Exeter and Bristol, practising at Okehampton, Q.F., 15-pr.	Annual, for all other stations in Great Britain and land ranges.	Ireland, land range.	1st and 2nd year.	3rd year.	Colonial and foreign (6 guns).	Higher establishment battery.
			Q.F., 15-pr.	Q.F., 15-pr.	Q.F., 15-pr.	Q.F., 15-pr.	Q.F., 15-pr.	Lower establishment battery.
<i>Woolwich Section No. 22.</i>								
Fuzes, time and percussion, No. 58..	..	715	432	198	378	358	283	..
<i>Woolwich Section No. 22A.</i>								
Cartridges, Q.F., 15-pr. { filled .. blank ..		780 ..	440 ..	210 ..	390 ..	370 ..	295 ..	.. 390
Shell, Q.F., filled, shrapnel, 15-pr.	..	715	432	198	378	358	283	..
Shot, Q.F., case a ..	..	15	8	12	12	12	12	..

^a When pattern is settled.

N.B. —90 rounds of shrapnel shell and 90 rounds of blank ammunition are included in the above numbers for each unit for the dismissal of recruits.

26. To ensure a proper "turn over" of ammunition, all ammunition fired at annual practice by batteries will be taken from their service equipment, that in peace equipment being used up first.

Turnover of ammunition.

Further instructions regarding the turnover of ammunition are laid down in Equipment Regulations, Part I.

Demands to complete equipment will be put forward prior to departure of battery to practice, so that on return to station the ammunition may be in readiness.

In cases where batteries are to change stations after practice, the new station where the ammunition will be required should be clearly indicated on the demand.

27. Empty cartridge cases will be returned to store at the conclusion of practice.

28. Gun ammunition will be demanded on A.F. G 806. Any of the annual supply which has not been drawn by the end of the year (31st March) for which it is allowed will be forfeited.

Requisitions.

29. In demanding fuzes and other laboratory stores supplied in sealed cylinders, the numbers given in the details of equipment will be adhered to as closely as possible; but full cylinders should always be demanded. Cylinders containing these articles will on no account be opened, unless their contents are required for immediate use.

Supply of fuzes and laboratory stores.

Cylinders not to be opened till wanted.

30. The hermetically sealed tin cylinders containing fuzes, issued to royal field artillery, will be marked by the battery, by scratching on them with a pointed implement the date on which they are received.

Marking fuze cylinders.

Fuzes which have been in possession of the battery the longest time will be used first, without regard to the age of the fuze.

31. Immediately on the close of artillery practice each day, search will be made on the ranges for unexploded projectiles. Rewards will be paid for the recovery of projectiles in accordance with the Army Ordnance Regulations.

Search for projectiles after artillery practice. Recovery of projectiles.

All fuzed shell will be destroyed where found, as laid down in Regulations for Magazines, etc. (See also para. 39.)

VIII.—TEXT BOOKS, HAND BOOKS, AND RANGE TABLES.Text and
hand books.

32. Text books, hand books, and range tables are issued in the following proportions, and will be held on charge as laid down in Equipment Regulations, Part I.

Distribution.	Text Books, sets <i>a</i>	Handbooks. <i>b</i>	Range Tables.
Lieut.-Colonels commanding brigade divisions.	1	2 per nature of field gun in the division.	2 per nature of field gun in the division.
Batteries	—	12 per nature of gun on charge.	12 per nature of gun on charge.
Lecture rooms <i>c</i>	1	1 per nature of ordnance in the district.	1 per nature of ordnance in the district.
Gunnery Instructors <i>d</i>	1	Ditto	Ditto.

a The text books referred to comprise the following works:—"Treatise on Ammunition," "Treatise on Military Carriages," "Treatise on Service Ordnance," "Treatise on Service Explosives."

b The following are the handbooks referred to—
Handbook for nature of gun in use.
" of the Mekometer.

c For use of the Gunnery Instructor, but not to exceed one set per district except in special cases.

d At stations where there are no lecture rooms. At stations where a lecture room for R.A. exists, books will not be issued to the Gunnery Instructor, those in the lecture room being available.

IX.—NECK COLLARS.

33. When neck collars are stored in mobilization equipment in charge of the unit, the sizes of the same should be in the following proportions:—

Unit.	No. of collars.		Percentage of sizes allowed per unit.							No. of each size allowed per unit.							Total per unit.
	To be held in mobilization equipment in charge of the unit to bring the unit up to normal war scale.	To be issued in addition to normal war scale when specially ordered.	21 inch.	21½ inch.	22 inch.	22½ inch.	23 inch.	23½ inch.	24 inch.	21 inch.	21½ inch.	22 inch.	22½ inch.	23 inch.	23½ inch.	24 inch.	
Brigade Division Staff	8	..	..	..	..	..	..	..	..	..	2	3	2	1	..	..	8
R.F.A. ..	{ 40	..	4	17	24	24	23	6	2	{ 1	7	10	10	9	2	1	40
R.F.A. battery on higher peace establishment ..	{ ..	6	..	..	..	..	..	..	..	{ ..	1	1	2	2	..	..	6
R.F.A. battery on lower peace establishment ..	{ 60	6	4	17	24	24	23	6	2	{ 2	10	14	14	14	4	2	60
	{ ..	..	..	..	..	..	..	..	..	{ ..	1	1	2	2	..	..	6

Sizes of neck collars.

X.—HORSE SHOES.Scale of
horse-shoes.

34. On active service, all horses requiring shoes will be shod with machine-made shoes, which will be supplied according to the following scale, unless otherwise demanded :—

Royal Artillery.

Description.		No. per Cent.
		R.F.A. Batteries.
Shoes, horse, pairs	No. 4 { fore	5
	{ hind	5
	No. 5 { fore	18
	{ hind, without calkins	12
	{ hind, with calkins	6
	No. 6 { fore	30
	{ hind, without calkins	9
	{ hind, with calkins	21
	No. 7 { fore	24
	{ hind, with calkins	24
	No. 8 { fore	7
	{ hind, with calkins	7
	No. 9 { fore	8
	{ hind, with calkins	8
	No. 10 { fore	8
	{ hind, with calkins	8

60 nails per set of shoes will be issued. Every horse will carry a fore and hind shoe, and sufficient nails in the shoe cases ; the other hind and fore shoe, as well as nails, will be carried regimentally.

XI.—SUPPLY OF STORES FOR THE REPAIR AND PRESERVATION OF EQUIPMENT.**Harness and Saddlery.**Staff of R.A.
District.

35. The repair of saddlery allowed for the staff of Royal Artillery districts will be effected by the artificers of the nearest battery when practicable.

Ordnance, Carriages, Projectiles, &c.Reference to
the detailed
instructions.

36. Detailed instructions for the preservation and inspection of ordnance, &c., are given in the "Regulations for Magazines and the Preservation of Artillery Matériel" for the guidance of officers of artillery in carrying out the services therein referred to and of army ordnance officers in supplying such materials and stores as may be from time to time required for performing the same.

Lubricants
for wheels,
&c.

37. The following proportions of lubricants will be allowed annually for wheels and for preservation of straps and leatherwork for travelling carriages :—

Dubbing	{ batteries }	without wagons,	1 lb. per gun	{ for straps and	
	"	with	" 1½ lb. "	leatherwork.	
				{ On certificate of commanding officer that they are in constant use.	
Grease, Field's, <i>a</i>	{	3 lbs. per wheel			{ When not in constant use.
		½ lb. "			

38. As tin closing bands and bottoms of fuze cylinders are liable to become detached through jolting in the limbers, thus causing deterioration of the fuzes, a set of tinman's tools is supplied to each battery, and loose bands and bottoms should be refastened as soon as any such defect becomes apparent.

a Black grease will be used at all stations abroad, except British North America and St. Lucia.

XII.—STORES FOR DESTRUCTION OF SHELLS.

39. A set of stores for the destruction of shells, as also such quantity of guncotton and detonators as are considered necessary, will be allowed to all land ranges, and will be demanded in the undermentioned proportions and accounted for by the officer commanding Royal Artillery in camp :—

MATERIALS REQUIRED FOR EACH CHARGE.*Woolwich Section No. 2.*

	No.
Bags, sand, common	4

Woolwich Section No. 21.

Guncotton { dry primers, H—1'25-in. × 1'25-in.	1
{ wet slabs, T 6½-in. × 6½-in. × 1½-in.	4

Woolwich Section No. 22.

Detonators, electric, No. 13	1

XIII.—SIGNALLING STORES.

40. Two signalling screens, complete with lashings, bracing lines and poles, are allowed to each battery practising over land ranges under Scale B, page 8. Proportion
of screens,
&c.

41. One "Screen, Manceuvre," will be supplied, on demand, to each battery. This screen will be held on charge, and accounted for as part of the battery equipment:

42. The following will be issued to the undermentioned stations for use of batteries, to be planted in the ground when a battery is in action to denote by the colour of the flag used what it is firing at (*see* "Infantry Drill") :—

Flags, musketry instruction,	{ red and white		1	} per battery.
	{ white		1	
	{ poles....		2	

Stations.

Woolwich.
Aldershot.

1 per horse.
1 per set of saddle and harness.

a 1 bag contains the remaining picketing gear, not carried on horses, and the footboards of vehicles.

b These are for protection of saddlery and harness in camp.

c Carried in baggage wagon, or distributed amongst the other vehicles of the battery at the discretion of the officer commanding.

d Includes 1 for private horse carried in store wagon. *e* Includes 19 carried in store wagon. *f* Only issued when specially ordered.

e These are for drill purposes. They will be carried as convenient. On mobilization they will be returned to store.

f Carried on the horse (riding and draught) The "spare" should be carried, 1 on each vehicle on footboards, and the remainder (5) in store wagon.

g These are carried as under:—
36 for riding and spare draught horses on the horse.
94 for draught horses on the footboards of limbers and wagons.
7 spare and 1 for private horse in store wagon.
For sick horses.

a Carried in locker under rear of A. and S. wagon for "Baggage."
before the mobilized unit leaves for place of concentration.
d When a battery is placed on the War Establishment, the smiths' and wheelers' tools are carried in special chests forming part of the forge wagon, and the ordinary chests returned to store. These tools will then be taken on charge as "Tools, sets, No. 10...." and "Tools, sets, No. 38.....," respectively. Four sponge cloths and a book for military artificers are carried with the wheelers' and with the smiths' tools.
e The tinman's tools consist of—1 groover; 1 iron, soldering; 1 mallet, tinman's; 1 pair shears, tinman's; a small allowance of solder; and these, together with 4 sponge cloths, will be carried on active service in a drawer of the forge wagon with the smith's tools.
f Issued with "Chest, tool, filled, No. 7."
g On mobilization, this chest will be emptied and returned to store.
h One set for each farrier and shoeing smith, including the set issued with chest, tool, filled, No. 7, and also the set issued for instructional purposes. The latter set will be returned to store on mobilization.
i Belongs to forge wagon, but in peace is held on peace equipment charge, and is carried as convenient.
j Service tools are issued the special tools will be returned to store.
k See foot-note, page 16. When
m To replace special tools as they become unserviceable.

I.—EQUIPMENT OF STAFF AND DEPÔT BATTERIES AND RIDING ESTABLISHMENT.Details for
units, &c.

1. Details of the equipments of staff and depôt batteries and the riding establishment will be found on pages 16 to 42.

Method of
accounting
for stores.

2. The stores will be held on charge in the Equipment Ledger, and the account will be balanced and rendered as laid down in Appendix I, Equipment Regulations, Part I.

II.—MARKING OF EQUIPMENT.Marking
equipment.

3. Camp kettles, portable magazines, and water-buckets will be marked in black paint with the letters, "R.H.A.," or "R.F.A." (as the case may be), in front, and in rear with the letter of the sub-division and depôt letter or number, thus,

"A"	"D"
A Dep.	3 Dep.

Drawings to illustrate the method of marking, and the correct position of the marks, will be issued, on demand to chief ordnance officers of districts, who will arrange for necessary promulgation to units, &c., requiring them.

54

Arty.
7882

Bags, kit, R.A., and picketing gear will also be similarly marked, but on the end.

4. Detailed instructions for marking vehicles and equipment will be found in Equipment Regulations, Part I.

III.—REPAIRS.Examination
and repair of
equipment.

5. Battery commanders are responsible that their equipment is at all times in a serviceable condition. The examination and repair of equipment should be carried out by battery artificers so far as may be possible. When special tools or appliances are required, which are not available with the battery, the battery artificers should be sent, together with the material requiring repair, to the nearest army ordnance department workshop at which the necessary facilities exist, in order that they may there carry out or assist in carrying out the repair.

Special tools for the repair of field artillery equipment have been issued to the army ordnance workshops at Aldershot, Colchester, Curragh, Devonport, Dover, Haulbowline, Portsmouth, and Tyne-mouth.

6. Applications for the inspection or repair of equipment which cannot be carried out by battery artificers should be addressed to chief ordnance officers of districts.

IV.—RETURNS.Returns
relating to
Artillery
M^aériel, &c.

7. Army Form G 1085 (return of stores due from Army Ordnance Department) should be rendered quarterly by units, and forwarded to the Principal Ordnance Officer, Woolwich, on the 1st March, 1st June, 1st September, and 1st December in each year. Only stores 3 months in arrear at date of return will be included.

8. When any deficiencies are noted by the officer commanding Royal Artillery upon the annual returns of rifled field ordnance equipped, the chief ordnance officer should note on such returns the steps that have been taken to supply the equipments required to complete the units. Returns of field ordnance equipped.

9. Ordnance on Royal Artillery charge will be included in the Annual Return Army Form G 872, rendered on the 1st June by officers commanding Royal Artillery districts in accordance with the King's Regulations. Ordnance on R.A. charge.

V.—REGULATIONS FOR THE INSPECTION OF ORDNANCE.

1. General Instructions

10. When guns require examination the officer commanding will submit Army Form G 875, with the memorandum of examination, to the chief ordnance officer, who will make arrangements for the examination to be carried out by the inspecting ordnance officer or by the inspector of ordnance machinery. The inspector will make two copies of this form; and on the completion of the examination will enter the sentence on and sign all three. He will pass the original direct to the officer in charge of the gun for transmission to the officer commanding Royal Artillery; the other two copies, with impressions, except in obviously trivial cases, will be forwarded by the chief ordnance officer direct to the chief inspector, Woolwich. The chief inspector, Woolwich, will enter the final sentence, retain one copy, and return the other to the chief ordnance officer, who will retain it after passing to the officer commanding Royal Artillery to note. In the event of the gun being serviceable, the "memorandum of examination" will be returned by the inspector direct to the officer in charge of the gun; if unserviceable he will forward it with the impressions to the chief inspector, Woolwich, who will return it after final sentence through the chief ordnance officer. Examination of ordnance by I.O.O.

11. In districts at home in which there is no inspecting ordnance officer or inspector of ordnance machinery the chief ordnance officer will forward the requisitions to the chief inspector, Woolwich, who will arrange for the examination to be carried out, and if necessary send an examiner to the station. At home where there is no I.O.O.

12. All spare parts should be tried for interchangeability as soon as possible after receipt, and a report of the defects, if any, forwarded to the chief inspector, Woolwich. Examination of spare parts.

VI.—TEXT BOOKS, HAND BOOKS, AND RANGE TABLES.Text and
hand books.

13. Texts book, hand books, and range tables are issued in the following proportions, and will be held on charge as laid down in Equipment Regulations, Part I.

Distribution.	Text Books, sets <i>a</i>	Handbooks. <i>b</i>	Range Tables.
R.H.A. { Lieut.-Colonels commanding depôts and { R.F.A. { Batteries ..	1 —	2 per nature of field gun in the depôt. 12 per nature of gun on charge.	2 per nature of field gun in the depôt. 12 per nature of gun on charge.

VII.—SUPPLY OF STORES FOR THE REPAIR AND PRESERVATION OF EQUIPMENT.**Harness and Saddlery.**Staff of R.A.
District.

14. The repair of saddlery allowed for the staff of Royal Artillery districts will be effected by the artificers of the nearest battery when practicable.

Ordnance, Carriages, Projectiles, &c.Reference to
the detailed
instructions.

15. Detailed instructions for the preservation and inspection of ordnance, &c., are given in the "Regulations for Magazines and the Care and Preservation of War Matériel" for the guidance of officers of artillery in carrying out the services therein referred to and of army ordnance officers in supplying such materials and stores as may be from time to time required for performing the same.

a The text books referred to comprise the following works:—"Treatise on Ammunition," "Treatise on Military Carriages," "Treatise on Service Ordnance," "Treatise on Service Explosives."

b The following are the handbooks referred to:—

Handbook for nature of gun in use.

„ „ Telescopic Sights.

„ „ of the Mekometer.
